Independent Auditor's Report

Board of Trustees
Coilcraft Retirement Plan
Cary, Illinois

We were engaged to audit the financial statements of **Coilcraft Retirement Plan** as of and for the year ended December 31, 2011, and the supplemental schedule as of December 31, 2011, as listed in the accompanying index. These financial statements and supplemental schedule are the responsibility of the plan's management. The financial statement of the plan as of December 31, 2010 was audited by Blackman Kallick, LLP, whose report dated September 21, 2011, expressed a disclaimer of opinion on that statement for the same circumstances indicated below. Blackman Kallick, LLP subsequently merged into Plante & Moran, PLLC.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Vanguard Fiduciary Trust Company, the trustee of the plan, except for comparing such information with the related information included in the 2011 financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2011, that the information provided to the plan administrator by Vanguard Fiduciary Trust Company is complete and accurate.

Because of the significance of the information in the plan's 2011 financial statements and supplemental schedule that we did not audit, we were unable to, and do not, express an opinion on the accompanying 2011 financial statements and supplemental schedule taken as a whole. The supplemental schedules are presented for the purpose of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of Plan

The following description of Coilcraft Retirement Plan (the plan) provides only general information. Participants should refer to the plan agreement for a more comprehensive description of the plan's provisions.

General

The plan is a defined contribution plan maintained on a calendar year basis. Any employee of Coilcraft, Incorporated (the company) who is a citizen or resident of the United States of America, has attained 21 years of age and has completed six months of service is eligible to participate on the first day of each calendar quarter on which both the preceding requirements are met. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant Contributions

Participants may elect to contribute an amount to the plan through 401(k) reductions of their earnings. These contributions are made out of pre-tax earnings and are subject to certain IRS limitations. A participant's earnings consist of total cash compensation including bonuses, commissions and overtime pay in a plan year, but not to exceed current IRS regulations. Participants also have the option to make voluntary after-tax contributions, which are also subject to certain IRS limitations. Eligible rollover contributions are also permitted by the plan.

Employer Contributions

The company makes a safe harbor matching contribution equal to 100% of the first 3% of each participant's deferral contribution and 50% to the extent that such contributions exceed 3% but did not exceed 5%.

The employer may also make a discretionary profit-sharing contribution. All participants are eligible to receive the discretionary profit-sharing contribution unless they terminated employment during the year before age 55 for a reason other than disability retirement. The employer discretionary contribution is limited to an amount equal to the maximum amount deductible by the company for purposes of federal income taxes. The discretionary profit-sharing contribution is allocated to eligible participants in proportion to their earnings for the plan year.

Participant Accounts

Each participant's account is credited with the participant's contribution, the company's matching contribution and allocations of (a) the company's discretionary profit-sharing contribution, (b) plan earnings, (c) forfeitures and charged with an allocation of administrative expenses and plan losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 - Description of Plan (Continued)

Vesting

Participants are always 100% vested in their employee after-tax contributions, employee 401(k) deferral contributions, employer matching contributions, rollover contributions and pension accounts transferred into the plan from the Coilcraft Pension Plan and earnings, respectively, thereon. Participants are also fully vested if their employment with the company terminates after age 55 or because of death or disability.

Participants vest in their profit-sharing contributions in accordance with the following:

Completed Years of Service	Percentage of Account Balance Vested
1	0%
2	20
3	40
4	60
5	80
6 or more	100

Notes Receivable from Participants

Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000, reduced by the highest outstanding loan balance in the one-year period preceding the date of the loan, or 50% of their vested account balance. The loans are secured by the remaining vested balance in the participant's account and bear interest at rates that range from 4.25% to 9.50%, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest are paid ratably through monthly payroll deductions. Loans must be repaid within five years.

