## NOTE A – Description of Plan

The following description of Cal-Tex Lumber Co., Inc. 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

*General.* The Plan is a defined contribution plan covering substantially all employees of the Cal-Tex Lumber Co., Inc. (Company or Sponsor) who have completed six months of service and are age eighteen or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan became effective January 1, 1989. Plan assets are held by Great-West Retirement Services under the direction of the Sponsor.

*Contributions.* Participants may contribute a specific dollar amount or percentage of compensation, as defined by the plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Each year, the Company determines the amount of matching and/or discretionary contributions it will make to the Plan. Employer matching contributions are based on the amount of participant salary reduction contributions while employer discretionary contributions are allocated based on annual compensation. To be eligible for employer matching and/or discretionary contributions, the participant must be employed on the last day of the plan year and have at least 1000 hours of service during the plan year. The Company did not make any matching or discretionary contributions to the Plan during the year ended December 31, 2011. All contributions are invested in participant directed investments in registered investment companies or participant loans. Contributions are subject to certain limitations.

*Participant Accounts.* Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, (b) Plan earnings (losses), and (c) forfeitures of terminated participants' nonvested profit sharing accounts, and charged with an allocation of administrative expenses. Allocations are based on compensation and account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

*Vesting.* Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contributions portion of their accounts plus earnings thereon is based on years of credited service. A participant is 100 percent vested after six years of credited service for the profit sharing portion and three years of credited service for the regular matching portion.

*Payment of Benefits.* Upon retirement, disability, or termination of service, a participant may elect to receive the value of the vested interest in his or her account as a lump-sum distribution or in annual installments, based on account balances defined in the Plan document.

*Notes Receivable from Participants.* Active participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan terms range from one to five years or up to fifteen years for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account and bear interest at the prime rate plus 1%, which was between 4.25% and 9.25% for outstanding loans at December 31, 2011. Principal and interest is paid ratably through payroll deductions.

*Forfeited Accounts.* At December 31, 2011 and 2010, forfeited nonvested accounts totaled $12,567 and $9,661, respectively. These amounts will be used to pay any administrative expenses, then any remaining forfeitures attributable to nonelective contributions will be allocated as an additional discretionary nonelective contribution, and any remaining forfeitures attributable to matching contributions will be used to reduce any matching contributions. In order to share in the allocation of forfeitures, the participant must be employed on the last day of the plan year and have completed 1000 hours of service during the plan year. In 2011, employer matching contributions were reduced by $-0- from forfeited nonvested accounts.

*Investment Options.* Upon enrollment in the Plan, a participant may direct both their employee and employer contributions in various investment options. All of these options are invested in registered investment companies. Participants may change their investment options daily. During the plan year, the Plan changed recordkeepers from Alliance Bernstein to Great-West Retirement Services. There was a blackout period from September 19, 2011 through September 23, 2011 during which certain activities were restricted.

**NOTE B – Summary of Significant Accounting Policies**

*Date of management's review.* Subsequent events were evaluated through September 21, 2012, which is the date the financial statements were available to be issued.

*Estimates.* The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

*Basis of accounting.* The financial statements of the Plan are prepared on the accrual basis of accounting.

*Notes receivable from participants.* Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

*Payment of benefits.* Benefits are recorded when paid.

*Operating expenses.* The Company pays substantially all of the administrative expenses of the Plan.

*Investment Valuation and Income Recognition.* Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

## NOTE C – Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

| | Fair Value | Quoted Prices In Active Markets for Identical Assets (Level 1) | Significant Other Observable Inputs (Level 2) |
|---|---|---|---|
| December 31, 2011 | | | |
| Mutual funds | $ 4,039,828 | $ 4,039,828 | $ - |
| Fixed Annuities | 1,045,039 | - | 1,045,039 |
| Total investments at fair value | $ 5,084,867 | $ 4,039,828 | $ 1,045,039 |
| December 31, 2010 | | | |
| Mutual funds | $ 5,319,669 | $ 5,319,669 | $ - |
| Total investments at fair value | $ 5,319,669 | $ 5,319,669 | $ - |

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its

investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 and Level 2 inputs were not available.

The Plan's investments that are measured at fair value on a recurring basis, such as mutual funds, are generally classified within Level 1 of the fair value hierarchy. The Plan also invests in the Key Guaranteed Portfolio Fund which is a fixed annuity held in the general account of the insurer and is classified within Level 2 of the fair value hierarchy. The investment contract has an investment objective to maintain a constant net asset value while generating a slightly higher yield than a money market fund. Generally, there are no restrictions on a participant's ability to redeem their investment in the Key Guaranteed Portfolio Fund at the investment's net asset value (NAV). However, withdrawals prompted by certain events (e.g., premature termination of the contracts by the Plan, plan termination), may restrict a participant's ability to redeem the investment at its NAV. The investments in the Key Guaranteed Portfolio Fund were transfers from Level 1 to Level 2 during the plan year.

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2011 are reported in net appreciation in fair value investments.

**NOTE D – Administration of Plan Assets**

Certain administrative functions are performed by officers or employees of the Company. No officer, employee, or the Company receives compensation from the Plan.

**NOTE E – Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

**NOTE F – Tax Status**

The Plan has established a retirement plan and trust under the Orchard Trust Company Defined Contribution Prototype Plan and Trust ("Orchard"). Orchard has received an opinion letter from the Internal Revenue Service stating that its prototype plan agreement is acceptable under section 401(a) of the Internal Revenue Code. The Plan has been amended since it was adopted. However, the Plan administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date. Therefore, no provision for income tax has been included in the Plan's financial statements.

## NOTE J – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
