PURCELL SYSTEMS 401(k) PLAN NOTES TO FINANCIAL STATEMENTS

Note 1 – Plan Description

The following description of the Purcell Systems 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement, as amended, for a more complete description of Plan provisions.

General – The Plan is a participant-directed, defined contribution plan qualifying as a salary reduction plan covering substantially all employees of Purcell Systems, Inc. (Company) and is subject to provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Company is the Plan's sponsor and serves as Plan administrator.

Eligibility – Employees of the Company are eligible for salary deferral contributions after attaining the age of 21 on the first of the month following their date of hire. Employees are eligible for safe harbor matching contributions after completing three months of service. Employees are eligible for discretionary profit sharing if the employee works 1,000 hours during the Plan year and is employed on the last day of the Plan year.

Contributions – Participation in the Plan is voluntary. Each year, participants may elect to contribute 1% to 75% of eligible compensation up to the maximum allowable under current Internal Revenue Service limits. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants may direct the investment of their account balances into various investment options offered by the Plan. The Plan currently offers various mutual funds and a collective investment trust as investment options for participants. The Company provides for a safe harbor matching contribution in which the Company matches 100% of the employees' deferral rate up to 3% of employee compensation and 50% of the employees' deferral rates that are above 3% but less than 5% as defined in the Plan. The Plan also allows for employer discretionary matching and profit sharing contributions. During 2011, there were no employer discretionary contributions. Contributions are subject to regulatory limitations.

Participant accounts – Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTES TO FINANCIAL STATEMENTS

Note 1 – Plan Description (continued)

Vesting – Participants are fully vested in their salary deferrals and employer safe harbor matching contributions plus actual earnings thereon. Vesting in the Company’s discretionary match and profit sharing contributions are based on years of service according to the following schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
1	20%
2	40%
3	60%
4	80%
5	100%

Notes receivable from participants – Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Notes are secured by the balance of the participant’s account and bear fixed, reasonable rates of interest as determined by the Plan administrator. The maximum note term is five years unless the note term qualifies as a home loan, in which case the term of the note may not exceed ten years. Principal and interest are paid ratably through payroll deductions. As of December 31, 2011, the rate of interest on all outstanding notes receivable ranged from 3.25% to 9.25% with various maturities through September 2016.

Payment of benefits – On termination of service due to death, disability, or retirement, a participant may elect to receive a lump sum amount. For termination of service for other reasons, a participant may receive the value as the vested interest in his or her account.

Forfeitures – The forfeited balances of terminated participants’ nonvested accounts will be used to offset future employer contributions or pay Plan expenses. At December 31, 2011 and 2010, there were \$4,399 and \$3,799, respectively, of available forfeitures. There was \$225 of forfeitures used to pay Plan expenses for the year ended December 31, 2011.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

PURCELL SYSTEMS 401(k) PLAN NOTES TO FINANCIAL STATEMENTS

Note 2 – Summary of Significant Accounting Policies (continued)

Use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation – Investments are stated at fair value as certified by the Plan's trustee, Fidelity Management Trust Company.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (i.e., the exit price) in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net depreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

Payment of benefits – Benefits are recorded when paid.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based on the terms of the Plan document.

Expenses – Administrative expenses are paid by the Company. Certain transaction fees are paid by the Plan.

NOTES TO FINANCIAL STATEMENTS

Note 2 – Summary of Significant Accounting Policies (continued)

Recent accounting pronouncements – In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2010-06, *Fair Value Measurements and Disclosures (Topic 820) – Improving Disclosures about Fair Value Measurements*. The guidance, which was effective for reporting periods beginning after December 15, 2009, required additional disclosures about transfers between levels within the fair value hierarchy, and clarified existing disclosure requirements regarding classes of assets and liabilities measured at fair value. Additional guidance that is effective for reporting periods beginning after December 15, 2010, requires the Plan to present information about purchases, sales, issuances, and settlements on a gross basis in the reconciliation of the beginning and ending balance of Level 3 fair value measurements. The Plan adopted the Level 3 reconciliation disclosures effective January 1, 2011.

