Independent Auditor's Report

To the Trustees
Double D Express, Inc. Employee Stock
Ownership Plan and Trust
Peru, Illinois

We have audited the accompanying statements of net assets available for benefits of the Double D Express, Inc. Employee Stock Ownership Plan and Trust as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Double D Express, Inc. Employee Stock Ownership Plan and Trust as of December 31, 2011 and 2010, and the changes in net assets available for benefits for the year ended December 31, 2011, in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2011, is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the United States Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Note 1. Plan Description

The following description of the Double D Express, Inc. Employee Stock Ownership Plan and Trust (the Plan) provides only general information. Participants should refer to the plan and trust agreement for a more complete description of the Plan's provisions.

General: Double D Express, Inc. (the Company) established the Plan effective January 1, 2005 (effective date). The Plan operates as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by Trustees comprised of two individuals appointed by the Company's Board of Directors.

The Plan purchased Company common stock using the proceeds of a loan (see Note 4) entered into with the Company. The borrowing is to be repaid over a period of 15 years by fully deductible Company contributions to the Plan. As the Plan makes each payment of principal, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Internal Revenue Code.

The borrowing is collateralized by the unallocated shares of stock. The Company has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2011 and 2010, and for the year ended December 31, 2011, present separately the assets and liabilities and changes therein, respectively, pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated).

Eligibility: Employees of the Company are generally eligible to participate in the Plan after one year of entry service providing they worked at least 500 hours during such plan year and are age 21 or older. Each employee who satisfied the eligibility requirements as of the effective date of the Plan became a participant in the Plan on the effective date. Participants who do not have at least 500 hours of service during such plan year or are not employed on the last working day of a plan year are generally not eligible for an allocation of Company contributions for such year.

Contributions: The Company's minimum required contribution must be equal to the annual installment due on the Plan's loan payable as described in Note 4. The Company may make additional discretionary employer contributions each year subject to approval of the Company's Board of Directors. The Company made discretionary employer contributions of $17,860 for the year ended December 31, 2011.

Participant accounts: The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustees from the unallocated account and forfeitures of terminated participants' non-vested accounts. Participants who are entitled to share in allocations of Company contributions are as follows: (a) participants who were employed by the employer on the last day of the plan year, and who completed at least 500 hours of service during that plan year, (b) participants who died during the year, (c) participants who retired during the year after reaching their normal retirement date and (d) participants who became disabled during the year. Contributions are limited to 100% of the participants' eligible compensation or IRS limitations.

Note 1. Plan Description (Continued)

Allocations are based on a participant's number of units, as follows: (a) first, for each year of employment prior to the effective date of the Plan, rounded to the nearest whole year, a participant shall receive three units of credit; (b) next, for each year of service within a plan year, rounded to the next whole year, a participant shall receive three units of credit; (c) next, for each $1,000 of compensation received by a participant in the plan year, rounded to the nearest thousand dollars, a participant shall receive one unit of credit; (d) finally, a participant's ESOP account shall be allocated and credited an amount of shares in employer common stock for the plan year, pro rata, according to a formula, the numerator of which is the total number of units credited to the participant in the plan year pursuant to (a), (b) and (c) above and the denominator of which is the total number of units credited to all participants in the plan year. Plan earnings (losses) are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances, as further defined in the Plan.

Voting rights: All Company stock held in the Plan shall generally be voted by the Trustees. However, with respect to certain corporate matters, as defined in the Plan, each participant may be entitled to direct the Trustees as to the exercise of any voting rights attributable to share of employer common stock allocated to the participant's ESOP account. If participants are provided with voting rights, the Trustees shall vote any shares of unallocated employer common stock in the Plan, or any allocated employer common stock for which no voting instructions have been received.

Vesting: If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. For vesting purposes, participants were given credit for all years of service prior to the effective date of the Plan. As long as the Plan's acquisition loan remains outstanding, the Plan's vesting provisions start after three years of service at 20% per year and increases ratably until seven years of service when participants are 100% vested. At all other times, the Plan's vesting provisions start after two years of service at 20% per year and increases ratably until six years of service when participants are 100% vested. Participants, who terminate employment because of death, total and permanent disability, or attainment of normal retirement age, as defined in the Plan, are automatically 100% vested in their account balances.

Payment of benefits: No distributions from the Plan will be made until a participant retires, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives) or otherwise terminates employment with the Company. Distributions are made in cash or other property in a lump sum or in equal installments up to five years, at the participant's election.

Diversification: Diversification is offered to participants close to retirement so they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their accounts. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the shares allocated to his or her accounts, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution, equivalent to the amount of other assets in the Plan or a rollover to another qualified plan allowing participant directed accounts, at the election of the participant.

Note 1. Plan Description (Continued)

Dividends: Cash dividends received by the Plan in respect to any allocated share of the Company common stock are allocated to participants' ESOP accounts, pro rata, according to the number of shares of employer common stock held in the respective ESOP account on the date the dividends are paid. Cash dividends paid with respect to allocated shares of employer common stock and allocated to participants ESOP accounts may, as determined by the Plan Administrator, be paid directly in cash to participants and their beneficiaries.

Put option: Under federal income tax regulations, the Company common stock that is held by the Plan and is neither readily tradable on an established market, or is subject to trading limitations, must include a put option. The put option is a right to demand that the Company buy any shares of its stock in order to make cash distributions to participants for which there is no market. The put price is representative of the fair market value of the stock. The purpose of the put option is to ensure that the Plan has the ability to make cash distributions to participants.

