To the Plan Administrator of the
Schawk, Inc. Union 401(k) Plan
Des Plaines, Illinois

We were engaged to audit the accompanying statements of net assets available for benefits - modified cash basis of Schawk, Inc. Union 401(k) Plan (the "Plan") as of December 31, 2011 and 2010, the related statements of changes in net assets available for benefits - modified cash basis for the years then ended, and the supplementary schedule of assets (held at end of year) - modified cash basis as of December 31, 2011. These financial statements and supplementary schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the financial information summarized in the notes to the financial statements, which was certified by State Street Bank and Trust Company ("State Street"), the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplementary information. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executed investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2011 and 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

As described in the Notes to Financial Statements, the Plan's policy is to prepare its financial statements and supplementary information on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplementary information taken as a whole. The supplementary schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplementary information, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, on the basis of accounting described in the notes to financial statements.

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010****DESCRIPTION OF PLAN**

The following description of the Schawk, Inc. Union 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan, established January 1, 2000, was created to provide retirement benefits for eligible union employees, as defined, of Schawk, Inc. (the "Company"). An employee becomes eligible to participate in the Plan upon attaining age twenty-one and completing six consecutive months of service. Participant entry dates are monthly. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan is a qualified cash deferred arrangement, pursuant to Section 401(k) of the Internal Revenue Code, and provides for the following contributions, which are to be maintained in separate accounts for each participant:

- (a) Salary Deferral Contributions - to be made by the Company, at the direction of the employee, which amounts are deducted from the employee's direct compensation (and are excluded from the employee's reportable wages for the year). Salary deferral contributions are limited to 1% to 100% of the employee's compensation, as defined, or \$16,500 (\$22,000 for participants over the age of 50) for 2011 and 2010, adjusted annually for cost of living increases.
- (b) After Tax Contributions - to be made by the Company, at the direction of the employee, which amounts are deducted from the employee's direct compensation (and are included in the employee's reportable wages for the year). After tax contributions are limited to 1% to 10% of the employee's compensation, as defined, for the Plan year.
- (c) Rollover and Transfer Contributions - to be made by the employee from amounts distributed or transferred from other qualified plans.

Participants' direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers 16 mutual funds and one common/collective fund as investment options to participants.

Each participant's account is credited with the (a) the participant's elective contributions and (b) an allocation of the Plan's investment earnings and appreciation in the value of its investments. Account balances are decreased for (a) distributions and withdrawals and (b) an allocation of the Plan's investment losses and value depreciation. Allocations are based on participant earnings or account balances, as defined. The Company pays for most administrative expenses of the Plan. Certain loan charges and distribution fees are charged to the participant through the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payments of benefits are made to participants or their beneficiaries upon death, retirement, disability or, at the option of the employee, termination of employment. Benefits are payable in a lump sum or by other methods as described in the Plan agreement. The Plan also permits hardship withdrawals from a participant's deferral contribution account and in-service withdrawals at the age of 59-1/2 from all vested accounts.

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. The loans are collateralized by the balance in the participant's account and bear interest at a reasonable rate as determined by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Participants are immediately vested in their Salary Deferral Contributions and Rollover and Transfer Contributions accounts plus actual earnings thereon.

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010****SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Basis of Accounting: The accompanying financial statements are presented on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Under this method, contributions and interest and dividend income are recorded when cash is received by the Plan and benefits and administrative expenses are recorded when cash is disbursed by the Plan. Investments are reflected at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. See fair value measurement note for discussion of fair value measurements.

Net appreciation (depreciation) in fair value of investments represents (i) the difference between the aggregate fair value of investments as of the end of the year and their carrying values (fair values at the beginning of the year for investments then owned, or purchase cost for acquisitions during the year) and (ii) net gains or losses realized on dispositions of investments (the difference between the proceeds and the fair value as of the beginning of the year, or cost for acquisitions during the year of sale).

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective fund. Contract value for this common/collective fund is based on the net asset value of the fund as reported by the investment advisor. The statement of net assets available for benefits presents the fair value of the investment in the collective fund as well as the adjustment of the investment in the common/collective fund from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates: The preparation of financial statements presented on the modified cash basis requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balances plus interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See fair value measurement note for discussion of fair value measurements.

