Independent Auditor's Report

To the Plan Administrator of
Morton's of Chicago, Inc. 401(k) Plan
Chicago, Illinois

We were engaged to audit the accompanying statements of net assets available for benefits of Morton's of Chicago, Inc. 401(k) Plan (the Plan) as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011, and the supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by DWS Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee regarding the completeness and accuracy of the information summarized in Note 3 that was provided to the Plan Administrator by the trustee as of and for the year ended December 31, 2011, and as of December 31, 2010.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulation for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Morton's of Chicago, Inc. 401(k) Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of the Morton's of Chicago, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan that covers all employees of Morton's of Chicago, Inc. and Morton's Restaurant Group, Inc. or an Affiliate designated by the Board of Directors (collectively, the Company) who have attained the age 21 and completed six months of service, as defined, with the Company. As defined in the plan document, employees can become participants on the earliest January 1, April 1, July 1 or October 1 coincident with or following the date on which the employee meets eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Eligible participants can elect to make contributions to the Plan by means of a salary deferral agreement. Employees may elect to defer up to 25 percent of their compensation each year subject to various limits established for tax-deferred contributions under the Internal Revenue Code. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company may make a matching contribution equal to a percentage of eligible participant contributions each year, as determined by the Company. The Company did not elect to make a matching contribution in 2011. Profit sharing amounts may be contributed at the option of the Company's Board of Directors. There were no profit sharing contributions for 2011. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contribution and the Company's matching contribution, if any, and allocations of the Company's profit sharing contribution, if any, and plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant account balances or compensation as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions and Company contributions made after January 1, 2001, plus actual earnings thereon. For Company contributions made prior to January 1, 2001, a participant is 100% vested after five years of service.

Investment options: Upon enrollment in the Plan, participants may direct the investment of their account balances into a variety of investment options, including self-directed accounts, as more fully described in the Plan's literature. Participants may change their investment options at any time.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The notes are secured by the balance in the participant's account and bear interest rates at the prime rate plus 1 percent. At December 31, 2011, rates ranged from 4.25 percent to 10.50 percent on outstanding notes. Principal and interest are paid ratably through payroll deductions.

Payment of benefits: On termination of service a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or periodic installments over a period not to exceed 20 years.

Forfeitures: At December 31, 2011 and 2010, forfeited non-vested accounts totaled \$13,147 and \$13,009, respectively. These accounts will be used to reduce future company contributions or pay the Plan's administrative expenses. There were no forfeitures used to reduce Company contributions or to pay administrative expenses.

Notes to Financial Statements

Note 1. Plan Description (Continued)

Other income: ADP Retirement Services (ADPRS), the Plan recordkeeper, may receive revenue sharing payments from mutual funds in which Plan assets are invested, either directly or indirectly from alliance organizations. The administrative services agreement between the Plan and ADPRS provides that to the extent revenue sharing payments received by ADPRS exceed administrative fees charged to the Plan by ADPRS, the excess will be credited to the Plan. For 2011, \$131,884 was credited to the Plan under this agreement, of which \$130,246 was used for other administrative expenses incurred by the Plan. At December 31, 2011, the Plan has \$1,916 available to pay future other administrative expenses of the Plan or to be allocated to participants at the discretion of the Company.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Accounting estimates: The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Reclassifications: Certain 2010 balances were reclassified to conform to 2011 presentation.

Morton's of Chicago, Inc. 401(k) Plan

Note 2. Summary of Significant Accounting Policies (Continued)

New accounting pronouncement: In January 2010, the Financial Accounting Standards Board (FASB), issued Accounting Standards Update (ASU) 2010-06, *Fair Value Measurements and Disclosures (Topic 820) – Improving Disclosures about Fair Value Measurements*. Certain parts of this guidance clarify that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances and settlements instead of netting these changes. This amendment was effective for periods beginning after December 15, 2010. The 2011 requirements of this pronouncement did not impact the Plan's fair value disclosures.

