EMI Industries, LLC
401(k) & Bonus Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2011 and 2010

NOTE A - DESCRIPTION OF PLAN

Edwards Manufacturing, Ltd., a Florida limited partnership, acquired M & H Manufacturing, L.P., and All-State Fabricators, L.P. in 1999 and 2003, respectively. The M & H Manufacturing, L.P. and All-State Fabricators, L.P. 401(k) retirement plans were merged into the Edwards Manufacturing, Ltd. retirement plan in the reporting period subsequent to the company acquisitions in accordance with the Internal Revenue Code and its regulations relating to such mergers and consolidations. Effective January 1, 2010, the plan changed its name to EMI Industries, LLC 401(k) & Bonus Plan.

The following description of the EMI Industries, LLC ("Company") 401(k) and Bonus Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of its provisions.

1. General

The Plan is a defined contribution plan and trust covering employees of the Company. In order to be eligible for most aspects of the Plan, employees must have attained age 21 and completed one year of service, or worked 1,000 or more hours during the year. Furthermore, the Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

2. Contributions

Participants are permitted to make elective deferral contributions of their compensation, subject to the limits of the Internal Revenue Code. Employer matching and profit sharing contributions shall be made at the discretion of the employer. The Company accrued matching contributions of $90,364 and $171,988 at December 31, 2011 and 2010, respectively.

Effective January 1, 2009, the Plan was amended to constitute an Eligible Automatic Contribution Agreement (EACA) under Internal Revenue Code Section 414(w). Automatic enrollment applies (1) to employees who first become eligible for the Plan on or after January 1, 2009 and (2) to employees who became eligible for the Plan before January 1, 2009 but had never made an election. The default deferral rate shall be 3% of an employee's compensation each payroll period. The Plan includes the 90-day permissible withdrawal option as part of the eligible automatic contribution arrangement.

3. Participant Accounts

The participant accounts are participant directed investment options. The participants are allowed to change the percentage contributed to the Plan through payroll deductions on a weekly basis. Participants can also move individual accounts from one mutual fund to another or change how the funds are allocated among investments. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A - DESCRIPTION OF PLAN - Continued

Each participant in the Plan has a separate account that is credited with the annual allocation of (a) the Company's contributions, (b) the employee's elective contributions, (c) the Plan's earnings or losses, and (d) forfeitures, if any. Allocations are based on the prorated earnings of the employee compared to the total earnings of all participants.

4. Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon, is based on years of service. Participants in the Plan vest in employer contributions at a rate of 20% annually, and are fully vested after five years of credited service.

One hundred percent vesting occurs, regardless of the number of years of service, when a participant reaches normal retirement age (65), dies, or becomes totally and permanently disabled.

5. Payment of Benefits

Benefit payments are made in the form of a lump-sum distribution. Upon normal retirement, death, or becoming permanently disabled, Plan participants will be entitled to 100% of their account balance. If employment is terminated for any reason other than those previously mentioned, the participant will only be entitled to the vested portion of the employer contributions. However, participants are entitled to 100% of the account balance of any salary reduction or voluntary contributions made on their own behalf.

6. Forfeitures

Forfeitures of non-elective and matching contributions are used to reduce employer contributions. Forfeited non-vested accounts totaled approximately $12,000 and $13,000 at December 31, 2011 and 2010, respectively.

7. Basis of Participant Contributions

Participants may elect to have the Company contribute to the Plan, in lieu of compensation, for any plan year during which they are participants, such amounts expressed either in dollars or in whole percentages of their compensation as they elect, subject to Internal Revenue Code limitations.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the Plan's significant accounting policies applied in the preparation of the accompanying financial statements follows:

1. Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

2. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

3. Investment Valuation

Mutual fund investments and common/collective trusts are carried at fair value determined by quoted market prices, which represents the net asset value of shares held by the Plan at year end. See Note D – Fair Value Measurements.

4. Benefit Payments

Benefits are recorded when paid.

5. Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

NOTE C - INVESTMENTS

The Plan's investments consist of mutual funds and common/collective trusts that are held by an insurance company administered trust fund. The fair value of the mutual fund and common/collective trust investments was $6,582,905 and $6,949,305 at December 31, 2011 and 2010, respectively.

