Independent Auditor's Report

Plan Administrator and Participants
West Herr Employees' Retirement Plan

I was engaged to audit the accompanying statement of net assets available for benefits of West Herr Employees' Retirement Plan (the "Plan") as of December 31, 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011, and the supplemental schedule as of December 31, 2011 listed in the table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management. The financial statements of the Plan as of December 31, 2010, were audited by other auditors whose report dated July 7, 2011, expressed an unqualified opinion on those statements.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed me not to perform, and I did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by Fidelity Management Trust Company and Massachusetts Mutual Life insurance Company, the trustee/custodian of the Plan, except for comparing such information with the related information included in the 2011 financial statements and supplemental schedule. I have been informed by the plan administrator that the trustee/custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee/custodian as of and for the year ended December 31, 2011, that the information provided to the plan administrator by the trustee/custodian is complete and accurate.

Because of the significance of the information in the Plan's 2011 financial statements and supplemental schedule that I did not audit, I am unable to, and do not, express an opinion on the accompanying 2011 financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the 2011 financial statements and supplemental schedule, other than that derived from the information certified by the trustee/custodian, have been audited by me in accordance with auditing standards generally accepted in the United States of America and, in my opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

1. Description of the Plan

The following description of the West Herr Employees' Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Effective September 1, 2011, the Plan changed its record keeper and custodian from Massachusetts Mutual Life Insurance Company to Fidelity Management Trust Company ("FMTC"). FMTC serves as the Plan's trustee for the assets held under its custody.

General — The Plan is a defined contribution plan covering all employees of West Herr Ford, Inc. and Participating Employers, as defined in the Plan document (collectively, the "Company") who have three months of service and are age twenty-one or older. Eligible employees may begin participating in the plan as of January 1, April 1, July 1, or October 1 following completion of their three months of service.

Contributions — The Plan is funded by both employee and employer contributions. Employees may defer a percentage of up to 100% of their pre-tax annual compensation to the maximum allowed by the Internal Revenue Code for a plan year. Participants who have obtained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans.

The Plan provides for Employer Matching Contributions of 25 percent of each elective deferral contribution up to 4 percent of included compensation each pay period as defined in the plan document.

The Plan also provides for Discretionary Nonelective Contributions. The Company has sole discretion as to the amount of any Discretionary Nonelective Contributions. These contributions, if any, are allocated to eligible participants based upon their compensation in proportion to compensation of all eligible participants of the Plan. There were no Discretionary Nonelective Contributions for 2011.

Contributions are subject to certain limitations.

Investment Options — Participants direct the investment of their contributions, matching contributions and discretionary contributions, if any, into various investment options offered by the plan. The plan currently offers various mutual funds and a stable value fund as investment options for participants. Prior to September 1, 2011, the Plan offered various MassMutual separate investment accounts and a MassMutual guaranteed interest account.

Participant Accounts — Each participant's account is credited with the participant's contributions and allocations of a) the Employer's match and voluntary contributions, b) the Plan's earnings, and c) forfeitures, if any, and is charged with an allocation of administrative expenses. Plan earnings are allocated based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting — Participants are always vested in their contributions and the Company's matching amounts plus actual earnings thereon. Vesting in the Employer's Nonelective Discretionary Contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant becomes 100% vested after six years of credited service.

Employer profit sharing contributions made prior to 2011 are subject to a 7 year vesting schedule, as defined in the Plan document.

Participant Notes Receivable — Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their balance. Only two loans outstanding are permitted at any time. Loan terms range from 1-5years or up to 10 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and shall bear a reasonable rate of interest as determined by the Plan Administrator, as defined. Principal and interest is paid ratable through monthly payroll deductions.

Payment of Benefits — On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or in annual installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Hardship withdrawals are permitted under the Plan subject to approval by the Plan Administrator and are limited to the employee's deferral contributions.

Forfeited Accounts — At December 31, 2011 and 2010, forfeited nonvested accounts totaled $10,425 and $11,366, respectively. Forfeitures are retained by the Plan and may first be used to pay administrative expenses. Any remaining amounts will be used to reduce future Employer contributions payable under the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting — The accompanying financial statements have been prepared on the accrual basis of accounting. Certain reclassifications of prior year amounts have been made to conform to the current year presentation.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contract, as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition — Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Management fees charged to the Plan for investments (expense ratios) are accrued daily and deducted quarterly from the respective fund's return.

Notes Receivable from Participants — Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Excess Contributions Refundable — Excess contributions are recorded for amounts refundable by the Plan to participants for contributions made in excess of amounts allowed by the Internal Revenue Service. The excess contributions refundable at December 31, 2011 were refunded on March 5, 2012.

Payment of Benefits — Benefits are recorded when paid.

Administrative Expenses — Plan administrative fees and expenses are paid by the Plan or the Company as provided in the Plan agreement. Loan administrative fees are charged directly to the participant's account and are included in administrative expenses.

Certain employees and/or officers of the Employer, who may also be participants in the Plan, perform administrative services to the Plan at no cost to the Plan.

Estimates — The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Market Risk Factors — The Plan provides for various investment options including a stable value fund and various mutual fund accounts with underlying assets consisting of any combination of stocks, bonds, fixed income securities, mutual funds and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Recent Accounting Pronouncements — In May 2011, the Financial Accounting Standards Board (FASB) issued new accounting guidance to provide a consistent definition of fair value and ensure that the fair value measurement and disclosure requirements are similar between U.S. GAAP and International Financial Reporting Standards. The new guidance changes certain fair value measurement principles and enhances the disclosure requirements particularly for level 3 fair value measurements. The guidance is effective for the Plan prospectively for the year ending December 31, 2012. The Plan is currently evaluating the impact of adopting the new guidance, but currently believes there will be no significant impact on the financial statements.

Subsequent Events — Plan management has evaluated subsequent events through September 28, 2012, the date the financial statements were available to be issued.

3. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) No. 820, *Fair Value Measurements and Disclosures* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC No. 820 are described as follows:

Level 1	Inputs to valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access.
Level 2	Inputs to valuation methodology include quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.
Level 3	Inputs to valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The Company's policy is to recognize transfers in and out of "Levels" as of the end of the reporting period.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual Funds — The Plan's investments in mutual funds are valued at fair value and are based on quoted market prices which represent the net asset value of shares held by the Plan at year-end.

Collective Trust Fund — The fair value of Wells Fargo Stable Value Fund M is based on the underlying unit value reported by Wells Fargo Stable Return Fund G ("Fund G"). Fund G invests in the investment contracts issued or sponsored by various insurance companies, commercial banks, and investment funds. Participant transactions (issuances and redemptions) may occur daily.

MassMutual Separate Investment Accounts — The fair value of the participation units in the separate investment accounts are based on the quoted price of the underlying securities and the number of units owned by the Plan at year-end. These investments were liquidated September 1, 2011 and transferred to FMTC and invested in various mutual funds.

MassMutual Guaranteed Interest Account — Valued by MassMutual at liquidation value based on an actuarial formula as defined under the terms of the contract. This investment was liquidated September 1, 2011 and transferred to FMTC and invested in the Wells Fargo Stable Return Fund M.

Life Insurance Policies — The individual life insurance contracts are included in the financial statements at cash value, which approximates fair value. The Plan no longer permits investment into the life insurance contracts.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its

valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011:

During 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $71,237 as follows:

Mutual funds	$ (172,228)
Collective trust fund	28,351
Separate investment accounts	(362,676)
Guaranteed interest account	420,079
Other	15,237
	$ (71,237)

5. Investment Contracts

On September 1, 2011, the Plan entered into an investment in the Wells Fargo Stable Value Fund M ("Stable Value Fund"), which owns fully benefit-responsive contracts. The Plan reports the Stable Value Fund at fair value and recognized an adjustment from fair value to contract value for the fully benefit-responsive investment contracts in the accompanying statements of net assets available for benefits. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rate for the common/collective trust were 1.56% and 2.33%, respectively for 2011. The crediting interest rate is based on a formula agreed upon with the issuer.

Certain events limit the ability of the Plan to transact at contract value with the issuer. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Prior to September 1, 2011, the Plan held a Guaranteed Interest Account, a benefit-responsive contract with MassMutual. The crediting interest rate is based in a formula agreed upon with the issuer, with a minimum guaranteed interest rate not to be less than 3%. The average yield earned by the Plan on the Guaranteed Interest Account based on actual earnings and based on the interest rate credited to participants was 3.15% for the period from January 1, 2011 to September 1, 2011.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

7. Tax Status

Effective September 1, 2011, the Plan adopted a volume submitter document sponsored by Fidelity Management & Research Co., a related party to FMTC. Fidelity Management & Research Co. received an opinion letter from the Internal Revenue Service (the "IRS"), dated March 31, 2008, which states that the volume submitter document satisfies the applicable provisions of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself; however, the Plan administrator believes that the Plan is currently designed and operating in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

Prior to September 1, 2011, the Plan used a prototype plan document sponsored by Massachusetts Mutual Life Insurance Company. Massachusetts Mutual Life Insurance Company received an opinion letter from the Internal Revenue Service, dated March 31, 2008, which stated that the prototype document satisfies the applicable provisions of the IRC.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

8. Financial Information Certified by Trustee and Custodian (Unaudited)

The following is a summary of the unaudited information regarding the Plan, included in the Plan's financial statements and supplemental schedule that was prepared by Fidelity Management Trust Company and Massachusetts Mutual Life Insurance Company, the trustees and custodian of the Plan, respectively, and furnished to the plan administrator.
