Administrative Committee
TTBG, LLC 401(k) Savings Plan
Atlanta, Georgia

We were engaged to audit the accompanying statements of net assets available for benefits of the TTBG, LLC 401(k) Savings Plan (the "Plan") as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011, and the supplemental schedule of assets (held at end of year) as of December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by New York Life Trust Company, the trustee of the Plan, except for comparing this information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee regarding the completeness and accuracy of the information summarized in Note 3 that was provided to the Plan Administrator by the trustee as of and for the year ended December 31, 2011, and as of December 31, 2010.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

TTBG, LLC 401(k) Savings Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of the TTBG, LLC 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of TTBG, LLC ("the Plan Sponsor") who are age eighteen or older. Employees are eligible to participate in the Plan after three consecutive months of service. The Plan provides for participant-directed investments. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: The Plan allows participants to contribute up to 20% of eligible pre-tax compensation, as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers). The Sponsor may make matching contributions at its discretion. The Sponsor may also make discretionary profit sharing contributions to the plan. Contributions are subject to certain limitations. The Company made no matching or profit sharing contributions for the year ended December 31, 2011.

Participant accounts: Each participant's account is credited with the participant's contribution, and the Company's matching contribution, if any, and an allocation of any discretionary matching and/or profit sharing contributions, and Plan earnings or losses, and charged with an allocation of administrative expenses when applicable. Allocations are based on participant compensation and account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Investment options: Upon enrollment in the Plan, a participant may direct his or her employee contribution and the employer's contribution, if any, into various investment options as made available and determined by the Plan Administrator. Participants have daily access to their investment balances. Changes may be self-directed by participants through Internet or telephone transfers.

Payment of benefits: On termination of service due to death, disability, termination, or retirement, a participant or designated beneficiary may receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. In-service distributions may be made provided the participant has attained age 59 1/2. The Plan limits in-service distributions to a participant to one per year. Hardship withdrawals are permitted as defined in the Plan.

Vesting: Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Participants are immediately vested in any discretionary matching and/or profit sharing contributions, provided they are employed on the last day of the Plan year. The Company made no matching or profit sharing contributions for the year ended December 31, 2011.

Notes receivable from participants: The Plan permits participants to borrow from their accounts at a minimum amount of \$1,000, provided that a loan does not exceed one-half of the participant's vested account balance. Loan transfers are treated as a transfer to (from) the investment fund from (to) the loan fund. The Plan limits each participant to one outstanding loan at any time. The loans are collateralized by the balance in the participant's vested account and bear interest at a reasonable rate as determined by the Administrator, currently the prime lending rate (3.25% at December 31, 2011) of the Plan administrator plus 1%. Interest rate on loans range from 4.25% to 9.25% and mature in years through 2019. Principal and interest are paid ratably through bi-weekly payroll deductions.

TTBG, LLC 401(k) Savings Plan

Notes to Financial Statements

Note 1. Plan Description (Continued)

Forfeitures: Forfeitures will be used to reduce future employer contributions or pay Plan expenses. There were no forfeited non-vested accounts as of December 31, 2011 or 2010, and none were used during 2011 to reduce plan expenses.

Note 2. Summary of Significant Accounting Policies

Accounting records: The accounting records with respect to Plan administration and investment transactions are maintained by New York Life Trust Company, the trustee of the Plan.

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the Plan to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment contracts: Fully benefit-responsive investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

The Plan invests in the New York Life Insurance Company Guaranteed Interest Account Stable Value Fund. The statements of net assets available for benefits presents the fair value of the investments in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investments valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend rate. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Interest income on investments and interest income on notes receivable from participants are recorded on the accrual basis.

The Plan's participants invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are treated as distributions based upon the terms of the Plan document.

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Contributions: Contributions from Plan participants and the matching contribution from the Plan sponsor are recorded in the year in which the participant contributions are withheld from amounts paid. Profit sharing contributions are recognized upon authorization by the Plan sponsor in the period as the underlying compensation is recognized. All participant and employer contributions are participant directed.

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Administrative expenses: As provided by the Plan agreement, certain administrative expenses are paid by the Plan Sponsor, and the remainder is paid out of Plan assets.

Income taxes: GAAP requires Plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken any uncertain tax positions that more likely than not would not be sustained upon examination by a tax authority. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. The Plan is subject to income tax examinations by the U.S. federal, state, or local tax authorities. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2008.

Subsequent events: The Plan Administrator has evaluated subsequent events (events occurring after December 31, 2011) through September 14, 2012, the date the financial statements were available to be issued.

