Independent Auditor's Report

To the Plan Administrator
UVMC 401(k) Savings Plan

We were engaged to audit the accompanying modified cash basis financial statements and supplemental schedule of UVMC 401(k) Savings Plan (the "Plan") as of December 31, 2011 and 2010 and for the years then ended, as listed in the accompanying table of contents. These modified cash basis financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by ING National Trust and ING Life Insurance and Annuity Company (collectively, ING) and Variable Annuity Life Insurance Company (VALIC), the custodians of the Plan, except for comparing such information with the related information included in the modified cash basis financial statements and supplemental schedule. We have been informed by the plan administrator that ING and VALIC held the Plan's investment assets and participant notes receivable and executed related transactions. The plan administrator has obtained certifications from the custodians at December 31, 2011 and 2010 and for the years then ended that the information provided to the plan administrator by the custodians is complete and accurate.

As described in Note 2, the financial statements and supplemental schedule referred to above were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodians, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As explained in Note 3, the financial statements include investments valued at approximately \$11,900,000 (22 percent of net assets) at December 31, 2011 and \$10,200,000 (25 percent of net assets) at December 31, 2010 whose fair values have been estimated by management in the absence of readily determinable market values. Management uses information provided by the custodians, ING and VALIC, as estimates for these fair values.

Note 1 – Plan Description

The following description of UVMC 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering substantially all employees of Upper Valley Medical Center, Upper Valley Professional Corporation, and UVMC Management Corporation (collectively, the "Companies"). These Companies are member corporations of UVMC (the "Plan Sponsor"). The Plan provides retirement, death, and disability benefits for eligible participants. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

In July 2011, the UVMC Board of Directors approved a plan to merge the UVMC Self Directed Retirement Plan into the UVMC 401(k) Savings Plan. The merger took effect October 18, 2011. All benefits, rights and features of the UVMC Self Directed Retirement Plan and the UVMC 401(k) Savings Plan have been preserved under the merger.

Contributions – Contributions to the Plan consist of participant contributions, employer contributions, and employee rollovers and distributions from other qualified plans or Individual Retirement Accounts (IRAs).

The Companies' participants may contribute up to 75 percent of pretax annual compensation, as defined in the Plan, subject to maximum tax-deferred limitations established by the Internal Revenue Code (the "Code"). The Companies, at their discretion, contribute 25 percent of the first 4 percent of base compensation that a participant contributes to the Plan. The participants become eligible for the employer-matching contribution upon completion of 1,000 hours of service within one year.

Additionally, employees of Upper Valley Medical Center and UVMC Management Corporation may receive a discretionary employer contribution as defined by the Plan. These employer contributions are generally based on a percentage of participant compensation as determined by completed years of service as follows: less than five years receives 3%, five to nine years receives 4%, and ten years of service or more receives 5%.

Participants may direct their contributions and employer contributions to various investment options. Participants may change their allocation by filing an election with the custodian. All amounts in participant accounts are participant directed.

Participant Accounts – Each participant's account is credited or debited, as appropriate, with the participant's contributions, employer's contributions, plan earnings, and plan expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

UVMC 401(k) Savings Plan

Notes to Financial Statements December 31, 2011 and 2010

Note 1 – Plan Description (continued)

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Discretionary employer contributions vesting is based on years of benefit service, which is defined as any year in which a participant works at least 1,000 hours. Vesting in the Companies' contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after five years of credited service. A participant is automatically fully vested in any amount that the participant rolls into the Plan from another qualified plan or IRA. Forfeited balances of terminated participants' non-vested accounts are used to reduce future plan expenses and future contributions of the Companies.

The non-forfeitable percentage of a participant's account attributable to matching employer contributions and actual earnings thereon is determined as follows:

<u>Years of Service</u>	<u>Non-forfeitable Percentage</u>
1	20
2	40
3	60
4	80
5 or more	100

Payment of Benefits – Upon termination of service, death, disability, or retirement, a participant may receive a lump-sum amount or installment payments equal to the vested value of his or her account. Additional payment options related to Discretionary employer contributions consist of life annuities, term annuities, and joint and survivor annuities.