In May 2011, the FASB issued ASU 2011-04, *Fair Value Measurement (Topic 820) - Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU 2011-04 requires disclosure of valuation techniques for Level 2 and Level 3 measurements and for Level 3 measurements requires disclosure of valuation processes used by the reporting entity and quantitative information about significant unobservable inputs. ASU 2011-04 removes the requirement for nonpublic companies to disclose information about transfers between Level 1 and Level 2 of the fair value hierarchy. The new guidance is effective for reporting periods beginning after December 15, 2011. Plan management does not expect the adoption of ASU 2011-04 to have a material effect on the statements of net assets available for benefits and statement of changes in net assets available for benefits.

Subsequent events – Subsequent events are events or transactions that occur after the date of the statement of net assets available for benefits but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the date of the statement of net assets available for benefits and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through September 5, 2012, which is the date the financial statements are available to be issued.

Mutual funds	<u><u>\$ (277,503)</u></u>
--------------	----------------------------

Note 4 – Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets the Plan has the ability to access.
- Level 2** Quoted prices in markets that are not considered to be active or financial instruments without quoted market prices, but for which all significant inputs are observable, either directly or indirectly.

PURCELL SYSTEMS 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

Note 4 – Fair Value Measurements (continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Registered investment companies (mutual funds) – Valued at the net asset value (NAV) of shares held by the Plan at year end using prices quoted by the relevant pricing agent.

Collective investment trust – Units held in the collective investment trust are valued at the stable net asset value (NAV) of \$1.00 per unit, although there is no guarantee that Fidelity Advisor Stable Value Fund (Fund) will be able to maintain this value. Independent pricing services are used to value the investments. Accordingly, the unit value for a collective investment is classified within Level 2 of the valuation hierarchy.

The Plan has investments in the Fund, which is a collective investment trust designed to provide a competitive level of income over time that is consistent with the preservation of capital. To achieve its investment objective, the Fund invests in assets (typically fixed-income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements) and enters into "wrap" contracts issued by third-parties and invests in cash equivalents represented by shares in money market funds. The Fund holds guaranteed investment contracts, which typically have a fixed maturity. Each contract contains a provision stating the issuer will, if required, repay principal at the stated contract value for the purpose of paying benefit payments (fully benefit-responsive). The fund has no redemption restrictions.

The Fund is presented at fair value on the statements of net assets available for benefits. The adjustment from fair value to contract value is based on the contract value as reported by Fidelity Management Trust Company (which represents contributions made under the contracts, plus earnings, less withdrawals and administrative expenses).

Note 5 – Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 5 – Tax Status (continued)

PURCELL SYSTEMS 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

In accordance with guidance on accounting for uncertainty in income taxes, ASC 740-10, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements.

Note 6 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit. It is reasonably possible, given the level of risk associated with investment securities, that changes in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

Note 7 – Information Certified by the Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, trustee of the Plan, has certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2011 and 2010.
- Net depreciation in fair value of investments, dividends and interest, and interest income on notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2011.
- Amounts included as mutual funds, the collective investment trust, and participant loans reflected in the supplementary schedule of assets (held at end of year).

Note 8 – Party in Interest Transactions

Certain Plan investments are shares of mutual funds managed by Fidelity Investments. Fidelity Management Trust Company is the trustee and affiliate of Fidelity Investments, and therefore, transactions with these entities qualify as exempt party in interest transactions. The Plan holds notes receivable from participants, which also qualify as party in interest transactions.

PURCELL SYSTEMS 401(k) PLAN NOTES TO FINANCIAL STATEMENTS

Note 9 – Plan Termination

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time. If the Plan is terminated, amounts allocated to a participant's account become fully vested.
