DASSAULT SYSTEMES SOLIDWORKS CORP. 401(K) PLAN

Notes to Financial Statements

December 31, 2011

Note 1 - Description of Plan

The following description of Dassault Systemes SolidWorks Corp. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for more complete information.

General - The Plan is a defined contribution plan covering all full-time employees of Dassault Systemes SolidWorks Corp. (the "Company") who have completed one (1) hour of service. All employees covered by a collective bargaining agreement are excluded from participation. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

Employee Contributions - Each year, participants may make pre-tax and/or post-tax Roth 401(k) contributions up to an aggregate maximum of sixty percent (60%) of their eligible compensation, as defined in the Plan and subject to Internal Revenue Code limitations. Effective March 15, 2010, the Plan was amended to increase the aggregate maximum to seventy-five percent (75%) of eligible compensation, as defined in the Plan and subject to Internal Revenue Code limitations. Participants who have attained age fifty (50) before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing rollover distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers thirty-two (32) mutual funds and one (1) common/collective trust as investment options for participants.

Employer Contributions - The Company provides a matching contribution equal to fifty percent (50%) up to a maximum of eight percent (8%) of compensation that a participant contributes to the Plan. Contributions are subject to certain limitations.

Participant Accounts - Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution, (b) plan earnings, and (c) plan expenses. Allocations are based upon participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution, plus actual earnings thereon, is based on years of service. A participant is one hundred percent (100%) vested in the matching contribution after five (5) years of credited service (1,000 hours per plan year). The following represents the vesting schedule for the matching contribution:

Five (5) years or more	100%
Less than five (5) years	75%
Less than four (4) years	50%
Less than three (3) years	25%
Less than two (2) years	0%

Note 1 - Description of Plan - Continued

Notes Receivable from Participants - Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or fifty percent (50%) of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from four and one-quarter percent (4.25%) to nine and one-quarter percent (9.25%), which are commensurate with local prevailing interest rates as determined by the plan administrator. Principal and interest are paid monthly through payroll deductions. Participants are charged a fee when taking out a loan and can only have one loan outstanding at any given time.

Payment of Benefits - Upon a participant's retirement, termination of employment, death or permanent or total disability, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account. In addition, a participant may elect to withdraw all or part of his or her account after attaining age fifty-nine and one-half (59 ½), or in the case of immediate and heavy financial need, subject to certain limitations as defined by the Plan.

Forfeitures - Forfeitures of the non-vested portion of withdrawing employees' accounts are used to first reduce Plan administrative expenses. Any remaining amounts will be used to reduce future employer contributions. During the year ended December 31, 2011, forfeitures of $64,049 were used to reduce employer contributions. At December 31, 2011, the balance in the forfeitures account totaled $508.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on the contract value basis. For the years ended December 31, 2011 and 2010, contract value approximated fair value.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies - Continued

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits - Benefits are recorded when paid.

Operating Expenses - The Company pays for certain administrative expenses of the Plan. Those not paid for by the Company are allocated to participants' accounts or charged directly to certain participants who take advantage of a certain feature of the Plan.

Subsequent Events - The Plan has evaluated subsequent events through June 28, 2012, which is the date the financial statements were available to be issued. See Note 10 for a discussion of subsequent events.

Note 3 - Investments

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2011 and 2010, the supplemental Schedule H, Part IV, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2011, and the related investment activity reflected on the statement of changes in net assets available for benefits for the year ended December 31, 2011.

Note 3 - Investments - Continued

The following represents five percent (5%) or more of the Plan's net assets at December 31:

Fidelity Advisor New Insights I Fund	3,637,119	-
Fidelity Advisor Mid Cap I Fund	-	3,432,957
Fidelity Advisor New Insights A Fund	-	3,187,457

For the year ended December 31, 2011, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $4,375,020.

Note 4 - Fair Value Measurements

The Financial Accounting Standards Board (FASB) provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Common/Collective trust: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Note 4 - Fair Value Measurements - Continued

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011:

	Level 1	Level 2	Level 3	Total
Mutual funds:				
Large/Mid cap stock	$ 40,373,466	$ -	$ -	$ 40,373,466

Total assets at fair value	$ 64,016,876	$ 2,077,692	$ -	$ 66,094,568

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:

	Level 1	Level 2	Level 3	Total
Mutual funds:				
Large/Mid cap stock	$ 41,862,398	$ -	$ -	$ 41,862,398

Total assets at fair value	$ 61,553,638	$ 1,546,923	$ -	$ 63,100,561

Note 5 - Related Party Transaction

Fidelity Management Trust Company is a related party of Fidelity Investments and acts as trustee for only those investments defined by the Plan. The Plan invests in shares of mutual funds and a common/collective trust managed by Fidelity Investments. Transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated, participants would become one hundred percent (100%) vested in their employer contributions.

Note 7 - Tax Status

The Internal Revenue Service has determined and informed the Company, by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 8 - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31:

	2011	2010
Net assets available for benefits per the financial statements	$ 66,743,473	$ 63,602,457
2010 employer contributions receivable	-	(24,008)
2011 employer contributions receivable	(118,085)	-
Net assets available for benefits per Form 5500	$ 66,625,388	$ 63,578,449

The following is a reconciliation of contributions per the financial statements to Form 5500 for the year ended December 31, 2011:

Employer contributions per the financial statements	$ 2,255,535
Plus 2010 employer contributions receivable	24,008
Less 2011 employer contributions receivable	(118,085)
Employer contributions per Form 5500	$ 2,161,458

Note 9 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported on the statement of net assets available for benefits.

Note 10 - Subsequent Events

Effective January 1, 2012, the Plan was amended and merged with the plan of the Company's parent company. Consequently, all participant accounts and assets of the Plan were transferred to the parent company plan during January 2012.