Accounting pronouncements adopted: In January 2010, the FASB issued Accounting Standards Update ("ASU") 2010-06 *Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements*, which required new disclosures about transfers of financial assets and liabilities between Levels 1 and 2. ASU 2010-06 also clarified that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. These requirements were implemented in 2010. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. The guidance related to Level 3 reconciliation measurements is effective for periods beginning on or after December 15, 2010, and has been adopted without impact to the financial statements.

Accounting pronouncements not yet effective: In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRS*. ASU 2011-04 amended Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards ("IFRS"). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Note 3. Information Certified or Provided by New York Life Trust Company (the "Trustee")

The following is a summary of the plan's asset information as of December 31, 2011 and 2010, and for the year ended December 31, 2011, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedule related to the following assets.

	2011	2010
Investments:		
Mutual funds	\$ 5,680,054	\$ 5,930,510
Guaranteed interest account *	1,785,779	1,653,427
	<u>\$ 7,465,833</u>	<u>\$ 7,583,937</u>
Notes receivable from participants	<u>\$ 196,179</u>	<u>\$ 277,157</u>

* Generally investments are certified at fair value; however, the value certified by New York Life Trust Company at December 31, 2011 and 2010 is contract value which is different from the fair value reported in Note 5 in accordance with GAAP.

The trustee also certified to the completeness and accuracy of:

	Year Ended December 31, 2011
Mutual funds:	
Net depreciation in the fair value of investments	\$ (294,378)
Dividend and interest income	87,169
Guaranteed interest account – interest income	39,602
Note receivable from participants – interest income	18,289

Note 4. Investments

The current value of individual investments that represent 5% or more of the Plan's net assets available for benefits as of December 31 are as follows:

	2011	2010
Mutual funds:		
Delaware Diversified Income Fund	\$ 995,757	\$ 962,411
Columbia Small Cap Core Fund	605,515	723,037
MainStay Select Equity Fund	901,980	989,473
MainStay Large Cap Growth Fund	761,142	877,169
American Capital World Growth & Income	-	729,385
Oppenheimer Global Opportunities	640,525	-
New York Life Guaranteed Interest Account*	1,785,779	1,653,427

* The value certified by New York Life Trust Company is contract value which is different from the fair value reported in accordance with Note 5 in accordance with generally accepted accounting principles

Note 5. Fair Value Measurements

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010:

Mutual funds: Valued at the quoted market prices of the shares held by the Plan at year end.

Guaranteed interest account: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 6. Guaranteed Investment Contract With Insurance Company

The Plan has a benefit-responsive investment contract with New York Life Insurance Company. New York Life Insurance Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by New York Life Insurance Company. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. There are no redemption restrictions and the contract allows for daily redemptions.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2011 and 2010 was \$1,816,240 and \$1,675,269, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date. Average yields are as follows:

	2011	2010
Based on actual earnings	3.05%	4.10%
Based on interest rate credited to participants	2.30%	3.35%

Note 7. Related Party Transactions

Certain Plan investments are managed by New York Life Trust Company. New York Life Trust Company is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Expenses incurred by the Plan for the administrative services provided by New York Life Trust Company amounted to \$75 for the year ended December 31, 2011.

Notes to Financial Statements

Note 8. Income Tax Status

Effective November 16, 2009, the Plan adopted a standardized form of a prototype plan sponsored by New York Life Investment Management. The prototype plan has received an opinion letter dated March 31, 2008 from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The prototype plan has been amended since receiving its opinion letter. The Plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Note 9. Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA, by delivering to the trustee and administrator written notice of such termination.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

TTBG, LLC 401(k) Savings Plan
Atlanta, Georgia

We were engaged to audit the accompanying statements of net assets available for benefits of the TTBG, LLC 401(k) Savings Plan (the "Plan") as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011, and the supplemental schedule of assets (held at end of year) as of December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by New York Life Trust Company, the trustee of the Plan, except for comparing this information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee regarding the completeness and accuracy of the information summarized in Note 3 that was provided to the Plan Administrator by the trustee as of and for the year ended December 31, 2011, and as of December 31, 2010.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

TTBG, LLC 401(k) Savings Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of the TTBG, LLC 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of TTBG, LLC ("the Plan Sponsor") who are age eighteen or older. Employees are eligible to participate in the Plan after three consecutive months of service. The Plan provides for participant-directed investments. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: The Plan allows participants to contribute up to 20% of eligible pre-tax compensation, as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers). The Sponsor may make matching contributions at its discretion. The Sponsor may also make discretionary profit sharing contributions to the plan. Contributions are subject to certain limitations. The Company made no matching or profit sharing contributions for the year ended December 31, 2011.

