GOLD STANDARD ENTERPRISES, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011

A. DESCRIPTION OF PLAN

The following description of the Gold Standard Enterprises, Inc. ("Company") 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General. The Plan is a defined contribution plan covering all employees of the Company who have completed six months of service, and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act ("ERISA"). The custodian of the plan assets is Great-West Life & Annuity Insurance Company ("Great-West").

2. Investments. All investments are participant-directed. The Plan currently offers twenty-eight pooled mutual funds and one guaranteed portfolio fund (an unallocated investment contract) as investment options for participants. A participant may maintain their entire account in one of the investment options or may elect to split their account among the investment funds in accordance with the terms of the Plan.

3. Contributions. Each year, participants may contribute any amount of pretax annual compensation, subject to certain Internal Revenue Code ("IRC") limitations, as defined in the Plan. Effective June 1, 2010, participants may also make Roth contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined-benefit or defined-contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes 50 percent of the first six percent of base compensation that a participant contributes to the Plan, including catch-up contributions. Additional profit sharing amounts may be contributed at the option of the Company's Board of Directors. The matching and any additional profit sharing contributions are invested in the same investments chosen by the participant for their contributions. Contributions are subject to certain limitations. No discretionary contributions were made by the Company for the year ended December 31, 2011.

4. Participant Accounts. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings and may be charged administrative fees for distributions. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

A. DESCRIPTION OF PLAN (Continued)

5. Vesting. Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credited service as follows:

Years of Service	Vesting %
0-1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

6. Payment of Benefits. On termination of service, a participant may receive a lump sum distribution of his entire vested account balance or a single sum distribution of a portion of his vested account balance. Benefits will also be paid to a participant or beneficiary who is required to receive lifetime required minimum distributions (RMD) and may receive the distributions payable in monthly, quarterly or annual installments equal to or exceeding the annual RMD amount.

7. Forfeited Accounts. At December 31, 2011 and 2010, forfeited non-vested accounts totaled $3,819 and $1,909, respectively. These accounts will be used to pay reasonable Plan expenses, if any, then will be used to reduce the Company's future match contribution. All of the allocable forfeitures of $2,620 and $1,466 in 2011 and 2010, respectively, were used to reduce the Company's matching contribution.

B. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

B. SUMMARY OF ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

All administrative expenses of maintaining the Plan are paid by the Company.

Subsequent Events

The Plan has evaluated subsequent events through September 19, 2012, the date the financial statements were available to be issued.

C. INVESTMENTS

The following presents investments that represent five percent or more of the Plan's net assets at December 31, 2011 and 2010:

	December 31

D. FAIR VALUE MEASUREMENTS

Financial Accountings Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:
- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010:

Pooled Separate Accounts: Valued by using the closing net asset value ("NAV") at year end of the underlying mutual fund and adjusting the NAV by applying an administrative expense factor as disclosed in the annuity contract.

D. FAIR VALUE MEASUREMENTS (Continued)

Unallocated Investment Contracts Consisting of all Non-Benefit Responsive Fixed Annuity Contracts: Valued at fair value which approximates contract value based on the valuation formula of similar annuity contracts with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements at December 31, 2011 and 2010:

	2011		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Total

The Plan did not have any investments valued using Level 3 inputs at December 31, 2011 and 2010.

E. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in the Company contribution portion of their account.

F. INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete and accurate by the custodian, Great-West:

	2011	2010
Investments	$6,079,440	$5,400,731
Investment Income -		
Net (depreciation) appreciation in fair value of investments	(230,645)	549,518
Interest	14,996	14,427
Other	129	384

G. TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated March 31, 2008, that the Prototype Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the U.S. Department of Labor and/or IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

H. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

I. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2011 and 2010 to the Form 5500:
