Independent Auditor's Report

To the Trustees of the
Walker International 401(k) Plan
70 Sunrise Highway
Valley Stream, NY 11581

We were engaged to audit the statements of net assets available for benefits of Walker International 401(k) Plan as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2011. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note D, which was certified by Frontier Trust Company and Orchard Trust Company LLC the trustees of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the Frontier Trust Company held the Plan's investment assets and executed investment transactions from October 21, 2011 to December 31, 2011 and that Orchard Trust Company LLC held the Plan's investment assets and executed investment transactions as of December 31, 2010 and for the period January 1, 2011 to October 20, 2011. The plan administrator has obtained certifications from the trustees as of and for the years ended December 31, 2011 and 2010, that the information provided to the plan administrator by the trustee/custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee or custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE A - Description of Plan

The following description of the Walker International 401(k) (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. *General.* The Plan is a defined contribution plan covering all employees of the Company who have twelve consecutive months of service and are age eighteen or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. *Contributions.* Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additional amounts may be contributed at the option of the Company's board of directors. Contributions are subject to certain Internal Revenue Code (IRC) limitations.

3. *Participant Accounts.* Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. *Vesting.* Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

5. *Forfeitures.* Forfeitures of non-vested Company contributions are used to reduce future Company contributions. During 2011 and 2010, $ -0- of forfeited participant accounts were used to reduce the Company's contributions. At December 31, 2011, there were $ -0- of forfeitures that have not yet been applied to reduce the Company's contributions.

6. *Administrative Expenses.* Certain expenses incurred in the administration of the Plan are paid directly by the Company.

7. *Notes Receivable from Participants.* Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lessor of $50,000 or 50% of their vested balances. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 7.00%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator.

NOTE A - Description of Plan (Continued)

8. *Payment of Benefits.* On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

NOTE B - Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on a modified cash basis, which is a comprehensive basis of accounting other than generally accepted accounting principles accepted in the United States of America. Consequently, investment income is recognized when received and disbursements when made. Securities investments are reflected at fair value. Accordingly, the financial statements are not intended to present the net assets and changes in net assets of the Plan in conformity with generally accepted accounting principles.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from these estimates.

Investment Valuation and Income Recognition

Investments – The investments in all of the funds are presented at fair value, based on the quoted market prices of the underlying securities within each fund at December 31, 2011 and 2010. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Investment contracts held by a defined-contribution plan are required to be reported at fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

NOTE B - Summary of Accounting Policies (Continued)

Net Change in Fair Value of Investments

The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net change in the fair value of its investments, which consists of the realized gains or losses and the net unrealized increase (decrease) on those investments.

Concentration of Credit Risk

Financial instruments that potentially subject the Plan to concentrations of credit risk are part of the holdings in Plan's investments. Management believes that the Custodian maintains the Plan's investments with high credit quality institutions and attempts to limit the credit exposure to any particular investment.

Operating Expenses

The Company provides certain administrative and accounting services to the Plan at no cost. Most administrative expenses are paid directly by the Plan sponsor and include audit fees and legal fees. Administrative expenses incurred by the Plan include loan fees charged directly to the participants' accounts and investment management fees that are netted against investment returns.

NOTE C - Investments

The Plan's investments are entirely participant-directed. A summary of investments that represent 5% or more of the Plan's net assets available for benefits at December 31st are as follows:

	2011	2010
Oppenheimer Main Street Small & Mid Cap- C	$ 57,467	$ 55,932
Oppenheimer US Government Fund- C	129,684	66,264
Oppenheimer Port Series: Equity Inv Fund C	79,972	121,500
Oppenheimer Main Street Fund – C	42,074	51,662
Oppenheimer International Diversified C	43,432	47,308
Oppenheimer Port Series: Mod Investor C	169,330	208,725
Oppenheimer Cash Reserves Fund – C	82,238	68,605

NOTE D – Information Certified by the Trustee (Unaudited)

At December 31, 2011, Ascensus as trustee held the Plan investments as an agent for Frontier Trust Company. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the trustee as complete and accurate in accordance with Section 2520.103.8 of the Departments Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The fair value of investments at December 31, 2011 and 2010 as reported by the trustee are:

	2011	2010
Mutual funds	$788,755	$800,702

At December 31, 2010, the plan investments were held by Orchard Trust Company LLC as trustee.

The investment income reported in the statement of changes in net assets available for plan benefits for the twelve months ended December 31, 2011 was certified by Frontier Trust Company.

NOTE E – Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1- Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other matters.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

NOTE E - Fair Value Measurements (Continued)

Level 3 – Valuations derived from valuation techniques in which one or more significant inputs are unobservable.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.
Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year-end.
Participant loans: Valued at amortized cost, which approximates fair value.
Guaranteed Investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE E - Fair Value Measurements (Continued)

The table below segregates all financial assets and liabilities as of December 31, 2011 and 2010 that are measured at fair value on a recurring basis (at least annually) into the most appropriate level within the fair value hierarchy based on the inputs used to determine the fair value at the measurement date:

Description	12/31/11	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual Funds:				
Balanced Funds	$324,102	$324,102		
Fixed Income Funds	296,747	296,747		
Growth Funds	166,371	166,371		
Other Funds	1,535	1,535		
	$788,755	$788,755		

Description	12/31/10	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual Funds:				
Balanced Funds	$426,405	$426,405		
Fixed Income Funds	227,426	227,426		
Growth Funds	145,272	145,272		
Other Funds	1,599	1,599		
	$800,702	$800,702		

NOTE F – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit and market risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE G - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE H - Tax Status

The Internal Revenue Service has determined and informed the company by a letter dated March 31, 2008, that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the plan has been amended since receiving the determination letter, the plan administrator and the plan's tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan Management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE I – Party-In-Interest Transactions

The Trustee is currently a participant in the Plan and an officer of the Company serves as the trustee and plan administrator of the Plan.

NOTE J - Subsequent Events

The Plan has evaluated subsequent events for potential recognition and disclosures through September 27, 2012, the date the financial statements were available to be issued.
