NOTE 1 – DESCRIPTION OF PLAN

The Golden Bank National Association 401(k) Retirement Savings Plan (the Plan) is a defined contribution 401(k) profit sharing plan adopted by Golden Bank National Association (the Company) effective January 1, 1989, and was restated effective August 24, 2009 to conform to new tax laws and regulations. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the Company.

The summary of significant provisions of the Plan presented below provides general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Eligibility – Employees of the Company are generally eligible to participate in the Plan after 6 months of entry service and attaining age 21 or older. Enrollment is on the first day of January, April, July and October after meeting the requirements.

Contributions – Participants may elect to make contributions as little as 1% and up to 100% of eligible compensation. However, each participant's annual contribution may not exceed federal law limits. Participants at least age 50 by the end of the year are allowed to make catch-up contributions. Participants may change their contributions semi-yearly or stop their elective deferral contributions at any time.

The Company's matching contribution is equal to 100% of each participant's elective deferral contributions up to a maximum of 5% of each participant's eligible compensation.

The Company may make a discretionary contribution as determined annually by the Company. The discretionary contributions are allocated pro rata to all eligible participants based upon the proportion of the participant's compensation to the total compensation of all eligible participants, but the amount that may be contributed for each participant shall not exceed the maximum amount allowed by law. To be eligible for such contributions, a participant must be an active participant at any time during the Plan year. There was no discretionary contribution made by the Company for 2011.

Rollovers from other qualified plans or traditional Individual Retirement Accounts (IRAs) are allowed under certain circumstances.

Participant Accounts – Each participant's account is credited with their contributions, employer contributions, and an allocation of Plan earnings or losses. Participant accounts may also be charged with an allocation of certain administrative expenses. Investment income is allocated to participants daily based on the proportion that each participant's account balance bears to all participant account balances in each investment fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options – Participants elect to have their contributions allocated among various investment securities offered by the Plan. The Plan currently offers pooled separate accounts in mutual funds and a guaranteed investment contract as investment securities for participants. Participants may change their investment mix during the year and such changes are subject to the restrictions made by the Company.

Vesting – Participants are vested immediately in their elective deferral contributions and rollover contributions plus actual Plan earnings or losses thereon. Vesting in the employer contribution portion of their accounts plus actual Plan earnings or losses thereon is based on years of vesting service. Participants become 100% vested in the employer contributions after 6 years of credited services.

Payment of Benefits – At termination or retirement, if a participant's vested account is $5,000 or less, it will be paid in a single lump-sum. Federal law requires the Plan to automatically roll a participant's vested account to an IRA in a direct rollover if 1) the participant's vested account is more than $1,000, 2) the participant has not reached age 65, or 3) the participant does not elect to have his vested account paid in a single sum or rolled to another retirement plan or an IRA of his choice in a direct rollover. If the vested account is more than $5,000, written consent must be given before the distribution can be made.

Hardship withdrawals may be made to satisfy immediate and heavy financial needs that participants may have. Participants age 59½ or older may also withdraw all or any part of their vested account as an in-service withdrawal.

Forfeited Accounts – An amount a participant loses the right to is called a forfeiture. Forfeitures may be used to pay Plan expenses or reallocated to eligible participants as discretionary contributions. Forfeitures totaled $3,636 and $24,769 at December 31, 2011 and 2010, respectively, in net assets available for benefits. During 2011 Plan year, forfeitures of $33,181 were used to pay for Plan expenses.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the Company to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See *Note 3* for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest and other income are recorded on an accrual basis. Net depreciation of the fair value of the investments consists of unrealized appreciation or depreciation of investments held at year-end and realized gains or losses on investments sold during the year.

Benefits Paid to Participants – Benefits are recorded when paid. There were no amounts allocated to participants who have elected to withdraw from the Plan as of December 31, 2011, but have not yet been paid.

Administrative Expenses – Certain administrative expenses incurred by the Plan are paid by the Company at its discretion, and any Plan expenses not paid by the Company are paid by the Plan. Investment management fees and other expenses that apply to specific investments are expenses related to the operation of the Plan and are adjustments to the investment rate that is credited to that specific investment. Specific fees may also be charged directly to a participant's account in response to transactions requested under the Plan.

Recent Accounting Pronouncements – In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU 2011-04 amended Accounting Standards Codification (ASC) 820 to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures, although certain of these new disclosures will not be required for nonpublic entities. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. The adoption of this pronouncement is not expected to have a material impact on the Plan's financial statements.

Subsequent Events – The Plan has evaluated subsequent events through September 24, 2012, the date the financial statements were available to be issued.

NOTE 3 – FAIR VALUE MEASUREMENTS

FASB ASC Topic 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- **Level 1** – Quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access.

- **Level 2** – Inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

- **Level 3** – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Pooled Separate Accounts – Pooled separate accounts (PSAs) represent contributions invested in pools of domestic and international common stocks, high-quality short-term debt securities, real estate, private market bonds and mortgages, and high-yield fixed-income securities which are slightly below investment grade. The net asset value of PSAs is based on the market value of its underlying investments.

Guaranteed Investment Contract – The guaranteed investment contract represents unallocated group annuity contracts with Principal Life Insurance Company to provide a fixed rate of return. Due to the nature of these contracts, guaranteed investment contracts do not have specific underlying assets assigned. These accounts are non-benefit-responsive and are valued at fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

	December 31, 2011			
	Level 1	**Level 2**	**Level 3**	**Total**

NOTE 4 – INFORMATION CERTIFIED BY CUSTODIAN (UNAUDITED)

Investments and investment activities included in the accompanying statements of net assets available for benefits, the statement of changes in net assets available for benefits, and the supplemental schedule have been certified as accurate and complete by Principal Life Insurance Company (the Custodian) as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Company instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by the Custodian except for comparing the information to information included in the Plan's financial statements and supplemental schedule.

NOTE 5 – INVESTMENTS (UNAUDITED)

At December 31, 2011 and 2010, all investments of the Plan were participant-directed. The following presents investments that represent 5% or more of the Plan's net assets at December 31 at fair value:

	2011	2010

* Indicates a party-in-interest.
** Represents less than 5% of the Plan's net assets as of December 31.

During 2011, the Plan's investments in pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) depreciated in fair value by $1,453.

NOTE 6 – RELATED PARTY TRANSACTIONS

Certain Plan investments are units of PSAs managed by the Custodian and, therefore, these transactions qualify as party-in-interest transactions. Such transactions are permitted under the Plan and are exempt from the prohibited transaction rules under ERISA. Fees paid by the Plan for the investment management services are included with net depreciation in fair value of investments.

NOTE 7 – PLAN TERMINATION

The Plan can be terminated. If the Plan is terminated, all participants' accounts will be 100% vested and nonforfeitable. Participants' accounts will be held under the Plan and continue to be credited with investment earnings until it is used to provide benefits according to the terms of the Plan.

NOTE 8 – TAX STATUS

The Company adopted a prototype non-standardized profit sharing plan with a cash or deferral arrangement which received a favorable opinion letter dated March 31, 2008, in which the Internal Revenue Service (IRS) stated that the form of the Plan is acceptable under section 401 of the Internal Revenue Code (IRC) for use by employers for the benefit of their employees. The Plan has been amended since the opinion letter. However, the Company believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires the Company to evaluate tax provisions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Company has analyzed the tax provisions taken by the Plan and has concluded that as of December 31, 2011, there were no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Company believes it is no longer subject to income tax examinations for years that are considered closed for tax filing purposes.

NOTE 9 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities which are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
