NOTE A - DESCRIPTION OF PLAN

General

The National Automobile Dealers Association (NADA) represents more than 16,000 new car and truck dealers; both import and domestic, with more than 34,000 separate franchises. NADA membership is open to any new-automobile or new-truck dealership holding a new automobile or truck sales and service franchise. NADA Retirement Administrators Inc., DBA NADART, an affiliate of NADA, provides and administers 401(k), pension and profit sharing plans for NADA members, non-members and their employees. NADART sponsors a Master Plan, consisting of the basic plan document and the adoption agreement, which outlines the rules and provisions of the retirement plan adopted by the Employer. Employers establish the Plan by executing an Adoption Agreement (Plan Agreement).

The following description of the Plan provides only general information. Participants should refer to the Plan Document and/or the Summary Plan Description for a more complete description of the Plan's provisions.

The Warren Anderson Ford DBA Fritts Ford NADART Salary Deferral 401(k) Profit Sharing Plan (the "Plan") was established to provide retirement benefits for employees of Warren Anderson Ford DBA Fritts Ford (the "Employer"). Employees become eligible to participate in the Plan following six months of continuous service and attainment of age 21, as defined in the Plan agreement. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 (the "ERISA").

Contributions

Participant contributions consist of pretax elective deferrals, after-tax contributions. Participants may contribute pre-tax elective deferrals up to the dollar limitation contained in section 402(g) of the Internal Revenue Code ("IRC") in effect at the beginning of the year. Employer contributions include discretionary contributions, and discretionary matching contribution. Contributions are subject to certain limitations.

Employer discretionary contributions are allocated to participants employed on the last day of the Plan year in the same ratio as each participant's eligible compensation bears to the total eligible compensation of all participants. Employer discretionary matching contributions made to the Plan are allocated as of the last day of the Plan year to the account of each participant who elects to have deferred cash contributions made under the Plan, and who is employed with the employer on the last day of the Plan year.

Participant Accounts and Vesting

Each participant's account is credited with the participant's contributions, the employer's contributions and an allocation of the Plan's earnings, and charged with an allocation of investment expenses. The Plan's earnings and investment expenses are allocated according to participant's relative account balances in the investment options. Certain participant and loan fees, if applicable, are also charged to participant accounts.

NOTE A - DESCRIPTION OF PLAN (CONTINUED)

Participant Accounts and Vesting (Concluded)

Participants are immediately vested in their contributions plus actual earnings thereon. The portion of the participant's account attributable to employer matching contributions is fully vested immediately upon enrollment in the Plan and employer discretionary contributions are fully vested after completion of six years of service. Vesting is accrued as outlined in the Plan Adoption Agreement. Participants' become fully vested upon attainment of the normal retirement age of 65, or in the event of death or total disability.

Net assets available for benefits include the accounts of active participants, as well as certain separated, vested and retired participants who have elected to receive their benefits in installment payments or elected to defer receipt of their benefits to a later date (installment/deferred). These participants share in the earnings of the investments.

Distributions to Participants

Benefits are recorded when paid. Amounts credited to an individual participant's account are distributed at termination of employment as a lump sum, in installments, or, if qualified, as an annuity. Distributions may be deferred until the participant reaches the age of 70½ if the value of the distribution is not less than $5,000. However, the plan agreement stipulates that distributions must commence no later than April 1 of the year following the year in which the participant reaches the age of 70½.

In certain hardship situations, as described in the plan agreement, participants may withdraw part of their account balances while actively employed, but such withdrawals are limited to the amount dictated by the hardship. Participants' withdrawals are limited to pre-tax elective deferred account balances and may not include any interest earned thereon.

Forfeitures

Forfeitures are reallocated to participant in the same manner as employer discretionary contributions. At December 31, 2011 and 2010, forfeited non-vested accounts totaled $0, respectively. In 2011, $0 was reallocated to participants.

Excess Contributions Payable

NADART distributes excess contributions in accordance with Internal Revenue Code 401(m)(3)(2) and 401(k)(m).