Plan Termination – Although they have not expressed any intent to do so, the Companies have the right under the Plan to discontinue their contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

Participant Notes Receivable – Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50 percent of their vested account balance (excluding the present value of their vested Self Directed Retirement Plan account, vested Self Directed Retirement Plan Rollover account, and vested Discretionary Employer Contribution account). Repayment of these notes shall not exceed five years except for notes used to acquire the participant's principal residence. Repayments are amortized in level payments through payroll deductions not less than quarterly. Participant notes receivable are secured by the balance in the participant's account and bear a reasonable interest rate.

UVMC 401(k) Savings Plan

Notes to Financial Statements December 31, 2011 and 2010

Note 1 – Plan Description (continued)

Party-in-interest Transactions – Certain plan assets are in investment funds managed by ING National Trust and ING Life Insurance and Annuity Company (collectively, “ING”) and the Variable Annuity Life Insurance Company (VALIC) or their affiliates. ING and VALIC are the custodians of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 2 – Summary of Significant Accounting Policies

Basis of Presentation – The financial statements and supplemental schedule of the Plan are prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America and as permitted under the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Under this basis, interest and dividend income is recorded when received, rather than when earned, investment assets are reported at fair value, net realized and unrealized appreciation (depreciation) in fair value of investments is recognized, contributions are recognized when received rather than as earned, and benefits and expenses are recognized when paid rather than as incurred.

Investment Valuation – Investments are stated at fair value. Investments in pooled separate accounts are valued at net asset value per share (or its equivalent), which are based on the fair market value of the funds’ underlying assets. The fair value of the guaranteed investment contracts is based on discounting the related cash flows of the underlying guaranteed investment contracts based on current yields of similar instruments with comparable durations. The fair value of these guaranteed investment contracts is adjusted to contract value, which represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. Certain guaranteed investment contracts invest in the general assets of ING. ING considers these contracts to be benefit responsive; however, since there are no specific securities related to this contract, contract value is the best estimate of fair value. The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date (see Note 3).

Participant Notes Receivable – Participant notes receivable are recorded at their unpaid principal balances. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments – Benefits are recorded when paid to participants.

Administrative Expenses – Certain plan administrative expenses are paid by the Companies and by the Plan.

Use of Estimates – The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Note 3 – Fair Value of Assets and Liabilities

Topic 820, Financial Accounting Standards Board Accounting Standards Codification, *Fair Value Measurements*, defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. It also establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. To measure fair value, the Plan Sponsor incorporates assumptions that market participants would use in pricing the asset or liability, and utilizes market data to the maximum extent possible. The measurement of fair value incorporates nonperformance risk (i.e. the risk that an obligation will not be fulfilled). In measuring fair value, the Plan Sponsor reflects the impact of its own credit risk on its liabilities, as well as any collateral. The Plan Sponsor also considers the credit standing of its counterparties in measuring the fair value of its assets.

The standard describes three levels of inputs that may be used to measure fair value:

Level 1 inputs are defined as quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 inputs are observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets. Significant Level 2 inputs include comparable U.S. government, foreign, and corporate obligations that are traded on the open market.

Level 3 inputs are unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Significant inputs for the guaranteed investment contracts include specific terms and contractual provisions in the contracts including the effective interest rate and credit rating of the issuer.

UVMC 401(k) Savings Plan

Notes to Financial Statements December 31, 2011 and 2010

Note 3 – Fair Value of Assets and Liabilities (continued)

The following classes describe the investment categories:

- (a) This class represents investments in actively managed pooled separate accounts that invest primarily in equity securities which may include common stocks, options, and futures.
- (b) This class represents investments in actively managed pooled separate accounts that invest in a variety of fixed-income investments which may include corporate bonds, both U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures.
- (c) This class represents investments in actively managed pooled separate accounts that invest in both equity and debt securities. The investments may include common stock, corporate bonds, U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures.

There were no unfunded commitments or redemption restrictions on the investments described above.

The following table sets forth a summary of the changes in the fair value of the Plan's Level 3 investment assets for the years ended December 31, 2011 and 2010:

	Guaranteed Investment Contracts	
	2011	2010
Balance at beginning of year	\$ 10,205,564	\$ 9,558,666
Purchases and issuances	4,786,350	1,723,075
Sales and settlements	(3,096,178)	(1,073,570)
Total unrealized losses	(2,135)	(2,607)
Balance at end of year	<u>\$ 11,893,601</u>	<u>\$ 10,205,564</u>

Unrealized losses of \$2,135 and \$2,607 for the years ended December 31, 2011 and 2010, respectively, on the unallocated contracts held at year end are included in the accompanying statement of net assets available for benefits.

