INDEPENDENT AUDITORS' REPORT

To the Employee Benefits Committee
Ameron Pension Plan

We were engaged to audit the accompanying statements of net assets available for benefits of the Ameron Pension Plan (the "Plan") as of November 30, 2011 and 2010 and the related statements of changes in net assets available for benefits for the years then ended and the supplemental schedules of: (1) Schedule H, line 4i-Schedule of Assets (Held at End of Year) and (2) Schedule H, line 4j-Schedule of Reportable Transactions as of or for the year ended November 30, 2011. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by The Northern Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of November 30, 2011 and 2010 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The supplemental schedules are presented for the purposes of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

2010 SCHEDULE SB, PART V – SUMMARY OF PLAN PROVISIONS

SALARIED EMPLOYEE BENEFIT PROVISIONS AS OF DECEMBER 1, 2010

1. Effective Date

The Salaried Employees Pension Plan was established December 1, 1966. The Salaried Plan was restated in its entirety effective December 1, 1978 and substantially revised retroactive to December 1, 1989 on April 1, 1991. On December 1, 1993 the Salaried Plan was merged with the Hourly Plan to form the Ameron Pension Plan.

2. Eligibility for Participation

All employees participating on December 1, 1976 continue to participate in the Plan. After that date, employees become eligible at date of employment.

3. Credited Service

Credited Service is based on the elapsed time between date of hire and date of termination or retirement. Fractional years are rounded to the next highest 1/12 of a year. Credited service excludes periods when the employee is employed but not on the salaried payroll.

4. Vesting Year of Service

A Vesting Year of Service is calculated using continuous service after date of hire (including fractional years).

5. Earnings

Earnings consist of basic salary, excluding overtime pay, severance pay, bonuses, commissions or any other forms of additional compensation.

6. Final Average Monthly Earnings

This is the average of the highest 60 consecutive months out of the last 120 months of employment prior to the benefit determination date.

7. Primary Social Security Benefit

This is the monthly amount of primary old age insurance benefit available to the participant at age 65 under Title II of the Social Security Act in effect on the date of termination. This calculation assumes that the participant's wages would continue at their current level to age 65.

8. Covered Compensation at Age 65

This is the monthly average of the Social Security Taxable Wage Base for the 35 years preceding age 65. If the benefit is being calculated before age 65, then covered compensation is calculated assuming the taxable wage base remains constant between the date of determination and age 65.

9. Normal Retirement Date

Normal retirement date is the first day of the month coinciding with or next following the participant's 65th birthday or five years from the date of hire if hired after age 60.

EIN/PN: 76-0488987/004

2010 SCHEDULE SB, PART V – SUMMARY OF PLAN PROVISIONS (continued)

SALARIED EMPLOYEE BENEFIT PROVISIONS AS OF DECEMBER 1, 2010 (continued)

10. Normal (or Late) Retirement Benefit

The offset formula is the difference of (a) and (b) all multiplied by (c), where:

- (a) = 75% of the first \$1,000 Final Monthly Average Earnings plus 60% of the Final Monthly Average Earnings in excess of \$1,000
- (b) = 66-2/3% of the Primary Social Security Benefit
- (c) = A fraction, the numerator of which is the employee's years of Credited Service up to a maximum of 30, and the denominator of which is 30

The step-rate formula is the sum of (a) and (b) all multiplied by (c), where:

- (a) = 1.35% of Final Monthly Average Earnings up to Monthly Covered Compensation at age 65
- (b) = 1.95% of Final Monthly Average Earnings in excess of Monthly Covered Compensation at age 65
- (c) = The employee's years of Credited Service up to a maximum of 30

Prior to December 1, 1989, the normal retirement benefit was determined using the offset formula. After that date, the step-rate formula applies retroactive for all service, and the normal retirement benefit cannot be less than the offset benefit based on service through December 1, 1989, plus the step rate based on service after that date. Finally, the normal retirement benefit for non-super highly compensated individuals cannot be less than the amount resulting from the offset formula using any service earned through April 1, 1991.

11. Early Retirement

(a) Eligibility

Attainment of age 55 and completion of 10 or more Vesting Years of Service.

(b) Benefit

The monthly benefit determined by applying the normal retirement benefit formula and using Credited Service, Final Monthly Average Earnings and Primary Social Security Benefits, as of the early retirement date. The Social Security Benefit is multiplied by a fraction, the numerator of which is the participant's years of Credited Service at date of early retirement and the denominator of which is the participant's projected service to age 65. The monthly benefit is reduced 5/9% for each full month up to 60 by which the early retirement date precedes the normal retirement date and 5/18% for each full month in excess of 60 by which the early retirement date precedes normal retirement date.