Participant accounts: Each participant's account is credited with the participant's contribution, and the Company's matching contribution, if any, and an allocation of any discretionary matching and/or profit sharing contributions, and Plan earnings or losses, and charged with an allocation of administrative expenses when applicable. Allocations are based on participant compensation and account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Investment options: Upon enrollment in the Plan, a participant may direct his or her employee contribution and the employer's contribution, if any, into various investment options as made available and determined by the Plan Administrator. Participants have daily access to their investment balances. Changes may be self-directed by participants through Internet or telephone transfers.

Payment of benefits: On termination of service due to death, disability, termination, or retirement, a participant or designated beneficiary may receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. In-service distributions may be made provided the participant has attained age 59 1/2. The Plan limits in-service distributions to a participant to one per year. Hardship withdrawals are permitted as defined in the Plan.

Vesting: Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Participants are immediately vested in any discretionary matching and/or profit sharing contributions, provided they are employed on the last day of the Plan year. The Company made no matching or profit sharing contributions for the year ended December 31, 2011.

Notes receivable from participants: The Plan permits participants to borrow from their accounts at a minimum amount of \$1,000, provided that a loan does not exceed one-half of the participant's vested account balance. Loan transfers are treated as a transfer to (from) the investment fund from (to) the loan fund. The Plan limits each participant to one outstanding loan at any time. The loans are collateralized by the balance in the participant's vested account and bear interest at a reasonable rate as determined by the Administrator, currently the prime lending rate (3.25% at December 31, 2011) of the Plan administrator plus 1%. Interest rate on loans range from 4.25% to 9.25% and mature in years through 2019. Principal and interest are paid ratably through bi-weekly payroll deductions.

TTBG, LLC 401(k) Savings Plan

Notes to Financial Statements

Note 1. Plan Description (Continued)

Forfeitures: Forfeitures will be used to reduce future employer contributions or pay Plan expenses. There were no forfeited non-vested accounts as of December 31, 2011 or 2010, and none were used during 2011 to reduce plan expenses.

Note 2. Summary of Significant Accounting Policies

Accounting records: The accounting records with respect to Plan administration and investment transactions are maintained by New York Life Trust Company, the trustee of the Plan.

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the Plan to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment contracts: Fully benefit-responsive investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

The Plan invests in the New York Life Insurance Company Guaranteed Interest Account Stable Value Fund. The statements of net assets available for benefits presents the fair value of the investments in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investments valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend rate. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Interest income on investments and interest income on notes receivable from participants are recorded on the accrual basis.

The Plan's participants invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are treated as distributions based upon the terms of the Plan document.

TTBG, LLC 401(k) Savings Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Contributions: Contributions from Plan participants and the matching contribution from the Plan sponsor are recorded in the year in which the participant contributions are withheld from amounts paid. Profit sharing contributions are recognized upon authorization by the Plan sponsor in the period as the underlying compensation is recognized. All participant and employer contributions are participant directed.

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Administrative expenses: As provided by the Plan agreement, certain administrative expenses are paid by the Plan Sponsor, and the remainder is paid out of Plan assets.

Income taxes: GAAP requires Plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken any uncertain tax positions that more likely than not would not be sustained upon examination by a tax authority. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. The Plan is subject to income tax examinations by the U.S. federal, state, or local tax authorities. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2008.

Subsequent events: The Plan Administrator has evaluated subsequent events (events occurring after December 31, 2011) through September 14, 2012, the date the financial statements were available to be issued.

Accounting pronouncements adopted: In January 2010, the FASB issued Accounting Standards Update ("ASU") 2010-06 *Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements*, which required new disclosures about transfers of financial assets and liabilities between Levels 1 and 2. ASU 2010-06 also clarified that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. These requirements were implemented in 2010. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. The guidance related to Level 3 reconciliation measurements is effective for periods beginning on or after December 15, 2010, and has been adopted without impact to the financial statements.

Accounting pronouncements not yet effective: In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRS*. ASU 2011-04 amended Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards ("IFRS"). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Note 3. Information Certified or Provided by New York Life Trust Company (the "Trustee")

The following is a summary of the plan's asset information as of December 31, 2011 and 2010, and for the year ended December 31, 2011, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedule related to the following assets.

	2011	2010
Investments:		
Mutual funds	\$ 5,680,054	\$ 5,930,510
Guaranteed interest account *	1,785,779	1,653,427
	<u>\$ 7,465,833</u>	<u>\$ 7,583,937</u>
Notes receivable from participants	<u>\$ 196,179</u>	<u>\$ 277,157</u>

* Generally investments are certified at fair value; however, the value certified by New York Life Trust Company at December 31, 2011 and 2010 is contract value which is different from the fair value reported in Note 5 in accordance with GAAP.