NOTE A - DESCRIPTION OF PLAN (CONCLUDED)

Notes Receivable from Participants

Participants may borrow the lesser of one-half of their vested account balance or $50,000 reduced by the participant's highest outstanding loan balance during the last twelve months. The minimum loan available is $1,000. Loan terms range from one to five years. Participant loans are secured by a lien on the participant's interest in the Plan and are repaid through payroll deductions. Interest rates on the participant loans are set at the prime rate in effect on the first day of the quarter in which the loan is made plus one percent (4.25% at December 31, 2011 and at December 31, 2010). The notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the NADART Master Plan.

Plan Termination

Although it has not expressed any intent to do so, the Employer has the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of plan termination, the respective participant interest, net of any termination fees, will become fully vested, and will be distributed to each participant in accordance with the Master Plan.

NOTE B – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting, Investments, and Investment Valuation

The accompanying financial statements are prepared under the accrual method of accounting. Prior to October 1, 2011, participants could invest in any of 27 bank common/collective trusts (CCT). On October 1, 2011, the Plan assets in the International Fund were liquidated and the proceeds invested in the ACWI ex-US International Index Fund. The Plan assets in the Legg Mason Growth Trust, NADART Large Cap Growth Fund and the Vanguard Growth Index Fund were liquidated. The combined proceeds from these three (3) funds were invested in the Neuberger Berman LC Growth Fund. In addition to these fund changes, six (6) funds were added to the group of funds available to the Plan. All funds consist of institutional share accounts. Therefore, as of December 31, 2011, the investment options available to Plan participants consisted of 31 bank common/collective trusts.

The common/collective trusts are valued using the net asset value (NAV) provided by *Cardinal Bank*, the Trustee of the Plan. The NAV for most CCT's is quoted on a private market that is not active; however, the unit price is based on quoted market prices of the underlying investments which are traded on an active market.

NOTE B – SUMMARY OF ACCOUNTING POLICIES (CONCLUDED)

Basis of Accounting, Investments, and Investment Valuation (Concluded)

The Income Fund is the only CCT that contains synthetic guaranteed investment contracts (GIC). The fair value of a synthetic GIC is calculated by valuing each component of the structure separately. The fixed income securities component in the underlying account are valued at quoted market prices. The value of the wrapper contract component is determined by the issuer using a standard discounted replacement cost methodology, using the duration and period end yields of the issuer's comparable sector credit curve as valuation inputs.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on the investments bought and sold as well as held during the year.

The Trustee has certified as to the completeness and accuracy of all investments reflected on the Statements of Net Assets Available for Benefits as of December 31, 2011 and 2010, all of the investment activity reflected on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2011, and all investment information in the supplemental schedules, which are summarized as follows:

	2011	2010
Investments	$ 1,535,172	$ 1,713,556
Notes receivable from participants	34,302	47,165
Adjustment to contract value for Income Fund	(14,723)	(15,572)
Interest and dividends	163	101
Net appreciation (depreciaiton) in fair value of investments	11,598	212,956
Interest income from notes receviable from participants	2,216	2,880

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

NOTE C – FAIR VALUE MEASUREMENTS

The Plan reports its investments at fair value based on a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 — Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The fair value of investments measured under this hierarchy as of December 31, 2011 and 2010 is as follows:

	Fair Value Measurements as of December 31, 2011 Using		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Total
Common/collective trusts			
Balanced funds	$ -0-	$ 535,763	$ 535,763

NOTE C – FAIR VALUE MEASUREMENTS (CONCLUDED)

	Fair Value Measurements as of December 31, 2010 Using		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Total
Common/collective trusts			
Balanced funds	$ -0-	$ 687,960	$ 687,960

Target dated funds	-0-	189,058	189,058
Total	$ -0-	$ 1,713,556	$ 1,713,556

The investment objective of the international and stock funds is the long term growth of capital. Income funds seek to maximize the return on the investment. Balanced and target date funds seek a mix of growth of capital and reinvestment of income.

