NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description

The following description of Curbell, Inc. Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a Trusteed Profit Sharing 401(k) Salary Deferred Thrift Plan as permitted under Section 401(k) of the Internal Revenue Code (IRC). The Plan is funded by employer and participant contributions and covers substantially all employees of Curbell, Inc., Curbell Electronics, Inc., and Curbell Plastics, Inc. (collectively the Company). Employees are eligible to contribute a portion of their salary as of the first day of the month following thirty days of service and if they have attained the age of twenty-one years. Employees are eligible for an employer matching contribution as of January 1st, April 1st, July 1st, or October 1st following the completion of one year of service. This Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

Participants may elect to contribute a portion of their compensation to the Plan from 1% up to the maximum amount which will not cause the Plan to violate certain tests or exceed the maximum amount allowable as a deduction to the employer under Section 404 of the IRC. The employer contributes 50% of the participant's contribution. This employer matching contribution is limited to the first 6% of the participant's compensation.

The Board of Directors can determine an amount to be contributed on a discretionary basis to the profit sharing portion of the Plan. For each of the years ended December 31, 2011 and 2010, there was no discretionary profit sharing contribution to the Plan.

Participants' accounts:

Each participant's account is credited with the participant's contributions and allocations of a) the Company's contributions, b) the Plan's earnings, c) forfeitures, and charged with an amount for administrative expenses. Allocations are based on participant compensation levels or account balances, as defined.

Vesting:

Participants are immediately vested in their voluntary contributions and employer matching contributions plus actual earnings thereon. Vesting in the discretionary employer contribution portion of their accounts is based on years of continuous service. A participant is 100% vested, on a graduating basis, after six years of credited service.

A participant also becomes 100% vested if the Plan is terminated, the participant reaches age 65 while employed, or the participant retires, dies, or becomes disabled.

Note 1. Plan Description (Continued)

Notes receivable from participants:

Participants may borrow up to one-half of their vested account balance with a maximum borrowing amount of $50,000. Notes receivable from participants must be repaid within a five-year period, unless the loan is used for the purchase of the participant's principal residence. The notes receivable from participants include all participant notes activity including withdrawals, repayments and interest earned on amounts. The participant notes are secured by the participant's vested account balance and bear interest at rates ranging from 4.25% to 9.25%. Principal and interest is paid ratably through bi-weekly payroll deductions.

Payment of benefits:

Benefits are payable upon death, disability, retirement or termination of employment. A participant may elect to receive either a lump-sum amount or annuity equal to the value of his or her account. All or part of salary deferral contributions may be withdrawn if financial hardship exists.

Forfeited accounts:

Forfeitures of contributions not vested in participant accounts because of terminations are used for administration fees, to reduce employer contributions or are allocated to all active participants in the Plan on the last day of the Plan year. These amounts for the years ended December 31, 2011 and 2010 totaled $2,385 and $6,235, respectively. During 2011 and 2010, forfeited non-vested accounts of $95 and $3,476, respectively, were used to reduce employer matching contributions.

Administrative costs:

Administrative costs are paid by the Plan and the Plan Sponsor. The administration of the Plan is the responsibility of the Plan Sponsor and The Newport Group.

Note 2. Significant Accounting Policies

Basis of accounting:

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Note 2. Significant Accounting Policies (Continued)

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Payment of benefits:

Benefits are recorded when paid.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Subsequent events:

Subsequent events have been evaluated through September 7, 2012, which is the date the financial statements were available to be issued.

Note 3. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 4. Plan's Asset Information Certified by the Plan's Trustee

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Reliance Trust Company, the trustee, as complete and accurate, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule.

The following table represents the fair value of the assets in this Plan, certified by the trustee at December 31, 2011 and 2010. Single assets that represent more than 5% of the Plan's net assets available for benefits at either December 31, 2011 or 2010 are separately identified as follows:

Cash	$ 123	$ 88,751

The trustee has also certified to the completeness and accuracy of the following financial information for the years ended December 31, 2011 and 2010:

	2011	2010

Note 5. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e. the "exit price") in an orderly transaction between market participants at the measurement date. Accounting principles generally accepted in the United States of America establish a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access.

Level 2 – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Level 3 – Significant inputs to the valuation model are unobservable.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Money market funds are valued at fair value representing the closing price reported on the active market on which the individual security is traded.

The fair value of the common/collective trust fund is reported at approximate fair value based on the per unit value determined and reported by Union Bond and Trust Company, by reference to the fair value of the underlying assets of the fund.

Investments of registered investment companies include mutual funds that are reported at fair value based on quoted market prices of the funds, which represent the net asset value of the shares held by the Plan at year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2011 and 2010:

Note 6. Tax Status

The Plan is exempt from Federal income taxes under Section 401(a) of the IRC. The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
