MERRITT'S BOAT & ENGINE 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS

December 31, 2011

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Merritt's Boat & Engine 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Merritt's Boat & Engine Works, Inc., Merritt Marine Supply, Inc., Roy-Al Management Enterprises Corp. and Smith-Merritt Insurance, Inc. (collectively, the "Company") who have one year of service and are age eighteen or older. Employees may enter the Plan on the first day of each Plan quarter following the date they satisfy the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Companies are located in southeast Florida.

Contributions

Each year, participants may contribute up to 92% of pretax annual compensation, as defined and limited in the Plan, and to the maximum amount allowed by law. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers 19 mutual funds as investment options for participants. The Company contributes 20% of the first 5% of base compensation that a participant contributes to the Plan. The matching Company contribution is invested in the same funds as the participants' contributions. Additional profit sharing amounts may be contributed at the option of the Company's board of directors; however, no such contributions have been made. Contributions are subject to certain limitations, and are funded on a weekly basis.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and is charged with specific administrative expenses for participant loan activity. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All investments are participant directed.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant begins vesting after two years of credited service and is 100% vested after six years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at rates of prime plus 2 points as of the loan date, as determined by the Plan administrator.

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Payment of Benefits
On termination of service due to death, disability or retirement, a participant with a vested individual account balance greater than $5,000 may elect to receive either a lump-sum amount equal to the value of the participant's vested interest or a payment in the form of an annuity. For accounts less than $5,000, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. See the Plan document for minimum distribution requirements, and involuntary cash-outs provisions.

Forfeited Accounts
At December 31, 2011 and 2010, forfeited nonvested accounts totaled $303 and $2,008, respectively. The remaining balances will be allocated to participants in 2012.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting and Funding - The accompanying financial statements are prepared on the accrual basis of accounting. The Company's funding policy is to make weekly contributions to the Plan for its discretionary contributions, including any match of participant deferrals.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Financial Accounting Standards Board (FASB) has established a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels:

Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. These inputs have been used to determine the fair value of the investment in registered investment companies (mutual funds).

Level 2 inputs consist of external inputs, other than quoted prices, that are observable for the asset either directly or indirectly. These inputs are not relevant for the Plan assets.

Level 3 inputs consist of unobservable inputs, reflecting the Plan's own assumptions regarding valuation using the best information available. These inputs are not relevant for the Plan Assets.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Shares of registered investment companies are valued based upon quoted market prices, utilizing the net asset value of shares held by the Plan at year-end. Such investments are not bank deposits or obligations, are not guaranteed by any bank, and are not insured or guaranteed by the FDIC or any other governmental agency.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest is recorded when received.

Net appreciation in fair value of registered investment companies includes realized gains and losses on investments sold, and unrealized gains and losses on investments held. Dividends are separately reported.

Notes Receivable from Participants
Notes receivable from participants are valued at their unpaid principal balance. Principal and interest are paid ratably through weekly payroll deductions. Interest income is recorded on the cash basis, when received. Under generally accepted accounting principles (GAAP), interest should be accrued as earned; the effect of this departure from GAAP has not been determined, but is not considered to be significant.

Payment of Benefits
Benefits are recorded when paid. If benefit payment checks have not been cashed, a liability is recorded for the amount of the stale checks.

Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Subsequent Events
Management has evaluated subsequent events through September 25, 2012, the date these financial statements were available to be issued.

NOTE 3 – INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets. These assets are all registered investment companies. An N/A indicates that the asset did not exceed 5% at December 31.

During 2011, the Plan's investments in registered investment companies (including realized gains and losses on investments sold and unrealized gains and losses) decreased in value by $112,888. At December 31, 2010, the unrealized loss on investments aggregated $299,542.

Fair Value of Investments
The following presents by level within the fair value hierarchy (as described in Note 2), the Plan's assets at fair value as of December 31:

	2011	2010
Level 1 Inputs – Quoted Prices in Active Markets for Identical Assets – Registered Investment Companies	$ 4,221,278	$ 4,268,131

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 – RELATED PARTY TRANSACTIONS

ING Institutional Plan Services LLC and its affiliate Reliance Trust Company are custodians of the Plan assets. Fees paid by the Plan for the participant loan management services aggregated $2,000 for the year ended December 31, 2011.

Certain plan investments are shares of mutual funds managed by ING Investments, LLC, an entity related to the recordkeeper ING Institutional Plan Services, LLC., therefore, these transactions qualify as party-in-interest transactions.

The sponsoring company paid certain administrative fees of the Plan, including annual fees paid to the custodian, fidelity bond premiums, and professional fees.

NOTE 6 – TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated October 18, 1995, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Generally, tax filings for three years after the filing date of the Form 5500 may be subject to IRS examination. Under the provisions of ERISA, the Plan and its fiduciaries may be subject to examination for six years.

NOTE 7 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 8 – RISKS AND UNCERTAINTITIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 9 – RECONCILIATION TO FORM 5500

The Plan financial statements are in agreement with the Form 5500 except that there are differences in the liabilities for excess contributions and for withdrawn participants representing uncashed distribution checks, as follows:

	Per Form 5500	Adjustments: Excess Contribution Liability	Adjustments: Stale Check Liability	Per Accompanying Financial Statements