Investments in all CCTs can be redeemed immediately at the current NAV based on the fair value of the underlying assets. There are no withdrawal limits, redemption frequency limits or redemption notice periods. There were no unfunded commitments for these investments as of December 31, 2011 and December 31, 2010.

NOTE D - INVESTMENTS

NOTE E – ADJUSTMENT TO CONTRACT VALUE FOR INCOME FUND

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Income Fund investment held by the Plan contains underlying investment contracts that are subject to the requirements of the FSP. As required by the FSP, the Statement of Net Assets Available for Benefits as of December 31, 2011 and 2010 presents the fair value of the Income Fund as well as the adjustment of the Income Fund from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

NOTE F - TAX STATUS

The NADART master prototype documents were amended to comply with the statutory requirements of the Economic Growth and Tax Relief Reconciliation Act (EGTRRA) of 2001 and received favorable opinion letters from the IRS on March 31, 2008. Each plan adopting a NADART master prototype plan document hs been restated to reflect the EGTRRA plan changes. In accordance with Revenue Procedure 2002-6, the Plan administrator has chosen to rely on the current opinion letter that has been issued to the prototype. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

The Plan administrator evaluates tax positions taken by the Plan and recognizes a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken.

NOTE G – INVESTMENT AND ADMINISTRATIVE FEES

Investment management fees are charged to participants based on their investment elections. In addition, all bank common/collective trusts return to NADART a fee for recordkeeping services, calculated based on invested assets, as outlined in the service agreement between the Employer and NADART. These fees are reflected in the net depreciation in fair value of investments in the accompanying financial statements.

Certain administrative fees including a base rate per plan, a charge per participant, service fees, and audit fees are paid by the Company. The Company paid $20,041 for these administrative expenses on behalf of the Plan for the year ended December 31, 2011.

NOTE H – RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

NOTE I – SUBSEQUENT EVENTS

Management has evaluated the subsequent events for disclosure in these financial statements through **September 7, 2012**, which is the date the financial statements were available to be issued.

NOTE A - DESCRIPTION OF PLAN

General

The National Automobile Dealers Association (NADA) represents more than 16,000 new car and truck dealers; both import and domestic, with more than 34,000 separate franchises. NADA membership is open to any new-automobile or new-truck dealership holding a new automobile or truck sales and service franchise. NADA Retirement Administrators Inc., DBA NADART, an affiliate of NADA, provides and administers 401(k), pension and profit sharing plans for NADA members, non-members and their employees. NADART sponsors a Master Plan, consisting of the basic plan document and the adoption agreement, which outlines the rules and provisions of the retirement plan adopted by the Employer. Employers establish the Plan by executing an Adoption Agreement (Plan Agreement).

The following description of the Plan provides only general information. Participants should refer to the Plan Document and/or the Summary Plan Description for a more complete description of the Plan's provisions.

The Warren Anderson Ford DBA Fritts Ford NADART Salary Deferral 401(k) Profit Sharing Plan (the "Plan") was established to provide retirement benefits for employees of Warren Anderson Ford DBA Fritts Ford (the "Employer"). Employees become eligible to participate in the Plan following six months of continuous service and attainment of age 21, as defined in the Plan agreement. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 (the "ERISA").

Contributions

Participant contributions consist of pretax elective deferrals, after-tax contributions. Participants may contribute pre-tax elective deferrals up to the dollar limitation contained in section 402(g) of the Internal Revenue Code ("IRC") in effect at the beginning of the year. Employer contributions include discretionary contributions, and discretionary matching contribution. Contributions are subject to certain limitations.

Employer discretionary contributions are allocated to participants employed on the last day of the Plan year in the same ratio as each participant's eligible compensation bears to the total eligible compensation of all participants. Employer discretionary matching contributions made to the Plan are allocated as of the last day of the Plan year to the account of each participant who elects to have deferred cash contributions made under the Plan, and who is employed with the employer on the last day of the Plan year.

