401(k) RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010

NOTE 1 - DESCRIPTION OF PLAN

The following description of the National H.V.A.C. Service, Ltd. 401(k) Retirement Savings Plan (Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

The Plan is a defined contribution profit sharing plan covering substantially all employees of National H.V.A.C. Service, Ltd. (Company) who are not covered by a collective bargaining agreement and have reached the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participants are permitted to make contributions to the Plan by payroll deduction subject to a $16,500 limitation in 2011 under the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Currently, the Plan offers eighteen (18) mutual funds and a fixed investment account as investment options for participants. Participants may change their investment election for future contributions or the percentage(s) invested in each of these options or transfer funds among these options on any business day.

The Company may make discretionary matching contributions as determined by the Board of Directors. The Company's discretionary matching contribution for the plan year ended December 31, 2011 was 30% of the amount that a participant contributes to the Plan, up to 5% of compensation.

Participants' Accounts - Each participant's account is credited with the participant's contribution, the Company's matching contribution, allocation of Plan earnings and certain administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of Benefits - On termination of service due to death, disability or retirement, a participant or his or her beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount. Participants may elect to withdraw all of a portion of their account, without terminating employment with the Company, upon attaining the age of 59-1/2. In addition, the Plan provides for withdrawals, other than distributions to terminated employees, based on financial hardship. The Plan administrator may determine that a financial hardship exists based on several events outlined in the plan document. Events that may constitute financial hardship include expenses for medical care, payment of tuition expenses, costs related to the purchase of a principal residence, payments necessary to prevent the participant from being evicted from his or her principal residence, funeral expenses and certain expenses for repair of a principal residence. In addition, the Plan administrator must also determine if the participant has any other alternative resources available to him/her before granting a hardship withdrawal. After receiving a hardship withdrawal, a participant is not permitted to make elective contributions to the Plan for a period of six months

Notes Receivable From Participants - Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Repayments of the notes are made in equal installments over a period not to exceed five years (unless the loan is for the purchase of a primary residence). The notes are secured by the balance in the participant's account and bear interest at a fixed rate on the date of origination based upon the prime lending rate (3.25% at December 31, 2011). Principal and interest are paid through weekly payroll deductions.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contributions credited to a participant's account is based on years of continuous service. Participants are 100% vested upon completion of three years of vesting service.

Forfeitures - Forfeitures of terminated participants' nonvested accounts are used to reduce subsequent Company contributions. Total forfeitures available for use by the Plan totaled approximately $1,400 and $700 as of December 31, 2011 and 2010, respectively.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of significant accounting policies consistently applied by the Plan administrator in the preparation of the accompanying financial statements follows:

Basis of Accounting - The accompanying financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2011 or 2010. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Guaranteed Investment Contracts - As described in the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC), topic Financial Services - Investment Companies, fully benefit-responsive investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount that participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the topic, the statement of net assets available for benefits as of December 31, 2011 and 2010 presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value.

Payment of Benefits - Benefits are recorded when paid.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Administrative Expenses - Administrative expenses are paid by the Company, with the exception of assets, check and loan fees, which are paid by Plan participants and amounted to approximately $900 for 2011.

Subsequent Events - Management has evaluated subsequent events through September 28, 2012, the date on which the financial statements were available to be issued.

Recent Accounting Pronouncements - In May 2011, the FASB issued Accounting Standards Update (ASU) No. 2011-04, Fair Value Measurement: Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs. This ASU provides a consistent definition of fair value to ensure that the fair value measurement and disclosure requirements are similar between U.S. GAAP and IFRS. This standard changes certain fair value measurement principles and enhances the disclosure requirements. ASU No. 2011-04 is effective for interim and annual periods beginning after December 15, 2011 and should be applied prospectively. The Plan is currently evaluating the impact, if any, this ASU will have on its financial statements.

NOTE 3 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 2008, the Plan entered into a benefit-responsive investment contract with ING Life Insurance and Annuity Company (ING), which maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by ING. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by ING, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract was $924,574 and $821,858 at December 31, 2011 and 2010, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with participants are probable of occurring.

NOTE 3 - INVESTMENT CONTRACT WITH INSURANCE COMPANY (Continued)

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2011
Average yields:	
Based on actual earnings	3.0%
Based on interest rate credited to participants	3.0%

NOTE 4 - INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets:

	December 31	
	2011	2010
ING Fixed Account (at contract value)	$ 860,911	$ 810,298
ING Solution 2025 Portfolio - Advisor Class	604,0916	74,876
ING Solution 2035 Portfolio - Advisor Class	599,4616	19,701
ING Solution 2045 Portfolio - Advisor Class	330,4782	29,787

During 2011, the Plan's investments (including the gains and losses on investments bought, sold and held during the year) depreciated in value by $124,486.

NOTE 5 - FAIR VALUE MEASUREMENT

The Fair Value Measurement and Disclosure topic of the ASC defines fair value as the price that would be received to sell an asset or paid to transfer a liability (i.e., exit price) in an orderly transaction between market participants at the measurement date. This topic requires disclosures that categorize assets and liabilities measured at fair value into one of three different levels depending on the assumptions (i.e., inputs) used in the valuation. Level 1 provides the most reliable measure of fair value, while Level 3 generally requires significant management judgment. Financial assets and liabilities are classified in their entirety based on the lowest level of input significant to the fair value measurement. The fair value hierarchy is defined as follows:

Level 1 - Valuations are based on unadjusted quoted prices in active markets for identical assets or liabilities. The Plan's Level 1 assets consist of mutual funds listed on active exchanges. The mutual funds are valued at the net asset value (NAV) of shares by the Plan at year-end.

Level 2 - Valuations are based on quoted prices for similar assets or liabilities in active markets, or on quoted prices in markets that are not active, but for which significant inputs are observable, either directly or indirectly.

NOTE 5 - FAIR VALUE MEASUREMENT (Continued)

Level 3 - Valuations are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. Inputs reflect management's best estimate of what market participants would use in valuing the asset or liability at the measurement date.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual Funds - Valued at the net asset value of shares held by the Plan at year-end.

Investment Contract with Insurance Company - Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The valuations of the Plan's investments at December 31 according to the fair value hierarchy are summarized as follows:

Unrealized gains	52,103
Investment income	22,787
Purchases and issuances	87,805

Balance, end of year	$ 924,574

NOTE 6 - INFORMATION CERTIFIED BY THE PLAN CUSTODIAN

ING, the custodian of the Plan, has certified that certain information is complete and accurate as of December 31, 2011 and 2010 and for the year ended December 31, 2011. Such information includes the composition, cost and current value of the investments reported in the statements of net assets available for benefits and related interest and dividends and net depreciation in fair value of investments reported in the statement of changes in net assets available for benefits.

NOTE 7 - PLAN TERMINATION

Although it has not expressed the intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 8 - FEDERAL INCOME TAX

The Plan adopted a Prototype Nonstandardized Profit Sharing Plan (Prototype) with a cash or deferral arrangement. The Prototype received an opinion letter from the Internal Revenue Service on March 31, 2008 that stated that the Plan and related Trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes that the Plan is no longer subject to income tax examinations for years prior to 2008.

NOTE 9 - RELATED PARTIES

Certain Plan investments in shares of mutual funds and a fixed account are managed by ING, the custodian as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions.

NOTE 10 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities that are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