2010 SCHEDULE SB, PART V – SUMMARY OF PLAN PROVISIONS (continued)

SALARIED EMPLOYEE BENEFIT PROVISIONS AS OF DECEMBER 1, 2010 (continued)

12. Termination Benefit

(a) Eligibility

Five Vesting Years of Service.

(b) Benefit

The monthly benefit determined by applying the normal retirement benefit formula and Credited Service, Final Monthly Average Earnings and Primary Social Security Benefit as of the termination date. The benefit may commence as early as age 55 with a reduction as described for early retirement benefits. The Social Security Benefit is multiplied by a fraction, the numerator of which is the participant's years of Credited Service at the date of early retirement and the denominator of which is the participant's projected service to age 65.

13. Death Benefit

(a) Before Retirement

Active vested participants and terminated vested participants are eligible for a survivor annuity in the form of a 50% joint and survivor annuity. The participant must have been married to his/her spouse for at least one year before his/her death for the coverage to be effective. Monthly payments will begin the first day of the month following the date the participant would have been eligible for early retirement and will continue for the spouse's life. A participant will not be charged for this coverage while employed by the Company. A terminated vested participant is charged for this coverage in the form of a reduction of his accrued benefits.

(b) After Retirement

As provided by any optional retirement benefit.

(c) Early Retirement

Guarantee of prior vested present value, including interest, reduced by any benefit payment paid to the participant or eligible spouse, will be paid to the participant's beneficiary upon the participant's death.

14. Disability Benefit

(a) Eligibility

Five or more Vesting Years of Service and attainment of age 50.

(b) Benefits

If a participant becomes and remains totally disabled until normal retirement date, he/she will receive a normal retirement benefit calculated using Final Average Earnings as of the date of disability, Primary Social Security Benefit calculated at the date OASDHI payments commence and Credited Service to the Normal Retirement Date.

EIN/PN: 76-0488987/004

2010 SCHEDULE SB, PART V – SUMMARY OF PLAN PROVISIONS (continued)

SALARIED EMPLOYEE BENEFIT PROVISIONS AS OF DECEMBER 1, 2010 (continued)

15. Prior Plan Benefit
Benefits derived from the profit sharing plan, which preceded the Retirement Plan, may be cashed out. The rates used in determining these cashouts are more favorable to the employee than the rates used in the current actuarial assumption.
16. Benefit for Transfers to or from Hourly Status
Hourly employees who transfer to salaried status will receive the greater of two benefits: (1) a benefit under the salaried employee formula based on service as both an hourly and salaried employee and (2) a benefit under the hourly employee formula based on service as an hourly employee plus a benefit under the salaried employee formula based on service from the transfer date. Salaried employees who transfer to hourly status will receive a benefit under the salaried employee formula based on service as a salaried employee and a benefit under the hourly employee formula based on service from the transfer date.
17. Form of Benefit
The normal form of benefit is an actuarially reduced 50% joint and survivor annuity if the participant has been married to his/her spouse for at least one year as of the date his/her retirement benefits commence. Otherwise, the normal form of benefit is a single life annuity. Optional forms of benefit include a 10-year certain and continuous annuity, contingent annuity, and level income option.
18. Funding
All contributions are made by the Company. Benefits are funded through a trust.

2010 SCHEDULE SB, PART V – SUMMARY OF PLAN PROVISIONS (continued)

HOURLY EMPLOYEE BENEFIT PROVISIONS AS OF DECEMBER 1, 2010

1. Effective Date

The Hourly Employees Pension Plan was established December 1, 1966. The Hourly Plan was restated in its entirety effective December 1, 1978 and substantially revised retroactive to December 1, 1989 on April 1, 1991. On December 1, 1993 the Hourly Plan was merged with the Salaried Plan to form the Ameron Pension Plan.

2. Eligibility for Participation

All employees participating on December 1, 1976 continue to participate in the Plan. After that date, employees become eligible at date of employment.

3. Credited Service

Service prior to December 1, 1976 is based on the Plan then in effect. A participant is credited with 1/12 of a year of service for each 100 hours worked in a Plan Year, to a maximum of one year in each Plan Year.

4. Vesting Year of Service

A Vesting Year of Service is calculated using continuous service after date of hire (including fractional years) for service prior to December 1, 1976. For service after December 1, 1976, a participant is credited with one year of service for each Plan Year in which he/she works at least 700 hours.

5. Normal Retirement Date

Normal retirement date is the first day of the month coinciding with or next following the participant's 65th birthday.

