Report of Independent Auditors

To the Participants and Plan Committee of the
U.S. Zinc 401(k) Profit Sharing Plan

We were engaged to audit the accompanying financial statements and supplemental schedules of the U.S. Zinc 401(k) Profit Sharing Plan (the "Plan") as of December 31, 2011 and 2010, and for the year ended December 31, 2011 as listed in the accompanying index. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes 3 and 4, which was certified by Principal Trust Company and Transamerica Life Insurance Company, the trustees of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustees hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained a certification from the trustees as of December 31, 2011 and 2010, and for the year ended December 31, 2011, that the information provided to the plan administrator by the trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of the Plan

The following description of the U.S. Zinc 401(k) Savings Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by U.S. Zinc Corporation (the "Company") on March 11, 2008. The Plan was established under the provisions of Section 401 of the Internal Revenue Code of 1986, as amended (the "Code"), for the benefit of eligible employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Company has designated an individual as the Plan Administrator. The Plan Administrator is responsible for the general administration of the Plan and is given all powers necessary to enable it to carry out its duties including, but not limited to, the power to interpret the Plan.

Trustee

Delaware Charter Guarantee & Trust Company doing business as Principal Financial Group (the "Principal" or the "Trustee") became the trustee of the Plan's assets at its inception, and served in that capacity through December 30, 2010. At December 30, 2010, Transamerica Life Insurance Company ("Transamerica") became the new Trustee of the Plan, and all of the Plan's assets were transitioned to Transamerica. The Trustee holds, controls, manages, invests and ultimately distributes the assets of the Plan to participants.

Eligibility

All employees of the Company are eligible to participate in the Plan other than: employees under a collective bargaining agreement; leased employees; independent contractors; those employed by non-affiliated intermediaries; nonresident aliens with no earned income from sources within the United States; and highly compensated employees who are eligible to participate in the U.S. Zinc Corporate Nonqualified Deferred Compensation Plan. Participation may begin on the first day of employment.

Contributions

Participants may contribute an amount from 1% to 60% of pretax compensation as defined under the Plan. However, a participant's total deferrals in any Plan year may not exceed a dollar limit established by the Code. The limit for the 2011 Plan year was $16,500 if under the age of 50 and $22,000 otherwise. Participant rollover contributions from other qualified plans are allowed under the Plan. Participant contributions may be invested in any or a combination of the Plan's available investment options at the participant's discretion. Participants are fully vested in these contributions.

The Company makes Matching Contributions equal to 100% of a participant's contributions up to the first 3% of the participant's eligible compensation, and 50% of the participant's contributions between 3% to 5% of the participant's eligible compensation. Matching Contributions are immediately and fully vested to the benefit of the participant and are funded into the Plan at the same time as participant contributions. The Company also makes a Retirement Contribution annually to the accounts of all participants employed on the last day of a plan year in the amount of 1% of compensation for the year for those less than age 35, 2% of compensation for the year for

those between age 35 and 49, and 3% of compensation for the year for those age 50 or greater. The Company's Retirement Contribution related to 2011 totaled $253,674 and was funded into the Plan in early 2012. The Company may also make a Discretionary Contribution. For 2011, the Company did not make a Discretionary Contribution. Retirement Contributions and Discretionary Contributions are subject to the Plan's vesting schedule.

Participant Accounts
Each participant's account is credited with the participant's contributions, the Company's Matching Contributions, the Company's Retirement Contributions, the Company's Discretionary Contributions, if any, and the participant's share of earnings, losses and any appreciation or depreciation of the funds invested.

Notes Receivable from Participants
Participants may borrow from their accounts a minimum of $1,000, up to a maximum equal to the lesser of (a) $50,000 minus any outstanding loan balance in the last 12 months or (b) 50% of their vested account balances. Interest rates are based upon the prime interest rate plus 1%. Loans must be repaid within five years unless used to acquire a principal residence. Principal and interest are repaid through after-tax payroll deductions. At December 31, 2011 participant loans of $240,844 with interest rates ranging from 4.25% to 9.25% and maturities through 2017 were outstanding. At December 31, 2010, participant loans of $197,295 with interest rates ranging from 4.25% to 9.25% were outstanding.