Purchases and sales of investments are recorded on the trade date. Interest and dividend income is recorded when received. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Pending Accounting Pronouncement: In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Updated ("ASU") No. 2011-04, *Amendments to Achieve Common Fair Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. This update changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. This update is effective for reporting periods beginning on or after December 15, 2011, with early adoption prohibited, and requires prospective application. The Plan is currently evaluating the impact this update will have on the Plan's net assets available for benefits or changes in net assets available for benefits.

Accounting for Uncertain Tax Positions: Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustments to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

Payments of Benefits: Benefits are recorded when paid.

Subsequent Events: Management has evaluated subsequent events through August 24, 2012, the date the financial statements were available to be issued.

INVESTMENTS

The following presents investments that represent 5 percent or more of the Plan's net assets as of December 31, 2011 and 2010:

	<u>2011</u>	<u>2010</u>
T. Rowe Price Growth Stock Fund	\$ 462,984	\$ 554,946
T. Rowe Price New Horizons Fund	1,095,768	1,188,180
T. Rowe Price Balanced Fund	318,069	345,461
T. Rowe Price Equity Index 500 Fund	343,372	365,768
T. Rowe Price Stable Value Fund	986,070	553,905
T. Rowe Price International Equity Index Fund	325,994	381,519
T. Rowe Price Retirement 2020 Fund	257,399	278,306
PimCo Total Return Fund	455,302	481,284

During the years ended December 31, 2011 and 2010, the Plan's investments, including investments bought, sold and held during the year, appreciated (depreciated) as follows:

	<u>2011</u>	<u>2010</u>
Shares of registered investment companies	\$ (164,169)	\$ 525,205

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010****FAIR VALUE MEASUREMENTS**

FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Below is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Common/Collective Fund: Stated at estimated fair value which represents the net asset value of units held by the Plan at year-end as determined by T. Rowe Price Trust Company ("T. Rowe Price").

Shares of Registered Investment Companies: Valued at quoted market prices which represent the net assets value ("NAV") of shares held by the Plan year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

FAIR VALUE MEASUREMENTS (CONTINUED)

The following table describes FASB ASU No. 2009-12, Investments in the Plan That Calculate Net Asset Value per Share (or its equivalent) as of December 31, 2011 and 2010:

Investment	% of Net Assets	Fair Value	Unfunded Commitments	Redemption Notice Period	Redemption Frequency
2011					
T. Rowe Price Stable Value Fund (a)	20.84%	\$ 1,021,702	\$ -	12 months	Daily
2010					
T. Rowe Price Stable Value Fund (a)	11.34%	\$ 553,905	\$ -	12 months	Daily

- (a) This category currently includes investments in mutual funds that invest in guaranteed investment contracts, separate account contracts, synthetic investment contracts, and short-term investments. The fair values of any mutual fund investments in this category are valued daily using the net asset value per share of the investments. Management of the mutual funds has the ability to shift investments as long as the underlying investment meets the criteria mandated by the investment objectives and restrictions contained within the portfolio guidelines. These guidelines require that, at a minimum, the investments selected must meet the then current credit rating and diversification requirements of the fund manager.

INFORMATION PREPARED AND CERTIFIED BY TRUSTEE OF THE PLAN

All investment and investment income information included in the accompanying financial statements and supplementary information was obtained from data that has been prepared and certified as being complete and accurate by State Street Bank and Trust Company, the trustee.

RELATED-PARTY TRANSACTIONS

Certain plan investments for the years ended December 31, 2011 and 2010 were units of common/collective funds managed by State Street, the plan trustee and, therefore these transactions qualify as party-in-interest. Certain administrative expenses incurred by the Plan are paid by the Company. These expenses are not significant to the financial statements. Additionally, certain employees of the Company provide various services to the Plan. These employees are not compensated for these services by the Plan.

PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA.

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010****TAX STATUS**

Effective January 1, 2000, the Plan adopted a standardized form of a prototype plan sponsored by T. Rowe Price. The prototype plan has received an opinion letter from the Internal Revenue Service ("IRS") as to the prototype plan's qualified status. The prototype plan letter has been relied on by this Plan. The plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements on the Internal Revenue Code ("IRC"). Therefore, no provision for income taxes has been included in the Plan's financial statements.

RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