The trustee also certified to the completeness and accuracy of:

	Year Ended December 31, 2011
Mutual funds:	
Net depreciation in the fair value of investments	\$ (294,378)
Dividend and interest income	87,169
Guaranteed interest account – interest income	39,602
Note receivable from participants – interest income	18,289

Note 4. Investments

The current value of individual investments that represent 5% or more of the Plan's net assets available for benefits as of December 31 are as follows:

	2011	2010
Mutual funds:		
Delaware Diversified Income Fund	\$ 995,757	\$ 962,411
Columbia Small Cap Core Fund	605,515	723,037
MainStay Select Equity Fund	901,980	989,473
MainStay Large Cap Growth Fund	761,142	877,169
American Capital World Growth & Income	-	729,385
Oppenheimer Global Opportunities	640,525	-
New York Life Guaranteed Interest Account*	1,785,779	1,653,427

* The value certified by New York Life Trust Company is contract value which is different from the fair value reported in accordance with Note 5 in accordance with generally accepted accounting principles

Note 5. Fair Value Measurements

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010:

Mutual funds: Valued at the quoted market prices of the shares held by the Plan at year end.

Guaranteed interest account: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 6. Guaranteed Investment Contract With Insurance Company

The Plan has a benefit-responsive investment contract with New York Life Insurance Company. New York Life Insurance Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by New York Life Insurance Company. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. There are no redemption restrictions and the contract allows for daily redemptions.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2011 and 2010 was \$1,816,240 and \$1,675,269, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date. Average yields are as follows:

	2011	2010
Based on actual earnings	3.05%	4.10%
Based on interest rate credited to participants	2.30%	3.35%

Note 7. Related Party Transactions

Certain Plan investments are managed by New York Life Trust Company. New York Life Trust Company is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Expenses incurred by the Plan for the administrative services provided by New York Life Trust Company amounted to \$75 for the year ended December 31, 2011.

TTBG, LLC 401(k) Savings Plan

Notes to Financial Statements

Note 8. Income Tax Status

Effective November 16, 2009, the Plan adopted a standardized form of a prototype plan sponsored by New York Life Investment Management. The prototype plan has received an opinion letter dated March 31, 2008 from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The prototype plan has been amended since receiving its opinion letter. The Plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Note 9. Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA, by delivering to the trustee and administrator written notice of such termination.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

TTBG, LLC 401(k) Savings Plan
Atlanta, Georgia

We were engaged to audit the accompanying statements of net assets available for benefits of the TTBG, LLC 401(k) Savings Plan (the "Plan") as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011, and the supplemental schedule of assets (held at end of year) as of December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by New York Life Trust Company, the trustee of the Plan, except for comparing this information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee regarding the completeness and accuracy of the information summarized in Note 3 that was provided to the Plan Administrator by the trustee as of and for the year ended December 31, 2011, and as of December 31, 2010.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

TTBG, LLC 401(k) Savings Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of the TTBG, LLC 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of TTBG, LLC ("the Plan Sponsor") who are age eighteen or older. Employees are eligible to participate in the Plan after three consecutive months of service. The Plan provides for participant-directed investments. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: The Plan allows participants to contribute up to 20% of eligible pre-tax compensation, as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers). The Sponsor may make matching contributions at its discretion. The Sponsor may also make discretionary profit sharing contributions to the plan. Contributions are subject to certain limitations. The Company made no matching or profit sharing contributions for the year ended December 31, 2011.

Participant accounts: Each participant's account is credited with the participant's contribution, and the Company's matching contribution, if any, and an allocation of any discretionary matching and/or profit sharing contributions, and Plan earnings or losses, and charged with an allocation of administrative expenses when applicable. Allocations are based on participant compensation and account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Investment options: Upon enrollment in the Plan, a participant may direct his or her employee contribution and the employer's contribution, if any, into various investment options as made available and determined by the Plan Administrator. Participants have daily access to their investment balances. Changes may be self-directed by participants through Internet or telephone transfers.

Payment of benefits: On termination of service due to death, disability, termination, or retirement, a participant or designated beneficiary may receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. In-service distributions may be made provided the participant has attained age 59 1/2. The Plan limits in-service distributions to a participant to one per year. Hardship withdrawals are permitted as defined in the Plan.

Vesting: Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Participants are immediately vested in any discretionary matching and/or profit sharing contributions, provided they are employed on the last day of the Plan year. The Company made no matching or profit sharing contributions for the year ended December 31, 2011.