Investment Options
The Plan has provided for contributions to be invested by the Trustees among a variety of pooled separate accounts and a stable value fund in 2011, and pooled separate accounts, mutual funds and a guaranteed interest contract prior to 2011 in accordance with participant investment elections and the provisions of the trust agreement. The investment options available changed with the transition to a new Trustee and may change from time to time with notice provided to participants.

Vesting
Participants are immediately vested in their contributions, employer Matching Contributions and the related investment earnings thereon. The following vesting schedule is applicable for employer Retirement Contributions and Discretionary Contributions and the related investment earnings thereon (participants also become 100% vested if employed at the time of death or total disability):

Years of Service	% Vested
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

Unapplied forfeitures of unvested employer contributions totaled $21,312 and $0 at December 31, 2011 and 2010, respectively. During 2011, no forfeitures were used to reduce employer contributions.

Distributions
Once age 59-1/2 is attained, a participant may withdraw some or all of the vested amounts in his or her account. If the participant is younger than 59-1/2, he or she may withdraw some or all of his or her account, excluding earnings thereon, in the event of proven financial hardship, as defined in the Plan Agreement. Upon retirement, termination of employment, death or permanent disability, participants or their beneficiaries may receive a lump sum equal to the vested value of their accounts.

Expenses of the Plan
Administrative expenses incurred by or on behalf of the Plan, excluding participant loan and withdrawal fees, are paid by the Company. Transactional expenses reflected on the accompanying statement of changes in net assets available for benefits represent fees charged for participant loans and withdrawals and are borne by the participants receiving the payments from assets held in the Plan.

The Trustee receives investment management fees from underlying fund providers on pooled separate accounts which have been deducted from the fund value at each measurement date. These fees, and other fees charged by the underlying funds that impact the reported values of those funds have the effect of reducing the net appreciation (increasing the net depreciation) in fair value of plan investments in the accompanying statement of changes in net assets.

Plan Termination
Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Should a termination occur, all participant balances would become fully vested. Any unallocated assets of the Plan would be allocated to participant accounts and distributed in such a manner as the Plan Administrator may determine.

2. Summary of Significant Accounting Policies

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Basis of Accounting
The financial statements of the Plan are presented on the accrual basis of accounting.

The Plan Administrators have reviewed and evaluated events subsequent to December 31, 2011 through September 26, 2012 the date the financial statements were available to be issued, for their impact on amounts recorded, and related disclosures, in these financial statements, and incorporated the related effects as appropriate.

Valuation of Investments
The Plan's investments are stated at fair value as proscribed by Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820-10. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Mutual funds are stated at fair value as determined by

quoted market prices, which represents the net asset value of shares held by the plan at year end. The Plan's interest in the pooled separate accounts is valued at fair value by the issuer based on the fair value of the pooled separate account's underlying investments as determined by quoted prices on national public exchanges and discounted cash flow analyses, less related fees, divided by the number of units pooled separate account units issued. The stable value fund has been valued based upon the interest rate being earned on the fund in comparison to market rates and taking into consideration the creditworthiness of the fund provider (the general account of Transamerica). The guaranteed interest contract is valued at fair value as determined by the investment fund's advisor based upon discounted cash flow analysis.

As described in FASB ASC 962, "Reporting of Investment Contracts Held by Health and Welfare Benefit Plans and Defined Contribution Pension Plans" ("ASC 962"), certain investment contracts held by a defined-contribution plan are required to be reported at fair value. However contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attribute to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transaction under the terms of the plan. The participants in the Plan invest in a fully benefit responsive investment contract through the Transamerica Stable Value Core Fund (2011). Fair value for the fully benefit-responsive investments contract is based on the value of the fund as reported by the investment advisor/fund manager. As required by ASC 962, the Statement of Net Assets Available for Benefits presents the fair value of the investment in these fully benefit-responsive contracts, as well as the adjustment of the investment from fair value to contract value relating to the investment contracts. Fair value and contract value do not vary materially for these contracts at December 31, 2011. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis as proscribed by the ASC 962.

Investment securities are exposed to various risks, such as interest rate volatility, market risks and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid interest and are excluded from investments in the fair value tables in Note 7 as proscribed by Accounting Standards Update 2010-25. Delinquent notes receivable are reclassified as benefits paid based upon the terms of the Plan document. Related interest income is recognized when earned under the accrual method.

