NOTE A – DESCRIPTION OF PLAN

The Alarm Security Group, LLC 401(k) Retirement Savings Plan (the "Plan") is a defined contribution plan established on February 1, 2003 by Alarm Security Group (the "Company"), based on the prototype defined contribution retirement plan of AccuDraft, Inc.

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Company who have completed 1,000 hours of service within one year. The Plan is subject to the provisions of the Employees Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Participants may contribute a minimum of 1% and a maximum of 100% of their annual pretax compensation, as defined in the Plan, not to exceed the maximum allowable amounts under the Internal Revenue Code. Participants who are at least age 50 can make additional contributions as defined under the Internal Revenue Code.

During 2011 and 2010, there were no employer contributions to the plan.

Rollover Contributions

The Plan accepts rollover contributions from retirement funds held by participants outside of this Plan, subject to Plan provisions.

Investment Options

The Plan provides for participant-directed investment programs whereby the Plan determines which investment options are available and the participants may choose among the available options. Participants may have their accounts invested in any or a combination of pooled separate accounts. Participants may change their investment options at any time by re-allocating contributions among different investment alternatives. Participants may also transfer contributions into and out of investments provided under the Plan, subject to possible restrictions.

NOTE A – DESCRIPTION OF PLAN, (continued)

Participant Accounts

Each participant's account is self-directed and is increased by the participant's contributions (including elective deferrals, catch up contributions, after-tax contributions and/or rollover contributions), the Company's contributions, share of any investment earnings, and increases in the value of investments. Participant accounts are reduced by any withdrawals or distributions, investment losses, decreases in values of investments, and share of fees and expenses, as applicable. Allocations are based on participant earnings or account balances, as defined by the Plan provisions. The amount to which a participant is entitled to is the benefit that can be provided from the participant's vested account.

Administrative Expenses

Administrative costs, except for certain investment fees and loans fees that are paid out of the related participant accounts, are paid by the Company and have not been included in the accompanying financial statements.

Payment of Benefits

Benefits may be paid from participant accounts at the retirement age of 65, or upon death, disability or termination of employment or upon Plan termination. The taxable portion of a withdrawal is subject to federal and state income taxes and an additional tax if the participant has not reached retirement age, unless the amount is rolled over into another eligible plan or an Individual Retirement Account.

Eligible participants may request an in-service hardship distribution of elective deferrals and vested matching contributions, subject to the Plan's provisions.

Notes Receivable From Participants

The Plan allows active participants to borrow from their vested account balances. The minimum loan is \$1,000. Participant loans are limited to the lesser of 50% of their vested account balance or \$50,000 less the highest outstanding loan balance in the prior twelve-month period. Participants are permitted to have only one outstanding loan at any time and the loan must be repaid within a five-year period, unless the loan is for the acquisition of a primary residence.

NOTE A – DESCRIPTION OF PLAN, (continued)

Notes Receivable From Participants – continued

Loans are secured by the balance in the participant's account, and bear interest at a rate commensurate with local prevailing rates. The interest rate shall remain fixed throughout the duration of the loan. Principal and interest payments are made through payroll deductions.

Vesting

Participants are immediately vested in their contributions plus actual earnings on elective deferral contributions. All contributions are 100% vested upon attaining normal retirement age, death or disability. Employer contributions not already fully vested when made (i.e. Safe Harbor matching) are subject to the following vesting schedule:

<u>Years of Service</u>	<u>Vested Interest</u>
1	0%
2	25%
3	50%
4	75%
5	100%

Forfeited Accounts

Forfeitures attributable to matching contributions not required to pay administrative expenses will be applied to reduce Company contributions in the current or next succeeding Plan year. As of December 31, 2011 and 2010, forfeited non-vested accounts totaled \$2,927 and \$3,424, respectively.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets, liabilities, and changes therein, and in the disclosures of contingent assets and liabilities. Accordingly, actual results could differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received upon sale of an asset or paid on transfer of a liability in an orderly transaction between market participants at the measurement date. The noninterest-bearing cash is stated at cost, which equals fair value. An insurance company pooled separate account is when several plans participate in a separate account plan held by the insurance company. The separate account plan's assets are held by the insurance company but are not commingled with the insurance company's general assets. Each plan's share of a pooled separate account is determined on a participation-unit basis. The fair value of participation units in the pooled separate accounts, as estimated by John Hancock Life Insurance Company (U.S.A.) is based on quoted redemption value on the last business day of the year.

Purchases and sales of investments are recorded on a trade date basis. Interest and dividend income is recorded when earned. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivables from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Contributions

Employee contributions are recorded in the period that the Company makes payroll deductions from the participant's earnings. Employer contributions, if any, are made the next plan year after the contribution has been calculated.

NOTE D – INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined as of March 5, 2002, the AccuDraft, Inc. Proto-type Defined Contribution Retirement Plan was designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Proto-type Plan was adopted by the Company on August 2, 2006. The Plan has been subsequently amended. The Plan Administrator is not aware of any course of action or series of events that have occurred that might affect the Plan's tax exempt status, and therefore, believes that the Plan and the related trust are tax-exempt.

NOTE E – PRIORITIES UPON PLAN TERMINATION

Although the Company has not expressed any intent to do so, the Company has the right under the Plan to amend the Plan, to discontinue its contributions at any time, and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their account balances as of the date of termination.

NOTE F – RISKS AND UNCERTAINTIES

The Plan provides for investments in various investment securities that are exposed to various risks such as interest rate, credit risks, and overall market volatility. Because of the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities could occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

NOTE G – FAIR VALUE MEASUREMENTS

FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include a) quoted prices for similar assets or liabilities in active markets; b) quoted prices for identical or similar assets or liabilities in inactive markets; c) inputs other than quoted prices that are observable for the asset or liability; and d) inputs that are derived principally from, or corroborated by, observable market data by correlation or other means. If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability. |

**ALARM SECURITY GROUP, LLC 401(K)
RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010**

NOTE G – FAIR VALUE MEASUREMENTS, (continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts: Fair value of participation units estimated by John Hancock based on the underlying assets which are generally invested in marketable securities.

Noninterest bearing cash: Valued at cost, which approximates fair value.

Money market funds: Valued at the estimated fair value which equals cost.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011:

	<u>Assets at Fair Value as of December 31, 2011</u>			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	\$ -	\$ 4,722,162	\$ -	\$ 4,722,162
