INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of
The Larson Fruit Company 401(k) Plan

We were engaged to audit the financial statements of Larson Fruit Company 401(k) Plan as of December 31, 2011 and 2010, and for the years then ended, and the supplemental schedule as of and for the year ended December 31, 2011, as listed in the accompanying index. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note D, which was certified by Benefit Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2011 and 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Larson Fruit Company 401(k) Plan
Notes to Financial Statements

NOTE A - DESCRIPTION OF OPERATIONS

The following description of the Larson Fruit Company 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Plan Year - As of August 1, 2007 the Plan year was changed from a fiscal year ending July 31 to a calendar year.

General - The Plan is a defined contribution plan covering all full-time employees of Larson Fruit Company (the Company) except for collective bargaining employees, leased employees and hourly paid ranch employees. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 (ERISA).

Eligibility - An employee becomes eligible to participate after one year of employment. Participation begins on the first day of the plan year quarter following the date the employee becomes eligible, if the employee continues to satisfy the eligibility requirements.

Contributions - Beginning in 1999, the Plan provides for contributions to be made for electing employees under a salary reduction agreement. The Company makes a matching contribution of 50% of the first 4% of a participant's contribution to a maximum of 2% of the participant's compensation. A participant may elect to defer a percentage of their compensation but their deferrals cannot exceed \$16,500 for the calendar years ended December 31, 2011 and 2010. Participants have the right to direct the trustee with respect to the investment of assets comprising the participant's individual account among the investment fund options made available to the participant by the plan administrator.

Vesting - Participants are immediately vested in their voluntary deductible contributions plus earnings thereon. Vesting on the remainder of their account is based on years of continuous service. A participant is 0% vested the first two years then 20% vested per year thereafter. A participant is 100% vested after six years of credited service. Additionally, participant accounts become fully vested upon reaching retirement age, retirement due to total or permanent disability, or upon death.

NOTE A - DESCRIPTION OF OPERATIONS (Continued)

Participant Accounts. Each participant's account is credited with the Company's contribution, the participant's contribution, and Plan earnings. Allocations of earnings are based on the Net Asset Value of the mutual fund the participant has invested in.

Payment of Benefits - On termination of service due to death, disability, or retirement, a participant or beneficiary may elect to receive an amount equal to the value of the vested interest in his or her account in either a lump-sum amount, or in annual installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution or elect to roll over the distribution to another retirement plan. If the participant fails to make an affirmative election, then amounts under \$1,000 will be automatically distributed to them.

Participant Loans. Participant loans are not permitted.

Forfeitures - Forfeitures of a terminated participant's non-vested account are offset against the Company's annual contributions. For the years ended December 31, 2011 and 2010 the Plan had forfeitures of \$0 and \$355 respectively.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation - The financial statements of the Plan are presented on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Payment of Benefits - Benefits are recorded when paid.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurement. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's unrealized gains and losses on investments held at the end of the year.

Operating Expenses - Significant costs of plan administration are paid by the Plan but are allowed to be reduced by the Plan's forfeiture account.

Subsequent Events - Management has evaluated subsequent events through September 18, 2012 the date the financial statements were available to be issued.

NOTE C - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments.

Larson Fruit Company 401(k) Plan
Notes to Financial Statements

NOTE C - FAIR VALUE MEASUREMENTS (Continued)

When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 or Level 3 inputs were available to the Plan.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

NOTE F - PLAN TERMINATION

Although the Company has not expressed any intent to discontinue the Plan, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). In the event of Plan termination, participants immediately become 100% vested in their accounts.

NOTE G - INCOME TAX STATUS

The Plan obtained its latest determination letter on August 30, 2001, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan's Federal income tax return for the years ended December 31, 2008 and prior is no longer subject to examination by the Internal Revenue Service.

NOTE H - RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
