We were engaged to audit the accompanying statements of net assets available for benefits of the KNI Group 401(k) and Profit Sharing Plan (the "Plan") as of December 31, 2011 and 2010, the related statements of changes in net assets available for benefits for the years then ended and the supplemental schedule of assets (held at end of year) as of December 31, 2011. These financial statements and supplemental schedule are the responsibility of the plan's management.

As permitted by 29 CFR Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Charles Schwab Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2011 and 2010 that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of the Plan

The accompanying financial statements include the net assets of the KNI Group 401(k) and Profit Sharing Plan (the "Plan") sponsored by Kearney-National, Inc. (the "Company") for its employees. The following description of the Plan provides only general information. Participants should refer to the Plan agreement or summary plan description for a more complete description of the Plan's provisions.

General

The Plan was originally established by Optek Technology, Inc. on May 1, 1985 as the Optek Technology 401(k) Plan. Effective May 1, 2001, the Kearney National Employee 401(k) and Profit Sharing Plan was merged into the Plan. On November 29, 2003, a new Optek Technology 401(k) Savings Plan was created and certain assets transferred from the old to the new plan. The old plan was taken over by Kearney-National, Inc. and renamed the KNI Group 401(k) and Profit Sharing Plan.

The Plan is a profit sharing plan with a cash or deferral arrangement available to qualifying employees of the Company. The Plan is intended to conform to and qualify under Section 401 and 501 of the Internal Revenue Code of 1986 ("IRC"), as amended. The Plan is subject to the provisions of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

Employees are eligible to participate in the Plan the first day of the payroll period on or after the day such employee has completed three months of eligible service, as defined in the Plan. To be eligible for profit sharing contributions, an employee must have completed at least one year of service. Classes of employees excluded from participation in the Plan include: (1) leased employees, (2) independent contractors and (3) non-common law employees.

Contributions

Participants may contribute up to 50% of their annual compensation, subject to certain limitations, with the contributions and earnings thereon being nontaxable until withdrawn from the Plan. Participants who have attained the age of 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans.

The Company will make matching contributions up to 100% for the first 1% and 50% for the next 5% of the employee pre-tax contribution that does not exceed 6% of the participant's compensation for each plan year.

The Company may elect to make a profit sharing contribution to employees within certain divisions that have completed one year of eligible service and are employed on December 31st of the plan year or have left employment during the year due to retirement, disability or death. Total profit sharing contributions for such divisions in a given calendar year are discretionary. Annually, participating divisions select a contribution percentage to apply to eligible compensation for all eligible employees within that division. If a participant entered the Plan on a date other than the first day of the plan year, the amount of compensation considered in determining that employee's profit sharing contribution is limited to the actual compensation received while participating in the Plan. The profit sharing contribution for the years ended December 31, 2011 and 2010 was $144,781 and $164,985, respectively.

Participants direct the investment of their contributions, employer matching contributions and employer profit sharing contributions into various investment options offered by the Plan. The Plan currently offers 14 mutual funds and one collective investment options for participants.

Participant Accounts

Each participant account is credited with the participant's contributions, the Company's contributions and an allocation of net plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon, as well as any rollover contributions. If a participant terminates employment for reasons other than retirement, death, or total and permanent disability, vesting in the Company's matching and profit sharing contributions shall be determined in accordance with the following schedule:

Periods of Service	Vested %
1	20%
2	40%
3	60%
4	80%
5 or more	100%

All employer contributions vest immediately upon a participant's death, disability, or attainment of the normal retirement age, as defined by the plan agreement.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1 to 5 years or up to 15 years for the purchase of a principal residence. The loans are secured by the balance in the participant's account and bear interest at the prime rate quoted in the Wall Street Journal on the day the loan is requested, plus 1%. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service due to death, disability, retirement or separation, a participant may elect to receive the vested account balance in a lump-sum distribution or direct rollover into another qualified plan or individual retirement account. For terminated participants' with account balances less than $5,000, the plan administrator may distribute the entire amount in a lump sum without the participant's consent.

In the event of financial hardship, as defined in the plan agreement, or where a participant has attained the age of 59½, a participant may elect, while still in the employment of the Company, to withdraw all or part of their vested balance. A participant may receive a hardship withdrawal only after obtaining the maximum number of loans to which they are entitled. Cases of financial hardship are reviewed and approved by the Recordkeeper in accordance with the applicable provisions of ERISA. A participant may elect at any time to withdraw amounts that were contributed to the Plan as a rollover contribution, subject to certain limitations in the plan agreement.

