NOTES TO FINANCIAL STATEMENTS

NOTE 1 - GENERAL DESCRIPTION OF THE PLAN

The Fox Valley Orthopaedic Associates, S.C. Profit Sharing and Savings Plan and Trust (the Plan) is a Trustee directed profit sharing and 401(k) plan providing retirement benefits to those employees of Fox Valley Orthopaedic Associates, S.C. (the Company) who qualify for participation in the Plan, or to such employees' designated beneficiaries.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Employees can elect to participate in the Plan and are eligible upon completing one year of service of 1,000 hours or more.

Participants may elect to contribute up to 100% of eligible compensation, not to exceed the limits of the Internal Revenue Code. Participants direct the investments of their contributions into various investment options offered by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution Plans.

The Company may also make additional discretionary profit sharing contributions as determined by the Board of Trustees.

Each participant's account is credited with the participant's contribution and an allocation of the Company's discretionary profit sharing contribution for the Plan year based upon the ratio that the compensation of each eligible participant bears to the total compensation of all eligible participants within their class. The Plan's earnings are allocated to participants based on each participant's account balance.

Benefits are payable to a participant or the participant's designated beneficiary upon the participant's termination or retirement from the Company, or the participant's disability or death. A participant 59-½ or older may withdraw his or her aggregate account prior to termination of employment. Benefits are payable as either a lump sum, partial withdrawal or installments, or alternative annuity. Participants are fully vested in their contributions, while the Company's discretionary contributions are vested on a graded schedule, as follows:

Years of Service	Percentage
Less than 2	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

To earn a year of service, a participant must be credited with at least 1,000 hours of service during any plan year.

NOTE 1 - GENERAL DESCRIPTION OF THE PLAN, CONTINUED

Any nonvested amounts which have become forfeitures since the preceding anniversary date of the Plan will be used to reduce the employer's discretionary contribution for the year in which the forfeitures occur.

The Plan allows any participant to borrow up to 50% of their vested account balance, not to exceed $50,000, reduced by the excess (if any) of the highest outstanding loan balance from the Plan during the one year period ending on the day before the date on which such loan was made, over the outstanding loan balance from the Plan on the date such loan was made. Any such loan must bear a reasonable rate of interest commensurate with the interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances.

Loans are secured by the balance in the participants' account. A loan that is in default is considered a distribution and becomes taxable income to the participant. Interest on participant loans is included in investment income. Principal and interest is paid ratably through payroll deductions.

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants, as always, are 100 percent vested in their accounts.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation

Investments at December 31, 2011 and 2010 are stated at the amounts certified by the trustees of the Plan, Reliance Trust Company for the year ended December 31, 2011, and SEI Investments for the year ended December 31, 2010, which represents fair market value, at the date of the statement of net assets available for Plan benefits. Mutual funds are valued at quoted market prices in an active market. Participant loans are valued at their outstanding balances, which approximates fair value.

Contributions

Participants' and employer matching contributions are recorded when they are received.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Expenses of the Plan

All investment expenses incurred are paid from the Plan's assets, while administrative expenses are absorbed by the Plan sponsor.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Benefit Payments

Benefits are recorded when paid.

Accounting Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

Subsequent Events

Subsequent events have been evaluated through October 1, 2012, the date that the financial statements were available for issue.

NOTE 3 - INVESTMENTS

The following is a summary of the investments at December 31, 2011 and 2010. Investments that represent 5% or more of the Plan's net assets, for either year, are separately identified:

	2011	2010

American Funds 2020 Target Retirement	1,061,829	2,594,319

	$ 16,079,830	16,349,313

NOTE 4 - RELATED PARTY TRANSACTIONS

Certain Plan investments are funds managed by Reliance Trust Company for the year ended December 31, 2011 and 2010, the trustees as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $45,762 and $39,005 for the years ended December 31, 2011 and 2010, respectively.

NOTE 5 - INCOME TAX STATUS

A favorable determination letter dated June 20, 2010 has been received from the Internal Revenue Service. The Plan is, therefore, exempt from federal income taxes. The Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE 6 - RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 8 - FAIR VALUE MEASUREMENTS

Accounting principles generally accepted in the United States of America establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

NOTE 8 - FAIR VALUE MEASUREMENTS, CONTINUED

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual Funds: Based on the net asset value ("NAV") of shares held by the plan at year end.

Participant Loans: Based on amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

	Asset at Fair Value as of December 31, 2011			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 16,079,830	-	-	16,079,830
Participant Loans	-	-	78,338	78,338
Total Assets at fair value	$ 16,079,830	-	78,338	16,079,830

NOTE 8 - FAIR VALUE MEASUREMENTS, CONTINUED

	Asset at Fair Value as of December 31, 2010
