1. PLAN DESCRIPTION

The following brief description of the Guthrie & Huebner Company, Inc. Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan Agreement for complete information.

Guthrie & Huebner Company, Inc., an S corporation, (Company) established the Guthrie & Huebner Company, Inc. Employee Stock Ownership Plan effective as of January 1, 2004. As of January 1, 2005, the Plan was amended and operates, in relevant part, as a leveraged employee stock ownership plan (ESOP), and is designed to comply with section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (Code) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by an ESOP Administration Committee appointed by the Company's Board of Directors and a third party administrator. The Plan's trustees are Kenneth R. Huebner and Milton D. Huebner.

The Plan has purchased Company common shares from various stockholders for cash or by issuing non-guaranteed notes payable (Note 6) to the stockholders, and holds the stock in a trust established under the Plan. Notes are to be repaid over a period not to exceed ten years. The Plan makes quarterly payments of principal and interest. At the end of the year, an appropriate percentage of stock is allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

The notes payable are secured by the unallocated shares of stock and are not guaranteed by the Company. The lender has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan for the years ended December 31, 2011 and 2010 present separately the assets and liabilities and changes therein pertaining to:

(a) the accounts of employees with vested rights in allocated stock (Allocated) and
(b) stock not yet allocated to employees (Unallocated).

Eligibility

Employees of the Company and its participating subsidiaries are generally eligible to participate in the Plan if they are in an eligible class of employees after one year of service providing they worked at least 1,000 hours during such plan year. Employees who do not have at least 1,000 hours of service during such plan year are generally not eligible for an allocation of Company contributions for such year.

Payment of Benefits

No distribution from the Plan will be made until a participant retires, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the Company and its participating subsidiaries. Distributions are made in accordance with Article 7 of the Plan Agreement.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. The company will repurchase shares at prices determined from an independent appraisal.

(continued)

1. PLAN DESCRIPTION (continued)

Voting Rights
The Trustees of the Plan will vote all Company Stock held by the Plan in accordance with Article 8 of the Plan Agreement.

Termination
The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, all amounts credited to a participant's account becomes 100% vested.

Participant Accounts
The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's stock released by the Trustees from the unallocated account and forfeitures of terminated participants' non vested accounts. Only those participants who are eligible employees of the Company will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation.

Vesting
If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company in accordance with the Plan Agreement.

Put Option
Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock as determined by an independent valuation. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification
Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock to investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution.

Participant Accounts and Forfeitures
Employer contributions and Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Forfeitures of terminated non vested account balances allocated to remaining participants amounted to $581,522 and $169,402 at December 31, 2011 and 2010, respectively. Plan earnings are allocated to each participants' account based on the ratio of the participant's beginning of the year account balance to all participant's beginning of the year account balances.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

In 2008 and 2010, the Plan entered into several loan agreements with the ownership and management of the company for the purchase of their Company common stock. Unallocated shares secure the loans. The agreement provides for the loans to be repaid over one, three and ten years and bear interest at rates ranging from 3.53 to 4.45%. The scheduled amortization of the loans for the next five years and thereafter is as follows: 2012 - $2,061,633; 2013 - $949,792; 2014 - $949,792; 2015 – $949,792; 2016 - $949,792 and thereafter - $2,124,195.

7. EMPLOYER CONTRIBUTIONS

Company contributions to the Plan are discretionary as determined by the Company's board of directors.

8. FAIR VALUE MEASUREMENTS

The requirements of *Fair Value Measurements and Disclosures of the Accounting Standards Codification (ASC)* apply to all financial instruments and all nonfinancial assets and nonfinancial liabilities that are being measured and reported on a fair value basis. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

8. FAIR VALUE MEASUREMENTS (continued)

ASC also establishes a fair value hierarchy that prioritizes the inputs used in valuation methodologies into the following three levels:

Level 1 fair value measurements:
Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 fair value measurements:
Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, or other inputs that can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 fair value measurements:
Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or other valuation techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

The following table represents assets reported on the Statement of Net Assets Available for Benefits at their fair value as of December 31, 2011 by level within the ASC fair value measurement hierarchy:

	Total Fair Value Measurement December 31,2011	Quoted Prices in Active Markets (Level 1)	Significant Unobservable Inputs (Level 3)
Sponsor Company Common Stock	$ 33,984,439	-	33,984,439
Other Investments	$ 2,180,856	2,180,856	-

The following methods and assumptions were used to estimate the fair values of the assets in the table above.

Level 1 fair value measurements:
The other investments were valued at the selling price as of December 31, 2011 for comparable securities on the exchanges at which these securities were traded.

Level 3 fair value measurements:
The fair market value for sponsor company common stock is based on an independent appraisal of the fair value of Guthrie & Huebner Company, Inc. common stock as of December 31, 2011.

The valuation technique was a blended valuation process using three basic approaches to value: the income approach, the market approach, and the cost approach.

The income approach measures the value of stock as the present value of its future economic benefits.

The market approach measures the value of stock through analysis of recent sales or offerings of guideline companies.

8. FAIR VALUE MEASUREMENTS (continued)

The cost approach measures the value of an asset by the cost to reconstruct or replace it with another or like utility.

The changes in level 3 fair value measurements are due to:

Net unrealized appreciation market value of Sponsor Company Common Stock	$	2,051,916
Acquisition of shares of Sponsor Company Common Stock		1,111,841
Change in Level 3 inputs	$	3,163,757

9. RECONCILATION OF FINANCIAL STATEMENTS TO FORM 5500