Forfeitures

Forfeitures from a participant's matching account will be used to pay Plan expenses or reduce matching and profit sharing contributions in the Plan year in which the forfeitures are determined to occur.

As of December 31, 2011 and 2010, forfeited non-vested amounts totaled $43,733 and $82,926, respectively. During 2011, forfeiture balances of $49,894 were used to fund employer matching contributions and employer plan expenses.

2. Summary of Significant Accounting Principles

Basis of Accounting

The accompanying financial statements have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value, as reported by the investment managers. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. Gains and losses on investments that were both bought and sold during the year are included in net appreciation or depreciation in fair value. Purchases and sales of investments are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

Contributions and Contribution Receivables

Contributions are recorded on the accrual method of accounting. Contribution receivables are obligations arising from amounts owed to the Plan from Participants or the Company that have not been included in the Plan's investments at year end. Contribution receivables are recorded at cost, which approximates their fair value.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan agreement.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

All plan expenses other than participant loan and in-service withdrawal charges are paid by the Company. The Plan was amended, effective as of July 1, 2008, to allow the Plan to charge a reasonable plan administrative expense to the accounts of terminated participants on a pro rata basis. Expenses will be based on the account balance of former employees receiving benefits from the Plan.

Subsequent Events

Subsequent events have been evaluated through August 17, 2012, which was the date the financial statements were available to be issued.

New Accounting Pronouncements

In May 2011, the FASB issued ASU No. 2011-04, "Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards." ASU 2011-04 was issued to provide a consistent definition of fair value and ensure that the fair value measurement and disclosure requirements are similar between U.S. GAAP and International Financial Reporting Standards. ASU 2011-04 changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. This pronouncement is effective for reporting periods beginning on or after December 15, 2011, with early adoption prohibited. The new guidance will require prospective application. The adoption of this pronouncement did not have a material impact on the Plan's financial statements.

3. Fair Value Measurements

Auditing Standards Codification 820 ("ASC 820"), "Fair Value Measurements" provides a framework for measuring all financial assets and liabilities disclosed at fair value in the financial statements on a recurring basis. ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date. ASC 820 also establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs – Unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 Inputs – Inputs other than quoted prices included in level 1 that are observable for the asset and liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability (for example, interest rates, volatilities, prepayment speeds, loss severities, credit risks and default rates) or inputs that are derived principally from or corroborated by observable market data by correlation or other means. Level 2 investments consist primarily of obligations of U.S. government sponsored enterprises and agencies, obligations of state and municipal subdivisions, corporate bonds and mortgage backed securities.

Level 3 Inputs – Significant unobservable inputs that reflect an entity's own assumptions that market participants would use in pricing the assets or liabilities.

In general, fair value is based upon quoted market prices, where available. If such quoted market prices are not available, fair value is based upon internally developed models that primarily use, as inputs, observable market-based parameters. Valuation adjustments may be made to ensure that financial instruments are recorded at fair value. While management believes the Plan's valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date. A description of the valuation methodologies used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below.

Valuation Techniques

Mutual funds. These investments are public investment vehicles using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

Common/collective investment trust. This investment is comprised of a non-benefit-responsive investment fund and a fully benefit-responsive investment contract. Investments in the non-benefit-responsive investment fund is valued based upon the quoted redemption value of units owned by the Plan at year end and are classified as Level 2 investments. The fully benefit-responsive investment contract is valued based on the market values of the underlying securities based on information reported by the trustee using the audited financial statements of the collective investment trust which are as of and for the year ended December 31, 2011. A synthetic Guaranteed Investment Contract is comprised of two components, an underlying asset and a "wrapper" contract. Wrapper contracts generally change the investment characteristics of underlying securities to those of guaranteed investment contracts. The wrapper contracts provide that benefit-responsive distributions for specific underlying securities may be withdrawn at contract or fair value. The fair value of the wrapper contract is based on observable inputs and therefore this investment is classified as a Level 2 investment.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2011 and 2010:

4. Investments (Unaudited)

The following table presents investments that represent five percent or more of the Plan's net assets available for benefits:

	December 31,	
	2011	2010
Gartmore Morley Stable Value Fund (contract value - $2,807,666 and $3,727,841, respectively)	**$ 2,877,745**	$ 3,800,161
PIMCO Total Return Fund	**2,389,478**	2,438,394

During 2011 and 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the period) (depreciated) appreciated in value as follows:

