NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2011

1. DESCRIPTION OF PLAN

The following description of the Equipment Depot, Ltd. Employees' Salary Reduction Plan & Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all fulltime employees of Equipment Depot, Ltd. (the "Company") who are age 19 or older and have completed three months of service, except members of a collective bargaining unit and non-resident aliens who are specifically excluded from participating in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Employee Contributions

Pursuant to Section 401(k) of the Internal Revenue Code (the "IRC"), participants may contribute up to the lesser of 100% of their compensation or \$16,500 for 2011 and 2010. Participants who have attained age 50 before the end of the Plan year may also make catch-up contributions of up to \$5,500 for 2011 and 2010. All participants' accounts are fully vested at all times.

Employer Contributions

The Company makes a discretionary matching contribution based on employee deferrals. During 2011, the Company matched 30% of employee deferrals up to 6% of compensation.

Participant Accounts

Each participant's account is credited with the participant's voluntary contribution, the discretionary Company's matching contribution, and Plan earnings, which are allocated proportionately among all participants based on their investment in each fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Employer contributions are 20% vested to the participant after two full years of service, 20% for each additional year of service and fully vested after six years. Full vesting also occurs upon death, total disability or retirement at or after age 65.

(continued)

1. DESCRIPTION OF PLAN (Continued)

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$600 up to a maximum of \$50,000, not to exceed 50% of their vested account balances. A participant may only have one loan outstanding at any time. Loan terms range from one to 5 years or up to 15 years for the purchase of a primary residence. The loans are secured by the participant's account under the Plan and bear interest from 4% to 9.25%. Principal and interest are generally paid by payroll deduction.

Payment of Benefits

Upon termination of service, a participant may elect to receive a lump sum amount equal to the value of his or her account or periodic installments.

Forfeitures

A forfeiture is the non-vested portion of a terminated participant's account balance. The forfeited amount remains in the Plan and is first used to reduce any administrative fees and then any subsequent discretionary employer contributions. Total forfeitures for the years ended December 31, 2011 and 2010 were \$0 and \$16,929, respectively.

Investment Options

The assets of the Plan are allocated to the various funds at the direction of the participant.

Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officers or employees receive compensation from the Plan. The Plan's administrative expenses are paid by the Plan as provided by the Plan document.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires Plan management to make estimates and assumptions that affect the reported amounts of Plan assets and liabilities and changes therein at the date of the financial statements. Actual results could differ from those estimates.

(continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the Plan document.

Investment Valuation and Income Recognition

The investments in all of the funds, except the guaranteed fund, are presented at fair value, based on the quoted market prices of the underlying securities within each fund at December 31, 2011 and 2010. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The guaranteed fund is fully benefit-responsive and is reported at fair value and adjusted to contract value. Contract value represents the accumulated contributions plus accrued net earnings, less distributions. Fair value of the investment in the guaranteed fund is estimated by the custodian using discounted cash flows.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

3. INVESTMENTS

All Plan investment assets are held by MG Trust Company, LLC, the trustee of the Plan.

The Plan's investments (including investments bought, sold, and held during the year) depreciated in value by \$113,602 for the year ended December 31, 2011.

4. FAIR VALUE MEASUREMENTS

FASB ASC 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual funds –

Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Guaranteed funds –

Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

4. FAIR VALUE MEASUREMENTS (Continued)

Cash and cash equivalents—
Valued at the face value.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010.

Assets at Fair Value as of December 31, 2011				
	Level 1	Level 2	Level 3	Total

4. FAIR VALUE MEASUREMENTS (Continued)

The amount of total gains or losses for the period attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	\$ <u>35,243</u>

5. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has a fully benefit-responsive investment contract with MetLife. MetLife maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value and then adjusted to contract value as reported to the Plan by MetLife. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The contract has certain restrictions that impact the ability to collect the full contract value, for example, the Plan may not withdraw more than a certain percentage of the beginning of the year balance of the contract without incurring a penalty. Plan management believes that the occurrence of events that would cause the plan to transact at less than contract value is not probable. MetLife may not terminate the contract at any amount less than contract value.

6. EXCESS CONTRIBUTIONS REFUNDABLE

As of December 31, 2011 and 2010, payables of \$0 and \$1,673, respectively, are recorded for amounts refundable by the Plan to participants for contributions made in excess of amounts allowed by the Internal Revenue Service.

7. RELATED PARTY TRANSACTIONS

Various accounting, administrative, and investment services are provided to the Plan the third party administrator and the investment advisor. These transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan as direct compensation for these services amounted to \$67,869 for the year ended December 31, 2011.

8. ASSET INFORMATION CERTIFIED BY TRUSTEE

As of and for the years ended December 31, 2011 and 2010, the investment and related activity from which the statement of net assets available for plan benefits, the statement of changes in net assets available for plan benefits, and the supplemental schedule were derived, has been certified by MG Trust Company, LLC, the trustee of the Plan, as being complete and accurate as required by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

10. TAX STATUS

The Internal Revenue Service has determined and informed the company by a letter dated December 5, 2002 that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the plan has been amended since receiving the determination letter, the plan administration and the plan's tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

11. PLAN TERMINATION

Although it has not expressed any interest to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants will become 100% vested in their accounts.

12. RISKS AND UNCERTAINTIES

The Plan invests in a variety of investment funds. Investments in general are exposed to various risks, such as interest rate, credit, and overall volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

13. SUBSEQUENT EVENTS

For the year ended December 31, 2011, the Company has evaluated subsequent events for potential recognition and disclosure through September 28, 2012, the date of financial statement issuance. No events requiring disclosure were noted.