Investment Income
Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income are recorded as earned. Realized gains and losses on the sale of investments and unrealized appreciation and depreciation in the market value of investments are shown as net appreciation (depreciation) in the fair value of investments in the statement of changes in net assets available for benefits.

Payment of Benefits
Benefit payments are recognized when paid.

3. Summary of Financial Information Certified by the Trustees (unaudited)

The Plan Committee has elected the method of annual reporting and compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Plan Committee has received certification from the Trustees that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

(a) Investments (except participant loans) as shown in the statements of net assets available for benefits;

(b) Interest (except $8,437 of interest on participant loans) and dividend income and net appreciation in the fair value of investments for 2011, as shown in the statement of changes in net assets available for benefits; and

(c) All information (except participant loans) included in the Schedule of Assets (held at end of year) as of December 31, 2011, as shown in the supplemental schedule.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. Investments (unaudited)

The following table presents the fair value of investments that represent 5% or more of the Plan's net assets available for benefits (the December 31, 2010 amounts presented below represent assets held just prior to conversion of those assets to cash to facilitate the transfer to the new trustee) as of December 31, 2011 and 2010:

	December 31, 2011	December 31, 2010
Transamerica Diversified Inv Short Horizon	$ 257,252	*
Transamerica Vanguard Target Retirement 2020	519,265	*

Transamerica Vanguard Total Stock Market Index	236,995	*
Transamerica PIMCO Total Return	626,169	*
Transamerica Stable Value Core	393,940	*
Notes receivable from participants	244,395	$ 197,295
Principal Lifetime 2020 Sep Acct	*	481,596
Principal Lifetime 2030 Sep Acct	*	505,611
Principal Lifetime Strategic Income Sep Acct	*	390,597
Principal General Guaranteed Interest Contract	*	293,542
PIMCO Total Return Fund C	*	352,416

* less than 5% of Plan assets in this year

The Plan held cash of $3,158,663 at December 31, 2010, which exceeded 5% of the Plan's net assets at that date.

During 2011, all of the Plan's net appreciation (depreciation) in fair value (including gains and losses on investments bought and sold, as well as held during the year) was attributable to investments in pooled separate accounts. The net depreciation in fair value during 2011 was attributable to:

Pooled separate accounts classified as Level 1 assets (using quoted market values)	($121,130)
Pooled separate accounts classified as Level 2 assets (valued otherwise)	8,086
Total net depreciation in fair value of investments for 2011	($ 113,044)

The pooled separate accounts held by the Plan during 2011 were valued using the practical expedient for the pooled separate account's reporting Net Asset Value (NAV). These investments did not have any additional funding requirements, and did not have any liquidation or redemption restrictions. The name of each pooled separate account is reflective of the underlying mutual fund investments held in the pooled separate account. The pooled separate accounts did not hold any other investments with the exception of di minimus amounts of cash.

The general investment strategies for the more significant Transamerica investments valued using NAV as the practical expedient were as follows (these funds generally hold the mutual fund of the same name, unless otherwise indicated):

Diversified Inv Short Horizon seeks to provide a high level of income and preservation of capital, generally through investment in a combination of Transamerica Partners funds, with approximately 90% invested in fixed income funds

Vanguard Target Retirement 2020 seeks to provide capital appreciation and current income with an asset allocation designed for those planning to retire in 2020, with a greater allocation of assets to fixed income securities the nearer 2020 approaches

Vanguard Target Retirement 2030 seeks to provide capital appreciation and current income with an asset allocation designed for those planning to retire in 2030, with a greater allocation of assets to fixed income securities the nearer 2030 approaches

Vanguard Total Stock Market Index seeks to track performance of the MSCI US Broad Market Index through investing in a sampling of securities comprising that index

PIMCO Total Return seeks maximum total return investing at least 65% of its assets in a diversified portfolio of fixed income instruments including derivatives, with up to 10% of the assets being high yield "junk bonds" and 15% may be tied to emerging economies

Stable Value Core seeks to provide stable returns and safety of principal, while providing returns in excess of money market and one year Treasury bill rates through investment in the general account assets of Transamerica Life Insurance Company

The remaining 46 investment funds constitute approximately 35% of Plan investments held at December 31, 2011.