	Year Ended December 31,	
	2011	2010
Mutual funds	**$ (310,010)**	$ 767,872
Common/collective investment trust	**61,189**	81,287
Net (depreciation) appreciation in fair value of investments	**$ (248,821)**	$ 849,159

5. Information Certified by the Plan's Trustee

The Company has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the following information was certified by Charles Schwab Trust Company, Trustee of the Plan for the years ending December 31, 2011 and 2010. The Trustee certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate

	December 31,	
	2011	2010
Investments:		
Mutual funds	**$ 9,069,635**	$ 9,602,227
Common/collective investment trust	**2,807,666**	3,727,841

Interest and dividends	**220,665**	267,223
Total investment (loss) income	**$ (28,156)**	$ 1,116,382

6. Investment Common/Collective Investment Trust

The Plan through its investment in the common/collective investment trust fund has fully benefit-responsive investment contracts issued by insurance companies and other institutions. The fund's Trustee maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The common/collective trust fund is included in the financial statements at fair value and then adjusted to contract value as reported to the Plan by the Trustee. Contract value represents contributions made to the Fund, plus earnings, less participant withdrawals and administrative expenses. There are no reserves against contract value for credit risk of the contract issuer or otherwise. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Plan management believes that the occurrence of events that would cause the Plan to transact at less than contract value is remote.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in the Company matching and profit sharing portions of their accounts.

8. Income Tax Status

The Internal Revenue Service has determined and informed the Plan Committee, in a letter dated February 4, 2004, that the Plan is qualified and the trust established under the Plan is tax-exempt under the appropriate sections of the IRC. The plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and has been operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

9. Related Party Transactions

As of December 31, 2011 and 2010, the Charles Schwab Trust Company is acting as the Trustee, and Milliman, Inc. is acting as Plan record keeper and provides investment management advice to the Plan Administrator in connection with investments of funds held by and made pursuant to the Plan. Certain Plan investments are shares of mutual funds managed by the Trustee; therefore, those investments qualify as party-in-interest transactions. Transactions with respect to participant loans also qualify as party-in-interest transactions.

10. Risks and Uncertainties

The Plan invests in various securities that are exposed to various risks, such as interest rate, credit and market risks. Due to the level of risk associated with certain investment securities, it is reasonably possible, that changes in the values of investment securities will occur in the near term that could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Independent Auditor's Report

Plan Committee
KNI Group 401(k) and Profit Sharing Plan

We were engaged to audit the accompanying statements of net assets available for benefits of the KNI Group 401(k) and Profit Sharing Plan (the "Plan") as of December 31, 2011 and 2010, the related statements of changes in net assets available for benefits for the years then ended and the supplemental schedule of assets (held at end of year) as of December 31, 2011. These financial statements and supplemental schedule are the responsibility of the plan's management.

As permitted by 29 CFR Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Charles Schwab Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2011 and 2010 that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of the Plan

The accompanying financial statements include the net assets of the KNI Group 401(k) and Profit Sharing Plan (the "Plan") sponsored by Kearney-National, Inc. (the "Company") for its employees. The following description of the Plan provides only general information. Participants should refer to the Plan agreement or summary plan description for a more complete description of the Plan's provisions.

General

The Plan was originally established by Optek Technology, Inc. on May 1, 1985 as the Optek Technology 401(k) Plan. Effective May 1, 2001, the Kearney National Employee 401(k) and Profit Sharing Plan was merged into the Plan. On November 29, 2003, a new Optek Technology 401(k) Savings Plan was created and certain assets transferred from the old to the new plan. The old plan was taken over by Kearney-National, Inc. and renamed the KNI Group 401(k) and Profit Sharing Plan.

The Plan is a profit sharing plan with a cash or deferral arrangement available to qualifying employees of the Company. The Plan is intended to conform to and qualify under Section 401 and 501 of the Internal Revenue Code of 1986 ("IRC"), as amended. The Plan is subject to the provisions of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

Employees are eligible to participate in the Plan the first day of the payroll period on or after the day such employee has completed three months of eligible service, as defined in the Plan. To be eligible for profit sharing contributions, an employee must have completed at least one year of service. Classes of employees excluded from participation in the Plan include: (1) leased employees, (2) independent contractors and (3) non-common law employees.

Contributions

Participants may contribute up to 50% of their annual compensation, subject to certain limitations, with the contributions and earnings thereon being nontaxable until withdrawn from the Plan. Participants who have attained the age of 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans.