NOTE C - INVESTMENTS - Continued

The following investments represent 5% or more of the Plan's net assets available for benefits at December 31,:

T. Rowe Price Blue Chip Growth	$ 742,444	$ -

The information in this note was obtained from data that had been prepared and certified as complete and accurate by Hartford Life Insurance Company and Reliance Trust Company.

NOTE D - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement and Disclosures,* establishes a framework for using fair value to measure assets and liabilities and defines fair value as the price that would be received to sell an asset or paid to transfer a liability (an exit price) as opposed to the price that would be paid to acquire the asset or received to assume the liability (an entry price).

Under FASB ASC 820, a fair value measure should reflect the assumptions that market participants would use in pricing the asset or liability, including the assumptions about the risk inherent in a particular valuation technique, the effect of a restriction on the sale or use of an asset and the risk of nonperformance. FASB ASC 820 requires disclosures that stratify the statement of net assets available for benefits amounts measured at fair value based on inputs the Plan used to derive fair value measurements. These strata include:

- Level 1 inputs, where the valuation is based on quoted market prices for identical assets or liabilities traded in active markets (which include exchanges and over-the-counter markets with sufficient volume),

- Level 2 inputs, where the valuation is based on quoted market prices for similar instruments traded in active markets, quoted prices for identical or similar instruments in markets that are not active and model-based valuation techniques for which all significant assumptions are observable in the market, and

NOTE D - FAIR VALUE MEASUREMENTS - Continued

- Level 3 inputs, where the valuation is generated from model-based techniques that use significant assumptions not observable in the market, but observable based on fund-specific data. These unobservable assumptions reflect estimates or assumptions that market participants would use in pricing the asset or liability. Valuation techniques typically include option pricing models, discounted cash flow models and similar techniques, but may also include the use of market prices of assets or liabilities that are not directly comparable to the subject asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The valuation techniques that are used should maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2011 and 2010:

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end. Investments in certain restricted mutual funds are valued at quoted market prices of the issuer.

Common/collective trust: Valued at the quoted market price of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents financial assets measured at fair value on a recurring basis as of December 31,:

	Fair Value	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs
December 31, 2011				
Mutual funds				
Balanced funds	$ 1,457,511	$ 1,457,511	$ -	$ -

NOTE D - FAIR VALUE MEASUREMENTS - Continued

Mutual funds				
Balanced funds	$ 1,706,800	$ 1,706,800	$ -	$ -

The net (depreciation) appreciation includes realized gains and losses on investments that were bought and sold during the respective year. The net (depreciation) appreciation in fair value of the investment accounts was ($298,320) and $648,983 for the years ended December 31, 2011 and 2010, respectively.

NOTE E - PARTY-IN-INTEREST TRANSACTIONS

Fees paid to the Trustee for investment management services amounted to $14,896 and $1,050 for the years ended December 31, 2011 and 2010, respectively.

NOTE F - PLAN TERMINATION

Although the Company has not expressed any intent to do so, it has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE G - TAX STATUS

The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code and, accordingly, the trust's net investment income is exempt from income taxes. The Plan has obtained a favorable tax determination letter from the Internal Revenue Service and the Plan sponsor believes that the Plan continues to qualify and to operate as designed.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE H - ADMINISTRATION OF PLAN ASSETS

The Hartford Insurance Company held the Plan's assets for the period January 1, 2010 to June 30, 2011. The Plan's assets were transferred to Reliance Trust Company ("Reliance") on July 1, 2011. Reliance manages the Company's contributions and invests cash received, interest and dividend income, and makes distributions to participants.

Administrative functions are also performed by officers or employees of the Company. No officer or employee receives compensation from the Plan. Expenses for the Plan's administrative fees and the independent auditor fees are paid directly by the Company.

Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amount reported in the statement of net assets available for benefits.

NOTE L - PARTICIPANT DISTRIBUTIONS

No plan participants have elected to have distributions as of December 31, 2011 and 2010, and not had their vested balances paid to them by the year end, respectively.