Payment of Benefits

Benefit payments are generally paid in a lump sum as soon as practicable after employment with the company has ended. Participants may elect to defer commencement of distributions until April of the calendar year after they attain the age of 70 ½. Until such time as the funds are distributed, the participant is entitled to receive a pro rata share of fund earnings. Benefits may also be paid directly to an eligible retirement plan as an eligible rollover distribution. In-service distributions are allowed once a participant attains the age of 55, and certain financial hardship distributions and after-tax contributions are also allowed to be withdrawn from the plan.

Forfeitures

As of December 31, 2011 and 2010, forfeited nonvested accounts totaled $27,621 and $11,031, respectively. During 2011, $11,027 in forfeited balances were allocated to participants.

Note 1 - Description of Plan (Continued)

Administrative Expenses

All administrative costs, charges and expenses are paid by the plan to the extent not paid by the company.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the plan are prepared under the accrual method of accounting.

Investments

Investments are reported at fair value in accordance with accounting principles generally accepted in the United States of America (GAAPUSA). See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Effective January 1, 2010, the plan adopted new guidance that requires the plan to report significant transfers between Level 1 and Level 2 fair value measurements and the reasons for those transfers, as well as disclosing the reasons for transfers in or out of Level 3. Additionally, the guidance requires the plan to clarify existing disclosure requirements about the level of disaggregation and inputs and valuation techniques. The adoption of this guidance did not have a significant impact on the plan's financial statements, other than expanded disclosures.

Effective January 1, 2011, the plan also adopted new guidance requiring the reconciliation of changes in Level 3 fair value measurements to present purchases, sales and settlements separately on a gross basis rather than as a net amount. The adoption of this guidance did not have a significant impact on the plan's financial statements.

The plan's investments are exposed to various risks such as interest rate, credit and overall market volatility. Due to these risk factors, it is reasonably possible that changes in the value of investments will occur in the near term and materially affect the amounts reported in the financial statements.

Vanguard Retirement Savings Trust

Under GAAPUSA, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The plan invests in a fully benefit-responsive investment contract held under the Vanguard Retirement Savings Trust. As required by GAAPUSA, the statement of net assets available for benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Note 2 - Summary of Significant Accounting Policies (Continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

Delinquent participant loans are reclassified as distributions based on the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Management Estimates

The preparation of financial statements in conformity with GAAPUSA requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events

The plan has evaluated subsequent events through September 14, 2012, the date the financial statements were available to be issued.

Note 3 - Fair Value Measurements

GAAPUSA defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the principal market or, in the absence of a principal market, the most advantageous market accessible to the reporting entity as of the measurement date. Under GAAPUSA, the principal market is the market in which the reporting entity would sell the asset or transfer the liability with the greatest volume and level of activity. The most advantageous market, which may be a hypothetical market, is the market in which the reporting entity would sell the asset or transfer the liability with the price that maximizes the amount that would be received for the asset or minimizes the amount that would be paid to transfer the liability, considering transaction costs in the respective market.

GAAPUSA describes three approaches to measuring fair value: the market approach, the income approach and the cost approach. Each approach includes multiple valuation techniques. GAAPUSA does not prescribe which valuation technique should be used when measuring fair value, but does establish a fair value hierarchy that prioritizes the inputs used in applying the various techniques based on the degree to which such inputs are observable to market participants. Inputs broadly refer to the assumptions that market participants use to make pricing decisions, including assumptions about risk.

Note 3 - Fair Value Measurements (Continued)

The plan's investments are classified in one of the following three categories based on the inputs used to determine their respective fair values.

- Level 1 - Quoted prices (unadjusted) for identical assets or liabilities in active markets as of the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis.

- Level 2 - Observable market-based inputs or unobservable inputs that are corroborated by market data. These inputs may include quoted prices for similar assets or liabilities in active markets as well as quoted prices for identical or similar assets or liabilities in inactive markets.

- Level 3 - Unobservable inputs that cannot be corroborated by market data. These inputs reflect management's best estimate of fair value using its own assumptions about the assumptions a market participant would use in pricing the asset or liability.