The Company will make matching contributions up to 100% for the first 1% and 50% for the next 5% of the employee pre-tax contribution that does not exceed 6% of the participant's compensation for each plan year.

The Company may elect to make a profit sharing contribution to employees within certain divisions that have completed one year of eligible service and are employed on December 31st of the plan year or have left employment during the year due to retirement, disability or death. Total profit sharing contributions for such divisions in a given calendar year are discretionary. Annually, participating divisions select a contribution percentage to apply to eligible compensation for all eligible employees within that division. If a participant entered the Plan on a date other than the first day of the plan year, the amount of compensation considered in determining that employee's profit sharing contribution is limited to the actual compensation received while participating in the Plan. The profit sharing contribution for the years ended December 31, 2011 and 2010 was $144,781 and $164,985, respectively.

Participants direct the investment of their contributions, employer matching contributions and employer profit sharing contributions into various investment options offered by the Plan. The Plan currently offers 14 mutual funds and one collective investment options for participants.

Participant Accounts

Each participant account is credited with the participant's contributions, the Company's contributions and an allocation of net plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon, as well as any rollover contributions. If a participant terminates employment for reasons other than retirement, death, or total and permanent disability, vesting in the Company's matching and profit sharing contributions shall be determined in accordance with the following schedule:

Periods of Service	Vested %
1	20%
2	40%
3	60%
4	80%
5 or more	100%

All employer contributions vest immediately upon a participant's death, disability, or attainment of the normal retirement age, as defined by the plan agreement.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1 to 5 years or up to 15 years for the purchase of a principal residence. The loans are secured by the balance in the participant's account and bear interest at the prime rate quoted in the Wall Street Journal on the day the loan is requested, plus 1%. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service due to death, disability, retirement or separation, a participant may elect to receive the vested account balance in a lump-sum distribution or direct rollover into another qualified plan or individual retirement account. For terminated participants' with account balances less than $5,000, the plan administrator may distribute the entire amount in a lump sum without the participant's consent.

In the event of financial hardship, as defined in the plan agreement, or where a participant has attained the age of 59½, a participant may elect, while still in the employment of the Company, to withdraw all or part of their vested balance. A participant may receive a hardship withdrawal only after obtaining the maximum number of loans to which they are entitled. Cases of financial hardship are reviewed and approved by the Recordkeeper in accordance with the applicable provisions of ERISA. A participant may elect at any time to withdraw amounts that were contributed to the Plan as a rollover contribution, subject to certain limitations in the plan agreement.

Forfeitures

Forfeitures from a participant's matching account will be used to pay Plan expenses or reduce matching and profit sharing contributions in the Plan year in which the forfeitures are determined to occur.

As of December 31, 2011 and 2010, forfeited non-vested amounts totaled $43,733 and $82,926, respectively. During 2011, forfeiture balances of $49,894 were used to fund employer matching contributions and employer plan expenses.

2. Summary of Significant Accounting Principles

Basis of Accounting

The accompanying financial statements have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value, as reported by the investment managers. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. Gains and losses on investments that were both bought and sold during the year are included in net appreciation or depreciation in fair value. Purchases and sales of investments are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

Contributions and Contribution Receivables

Contributions are recorded on the accrual method of accounting. Contribution receivables are obligations arising from amounts owed to the Plan from Participants or the Company that have not been included in the Plan's investments at year end. Contribution receivables are recorded at cost, which approximates their fair value.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan agreement.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

All plan expenses other than participant loan and in-service withdrawal charges are paid by the Company. The Plan was amended, effective as of July 1, 2008, to allow the Plan to charge a reasonable plan administrative expense to the accounts of terminated participants on a pro rata basis. Expenses will be based on the account balance of former employees receiving benefits from the Plan.

Subsequent Events

Subsequent events have been evaluated through August 17, 2012, which was the date the financial statements were available to be issued.

New Accounting Pronouncements

In May 2011, the FASB issued ASU No. 2011-04, "Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards." ASU 2011-04 was issued to provide a consistent definition of fair value and ensure that the fair value measurement and disclosure requirements are similar between U.S. GAAP and International Financial Reporting Standards. ASU 2011-04 changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. This pronouncement is effective for reporting periods beginning on or after December 15, 2011, with early adoption prohibited. The new guidance will require prospective application. The adoption of this pronouncement did not have a material impact on the Plan's financial statements.