6. Normal (or Late) Retirement Benefit

The monthly benefit is determined according to the bargaining unit in which the participant is employed on his/her date of retirement. The monthly benefits per year of Credited Service available to participants currently retiring can be found in Table 14.

7. Early Retirement

(a) Eligibility

Attainment of age 55 and completion of 10 or more Vesting Years of Service.

(b) Benefit

The monthly benefit is determined by applying the normal retirement benefit formula and using Credited Service as of the early retirement date. The monthly benefit is reduced 5/9% for each full month up to 60 by which the early retirement date precedes the normal retirement date and 5/18% for each full month in excess of 60 by which the early retirement date precedes the normal retirement date.

(a) Eligibility

Five Vesting Years of Service.

(b) Benefit

The monthly benefit is determined by applying the normal retirement benefit formula and Credited Service as of the termination date. The benefit may commence as early as age 55 with a reduction as described for early retirement benefits.

9. Death Benefit

(a) Before Retirement

Active vested participants and terminated vested participants are eligible for a survivor annuity in the form of a 50% joint and survivor annuity. The participant must have been married to his/her spouse for at least one year before his/her death for the coverage to be effective. The survivor annuity is also effective for a disabled participant who has attained age 55 and has at least 10 Vesting Years of Service. Monthly payments will begin the first day of the month following the date the participant would have been eligible for early retirement and will continue for the spouse's life. A participant will not be charged for this coverage while employed by the Company. A terminated vested participant is charged for this coverage in the form of a reduction of his/her accrued benefits.

(b) After Retirement

As provided by any optional retirement benefit.

(c) An employee who had participated in the American Pipe and Construction Co. Retirement Plan and Profit Sharing Trust or the Amercoat Corporation Retirement Plan and Profit Sharing Trust will have the accumulated account balance (including interest, reduced by any benefit payments paid to the participant or eligible spouse) paid to the participant's beneficiary upon death of the participant.

10. Disability Benefit

(a) Eligibility

Ten or more Vesting Years of Vesting Service and attainment of age 50. Employees of the Steel and Wire Division require only 10 years of Vesting Service to become eligible for a disability benefit.

(b) Benefits

If a participant becomes and remains totally disabled until normal retirement date, he/she will receive a normal retirement benefit calculated using Credited Service to normal retirement date and the benefits in effect on his/her date of retirement.

11. Prior Plan Benefit

Benefits derived from the profit sharing plan that preceded the Retirement Plan may be cashed out. The rates used in determining these cashouts are more favorable to the employee than the rates used in current actuarial assumption.

	Third Segment Rate	6.83%
	Effective Interest Rate	6.66%

Mortality

Mortality tables mandated by PPA as specified in IRS Regulation 1.430(h)(3)-1, applied on a static basis, projected 7 years from the valuation date for annuitants and 15 years for non-annuitants

Actuarial cost method

Unit Credit Method. The Funding Target is the present value of accrued benefits and based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected administrative and investment expenses to be paid from plan assets during the year.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Ameron Pension Plan

Notes to Financial Statements

1. Description of the Plan

The following brief description of the Ameron Pension Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan.

General

The Plan is a defined benefit pension plan, which provides a retirement benefit to eligible hourly and salaried employees of Ameron International Corporation (the “Company”) and certain of its subsidiaries. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Effective October 5, 2011, the Company was acquired by National Oilwell Varco, Inc. (“NOV”). As a result, the Ameron Common Stock Fund was liquidated in full on October 6, 2011. In addition, the accrued benefit of participants involuntarily terminated on or after October 5, 2011 became fully vested.

Plan Administration

The Plan is administered by the Company, acting through the Employee Benefits Committee (the “Committee”) appointed by the Board of Directors of the Company. The Committee has been given all powers necessary to fulfill its responsibilities, including, but not limited to, the power to administer and interpret the provisions of the Plan, to answer all questions affecting eligibility of participants in the Plan, and to authorize disbursements from the Plan’s funds.

Trustee, Custodian, and Fund Manager of Investments

The Northern Trust Company (the “Trustee”), together with its affiliates, serves as trustee and custodian of the Plan’s investments. The Trustee accounts for all assets of the Plan, independently determines the value of the Plan’s investments, and provides a regular accounting of all receipts, disbursements, and transactions made on behalf of the Plan. Investments of the Plan are managed by PIMCO, BlackRock, Western Asset Management Company, The Northern Trust Company, JP Morgan Chase Bank, and John Hancock Life Insurance Company.

Eligibility

Certain union, salaried, and non-union hourly employees are eligible to participate in the Plan as of their date of hire. Participants qualify for normal retirement benefits on the first day of the month coinciding with, or next following, the participant’s 65th birthday or five years of service, whichever is later. Participants are eligible for early retirement benefits after the age of 55, with at least ten years of service.