Notes receivable from participants: The Plan permits participants to borrow from their accounts at a minimum amount of \$1,000, provided that a loan does not exceed one-half of the participant's vested account balance. Loan transfers are treated as a transfer to (from) the investment fund from (to) the loan fund. The Plan limits each participant to one outstanding loan at any time. The loans are collateralized by the balance in the participant's vested account and bear interest at a reasonable rate as determined by the Administrator, currently the prime lending rate (3.25% at December 31, 2011) of the Plan administrator plus 1%. Interest rate on loans range from 4.25% to 9.25% and mature in years through 2019. Principal and interest are paid ratably through bi-weekly payroll deductions.

TTBG, LLC 401(k) Savings Plan

Notes to Financial Statements

Note 1. Plan Description (Continued)

Forfeitures: Forfeitures will be used to reduce future employer contributions or pay Plan expenses. There were no forfeited non-vested accounts as of December 31, 2011 or 2010, and none were used during 2011 to reduce plan expenses.

Note 2. Summary of Significant Accounting Policies

Accounting records: The accounting records with respect to Plan administration and investment transactions are maintained by New York Life Trust Company, the trustee of the Plan.

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the Plan to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment contracts: Fully benefit-responsive investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

The Plan invests in the New York Life Insurance Company Guaranteed Interest Account Stable Value Fund. The statements of net assets available for benefits presents the fair value of the investments in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investments valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend rate. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Interest income on investments and interest income on notes receivable from participants are recorded on the accrual basis.

The Plan's participants invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are treated as distributions based upon the terms of the Plan document.

TTBG, LLC 401(k) Savings Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Contributions: Contributions from Plan participants and the matching contribution from the Plan sponsor are recorded in the year in which the participant contributions are withheld from amounts paid. Profit sharing contributions are recognized upon authorization by the Plan sponsor in the period as the underlying compensation is recognized. All participant and employer contributions are participant directed.

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Administrative expenses: As provided by the Plan agreement, certain administrative expenses are paid by the Plan Sponsor, and the remainder is paid out of Plan assets.

Income taxes: GAAP requires Plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken any uncertain tax positions that more likely than not would not be sustained upon examination by a tax authority. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. The Plan is subject to income tax examinations by the U.S. federal, state, or local tax authorities. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2008.

Subsequent events: The Plan Administrator has evaluated subsequent events (events occurring after December 31, 2011) through September 14, 2012, the date the financial statements were available to be issued.

Accounting pronouncements adopted: In January 2010, the FASB issued Accounting Standards Update ("ASU") 2010-06 *Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements*, which required new disclosures about transfers of financial assets and liabilities between Levels 1 and 2. ASU 2010-06 also clarified that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. These requirements were implemented in 2010. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. The guidance related to Level 3 reconciliation measurements is effective for periods beginning on or after December 15, 2010, and has been adopted without impact to the financial statements.

Accounting pronouncements not yet effective: In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRS*. ASU 2011-04 amended Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards ("IFRS"). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Note 3. Information Certified or Provided by New York Life Trust Company (the "Trustee")

The following is a summary of the plan's asset information as of December 31, 2011 and 2010, and for the year ended December 31, 2011, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedule related to the following assets.

Note 5. Fair Value Measurements

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010:

Mutual funds: Valued at the quoted market prices of the shares held by the Plan at year end.

Guaranteed interest account: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 6. Guaranteed Investment Contract With Insurance Company

The Plan has a benefit-responsive investment contract with New York Life Insurance Company. New York Life Insurance Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by New York Life Insurance Company. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. There are no redemption restrictions and the contract allows for daily redemptions.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2011 and 2010 was \$1,816,240 and \$1,675,269, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date. Average yields are as follows:

	2011	2010
Based on actual earnings	3.05%	4.10%
Based on interest rate credited to participants	2.30%	3.35%

Note 7. Related Party Transactions

Certain Plan investments are managed by New York Life Trust Company. New York Life Trust Company is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Expenses incurred by the Plan for the administrative services provided by New York Life Trust Company amounted to \$75 for the year ended December 31, 2011.

Note 8. Income Tax Status

Effective November 16, 2009, the Plan adopted a standardized form of a prototype plan sponsored by New York Life Investment Management. The prototype plan has received an opinion letter dated March 31, 2008 from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The prototype plan has been amended since receiving its opinion letter. The Plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Note 9. Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA, by delivering to the trustee and administrator written notice of such termination.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	2011	2010
Net assets available for benefits per the financial statements	\$ 7,662,012	\$ 7,861,094
Differences in:		
Investments – participant loans	196,179	277,157