Participant Accounts and Vesting

Each participant's account is credited with the participant's contributions, the employer's contributions and an allocation of the Plan's earnings, and charged with an allocation of investment expenses. The Plan's earnings and investment expenses are allocated according to participant's relative account balances in the investment options. Certain participant and loan fees, if applicable, are also charged to participant accounts.

NOTE A - DESCRIPTION OF PLAN (CONTINUED)

Participant Accounts and Vesting (Concluded)

Participants are immediately vested in their contributions plus actual earnings thereon. The portion of the participant's account attributable to employer matching contributions is fully vested immediately upon enrollment in the Plan and employer discretionary contributions are fully vested after completion of six years of service. Vesting is accrued as outlined in the Plan Adoption Agreement. Participants' become fully vested upon attainment of the normal retirement age of 65, or in the event of death or total disability.

Net assets available for benefits include the accounts of active participants, as well as certain separated, vested and retired participants who have elected to receive their benefits in installment payments or elected to defer receipt of their benefits to a later date (installment/deferred). These participants share in the earnings of the investments.

Distributions to Participants

Benefits are recorded when paid. Amounts credited to an individual participant's account are distributed at termination of employment as a lump sum, in installments, or, if qualified, as an annuity. Distributions may be deferred until the participant reaches the age of 70½ if the value of the distribution is not less than $5,000. However, the plan agreement stipulates that distributions must commence no later than April 1 of the year following the year in which the participant reaches the age of 70½.

In certain hardship situations, as described in the plan agreement, participants may withdraw part of their account balances while actively employed, but such withdrawals are limited to the amount dictated by the hardship. Participants' withdrawals are limited to pre-tax elective deferred account balances and may not include any interest earned thereon.

Forfeitures

Forfeitures are reallocated to participant in the same manner as employer discretionary contributions. At December 31, 2011 and 2010, forfeited non-vested accounts totaled $0, respectively. In 2011, $0 was reallocated to participants.

Excess Contributions Payable

NADART distributes excess contributions in accordance with Internal Revenue Code 401(m)(3)(2) and 401(k)(m).

NOTE A - DESCRIPTION OF PLAN (CONCLUDED)

Notes Receivable from Participants

Participants may borrow the lesser of one-half of their vested account balance or $50,000 reduced by the participant's highest outstanding loan balance during the last twelve months. The minimum loan available is $1,000. Loan terms range from one to five years. Participant loans are secured by a lien on the participant's interest in the Plan and are repaid through payroll deductions. Interest rates on the participant loans are set at the prime rate in effect on the first day of the quarter in which the loan is made plus one percent (4.25% at December 31, 2011 and at December 31, 2010). The notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the NADART Master Plan.

Plan Termination

Although it has not expressed any intent to do so, the Employer has the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of plan termination, the respective participant interest, net of any termination fees, will become fully vested, and will be distributed to each participant in accordance with the Master Plan.

NOTE B – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting, Investments, and Investment Valuation

The accompanying financial statements are prepared under the accrual method of accounting. Prior to October 1, 2011, participants could invest in any of 27 bank common/collective trusts (CCT). On October 1, 2011, the Plan assets in the International Fund were liquidated and the proceeds invested in the ACWI ex-US International Index Fund. The Plan assets in the Legg Mason Growth Trust, NADART Large Cap Growth Fund and the Vanguard Growth Index Fund were liquidated. The combined proceeds from these three (3) funds were invested in the Neuberger Berman LC Growth Fund. In addition to these fund changes, six (6) funds were added to the group of funds available to the Plan. All funds consist of institutional share accounts. Therefore, as of December 31, 2011, the investment options available to Plan participants consisted of 31 bank common/collective trusts.

The common/collective trusts are valued using the net asset value (NAV) provided by *Cardinal Bank*, the Trustee of the Plan. The NAV for most CCT's is quoted on a private market that is not active; however, the unit price is based on quoted market prices of the underlying investments which are traded on an active market.

