Independent Auditor's Report

We have audited the accompanying statement of net assets available for benefits of Chuhak & Tecson, P.C. Cash or Deferred Profit Sharing Plan and Trust as of December 31, 2011 and the related statements of changes in net assets available for benefits for the year ended December 31, 2011. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit. The financial statements of Chuhak & Tecson, P.C. Cash or Deferred Profit Sharing Plan and Trust as of December 31, 2010, were audited by other auditors whose report dated October 14, 2011, expressed an unqualified opinion on those statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards required that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement preparation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Chuhak & Tecson, P.C. Cash or Deferred Profit Sharing Plan and Trust as of December 31, 2011, and the changes in its net assets available for benefits for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the financial statements taken as a whole. The supplemental Schedule H, Line 4i – Schedule of Assets Held at End of Year is presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements taken as a whole.

Cash or Deferred Profit Sharing Plan and Trust
Notes to Consolidated Financial Statements
December 31, 2011

Note (1) Description of Plan

The following description of the Chuhak & Tecson, P.C. Cash or Deferred Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions. The Plan was established on June 1, 1987.

A. General

The Plan is a defined contribution plan covering substantially all employees of Chuhak & Tecson, P.C. (the "Employer"). Employees may make elective deferrals immediately upon reaching age 21 and completing three months of service. In order to receive discretionary Employer contributions, an employee must be age 21, complete one year of service, and be employed on the last day of the Plan Year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

B. Contributions

Each year, participants may contribute up to the maximum percentage allowable, not to exceed the limits of Code Sections 401(k), 402(g), 404 and 415, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified individual retirement accounts and qualified rollovers. Participants direct the investment of their contributions into various investment options offered by the Plan or into a self directed brokerage account. The Plan currently, offers various mutual funds and a common collective trust as investment options. In addition, at its discretion, the Employer may make annual contributions or matching contributions on behalf of eligible participants. For 2011, the Employer made a discretionary contribution in the amount of $526,484. There was no matching contribution.

C. Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Employer's matching or discretionary contribution, and (b) self directed plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

D. Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants are fully vested in the Employer's matching and discretionary contributions accounts, plus actual earnings thereon, upon completion of six years of continuous service.

Note (1) Description of Plan - Continued

E. Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

F. Payment of Benefits

On termination of service due to death, disability, separation or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount. In addition, in-service withdrawals are allowed after participants reach normal retirement age and whose funds have been on deposit for two or more years or who have been participants in the Plan for five or more Plan years.

G. Forfeited Accounts

At December 31, 2011 and 2010, forfeited nonvested accounts totaled $6,665 and $20,956 respectively. These accounts will be used to reduce Employer matching or discretionary contributions.

Note (2) Summary of Significant Accounting Policies

A. Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would received if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

B. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note (4) for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note (2) Summary of Significant Accounting Policies - Continued

C. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

D. Payment of Benefits

Benefits are recorded when paid.

E. Administrative Expenses

All significant administrative expenses of the Plan are paid by the Plan.

F. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. While actual results may differ from those estimates, management does not expect the differences, if any, to have a material effect on the financial statements.

G. Subsequent Events

The Plan has evaluated subsequent events through September 24, 2012, the date the financial statements were available to be issued. During this period, the Plan did not have any material recognizable subsequent events.

Note (3) Investments

The following presents investments that represent 5% or more of the Plan's net assets:

	2011	2010
Galliard/Wells Fargo Stable Value Fund	$ 1,655,331	$ 1,621,373
Vanguard 500 Index Signal Fund	$ 921,108	$ 991,852
Self-directed brokerage accounts	$ 8,607,525	$ 8,829,374

During 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated and depreciated as follows:

	2011
Mutual funds	$ (391,770)
Self-directed brokerage accounts	$ (136,138)
Common collective trust	$ 29,448

Note (4) Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology including the following: quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual Funds: Valued at the quoted net asset value of shares held by the Plan at year end.

Guaranteed Investment Contract: Valued at the unit value as reported by the investment manager at year end.

Self directed brokerage accounts: Valued based on quoted prices or redeemable value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note (4) Fair Value Measurements - Continued

The following tables set forth by level, within the fair value hierarchy, the Plan's assets that were accounted for at fair value as of December 31, 2011 and 2010. As required by the fair value measurements and disclosures topic, these assets are classified in their entirety based on the lowest level input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect their placement within the fair value hierarchy levels.

Note (4) Fair Value Measurements - Continued

The following table sets forth a summary of changes in fair value of the Plan's level 3 assets for the year ended December 31, 2011:

	Guaranteed Investment Contract
Balance – Beginning of Year	$ 1,621,373
Total gains or losses included in changes in net assets available for benefits	29,448
Purchases	241,504
Sales	(236,994)
Balance – End of Year	**$ 1,655,331**
The amount of total gains and losses for the period attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	$ (20,666)

Note (5) Guaranteed Investment Contract with Insurance Company

During 2006, the Plan entered into a benefit-responsive contract (The Stable Value Fund) with Wells Fargo Bank Stable Value Fund ("Stable Value Fund"). The Stable Value Fund maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specific interest rate that is guaranteed to the Plan.

As described in Note (2) B, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by the Stable Value Fund, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2011 and 2010 was $1,655,331 and $1,621,373, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than one percent. Such interest rates are reviewed on a quarterly basis for resetting.

Note (5) Guaranteed Investment Contract with Insurance Company - Continued

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another Plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example: divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average Yields	2011	2010
Based on actual earnings	1.56%	2.38%
Based on interest rate credited to participants	2.33%	2.90%

Note (6) Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer accounts.

Note (7) Tax Status

The Internal Revenue Service has determined and informed the Employer by a letter that the prototype Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

The Plan accounts for any potential interest or penalties related to the possible future liabilities for unrecognized income tax benefits as interest/other expense. The Plan is no longer subject to examination by tax authorities for federal, state or local income taxes for periods before 2008.

Note (8) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
