Arbor Retirement Savings and Profit Sharing Plan

Notes to Financial Statements
December 31, 2011 and 2010

1. Description of the Plan

The following description of the Arbor Retirement Savings and Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Arbor Material Handling, Inc. (the "Company") who have completed three months of service, are age 18 or older, and are not covered by a collective bargaining unit. For Company contributions, a participant must complete one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan evaluated subsequent events for recognition or disclosure through September 15, 2012, the date the financial statements were available to be issued.

Contributions

Each year, participants may contribute up to 70% of pretax annual compensation, as defined by the Plan up to the maximum limits of the Internal Revenue Code ("IRC"). Effective March 2009, eligible employees will become automatically enrolled in the Plan if they do not complete a salary reduction agreement. Participants automatically enrolled in the Plan will have a contribution rate of 3% of pretax eligible compensation, as defined by the Plan. Additionally, participant contribution rates for participants automatically enrolled in the Plan will be increased by 1% on the first day of the plan year, up to a maximum rate of 5%. Effective March 2009, participants may designate all or a portion of their deferral contributions as after-tax contributions into a Roth account. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participant contributions to the Plan are recorded in the period that payroll deductions are made from participants. The Company may also make a discretionary matching or profit sharing contribution, as defined by the Plan. For the year ended December 31, 2011, the Company made a matching contribution of 20% of the participant's deferral, up to 5% of eligible participant compensation, as defined by the Plan. For the year ended December 31, 2011, there was no profit sharing contribution. Participants direct the investment of all contributions into various investment options offered by the Plan. If a participant fails to provide such direction, contributions are invested in the target maturity fund appropriate for the participant's expected normal retirement age (65). Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Arbor Retirement Savings and Profit Sharing Plan

Notes to Financial Statements
December 31, 2011 and 2010

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the Company's contribution of their account based on total years of service with the Company as follows:

<u>Years of Service</u>	<u>Percent Vested</u>
Less than 2	0%
2	20
3	40
4	60
5	80
6 or more	100

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Borrowings are secured by the balance in the participant's account and bear interest at rates that range from 5.50% to 8.00% at December 31, 2011, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions. Terms range from one to five years or greater for the purchase of a primary residence.

Payment of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in their account. In addition, the Plan allows for hardship distributions if certain criteria are met.

Forfeited Accounts

At December 31, 2011 and 2010, forfeited non-vested accounts totaled \$3,189 and \$987, respectively. These accounts will be used to reduce future employer contributions. In 2011, employer contributions were not reduced from forfeited non-vested accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Arbor Retirement Savings and Profit Sharing Plan

Notes to Financial Statements
December 31, 2011 and 2010

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are recorded as distributions based upon the terms of the plan document.

Administration of Plan Assets

The Plan's assets are administered under a contract with Frontier Trust Company ("Frontier Trust"), the trustee of the Plan. The trustee invests funds received from contributions, investment sales, interest, and dividend income and makes distribution payments to participants. Certain administrative expenses of maintaining the Plan are paid by the Company.

Payment of Benefits

Benefits are recorded when paid.

New Accounting Standard

In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2011-04 "Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs," ("ASU 2011-04"). ASU 2011-04 will expand disclosures about fair value measurement and result in common fair value measurement and disclosure requirements in U.S. GAAP and International Financial Reporting Standards. ASU 2011-04 is effective for fiscal years and interim reporting periods beginning after December 15, 2011. Plan management is evaluating the impact of adopting ASU 2011-04 and believes it will not be material to the financial statements but will provide additional disclosures.

3. Fair Value Measurements

The Plan measures on a recurring basis its investments at fair value in accordance with FASB codification "Fair Value Measurement," which provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs. The three levels of fair value hierarchy are as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices in active markets that are accessible to the Plan for identical assets. These generally provide the most reliable evidence and are used to measure fair value whenever available.

Level 2 - Inputs to the valuation methodology include significant inputs, other than Level 1 inputs, that are observable either directly or indirectly for substantially the full term of the asset through corroboration with observable market data. Level 2 inputs include quoted market prices in active markets for similar assets or liabilities, quoted market prices in inactive markets for identical or similar assets or liabilities, and other observable inputs.

Level 3 - Inputs to the valuation methodology are unobservable inputs and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There has been no change in the methodology used at December 31, 2011 and 2010.

Shares of the money market fund and registered investment companies are valued at the quoted net asset value of shares held by the Plan at year end.

The preceding method may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Related Party Transactions

Certain Plan investments are managed by the trustee, and therefore, these transactions qualify as party-in-interest transactions. Additionally, the Plan issues loans to participants, which are secured by the participant's account balances. These transactions qualify as party-in-interest transactions.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their Company contributions.

7. Tax Status

The Company has adopted a prototype plan document and is relying on the prototype sponsor's opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2008. The letter states that the prototype and related trust are designed in accordance with applicable sections of the IRC. Although the prototype plan has been amended since receiving the opinion letter, the prototype sponsor and the Plan administrator believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2011, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2011 and 2010. Accordingly, Frontier Trust, the trustee of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying Statement of Net Assets Available for Benefits as of December 31, 2011 and 2010 and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2011, and the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2011.

10. Excess Contributions

In order to satisfy the relevant nondiscrimination provisions of the Plan for the year ended December 31, 2011, the Plan reimbursed excess contributions to its participants during 2012. Excess contributions amounting to \$6,248 are recorded as a liability as of December 31, 2011 and as a reduction of participant contributions for the year ended December 31, 2011.

In order to satisfy the relevant nondiscrimination provisions of the Plan for the year ended December 31, 2010, the Plan reimbursed excess contributions to its participants during 2011. Excess contributions amounting to \$651 are recorded as a liability as of December 31, 2010.