NOTE B – SUMMARY OF ACCOUNTING POLICIES (CONCLUDED)

Basis of Accounting, Investments, and Investment Valuation (Concluded)

The Income Fund is the only CCT that contains synthetic guaranteed investment contracts (GIC). The fair value of a synthetic GIC is calculated by valuing each component of the structure separately. The fixed income securities component in the underlying account are valued at quoted market prices. The value of the wrapper contract component is determined by the issuer using a standard discounted replacement cost methodology, using the duration and period end yields of the issuer's comparable sector credit curve as valuation inputs.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on the investments bought and sold as well as held during the year.

The Trustee has certified as to the completeness and accuracy of all investments reflected on the Statements of Net Assets Available for Benefits as of December 31, 2011 and 2010, all of the investment activity reflected on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2011, and all investment information in the supplemental schedules, which are summarized as follows:

	2011	2010
Investments	$ 1,535,172	$ 1,713,556
Notes receivable from participants	34,302	47,165
Adjustment to contract value for Income Fund	(14,723)	(15,572)
Interest and dividends	163	101
Net appreciation (depreciaiton) in fair value of investments	11,598	212,956
Interest income from notes receviable from participants	2,216	2,880

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

NOTE C – FAIR VALUE MEASUREMENTS

The Plan reports its investments at fair value based on a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 — Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The fair value of investments measured under this hierarchy as of December 31, 2011 and 2010 is as follows:

	Fair Value Measurements as of December 31, 2011 Using		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Total
Common/collective trusts			
Balanced funds	$ -0-	$ 535,763	$ 535,763

Large cap stock funds	-0-	180,204	180,204

NOTE C – FAIR VALUE MEASUREMENTS (CONCLUDED)

	Fair Value Measurements as of December 31, 2010 Using		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Total
Common/collective trusts			
Balanced funds	$ -0-	$ 687,960	$ 687,960

Target dated funds	-0-	189,058	189,058
Total	$ -0-	$ 1,713,556	$ 1,713,556

The investment objective of the international and stock funds is the long term growth of capital. Income funds seek to maximize the return on the investment. Balanced and target date funds seek a mix of growth of capital and reinvestment of income.

Investments in all CCTs can be redeemed immediately at the current NAV based on the fair value of the underlying assets. There are no withdrawal limits, redemption frequency limits or redemption notice periods. There were no unfunded commitments for these investments as of December 31, 2011 and December 31, 2010.

NOTE E – ADJUSTMENT TO CONTRACT VALUE FOR INCOME FUND

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Income Fund investment held by the Plan contains underlying investment contracts that are subject to the requirements of the FSP. As required by the FSP, the Statement of Net Assets Available for Benefits as of December 31, 2011 and 2010 presents the fair value of the Income Fund as well as the adjustment of the Income Fund from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

NOTE F - TAX STATUS

The NADART master prototype documents were amended to comply with the statutory requirements of the Economic Growth and Tax Relief Reconciliation Act (EGTRRA) of 2001 and received favorable opinion letters from the IRS on March 31, 2008. Each plan adopting a NADART master prototype plan document hs been restated to reflect the EGTRRA plan changes. In accordance with Revenue Procedure 2002-6, the Plan administrator has chosen to rely on the current opinion letter that has been issued to the prototype. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

The Plan administrator evaluates tax positions taken by the Plan and recognizes a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken.

NOTE G – INVESTMENT AND ADMINISTRATIVE FEES

Investment management fees are charged to participants based on their investment elections. In addition, all bank common/collective trusts return to NADART a fee for recordkeeping services, calculated based on invested assets, as outlined in the service agreement between the Employer and NADART. These fees are reflected in the net depreciation in fair value of investments in the accompanying financial statements.

Certain administrative fees including a base rate per plan, a charge per participant, service fees, and audit fees are paid by the Company. The Company paid $20,041 for these administrative expenses on behalf of the Plan for the year ended December 31, 2011.

NOTE H – RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

NOTE I – SUBSEQUENT EVENTS

Management has evaluated the subsequent events for disclosure in these financial statements through **September 7, 2012**, which is the date the financial statements were available to be issued.