Vesting

Plan benefits are 100% vested upon completion of five years of service as an employee or upon attaining normal retirement age.

Ameron Pension Plan

Notes to Financial Statements

1. Description of the Plan (Continued)

Funding Policy

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary, as mandated and that are tax deductible. Contributions were required for the years ended November 30, 2011 and 2010, and therefore, the Company made contributions of \$30,900,000 and \$12,000,000 for the years then ended, respectively. These contributions were in excess of the minimum funding requirements of ERISA.

Pension Benefits

Benefits are paid by the Trustee at the direction of the Company. The Company determines the amount and timing of benefits in accordance with the provisions of the Plan. The benefit amounts vary depending upon individual factors, including the participant's compensation history, years of service, monthly benefit rate, age at date of retirement, and benefit payment option selected.

Death and Disability Benefits

If an active vested participant or deferred vested participant dies prior to retirement, a death benefit derived from the value of the participant's accrued pension is paid to the eligible spouse. Active hourly employees 50 years of age or older who become totally disabled receive unreduced monthly disability benefits based on full years of service up to the start of disability. Disability benefits are paid until normal retirement age, at which time they are replaced by retirement benefits. The retirement benefit calculation includes years while disabled and is based on the benefit rate in effect on the participant's retirement date. Salaried employees who are vested and become totally disabled continue to earn credited service until normal retirement age, at which time disabled participants begin normal retirement benefits computed as though they had been employed to normal retirement age with their annual compensation remaining the same as at the time they became disabled.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Ameron Pension Plan

Notes to Financial Statements

2. Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition

All investments are stated at fair value or amounts that closely approximate fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative and Investment Expenses

Administrative and investment expenses may be paid by the Plan, but the Company, at its discretion, may elect to pay all or part of such expenses. The Company elected to have the Plan pay such expenses, which amounted to approximately \$1,009,000 and \$898,000 for the years ended November 30, 2011 and 2010, respectively. These expenses represent trustee, recordkeeping, actuarial, audit, legal, insurance and investment management services.

Payment of Benefits

Benefit payments are recorded upon distribution.

Risks and Uncertainties

The Plan invests in a combination of stocks, registered investment company mutual funds, common or collective trusts, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. The Plan's exposure to credit loss in the event of non-performance of investments is limited to the carrying value of such investments. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimated assumptions in the near term would be material to the financial statements.

3. Insurance Annuity Contract

The Plan has purchased a guaranteed annuity contract with John Hancock Life Insurance Company. The annuity contract is allocated specifically to participants and/or beneficiaries of a division purchased by the Company, where the pension assets were transferred and contributions ceased. The annuity contract is a participating annuity contract, where the Company may participate in the experience of the insurance company. Under this contract, the insurance company pays dividends to the Company. The Plan has no further liability related to the contract; thus, the total value of the contract has been excluded from the Plan's assets. However, the fair value of the residual value (expected dividends) in the contract, to which the Plan is entitled, is

presented in the financial statements at the present value of expected cash flows as determined by the Plan's actuary using an annual discount rate of 4.19% and 5.54% at November 30, 2011 and November 30, 2010, respectively.

4. Investments and Information Certified by the Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520 103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified by the Trustee and was not subjected to any auditing procedures performed by the independent auditors:

- a. Total investments (in thousands) as shown in the accompanying statements of net assets available for benefits of \$153,750 at November 30, 2011 and \$146,119 at November 30, 2010.
- b. Net investment earnings as shown in the accompanying statements of changes in net assets available for benefits (in thousands) of \$9,113 and \$13,554 for the years ended November 30, 2011 and 2010, respectively.

The Plan's investments that represented 5% or more of net assets available for benefits as of November 30, 2011 and 2010 were as follows (in thousands):

4. Investments and Information Certified by the Trustee (Continued)

During 2011 and 2010, the Plan's non-participant directed investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows (in thousands):

	<u>2011</u>	<u>2010</u>
Common stock	\$ 1,137	\$ 1,123
Mutual funds	102	2,123
Common/collective trusts	6,613	8,670

5. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at November 30, 2011 and 2010.

Ameron Pension Plan

Notes to Financial Statements

5. Fair Value Measurements (Continued)

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Common/collective trusts: Valued at estimated fair value, which has been determined based on the unit value of the funds. Unit value is determined by the sponsor of the trust by dividing the fund's net assets at fair value by its units outstanding at the valuation dates. There are no unfunded commitments or withdrawal restrictions related to common collective trusts as of November 30, 2011. Investment strategies of the common collective trusts are as follows:

CF Blackrock Equity Index Fund seeks to capture the growth potential of large companies and achieve broad diversification with low cost by replicating the Standard & Poor's 500 Index.