Pending accounting pronouncement: In May 2011, the FASB issued ASU 2011-04, *Amendment to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Transfer out: During 2010, the Company created a separate plan for its Puerto Rico Employees. As a result, account balances associated with those participants were transferred out to Morton's of Chicago, Inc. Profit Sharing 1165(e) Plan in 2010. Residual earnings from investments transferred out to Morton's of Chicago, Inc. Profit Sharing 1165(e) Plan in 2011.

Note 3. Information Certified and Provided by the Trustee

The following is a summary of the Plan's asset information as of December 31, 2011 and 2010, and for the year ended December 31, 2011, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

Interest income on notes receivable from participants	\$ 71,833	

The trustee also certified the fair value of shares of common/collective trust of \$5,253,790 at December 31, 2010.

Note 4. Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Morton's of Chicago, Inc. 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010:

Shares of registered investment companies: Valued at the net asset value of shares held by the Plan at year-end.

Shares of common/collective trust: Valued based on the total of the unit prices quoted by the fund. The Plan's interest in the collective fund is valued based on information reported by the investment advisor using the audited financial statements of the collective fund at year-end.

Common stock, real estate investment trust and partnership: Valued at the closing price reported on the active market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2011 and 2010:

	2011			
	Level 1	Level 2	Level 3	Total

The following tables set forth additional disclosures of the Plan's investments whose fair value is estimated using net asset value per share (or its equivalent) as of December 31, 2011 and 2010:

	2011			
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Shares of common collective trust				
Invesco Stable Value Fund (a)	\$ 4,401,510	\$ -	Daily	one-year

	2010			
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Shares of common collective trust				
SSGA Stable Value Fund (b)	\$ 5,253,790	\$ -	Daily	None

- (a) The Trust's primary objectives are to provide preservation of principal, maintain a stable interest rate, and provide daily liquidity at contract value for participant withdrawal and transfers. The net unit values are determined as of the close of each business day. Participant units are issued and redeemed only at the end of the day and at the net unit value at contract value, provided that redeeming participant plan competes with the required one-year notice provision.
- (b) The Fund's participants are employee benefit plans. The Fund provides its participants with a medium for collective investment and reinvestment in one or more bank, insurance company or synthetic investment contract, and in short term investments or other collective investment funds.

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2011, there were no significant transfers in or out of Levels 1, 2, or 3.

**Less than 5% of net assets at year-end.

The contract value of the Plan's investments in the common/collective trust is \$4,268,799 and \$5,159,631 of December 31, 2011 and 2010, respectively.

During 2011, the Plan's investments (including investments bought, sold and held during each year) depreciated in value as follows:

	2011
Registered investment companies	\$ (1,644,385)
Common/collective trust	3,391
Common stock	19,150
Real estate investment trust	(9,015)

Note 6. Related-Party Transactions

Certain Plan investments are shares of registered investment companies managed by the trustee of the Plan. These transactions, therefore, qualify as party-in-interest.

ADPRS provides recordkeeping services to the Plan. Fees incurred by the Plan for administrative services amounted to \$73,213, for the Plan year ended December 31, 2011.

Certain employees of the Company provide administrative services to the Plan. These employees do not receive any compensation from the Plan for their services. Also, certain administrative expenses were paid by the Company on behalf of the Plan.

Morton's of Chicago, Inc. 401(k) Plan

Notes to Financial Statements

Note 7. Tax Status

Effective November 1, 2010, the Plan adopted the Prototype Non-Standardized Profit Sharing Plan (the Prototype Plan) sponsored by Automatic Data Processing. The Prototype Plan has obtained a favorable opinion letter in which the Internal Revenue Service stated that the prototype Plan is in compliance with the applicable section of the Internal Revenue Code (IRC). The Prototype Plan opinion letter has been relied upon by the Plan. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, is exempt from income taxes.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the federal, state or local tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

Note 9. Reconciliation of Schedule H Form 5500 to the Financial Statements

A reconciliation between the Schedule H Form 5500 and the financial statements as of December 31, 2011 and 2010, and for the year ended December 31, 2011, is as follows:

	2011	2010

Note 10. Subsequent Events

On January 5, 2012, pursuant to the sale of the Company, management of the Plan approved a termination of the Plan in 2012. Participant accounts were determined to be 100% vested as of the termination date.

The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through September 17, 2012, the date the financial statements were available to be issued.
