1. Description of Plan

The following description of the Enscicon 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Basic Plan Document for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan covering substantially all employees of Enscicon Corporation and its subsidiaries (the "Company") who are at least 21 years of age. Employees are eligible to enter the Plan on the first day of the month following their employment date. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions
Each year, participants may contribute up to 100% of pretax annual compensation, as defined by the Plan, not to exceed the maximum permissible amount. Participants may also contribute amounts representing distributions from another qualified retirement plan or special individual retirement arrangements.

The company may contribute a discretionary matching contribution not to exceed 100% of each participant's contribution. Additionally, the Company has the right to make additional discretionary contributions. For the year ended December 31, 2011, the Company did not make any discretionary matching or additional contributions.

Participant Accounts
Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances as defined under the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contributions portion of their account plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after three years of credited service.

Investment Options
Upon enrollment in the Plan, participants direct contributions made on their behalf to any of the funds designated by the Company and administered by Principal Life Insurance Company, the Plan's custodian. Participants may change their investment options at any time. Participants have a variety of pooled separate accounts and guaranteed interest accounts as investment options.

1. Description of Plan (continued)

Risks and Uncertainties
The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Notes Receivable from Participants
Participants may borrow from their Plan accounts a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms may generally not exceed five years, bear interest at a rate commensurate with local prevailing rates and are secured by the balance in the participant's account. Principal and interest is paid ratably through bi-weekly payroll deductions.

Payment of Benefits
On termination of service, a participant may elect to have their vested interest in his or her account paid through lump sum payment directly or by rollover to another qualified account or by monthly, quarterly or semi-annual installments over a period of not more than the participant's assumed life expectancy. Hardship distributions to participants are permitted up to 100% of the vested participant's account balance attributable to contributions.

Forfeited Accounts
At December 31, 2011 and 2010, there were no forfeited non-vested account balances, as the Company had made no employer contributions to the Plan. Any forfeitures will be used to pay administrative expenses for the Plan and/or reduce future employer contributions.

Administrative Expenses
The Company absorbs a significant portion of the Plan's administrative expenses on behalf of the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements of the Plan have been prepared using the accrual method of accounting.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results may differ from those estimates.

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's guaranteed interest accounts are not considered fully benefit responsive and are recorded at fair market value in accordance with guidance from the American Institute of Certified Public Accountants (see Note 5).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

Subsequent Events
Management evaluated subsequent events through August 10, 2012, the date the financial statements were available to be issued.

3. Information Prepared and Certified by Custodian

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company has certified that the investment balances and investment income included in the accompanying financial statements and supplemental schedule are complete and accurate.

a. Total participant directed investments as shown in the accompanying statements of net assets available for benefits were $1,687,775 and $1,859,898 as of December 31, 2011 and 2010, respectively.

b. Net investment income (loss) as shown in the accompanying statement of changes in net assets available for benefits was ($9,281) for the year ended December 31, 2011.

No auditing procedures were performed with respect to this information, except for comparing such information to the related information included in the accompanying financial statements and supplemental schedule.

4. Investments

The fair value of individual investments that represents 5% or more of the Plan's net assets available for benefits as of December 31, 2011 and 2010, are as follows:

	2011	2010
Principal Money Market	$ 239,226	$ 268,196
Principal LifeTime 2030	204,619	224,694
Principal Bond & Mortgage	159,353	187,660
MFS Value R2	90,038	114,001
Goldman Sachs Mid Cap	*	115,349
Principal Diversified International	*	91,082
Principal Partners Large-Cap Growth II	*	88,187

* Balance under 5% of the Plan's net assets.

Investment income is comprised of the following for the year ended December 31, 2011:

Net appreciation (depreciation) in fair value of investments:	
Pooled separate accounts	$(12,384)
Guaranteed investment contracts	-
	(12,384)
Interest and dividends:	
Pooled separate accounts	2,021
Guaranteed investment contracts	1,082
	3,103
Total investment income (loss)	$ (9,281)

5. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

5. Fair Value Measurements (continued)

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborate observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Pooled Separate account: Valued at quoted prices in an active market

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

Total assets at fair value	$ -	$ 1,769,548	$ 90,350	$ 1,859,898

5. Fair Value Measurements (continued)

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2011:

	Level 3 Assets	
	Guaranteed Investment Contracts	U.S. Property Fund
Balance, beginning of year	$ 47,481	$ 42,869
Realized gains (losses)	-	-
Unrealized gains (losses) relating to instruments still held at reporting date	-	6,400
Purchases, sales, issuances, and settlements (net)	722	(3,356)
Balance, end of year	$ 48,203	$ 45,913

6. Refundable Contributions

Refundable contributions totaling $39,511 and $65,809 as of December 31, 2011 and 2010, respectively, represent the return of excessive amounts allocated to highly compensated employees as required to satisfy relevant nondiscrimination provisions of the Plan. The excess contributions were recorded as a reduction of participant contributions. The refundable contributions were paid out in 2012 and 2011.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

8. Related Party Transactions

Certain Plan investments are pooled separate accounts and guaranteed interest accounts managed by Principal Life Insurance Company who is the custodian as defined by the Plan. Therefore, these transactions qualify as party-in-interest transactions.

9. Tax Status

The Company has adopted the Enscicon 401(k) Plan as restated March 4, 2003. The Company has applied with the Internal Revenue Service to receive a determination letter that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has not received a determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2011 and 2010, to the Form 5500's:

	2011	2010