The CF JP Morgan Chase Bank EAFE Plus Group Fund seeks total return from long-term capital growth and income, while attempting to outperform the Morgan Stanley Capital International Europe, Australia, Far East Index over a market cycle, gross of fees.

The Northern Trust Global Investors US Market Cap Equity Index Fund seeks to provide investment results that approximate the overall performance of the common stocks included in the Dow Jones US Total Stock Market Index.

The Northern Trust Global Investors Short-term fund seeks to maximize current income to the extent consistent with the preservation of capital and maintenance of liquidity.

Insurance annuity contract: Valued at fair value by discounting the related cash flows (expected dividends) as determined by the plan's actuary (see Note 3).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. Actuarial Present Value of Accumulated Plan Benefits

The Plan accounts for its accumulated plan benefits on the beginning of year method. Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is determined by Buck Consultants, an independent actuary, and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits as of December 1, 2010 was as follows (in thousands):

Vested benefits:

Participants and/or beneficiaries currently receiving benefits	\$ 95,255
Other vested benefits	<u>58,365</u>
Total vested benefits	153,620

Non-vested benefits	<u>2,134</u>
----------------------------	--------------

Total actuarial present value of accumulated plan benefits	<u>\$ 155,754</u>
--	-------------------

The changes in the actuarial present value of the Plan's accumulated plan benefits from December 1, 2009 to December 1, 2010 were as follows (in thousands):

Increase (decrease) during the year attributable to:	
Benefits accumulated	2,210
Interest	12,486

Net increase	<u>2,811</u>
Actuarial present value of accumulated plan benefits, as of December 1, 2010	<u>\$ 155,754</u>

Ameron Pension Plan

Notes to Financial Statements

6. Actuarial Present Value of Accumulated Plan Benefits (Continued)

The significant actuarial assumptions used in the valuations as of December 1, 2010 and 2009 were:

- Mortality: Changed to the mortality tables mandated by the Pension Protection Act, applied on a static basis, projected 7 years from the valuation date for annuitants and 15 years for non-annuitants.
- Retirement age: Normal retirement age is assumed to be at 65 or completion of five years of service, whichever is later. Early retirement is assumed to be after age 55 with ten years of service.
- Investment return: 8.5% per annum.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

7. Related-Party Transactions

The Trustee is a party-in-interest as defined by ERISA. The Trustee invests certain plan assets in its investment funds. Certain plan investments are shares of Ameron International Corporation common stock. The Plan held 80,000 shares of Ameron International Corporation common stock at November 30, 2010, valued at \$5,664,000. These shares were liquidated on October 6, 2011 upon the acquisition of the Company, see Note 1. Such transactions qualify as party-in-interest transactions, for which a statutory exemption exists.

During 2011 and 2010, the Plan paid the Trustee amounts totaling \$77,326 and \$43,262, respectively, relating to trustee and investment management services.

8. Federal Income Tax Status

The Plan obtained its latest determination letter from the Internal Revenue Service ("IRS") on January 6, 2009, which confirmed the Plan was deemed to be designed to satisfy the qualification requirements for tax exemption under the Internal Revenue Code (the "Code"). Although it has been subsequently amended, the plan administrator believes that the Plan continues to be designed and operated in compliance with the qualification requirements of the Code, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of November 30, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to November 30, 2008.

Notes to Financial Statements

9. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (the "PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty while other benefits may not be provided for at all.

10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net increase in net assets per the financial statements for the year ended November 30, 2011 to Form 5500 (in thousands):

Net increase in net assets per the financial statements	\$26,624
Premium payments to the PBGC reported on Form 5500 Schedule H, line 2.1. as a transfer of assets	<u>479</u>
Net increase in assets per the Form 5500	<u><u>\$27,103</u></u>

11. Subsequent Events

Plan management has evaluated subsequent events through September 5, 2012, the date the financial statements were available to be issued as follows:

Effective December 31, 2011, the Plan was amended and frozen, resulting in the following: 1) the Plan was frozen to eligibility and participation for any person who is not required to become a participant pursuant to a collective bargaining agreement; 2) credited service was frozen for any participant not required to earn credited service pursuant to a collective bargaining agreement; 3) the Plan's pension benefits were frozen and salaried employee participants' accrued benefits were based only on compensation, covered compensation, and credited service earned before January 1, 2012; and 4) affected participants' accrued benefits became fully vested.