Both observable and unobservable inputs may be used to determine the fair value of positions classified as Level 3 assets and liabilities. As a result, the unrealized losses for these assets presented in the tables above may include changes in fair value that were attributable to both observable and unobservable inputs.

The Plan's procedure is to recognize transfers between levels of the fair value hierarchy as of the actual date the transfer occurred. There were no significant transfers between levels of the fair value hierarchy during 2011 and 2010.

UVMC 401(k) Savings Plan

Notes to Financial Statements December 31, 2011 and 2010

Note 4 – Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated December 22, 2010, stating that the Plan is qualified under Section 401(a) of the Code; therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2008.

Note 5 – Unaudited Information

The custodians of the Plan, ING and VALIC, hold the Plan's investments and participant notes receivable and execute all related transactions. The investment and participant notes receivable balances and related investment results included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by ING and VALIC.

Significant investments as of the end of year are as follows:

	<u>2011</u>	<u>2010</u>
Pooled separate accounts – At fair value:		
American Funds EuroPacific R3	\$ *	\$ 3,255,087
American Funds EuroPacific R6	3,256,876	*

ING T. Rowe Price Growth Equity Portfolio	*	2,224,176
Vanguard 500 Index Fund	4,215,666	3,584,155
Vanguard T Retirement 2035	3,210,548	*
Guaranteed investment contracts – At contract value:		
ING Fixed Plus Account	11,807,432	10,023,856

* Amount is less than 5 percent of the Plan's assets available for benefits.

Note 6 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 7 – Investment Contracts

The Plan has benefit-responsive guaranteed investment contracts with ING and VALIC. ING and VALIC (the "contract issuers") maintain the contributions in general accounts. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuers are contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuers or otherwise. The crediting interest rate is based on a formula agreed upon with the contract issuers, but may not be less than 3.00 percent. Such interest rates are reviewed on a periodic basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the contract issuers. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (ii) changes to the Plan's prohibition on competing investment options, (iii) bankruptcy of the Plan Sponsor or other Plan Sponsor events (e.g., divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the Plan, or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Note 7 – Investment Contracts (continued)

The guaranteed investment contracts do not permit the contract issuers to terminate the contracts prior to the scheduled maturity date. If an event of default occurs and is not cured, the non-defaulting party may terminate the contract. The following may cause the Plan to be in default: a breach of material obligation under the contract; a material misrepresentation; or a material amendment to the plan agreement. The contract issuers may be in default if they breach a material obligation under the guaranteed investment contracts; make a material misrepresentation; have a decline in their long-term credit rating below a threshold set forth in the contracts; or are acquired or reorganized and the successor contract issuers do not satisfy the investment or credit guidelines applicable to the contract issuers. If, in the event of default of the contract issuers, the Plan were unable to obtain a replacement guaranteed investment contract, withdrawing plans may experience losses if that value of the Plan's assets no longer covered by the contract is below contract value. The Plan may seek to add additional contract issuers over time to diversify the Plan's exposure to such risk, but there is no assurance the Plan may be able to do so. The combination of the default of the contract issuers and an inability to obtain a replacement agreement could render the Plan unable to achieve its objective of maintaining a stable contract value. The terms of the guaranteed investment contract generally provide for settlement of payments only upon termination of the contract or total liquidation of the covered investments. Generally, payments will be made pro rata, based on the percentage of investments covered by each contract issuer. Contract termination occurs whenever the contract value or market value of the covered investments reaches zero or upon certain events of default. If the contract terminates due to the contract issuers' default (other than a default occurring because of a decline in its rating), the contract issuers will generally be required to pay to the Plan the excess, if any, of contract value over market value on the date of termination. If the contract terminates when the market value equals zero, the contract issuers will pay the excess of contract value over market value to the Plan to the extent necessary for the Plan to satisfy outstanding contract value withdrawal requests. Contract termination also may occur by either party upon election and notice.

Because the guaranteed investment contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets attributable to the guaranteed investment contracts. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The average yield for the various guaranteed investment contracts, based on actual earnings and on interest rates credited to participants, was 3.00 percent for 2011 and 2010.

Note 8 – Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 7, 2012, which is the date the financial statements were available to be issued.