Forfeitures: Forfeitures of terminated participants' non-vested accounts are allocated to other participant accounts. Forfeited nonvested accounts totaled $0 at December 31, 2011 and 2010. During 2011, there was $443 in forfeitures allocated to participants' accounts.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

The financial statements include Double D Express, Inc. common stock, whose value has been estimated with the assistance of an independent valuation specialist in the absence of a readily ascertainable market value. Because of the inherent subjectivity in any valuation, the estimated value may differ significantly from the value that would have been used had a ready market for the securities existed, and the difference could be material.

Investment valuation and income recognition: The common shares of the Company stock are valued at fair value on December 31st of each plan year. Fair value is determined by an annual independent appraisal.

Dividend income is accrued on the ex-dividend date.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Certain administrative functions applicable to the Plan are performed by officers or employees of the Company. No such officers or employees receive compensation from the Plan. Certain other administrative expenses are paid directly by the Company.

Note 2. Summary of Significant Accounting Policies (Continued)

Recent accounting standards: In January 2010, the Financial Accounting Standards Board (FASB) issued an amendment to accounting guidance, *Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements* (ASU 2010-06), which requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting those changes. With respect to matters other than Level 3 measurements, the amendment is effective for periods beginning on or after December 15, 2009. The adoption of this guidance related to Level 1 and Level 2 measurements in 2010 did not have a significant impact on the Plan's disclosures about fair value measurements. The guidance related to Level 3 measurements is effective for periods beginning on or after December 15, 2010. The adoption of this guidance related to Level 3 measurements expanded disclosures about fair value measurements in the notes to the financial statements.

In May 2011, the FASB issued an amendment to accounting guidance, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04). ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. The adoption of this guidance is not expected to have a material effect on the Plan's financial statements.

Note 3. Investments

The Plan's investments are held by the Company. The following table presents the fair values of those investments at December 31, 2011 and 2010.

	2011		2010	
	Allocated	Unallocated	Allocated	Unallocated
Double D Express, Inc. common stock: **

Market value	$ 1,456,000	$ 2,184,000	$ 406,667	$ 813,333

** Represents individual investment greater than 5% of Plan net assets at December 31, 2011 and 2010.

Note 4. Loan Payable

On December 31, 2005, the Plan entered into a $2,600,000 term loan agreement with the Company. The proceeds of the loan were used to purchase 100,000 shares of Company common stock. The agreement provides for the loan to be repaid in 15 equal annual installments of $238,944, including interest at a rate of 4.31% per annum, beginning December 31, 2006. The unallocated shares of Company common stock serve as collateral for the loan.

Note 4. Loan Payable (Continued)

The scheduled amortization of the loan for the next five years and thereafter is as follows:

Year Ending December 31,	Amount
2012	$ 163,442
2013	170,486
2014	177,834

Note 5. Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2011 and 2010.

Double D Express, Inc. common stock: Valued at fair value as determined by an annual independent appraisal. The appraisal was based upon a combination of the income and market techniques consistent with prior years. The appraiser took into account historical and projected financial data, cost of equity, cost of debt, capital structure and market comparables.

Note 5. Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

	Level 1	Level 2	Level 3	Total
			2011	
Assets:				
Double D Express, Inc. common stock	$ -	$ -	$ 3,640,000	$ 3,640,000
			2010	
Assets:				
Double D Express, Inc. common stock	$ -	$ -	$ 1,220,000	$ 1,220,000

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2011.

Double D Express, Inc. common stock:	
Beginning balance	$ 1,220,000
Unrealized gain relating to instruments still held at the reporting date	2,420,000
Ending balance	$ 3,640,000

Note 6. Employer Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan and for cash distributions.

Note 7. Administration of Plan Assets

The cash held in the Plan and the Plan's investment in Company common stock is held by the plan sponsor.

Company contributions are determined by the Company. The recordkeeping for the Plan is handled by Principal Life Insurance Company, who allocate cash received and interest and dividend income to participant accounts. The Trustees administer the payment of interest and principal on the loan to the Company and will authorize distributions to participants.

Note 8. Income Tax Status

The Internal Revenue Service has determined and informed the Company, by a letter dated April 16, 2009, that the Plan is qualified and the trust established under the Plan is tax-exempt under the appropriate sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Management has evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and has taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal tax authorities for years before 2008.

Note 9. Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to the provisions of ERISA. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary as prescribed by the Plan and trust agreements. Upon termination of the Plan, the Trustees will pay all liabilities and expenses of the trust fund and will sell shares of financed stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the Plan's loan to the Company.

Note 10. Party-in-Interest Transactions

The Plan's investments consist exclusively of Company common stock. Double D Express, Inc. is the custodian of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Transactions with respect to common stock of the Company during the year ended December 31, 2011 were as follows:

Shares held at beginning of year	100,000
Shares purchased	-
Shares sold or distributed to participants	-
Shares held at end of year	100,000

The fair value of Company common stock as of December 31, 2011 and 2010 was $36.40 and $12.20 per share, respectively.

Note 11. Risks and Uncertainties

The Plan invests exclusively in the Company's common stock, which is exposed to various risks such as interest rate, market, credit risks and lack of marketability. Due to the level of risk associated with the investment, it is at least reasonably possible that changes in the values of the investment will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 12. Subsequent Events

The Plan Administrator has evaluated subsequent events through September 17, 2012, which is the date the financial statements were available to be issued.