At December 31, 2011, the Transamerica Stable Value Core Fund has a crediting rate of 1.70% and a related spot yield (the underlying investment return rate) of 1.70% at December 31, 2011, and the average annual yield for 2011 was 1.70%. The effective credited interest rate is set monthly and was effective on the first day of the month. Assets underlying this investment are commingled with assets in the general account of Transamerica. Transactions in this fund are designed to occur at $1 per unit.

Effective July 1, 2012, the Transamerica Stable Value Core Fund instituted certain changes in its operation. Interest rate crediting rates will be established semi-monthly, with 45 days advance notice. Changes of investment funds by a participant out of this fund may be subject to a 270 business day delay before becoming effective. Transamerica may also place a twelve month delay on all withdrawals from the fund if Transamerica determines that a high percentage of withdrawal/transfer requests would materially and adversely affect the financial condition of the stable value fund.

5. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820-10 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end based on values per publicly traded market exchanges.

Pooled separate accounts: Valued at fair value as determined by the investment advisor based on quoted market prices on national exchanges for underlying assets and by discounting the related cash flows of underlying non-publicly traded interest bearing investments based on current yields of

similar instruments with comparable durations considering the credit-worthiness of the issuer, and considering the related investment management fees.

Stable Value Fund: Valued at fair value as determined by the trustee based on interest rates paid in comparison to general market yields, taking into consideration the creditworthiness of the trustee.

Guaranteed interest contract: Valued at fair value as determined by the investment advisor and trustee by discounting the related cash flows of underlying interest contracts and wrappers based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011:

Investments at Fair Value as of December 31, 2011:

	Level 1	**Level 2**		**Level 3**	**Total**

The following table sets forth by level, within the fair value hierarchy, the Plan's assets (just prior to their conversion to cash to facilitate the transfer to the new trustee) at fair value as of December 31, 2010:

Investments at Fair Value as of December 31, 2010:

	Level 1	Level 2		Level 3	Total
Mutual funds:					
Equity	$279,187				$279,187

A valued using the market approach
B valued using the income approach (contracted and market interest rates and expected cash flows)

At December 31, 2010 the Plan held $3,158,663 of cash after the conversion of assets previously under the custody of The Principal as Trustee. This cash balance was a Level 1 asset.

There were no Level 3 assets held in 2011 or 2010.

6. Federal Income Tax Status

The Plan used a standardized plan document employed by Transamerica in 2011 and The Principal during 2010. Such standardized plan documents have received determination letters from the IRS, but the Plan has not separately received a determination letter from the IRS. The Plan Committee believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code, the Plan was qualified, and the related trust was tax-exempt as of December 31, 2011 and 2010.

Accounting principles generally accepted in the United States of America require the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2011 there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes each of the years of Plan operation are still subject to potential income tax examination.

7. Party-In-Interest Transactions

Investments by the Plan and its participants in the pooled separate accounts, the stable value fund and the guaranteed interest contract are managed by affiliates of the Trustees (Transamerica and The Principal), and therefore qualify as party-in-interest transactions. These affiliates receive fee

income related to those investments held by the Plan. Loans to participants in the Plan also qualify as party-in-interest transactions.

The Company provides services to and on behalf of the Plan with no compensation or reimbursement from the Plan.

The Plan administrator has determined the Company failed to timely remit certain participant contributions and loan repayments on a timely basis in 2010 and 2011. This constitutes a series of delinquent contributions, which are prohibited transactions. The Plan administrator and the Company have quantified the amount of delinquent contributions and ensured that such amounts had been funded into participant accounts. The Company also computed the amount of lost earnings attributable to the delinquent contributions and funded the related amounts into the participant accounts in the Plan to properly restore the balances. Delinquent contributions and loan repayments that arose in 2011 which are being corrected in 2012 totaled $137,158. Delinquent contributions and loan repayments that occurred in 2010 and were corrected in 2011 totaled $231,082.

8. Reconciliation with Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2011 to the Form 5500:

	December 31, 2010
Net assets available for benefits per the financial statements	$ 4,609,271
Less: Contributions receivable not included in Form 5500	(283,405)
Net assets available for benefits per the Form 5500	$ 4,325,866

The following is a reconciliation of total income for the year ended December 31, 2010 per the financial statements to the Form 5500:

	For the year ended December 31, 2011
Total additions per the financial statements	$ 1,250,389
Less: Contributions receivable not included in Form 5500	(283,405)
Total income per the Form 5500	$ 966,984