3. Fair Value Measurements

Auditing Standards Codification 820 ("ASC 820"), "Fair Value Measurements" provides a framework for measuring all financial assets and liabilities disclosed at fair value in the financial statements on a recurring basis. ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date. ASC 820 also establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs – Unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 Inputs – Inputs other than quoted prices included in level 1 that are observable for the asset and liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability (for example, interest rates, volatilities, prepayment speeds, loss severities, credit risks and default rates) or inputs that are derived principally from or corroborated by observable market data by correlation or other means. Level 2 investments consist primarily of obligations of U.S. government sponsored enterprises and agencies, obligations of state and municipal subdivisions, corporate bonds and mortgage backed securities.

Level 3 Inputs – Significant unobservable inputs that reflect an entity's own assumptions that market participants would use in pricing the assets or liabilities.

In general, fair value is based upon quoted market prices, where available. If such quoted market prices are not available, fair value is based upon internally developed models that primarily use, as inputs, observable market-based parameters. Valuation adjustments may be made to ensure that financial instruments are recorded at fair value. While management believes the Plan's valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date. A description of the valuation methodologies used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below.

Valuation Techniques

Mutual funds. These investments are public investment vehicles using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

Common/collective investment trust. This investment is comprised of a non-benefit-responsive investment fund and a fully benefit-responsive investment contract. Investments in the non-benefit-responsive investment fund is valued based upon the quoted redemption value of units owned by the Plan at year end and are classified as Level 2 investments. The fully benefit-responsive investment contract is valued based on the market values of the underlying securities based on information reported by the trustee using the audited financial statements of the collective investment trust which are as of and for the year ended December 31, 2011. A synthetic Guaranteed Investment Contract is comprised of two components, an underlying asset and a "wrapper" contract. Wrapper contracts generally change the investment characteristics of underlying securities to those of guaranteed investment contracts. The wrapper contracts provide that benefit-responsive distributions for specific underlying securities may be withdrawn at contract or fair value. The fair value of the wrapper contract is based on observable inputs and therefore this investment is classified as a Level 2 investment.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2011 and 2010:

4. Investments (Unaudited)

The following table presents investments that represent five percent or more of the Plan's net assets available for benefits:

	December 31,	
	2011	2010
Gartmore Morley Stable Value Fund (contract value - $2,807,666 and $3,727,841, respectively)	**$ 2,877,745**	$ 3,800,161

5. Information Certified by the Plan's Trustee

The Company has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the following information was certified by Charles Schwab Trust Company, Trustee of the Plan for the years ending December 31, 2011 and 2010. The Trustee certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate

	December 31,	
	2011	2010
Investments:		
Mutual funds	**$ 9,069,635**	$ 9,602,227
Common/collective investment trust	**2,807,666**	3,727,841

Interest and dividends	**220,665**	267,223
Total investment (loss) income	**$ (28,156)**	$ 1,116,382

6. Investment Common/Collective Investment Trust

The Plan through its investment in the common/collective investment trust fund has fully benefit-responsive investment contracts issued by insurance companies and other institutions. The fund's Trustee maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The common/collective trust fund is included in the financial statements at fair value and then adjusted to contract value as reported to the Plan by the Trustee. Contract value represents contributions made to the Fund, plus earnings, less participant withdrawals and administrative expenses. There are no reserves against contract value for credit risk of the contract issuer or otherwise. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Plan management believes that the occurrence of events that would cause the Plan to transact at less than contract value is remote.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in the Company matching and profit sharing portions of their accounts.

8. Income Tax Status

The Internal Revenue Service has determined and informed the Plan Committee, in a letter dated February 4, 2004, that the Plan is qualified and the trust established under the Plan is tax-exempt under the appropriate sections of the IRC. The plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and has been operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

9. Related Party Transactions

As of December 31, 2011 and 2010, the Charles Schwab Trust Company is acting as the Trustee, and Milliman, Inc. is acting as Plan record keeper and provides investment management advice to the Plan Administrator in connection with investments of funds held by and made pursuant to the Plan. Certain Plan investments are shares of mutual funds managed by the Trustee; therefore, those investments qualify as party-in-interest transactions. Transactions with respect to participant loans also qualify as party-in-interest transactions.

10. Risks and Uncertainties

The Plan invests in various securities that are exposed to various risks, such as interest rate, credit and market risks. Due to the level of risk associated with certain investment securities, it is reasonably possible, that changes in the values of investment securities will occur in the near term that could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.
