NOTE A BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General - The Houston Pilots 401(k) Plan (the Plan) was adopted effective January 1, 2000 to establish a savings and investment plan for the exclusive benefit of the employees of Houston Pilots (the Company) and their beneficiaries. The Plan is a defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Basis of Presentation - The financial statements of the Plan are prepared on the accrual basis of accounting. Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income are recognized when earned.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles in the United States (GAAP) requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan provides for several investment options which are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

Valuation of Investments - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In accordance with the policy of stating investments at fair value, net investment gain or loss is included in the carrying value of related investments in the statements of net assets available for plan benefits and the changes in the net investment gain or loss are reflected in the statement of changes in net assets available for plan benefits.

Participant Loans Receivable - GAAP requires that loans to participants be reported as notes receivable from participants at the unpaid principal balance plus any accrued but unpaid interest.

Federal Income Tax - The Internal Revenue Service informed the Plan Administrator, by letter dated February 27, 2008, that the Plan constitutes a qualified trust under Section 401(b) of the Internal Revenue Code. The Plan has been subsequently amended, however the Plan administrator believes the Plan continues to be in compliance with the applicable requirements of the Internal Revenue Code.

The Plan believes that all significant tax positions utilized by the Plan will more likely than not be sustained upon examination. As of December 31, 2011, the tax years that remain subject to examination by the major tax jurisdictions under the statute of limitations are from the year 2008 forward (with limited exceptions). Tax penalties and interest, if any, would be accrued as incurred and would be classified as tax expense in the statement of changes in net assets available for plan benefits.

Subsequent Events - The Plan has evaluated subsequent events through July 31, 2012, the date the financial statements were available to be issued. No subsequent events occurred, which require adjustment or disclosure to the financial statements at December 31, 2011.

NOTE B PLAN DESCRIPTION

The following description of the Plan provides only general information about the Plan. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Participation - An employee is eligible to become a participant in the Plan on January 1st, April 1st, July 1st and October 1st following the completion of one year of service.

Contributions - Participants may elect to make contributions to the Plan in an annual amount up to 90% of their eligible compensation. Eligible compensation in 2011 is limited to $245,000. Contributions are made through authorized payroll reductions. These contributions by individual employees were limited to $16,500 (participants under 50 years of age) and $22,000 (participants 50 years of age or older) in 2011. This limitation is generally adjusted annually to reflect cost-of-living increases.

During 2011, the Company elected to contribute a safe harbor 401(k) contribution equal to 3% of each eligible employee's compensation and a discretionary contribution equal to 10.27% of each eligible employee's compensation. Eligible employees were not required to make a salary deferral contribution to receive the safe harbor 401(k) contribution and the discretionary contribution.

Each participant account is credited with the participant's contribution, the Company's contributions, and a pro rata share of the earnings of each fund in which the participant has invested.

Vesting - Participants are immediately vested in their salary reduction, rollover contributions, and the Company's safe harbor 401(k) contributions plus actual earnings thereon. Any Company discretionary contributions and related earnings vest as follows:

Full Years of Vesting Service	Vested Interest
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Forms of Benefits - The normal form of benefit payable under this Plan is a lump sum. For participants having attained age 70-1/2, minimum distribution requirements apply. Partial lump sum cash payment of a portion of the participant's vested interest is also an acceptable form of benefit payment.

Participant Loans - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer between the investment fund and participant loans receivable. Loan terms range from 1 to 5 years or longer for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with prevailing rates. Interest rates on loans outstanding at December 31, 2011 range from 4.25% to 7.50%.

NOTE B PLAN DESCRIPTION (CONTINUED)

Investments - Each participant directs the investment of their account into any of the investment options designated by the Plan Administrator.

Self-Directed Account - In 2004, a self-directed investment account (Personal Retirement Choice Account) was established for each participant who directed an investment outside of the investment options designated by the Plan Administrator. The self-directed account shall not share in trust fund earnings but will be charged or credited as appropriate with net earnings, gains, losses, and expenses, as well as any appreciation (deprecation) in market value attributable to such account during each plan year.

Forfeitures - Forfeitures of account balances not fully vested are used to reduce future Employer Discretionary Contributions. Unused forfeitures at December 31, 2011 amounted to $21,606.

Administration - The Company, as the Plan Administrator, may, at its discretion, pay the Plan's administrative expenses. Any Plan expenses not paid by the Company will be paid by the Plan. Substantially all Plan expenses were paid by the Company for 2011.

Plan Termination - Although the Company has not made a determination to terminate the Plan, the Company has the right under the Plan to terminate the Plan subject to provisions set forth in ERISA. Upon termination, all participants would become fully vested in their accrued benefits as of the date of termination.

NOTE D FAIR VALUE DISCLOSURES

GAAP provides a framework for measuring fair value using a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value based upon whether the inputs to those valuation techniques are observable or unobservable. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical financial instruments and the lowest priority to unobservable inputs. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The financial instrument's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. These inputs are summarized in the three broad levels listed below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Other significant observable inputs (including quoted prices in active or inactive markets for similar financial instruments), or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the financial instruments. The fair value of Level 3 financial instruments is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

Following is a description of the valuation technique used for assets measured at fair value. There have been no changes in the technique used during 2011 and 2010.

Registered investment companies, interest-bearing cash and self-directed accounts are valued at the net asset value of shares held by the Plan at year end and are categorized as Level 1 investments within the fair value hierarchy.

NOTE D FAIR VALUE DISCLOSURES (CONTINUED)

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation technique is appropriate and consistent with other market participants, the use of different techniques or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair values of investments are categorized as follows at December 31, 2011 and 2010:

	2011			
	Level 1	Level 2	Level 3	Total
Registered Investment Companies:				
Retirement Date Funds (a)	$ 5,443,136	$ -	$ -	$ 5,443,136

(a) This category includes investments in highly diversified funds designed to remain appropriate for investors in terms of risk throughout a variety of life circumstances.

There were no significant transfers in and/or out of the fair value categories during 2011 and 2010.

NOTE E PARTY-IN-INTEREST
