JET LITHOCOLOR, INC. EMPLOYEES 401(k) PLAN

Notes to Financial Statements

April 30, 2012 and 2011

NOTE 1 - DESCRIPTION OF PLAN

The following description of **Jet LithoColor, Inc. Employees 401(k) Plan** provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 401(k) Plan covering substantially all employees of the Company. It is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Eligible participants are automatically enrolled in the Plan with 2% of Plan compensation withheld as salary deferral. Participants may modify the deferral amount or decline to defer under the Plan by entering into a salary reduction agreement with the employer. The employee may elect to save up to 50% of defined compensation and up to 100% of any bonus payments. The Company may make a discretionary contribution each year. Contributions may be subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings and charged with an allocation of applicable administrative expenses. Allocations are based on participant earnings or account balances as defined. Each participant self directs their individual account in various fund company investments. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are 100% vested at all times in their deferral accounts. For the Company's contributions the vesting schedule is as follows; 0% for less than 2 years, 20% for 2 years, 40% for 3 years, 60% for 4 years, 80% for 5 years and 100% for 6 or more years of service.

Forfeited Accounts

At April 30, 2012 and 2011, forfeited non-vested accounts totaled \$1,000 and \$3,184, respectively. These accounts will be used to reduce future employer contributions or to pay plan expenses. Also, for the year ended April 30, 2012, employer contributions were reduced by \$3,184 from forfeited non-vested accounts. No forfeitures were used to pay Plan expenses for the year ended April 30, 2012.

Payment of Benefits

Benefits are recorded when paid. On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of his or her account, or delay receipt of payment, if the vested account balance is greater than \$5,000.

Participant Loans

Participants may borrow from their fund account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 5.25% to 10.25%, which are commensurate with local prevailing rates as determined quarterly by the Plan's management. Principal and interest are paid ratably through weekly payroll deductions. Participant loans are reported at unpaid principal balance. Delinquent loans are classified as distributions based upon the terms of the Plan document.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Operating Expenses

The employer pays a portion of the administrative expenses of the Plan.

Subsequent Events

The Plan has evaluated subsequent events through September 6, 2012, the date the financial statements were available to be issued.

NOTE 4 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	<p>Inputs to the valuation methodology include -</p> <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the asset or liability;• inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at April 30, 2012 and 2011.

Mutual Funds

Valued at the net asset value (NAV) of shares held by the Plan at year end.

Common Collective Trust

Valued at the net asset value (NAV) of the underlying assets of the fund held by the Plan at year end.

NOTE 4 - FAIR VALUE MEASUREMENTS (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of April 30, 2012 and 2011:

<i>Assets at Fair Value as of April 30, 2012</i>

NOTE 5 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 6 - TAX STATUS

The IRS has determined and informed the Company that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan's management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

NOTE 6 - TAX STATUS (continued)

Accounting principles generally accepted in the United States of America require the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's management believes it is no longer subject to income tax examinations for years prior to April 30, 2009.

NOTE 7 - CERTIFICATION

We have been informed by the Plan's management that MG Trust Company, LLC held the Plan's investment assets and executed investment transactions as of April 30, 2012 and for the period May 1, 2011 to April 30, 2012, and that Central Bank and Trust Co. held the Plan's investment assets and executed investment transactions as of April 30, 2011 and for the period May 1, 2010 to April 30, 2011. The certifications apply to all assets except receivables. The common collective trust is certified at contract value. The investment income reported in the Statements of Changes in Net Assets Available for Benefits for the years ended April 30, 2012 and 2011 was certified by MG Trust Company, LLC and Central Bank and Trust Co., respectively.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
