NOTES TO FINANCIAL STATEMENTS
December 31, 2011

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Twin Med, LLC Retirement Savings Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established in 2010 for the benefit of all full-time and part-time employees of Twin Med, LLC (the “Company”). The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (“IRC”) and similar state tax laws. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Eligibility

Employees of the Company who have reached 21 years of age and have completed three months of service are eligible to participate in the Plan.

Employee Contributions

Each year, participants may make contributions of pretax annual compensation, not to exceed elective deferral limits imposed by the Internal Revenue Service (“IRS”), as defined by the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also rollover amounts representing distributions from other qualified defined benefit or contribution plans. Contributions are subject to certain limitations, as defined in the Plan.

Employer Contributions

Each year, the Company may make matching contributions equal to a discretionary percentage of the participant's salary deferrals. The Company did not make any discretionary matching contributions for the years ended December 31, 2011 and 2010.

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions, rollovers from qualified plans of the participant's previous employers, and allocations of the Plan's earnings and administrative expenses. Each participant's account is credited with the participant's contributions. Plan earnings are allocated based on participant account balances, as defined.

Investment Elections

Participants must direct their salary deferral contributions to selected investments as made available and determined by the Plan Administrator. Participants may change their investment options any time throughout the year via the Internet website or using the automated telephone system offered by the trustee.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Vesting

Participants are immediately vested in their salary deferral contributions, plus actual earnings thereon. The portion of the participant's account attributable to the Company's matching contributions plus actual earnings, becomes 33% vested every year following a full year of service as defined, and continues to vest at the rate of 33% for each successive year of service until 100% vested after three (3) years of service.

Notes from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined by the Plan Administrator. Loan terms shall not exceed five years, unless the loan is used to purchase a principal residence. Principal and interest is paid ratably through regular payroll deductions.

Benefit Payments

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments over a specified period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution or roll over the amount into another qualified benefit plan.

Administrative Expenses

Administrative expenses are paid directly by the Company, except loan fees which are paid directly by participants with loans.

Forfeitures

Participant accounts are forfeited if the employer contribution portion has not fully vested at the time of withdrawal. These amounts may be utilized to reduce employer contributions.

Subsequent Events

Effective January 1, 2012, the Plan adopted an automatic deferral feature whereby the employer will withhold 3% of compensation. The automatic deferral provisions apply to employees whose entry date is on or following the effective date.

The Plan Administrator has evaluated all subsequent events through August 22, 2012, the date the financial statements were available to be issued, and concluded that no other subsequent events have occurred that would require recognition in the financial statements or disclosure in the notes to the financial statements.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan are prepared under the accrual method of accounting and include only the assets, liabilities, and changes in net assets of the Plan, in conformity with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or would be paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements. Participant loans receivable are reported at cost, which approximates fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Payment of Benefits

Benefit payments to participants are recorded upon distribution. As of December 31, 2011 and 2010, there were no benefits payable to participants who elected to withdraw from the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Recently Issued Accounting Pronouncement

In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRS* ("ASU 2011-04"). ASU 2011-04 amended Accounting Standards Codification 820, *Fair Value Measurements and Disclosures* ("ASC 820"), to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provision of ASU 2011-04 will have on the Plan's financial statements.

NOTE 3 – INVESTMENT INFORMATION CERTIFIED BY THE TRUSTEE

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Great-West Life & Annuity Insurance Company, the trustee of the Plan, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule.

The following table presents the fair value of the participant-directed investments in this Plan that was certified by the trustee as of December 31, 2011 and 2010:

* Denotes single assets representing more than 5% of the Plan's net assets available for benefits as of December 31, 2011 and 2010.

The trustee also certified the completeness and accuracy of \$4,768 of net depreciation in the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) and \$1,006 of interest income related to the aforementioned Plan assets for the year ended December 31, 2011. The Plan's interest income consists of \$487 attributable to the interest on the guaranteed portfolio fund and \$519 attributable to pooled separate accounts. The net depreciation in investments is attributed entirely to the pooled separate accounts.

NOTE 4 – FAIR VALUE MEASUREMENTS

FASB Accounting Standards Codification Topic No. 820, *Fair Value Measurements and Disclosures* ("ASC 820"), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following are descriptions of the valuation methodologies used for assets measured at fair value.

Guaranteed portfolio fund: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer.

Pooled separate accounts: Valued at the net asset value ("NAV") of shares/units held by the Plan at year end. Pooled separate accounts do not have publicly-quoted prices in an active market.

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

Assets at Fair Value as of December 31, 2011

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2011:

	Guaranteed Portfolio Fund
Balance, beginning of year	\$ 10,866
Issuances and settlements, net	21,281
Interest income	487
Balance, end of year	<u>\$ 32,634</u>

NOTE 5 – FULLY BENEFIT RESPONSIVE INVESTMENT CONTRACT

The Plan maintains an investment in a guaranteed portfolio fund (Key Guaranteed Portfolio Fund) with Great-West Life & Annuity Insurance Company ("Great-West"), which is determined to be fully-benefit responsive. The contract is included in the financial statement at fair value as reported to the Plan by Great-West. Great-West maintains the contribution in a general account. The account is not a traditional guaranteed investment contract and therefore there are no known cash flows that could be discounted. As a result, the fair value amount is equal to the contract value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2011 and 2010 was \$32,634 and \$10,866, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1.5%. Such interest rates are reviewed on a daily basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

There are not any events that allow the issuer to terminate the contract or that require the Plan Sponsor to settle at an amount different than the contract value paid either within 90 days or over time.

NOTE 6 – TAX STATUS

The Plan Administrator adopted a non-standardized form of a prototype plan sponsored by Orchard Trust Company. The prototype non-standardized plan has received an opinion letter from the Internal Revenue Service on March 31, 2008, as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by the Plan Administrator. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the trustee believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE 7 – ACCOUNTING FOR UNCERTAINTY IN INCOME TAXES

The Financial Accounting Standards Board issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2011. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2008.

NOTE 8 – RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Great-West. Great-West is the trustee of the Plan, and therefore, these transactions qualify as "party-in-interest" transactions permitted by the Department of Labor's Rules and Regulations. The Plan Sponsor is also a party-in-interest with respect to the Plan.

NOTE 9 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Plan Sponsor, by action of its Plan Administration, has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination of the Plan, further contributions to the Plan shall cease and all participants who are affected by such termination shall become 100% vested. Net assets available for benefits would be distributed to the participants based on each participant's interest in the Plan.

NOTE 10 – RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 11 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2011 and 2010 to Form 5500:
