SAMUEL ENGINEERING, INC.
401(k) SAVINGS PLAN
Notes to Financial Statements
December 31, 2011 and 2010

Note 1: Description of Plan

The following brief description of Samuel Engineering, Inc.'s ("the Company") 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan covering substantially all employees of the Company. Employees are eligible for participation in the Plan once they become employed with the company and are at least 21 years of age. Participants may enter the Plan on the first quarterly entry date after meeting the participation requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan was adopted on August 1, 2001 and amended on December 1, 2010. The Plan is intended to be a qualified defined contribution plan which satisfies the requirements of Section 401(k) of the Internal Revenue Code (the "Code"). Under the Code, participants are not liable for federal income taxes on employee contributions, company contributions, or plan earnings until such time as they are partially or completely withdrawn from the Plan.

Contributions

Each year, participants may contribute pretax annual compensation to the Plan. Contributions are subject to certain limitations and are invested at the direction of the participant. Participants may also rollover amounts from other qualified plans. The Plan currently offers twenty-two mutual funds and one guaranteed interest contract as investment options for participants and all assets in the Plan are subject to participants' investment direction. The Company may also make discretionary profit sharing contributions based on certain formulas as defined in the Plan. Participants may make hardship withdrawals from elective deferral contributions (but not the income earned on such contributions), matching contributions, and discretionary contributions of their vested accounts.

Participant Accounts

Each participant's account is adjusted by the following increases and decreases: (a) Plan earnings; (b) payment of benefits; (c) increase (or decrease) in the fair value of applicable investments; (d) Company contributions; (e) participant contributions; and (f) administrative expenses incurred in the operations and maintenance of the Plan and its investments. Allocations to each participant's account are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is that which can be provided from the participant's vested account.

Note 1: Description of Plan, continued

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's matching portion of their accounts plus actual earnings thereon is based on years of service. A participant is 33% vested after one year, 66% vested after two years, and 100% vested after 3 years. In the case of termination of a participant prior to being 100% vested, the participant will forfeit any unvested amounts in the participant account.

Administration of Plan Assets

Contributions are held and managed by Principal Financial Group, (the "Custodian"), who invests cash received, allocates interest and dividend income, and makes distributions to Participants. Employees of the Company perform certain administrative functions for the Plan. Such employees do not receive compensation from the Plan. Administrative expenses can be paid directly by the Company, through the Plan, and from forfeitures.

Notes Receivable from Participants

Loans are available under the Plan. Loan amounts are limited and may not be more than 50% of the participant's vested account or $50,000, and cannot be less than $1,000. Each participant can have only two loans outstanding at a time and may only take out one loan during any one year. During the year ended December 31, 2011, the Plan issued 7 loans to participants. At December 31, 2011 and 2010, balances of notes receivable from participants totaled $109,956 and $113,654, respectively.

Payment of Benefits

On termination of service due to death, disability, retirement, or withdrawal from the Plan, a participant may elect to receive a lump-sum cash payment, one of various annuity contracts, or a direct rollover to another qualified retirement plan, in an amount equal to the participant's vested interest in his or her account.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting from information supplied by the Company, the Plan Administrator, and the Custodian.

Note 2: Summary of Significant Accounting Policies, continued

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value based on quoted market values determined at the close of each business day. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end.

The Plan presents, in the statements of changes in net assets available for benefits, the net appreciation (depreciation) in the fair value of its investments which consists of the realized gains and losses and the unrealized appreciation (depreciation) on those investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Corrective Distributions

Based on compliance testing performed for actual deferral percentage and actual contribution percentage, corrective distributions were made after the Plan's year end for seven participants whose contributions were greater than allowable limits for the year ended December 31, 2010. These corrective distributions are classified as liabilities on the Statement of Net Assets Available for Benefits. No corrective distributions were made for the year ended December 31, 2011.

Forfeitures

For the year ended December 31, 2011 and 2010, forfeitures totaled $8,532 and $278, respectively. Forfeitures may first be used to pay administrative expenses, and the remaining will be reallocated to participant accounts.