When the inputs used to value an investment fall into more than one level, the investment is classified in its entirety based on the lowest level input that is significant to that investment's fair value measurement. Management's assessment of the significance of a particular input to the fair value measurement requires judgment and is dependent on factors specific to the investment. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

As of December 31, 2011 and 2010, the following valuation methodologies have been used to value the plan's investments:

- Mutual funds - Valued at the reported net asset value (NAV) of the shares held by the plan as of year-end.

- Money market funds - Valued at an NAV of $1 as reported by the fund manager.

- Common collective trusts - Valued at the net asset value of shares or units held by the plan based on quoted market value of the underlying assets.

The methods described above might produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the plan believes its valuation methods are appropriate and consistent with other market participants, the different methodologies or assumptions used to determine fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

Note 3 - Fair Value Measurements (Continued)

The following tables summarize the plan's financial assets and liabilities that are measured at fair value on a recurring basis as of December 31, 2011 and 2010:

*This balance represents the fair value of the Vanguard Retirement Savings Trust. The contract value for this investment as of December 31, 2011 and 2010 was $13,207,415 and $11,627,147, respectively.

During 2011, the plan's mutual fund investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated by $1,515,185.

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified to the completeness and accuracy of the plan's investments reflected in the statements of net assets available for benefits as of December 31, 2011 and 2010, the schedule of assets held as of end of year as of December 31, 2011, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2011, as indicated above and in total.

Note 5 - Vanguard Retirement Savings Trust

Objectives

The Vanguard Retirement Savings Trust's (VRST) key objectives are to preserve principal and provide a stable return over the life of the investment.

Nature of Investment

The VST is a collective investment trust fund that invests solely in the Vanguard Retirement Savings Master Trust (the Trust). The underlying investments of the Trust are primarily in a pool of investment contracts that are issued by insurance companies and commercial banks and in contracts that are backed by high-quality bonds and bond mutual funds.

The interest crediting rate is reset every quarter based on the performance of the underlying investment portfolio. Changes in future crediting rates will not affect the amount reported as an adjustment from fair value to contract value on the statements of net assets available for benefits for the portion of net assets attributable to fully benefit-responsive investment contracts.

The average yield earned by the Trust as of December 31, 2011 and 2010 was 3.09% and 3.36%, respectively. This average yield earned is calculated by dividing the annualized earnings of all investments in the Trust on the last day of the fiscal year by the fair value of all investments in the Trust.

The average yield earned by the Trust with an adjustment to reflect the actual interest rate credited to participants in the Trust for the years ended December 31, 2011 and 2010 was 2.68% and 3.01%, respectively. This average yield is calculated by dividing the annualized earnings credited to participants on the last day of the fiscal year by the fair value of all investments in the Trust.

Events that Limit the Ability of VRST to Transact at Contract Value

The existence of certain conditions can limit the Trust's ability to transact at contract value with issuers of its investment contracts. Specifically, any event outside the normal operations of the Trust that causes withdrawal from an investment contract may result in a negative market value adjustment with respect to the withdrawal. As of December 31, 2011, the occurrence of an event outside the normal operations of the Trust that would cause withdrawal from an investment contract is not considered to be probable.

In general, issuers may terminate the contract and settle at other than contract value if there is a change in the qualification status of participant, employer, or plan; a breach of material obligations under the contract and misrepresentation by the contract holder; or failure of the underlying portfolio to conform to the pre-established investment guidelines.

Note 6 - Party-in-Interest Transactions

During 2011, the plan paid certain investment management fees to Vanguard Fiduciary Trust Company, the trustee of the plan, based on customary and reasonable rates for such services. The plan also invests in shares of mutual funds managed by an affiliate of Vanguard Fiduciary Trust Company.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 8 - Income Tax Status

The plan obtained its latest determination letter on September 28, 2007, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator believes the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

GAAPUSA requires plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2011, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.
