Cincinnati Eye Institute 401(k) Plan

Notes to Financial Statements December 31, 2011 and 2010

Note 1 - Plan Description

The following description of Cincinnati Eye Institute 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all full-time employees of Cincinnati Eye Institute (the "Company") who have completed one month of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). An employee becomes eligible to participate in the Plan as of the payroll period beginning on or after the first day of the calendar month following the one-month anniversary of the employee's date of employment. Participants are automatically enrolled with a predetermined percent salary deferral unless they waive participation or specify a different deferral amount. For 2011, participants were automatically enrolled with a 3 percent salary deferral. Effective July 1, 2011, the percentage changed to 4 percent. For 2010, participants were automatically enrolled with a 2 percent salary deferral. Effective July 1, 2010, the percentage changed to 3 percent. Employer contributions are allocated among all participants employed at any time during the plan year except participants who terminated employment or failed to complete more than 500 hours of service during the plan year.

Contributions - Both participants and the Company may make contributions under the Plan. A participant may elect to make pre-tax contributions up to the maximum allowed by the Internal Revenue Service (\$16,500 for 2011 and 2010, plus an additional \$5,500 for catch-up contributions in 2011 and 2010). The Company may make discretionary matching contributions and a discretionary profit-sharing contribution to the Plan as directed by the trustees.

Participant Accounts - Each participant's account is credited with the participant's contribution, the Company's matching contribution, allocations of the Company's profit-sharing contributions, and plan earnings. Plan earnings are allocated based on participants' account balances. The profit-sharing contribution is allocated to participants based on the percentage of the participant's eligible compensation to total compensation for the group to which the participant belongs, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Benefit Payments - Distributions are payable upon the retirement, death, disability, termination of employment, or after 10 years of service and attainment of age 45 (in-service distribution) in the form of a transfer to another qualified plan, the lump-sum amount equal to the vested balance of a participant's account (subject to 20 percent income tax withholding), or annual installments over a prescribed period of time.

Cincinnati Eye Institute 401(k) Plan

Notes to Financial Statements December 31, 2011 and 2010

Note 1 - Plan Description (Continued)

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future Company contributions or to pay administrative fees in accordance with plan provisions. At December 31, 2011 and 2010, forfeited account balances totaled \$85,779 and \$39,989, respectively. Forfeitures applied to employer contributions during 2011 and 2010 were \$53,543 and \$21,715, respectively.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by The Vanguard Group, Inc. or its affiliates. The Vanguard Group, Inc. is the custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan document and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Vesting - Participants are immediately vested in participant contributions and earnings thereon. Vesting for Company contributions is based on years of continuous service. Participants whose date of employment was before December 31, 1996 are 100 percent vested and participants whose date of employment was after December 31, 1996 vest based on the following schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 2 years	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 years and over	100%

Hardship Withdrawals - Participants may request that all or a portion of their account be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value, based on quoted market values. See Note 4 for additional information.

Cincinnati Eye Institute 401(k) Plan

Notes to Financial Statements December 31, 2011 and 2010

Note 2 - Summary of Significant Accounting Policies (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company that are not reflected in these financial statements.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including August 23, 2012, which is the date the financial statements were available to be issued.

New Accounting Pronouncement - In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS*. The standard clarifies existing fair value measurement and disclosure requirements and changes existing principles and disclosure guidance. Clarifications were made to the relevancy of the highest and best use valuation concept and measurement of an instrument classified in an entity's stockholder's equity. Changes to existing principles and disclosures included measurement of financial instruments managed within a portfolio, the application of premiums and discounts in fair value measurement, and additional disclosures related to fair value measurements. The updated guidance and requirements are effective for financial statements issued for the first annual period beginning after December 15, 2011. The adoption of this standard is not expected to have a material effect on the Plan's financial statements.

Cincinnati Eye Institute 401(k) Plan

Notes to Financial Statements December 31, 2011 and 2010

Note 3 - Investments

Investments that exceed 5 percent of end of the year net assets are as follows:

	2011	2010
Vanguard LifeSt Growth Fund	\$ 7,355,268	\$ 7,346,496
Vanguard Prime Money Mkt	2,462,060	2,015,834
Vanguard Total Bond Mkt Index	2,257,270	2,683,214
Vanguard Inflation-Protected Securities Fund	1,756,229	1,355,377

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2011 and 2010 and the valuation techniques used by the Plan to determine those fair values.

Level 1 - In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the end of the reporting period. There were no significant transfers between levels of the fair value hierarchy during 2011 and 2010.

Note 5 - Tax Status

The Plan obtained its latest determination letter on June 15, 2003, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, plan management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes it is no longer subject to tax examinations for years prior to 2008.