Note 3: Fair Values of Financial Instruments

The Plan adopted Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820-10-50-8, *Fair Value Measurements*, which provides a

Note 3: Fair Values of Financial Instruments, continued

framework for measuring fair value under generally accepted accounting principles. FASB ASC 820-10-50-8 defines fair values, establishes a consistent framework for measuring fair value and expands disclosure requirements for fair value measurements.

Under FASB ASC 820-10-50-8, assets and liabilities are grouped in three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value. These levels are:

- Level 1 – Valuation is based upon quoted prices for identical instruments traded in active markets.

- Level 2 – Valuation is based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market.

- Level 3 – Valuation is generated from model-based techniques that use significant assumptions not observable in the market. These unobserved assumptions reflect the Company's own estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include use of option pricing models, discounted cash flow models and similar techniques.

Under FASB ASC 820-10-50-8, the Plan bases fair values on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements for assets and liabilities where there exists limited or no observable market data and, therefore, are based primarily upon the Plan's estimates, are often calculated based on current pricing policy, the economic and competitive environment, the characteristics of the asset or liability and other such factors. Therefore, the results cannot be determined with precision and may not be realized in an actual sale or immediate settlement of the asset or liability. Additionally, there may be inherent weaknesses in any calculation technique, and changes in the underlying assumptions used, including discount rates and estimates of future cash flows, that could significantly affect the results of current or future values.

Fair value measurements for assets recorded at fair value on a recurring basis at December 31, 2011 are as follows:

	Fair Value	Level 1	Level 2	Level 3
Separate accounts	$ 3,662,705	$ -	$ 3,662,705	$ -
Investment contract	569,897	-	-	569,897
Total assets	$ 4,232,602	$ -	$ 3,662,705	$ 569,897

Note 3: Fair Values of Financial Instruments, continued

Fair value measurements for assets recorded at fair value on a recurring basis at December 31, 2010 are as follows:

	Fair Value	Level 1	Level 2	Level 3
Separate accounts	$ 3,106,690	$ -	$ 2,980,032	$ 126,658
Investment contract	484,926	-	-	484,926
Total assets	$ 3,591,616	$ -	$ 2,980,032	$ 611,584

Level 2 securities consist of pooled separate accounts that invest in mutual funds, domestic stocks, international stocks, short-term securities such as commercial paper, and fixed securities such as asset-backed securities, residential mortgaged-back securities, commercial-backed securities, and corporate bonds.

Level 3 securities consist of commercial real estate and a guaranteed investment contract. The commercial real estate is a separate account that includes mortgage loans which are backed by the associated properties, and the guaranteed investment contract is a group annuity contract established by the Custodian. The following table reconciles the beginning and ending balances of fair value measurements using the significant unobservable inputs (Level 3) of the investment contract with insurance company for the years ending December 31, 2011 and 2010:

	2011	**2010**
Beginning balance	$ 611,584	$ 604,756
Total gains or losses	5,139	20,394
Interest credited	13,035	15,417
Transfers out	(140,528)	-
Purchases	202,150	120,163
Issuances and settlements	(121,483)	(149,146)
Ending balance	$ 569,897	$ 611,584

Note 4: Investments

The following presents the fair values of the Plan's investments that represent 5% or more of the Plan's net assets as certified by the Custodian on December 31:

Note 7: Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds and securities managed by Principal Financial Group. Principal Financial Group is the custodian and executes transactions as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Many investment options have charges and restrictions that apply when transactions are made, and vary depending in the type. Refer to the Plan administrator about specific charges and restrictions.

Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9: Plan Expenses

The Company may pay administrative expenses in whole or in part. All expenses not paid by the Company shall be paid by the Plan. There were no administrative expenses paid by the Company and not charged to the Plan for the year ended December 31, 2011. The Company also pays the salaries of the benefits administrators and other personnel who perform services for the Plan as part of their duties. These expenses are not recorded as Plan expenses. The Plan paid $13,965 in expenses for the year ending December 31, 2011.

Note 12: ERISA Bond Requirements

The Employee Retirement Income Security Act of 1974 (ERISA) requires that every person who handles funds or other property of the Plan be bonded. The bond coverage is to be determined by the balance of the total plan assets, and is required to be at least equal to the lesser of 10% of the plan's assets at the beginning of the Plan year or $500,000. For the year ended December 31, 2011, the Plan's sponsor maintained bond coverage in the amount of $1,000,000.
