401(k) PLAN

Notes to Financial Statements
Years Ended December 31, 2011 and 2010

Note 1 – Description of Plan

The following description of the P.T. Services Rehabilitation, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General

The Plan, as amended effective September 1, 2009, was adopted by the P.T. Services Rehabilitation, Inc. (the Company, Plan Sponsor and Plan administrator). The Plan is a defined contribution plan covering substantially all employees of the Company and related employers of the Company, as defined in the Plan document, who are age 18 or older and have worked one year of eligible service, with a minimum of 1,000 hours worked in that year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's matching contributions, and an allocation of Plan earnings (losses). The allocation of Plan earnings (losses) is based on participant account balances, as defined. Participants direct the investment of their account balances among the investment funds offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the vested value of the participant's account.

Notes Receivable from Participants

Participants may borrow from their accounts up to a maximum equal to the lesser of \$50,000, reduced by the excess, if any, of the highest outstanding balance of any other loan from the Plan during the preceding twelve-month period, or 50% of their vested account balance. The loans are secured by the balance in the participant's account. Participants should refer to the Plan agreement for a complete description of loan provisions.

Contributions

Participants may elect to defer between 1% and 60% of their gross annual earnings, up to the maximum permitted under applicable laws. Participants who have attained age 50 or older by the end of the Plan year are eligible to make catch up contributions.

The Company may make discretionary matching contributions to Plan participants at the discretion of the Plan's management. During 2011 and 2010, the Company provided matching contributions equal to 50% of the first 6% of compensation deferred. In addition, the Company may make a discretionary non-elective contribution, as further defined in the Plan document. No discretionary non-elective contributions were made in 2011 and 2010.

Note 1 – Description of Plan (continued)

Payment of Benefits

Participants become eligible to withdraw savings from their accounts upon retirement, disability, death, or termination of employment. In-service withdrawals, including hardship withdrawals, are allowed from participant accounts, as further defined in the Plan document. Withdrawals are paid in a lump sum payment equal to the vested value of the participant's account.

Vesting

Participants are immediately vested in their contributions, as well as any non-elective Company contributions, plus actual earnings (losses) thereon. Vesting in the Company matching contribution portion of their accounts plus actual (losses) earnings thereon is based on years of service. Participants are 20% vested after 2 years of service and 100% vested after 3 years of service.

Forfeitures

Forfeited balances of terminated participant's non-vested accounts are used to reduce future Company contributions. Effective September 1, 2009 forfeitures are used first to pay Plan administrative expenses or to reduce further Company contributions as directed by the Company. During the year ended December 31, 2011 and 2010, forfeitures in the amount of approximately \$200 and \$12,960 were used to reduce Company contributions.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the ERISA. In the event of Plan termination, participants become fully vested in the total value of their account.

Administrative Costs

Administrative costs are paid by the Company (for audit and trustee services) and by the Plan (for recordkeeping and loan processing fees).

Note 2 – Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States. Benefit payments to participants are recorded upon distribution.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis. This applies even when the investment contracts are not held directly by the plan but are underlying assets in a common/collective trust (CCT) investment held by the plan.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. There have been no changes in the valuation methods used. The Plan's investments are held by Fidelity Management Trust Company, the Plan's Trustee.

Mutual funds represent investments with various investment managers. The fair values of these investments are determined by reference to the fund's underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds are valued at the net asset value.

Common/collective trust funds represent investments with various investment managers. Units held in CCTs, including stable value funds, are fair valued at the unit value as reported by the investment managers. CCTs are not available in an exchange and active market; however, the fair value is determined based on the underlying investments as traded in an exchange and active market. The Plan holds shares of the Fidelity Managed Income Portfolio.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement.

Note 2 – Significant Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

Purchases and sales of the investments within the Plan are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants represent outstanding loans and are measured at their unpaid principal balance plus accrued interest.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts in the financial statements and accompanying notes. Actual results could differ from those estimates.

Note 3 – Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2011 and 2010, net appreciation (depreciation) in fair value of mutual fund investments, net gain from common/collective trust, and interest and dividends for the years then ended, were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Trustee.

Note 4 - Fair Value Measurements

The various inputs that may be used to determine the value of the Plan's investments are summarized in three broad levels within the fair value hierarchy. The three levels are described below:

- Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets and liabilities;
- Level 2: Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;
- Level 3: Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

	Non-participant directed withdrawals	Daily, within 12 months of written notification or at the discretion of the trustee	12 months

Net Increase in Net Assets Available for Benefits per the Form 5500	<u>\$ 272,674</u>

Note 7 – Income Tax Status

The Internal Revenue Service ruled on March 31, 2008, that the Volume Submitter Profit Sharing Plan (the prototype plan of the Trustee upon which the Plan is based) qualifies under Section 401(a) of the Internal Revenue Code (IRC) and the related trust is, therefore, not subject to tax under present income tax law. The Plan has been amended since receiving this letter. The Plan is required to operate in conformity with the IRC to maintain its qualification. Certain operational issues were identified and are in the process of being corrected, as further discussed in Note 9, Subsequent Events, in order to maintain the tax-qualified status of the Plan.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9 – Subsequent Events

Management has evaluated subsequent events through August 28, 2012, the date the financial statements were issued, and determined that no events have occurred that require additional disclosure.

IRS Filing - Contingencies

The Company is in the process of filing a voluntary submission to the Internal Revenue Service (IRS) under the Employee Plans Compliance Resolution Systems (EPCRS) outlining Plan administrative errors, proposed resolution and corrective action. The potential impact on the Plan's financial statements is contingent upon acceptance by the IRS of the proposed correction methodology. As such, Plan management is not able to estimate the loss, if any, to be realized by the Plan. No provision for income taxes has been included in the Plan's financial statements related to this matter because the Company believes the Plan continues to be qualified and the tax status of the Trust, established under the Plan, to be tax exempt.
