Note 1 - Plan Description

The following description of the Bernstein Litowitz Berger & Grossmann LLP Employees 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a) General

The Plan is a defined contribution plan established for the benefit of all full-time employees of Bernstein Litowitz Berger & Grossmann LLP (the "Company" or "Plan Sponsor") who have completed one year of service and are at least twenty-one years of age as of their entry date (January 1, April 1, July 1 and October 1) following their hire date. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

b) Contributions

Participants may annually elect to contribute an amount limited to their annual compensation, subject to certain limitations. Additionally, participants that have reached the age of 50 before the close of the Plan year are eligible for a catch-up contribution. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). There are no employer contributions other than the corrective contribution.

Participants direct the investment of their contributions into investment options (Note 4) offered by the Plan. Various investment fund options are being offered to the participants, who may change their investment direction at any time throughout the year.

c) Participant Accounts

Each participant's account is credited/charged with the participant's contribution, benefits paid, and an allocation of Plan earnings (losses) and administrative expenses. Earnings (by investment option) and administrative expenses are allocated based on relative participant account balances. A participant is entitled to the benefit that can be provided from the participant's account.

d) Vesting

Participants are immediately vested in the value of their accounts.

Note 1 - Plan Description (Continued)

e) Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.75% to 8.25% and mature through April 2030. The interest rate on loans issued during 2011 and 2010 is fixed (at 1 ½% above the prime rate at date of issue) over the loan term. Principal and interest is paid ratably through payroll deductions.

f) Payment of Benefits

Distributions are permitted upon termination of service. In service distributions are permitted upon attaining age 59 ½ or for reasons of hardship. Benefits up to the amount of the participant's account value can be taken as a lump-sum distribution.

Note 2 - Summary of Significant Accounting Policies

a) Date of Management's Review

Subsequent events were evaluated through October 1, 2012, which is the date the financial statements were available to be issued.

b) Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan sponsor to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

c) Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

d) Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant loans are reclassified as benefit payments based on the terms of the Plan document.

Note 2 - Summary of Significant Accounting Policies (Continued)

e) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (Note 5).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments sold as well as held during the year.

f) Payment of Benefits

Benefits are recorded when paid.

g) Administrative Expenses

Administrative expenses are paid by the Plan Sponsor which reserves the right to charge such future expenses to the Plan.

Note 3 - Unaudited Information Prepared and Certified by the Plan Custodian

The custodian, The ING Life Insurance and Annuity Company, holds the Plan's investments and notes receivable from participants and executes transactions therein. Financial information relating to these assets and changes therein included in the financial statements and supplemental schedule are based entirely on information provided and certified as complete and accurate by the custodian in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information has not been audited by the independent auditors.

Note 4 - Investments

Investments that represent 5% or more of the Plan's net assets are as follows:

	December 31	
	2011	2010
ING Index Solution 2045 Portfolio - Adviser Class	**$1,157,378**	$ 1,083,701
ING Index Solution 2025 Portfolio - Adviser Class	**1,013,510**	898,621
ING Index Solution 2035 Portfolio - Adviser Class	**919,987**	1,013,292
ING Index Solution 2015 Portfolio - Adviser Class	**767,867**	726,546
ING Index Solution Income Portfolio - Adviser Class	**347,625**	320,134

Note 4 - Investments (Continued)

Investment options consist of:

a) Lifecycle Funds

The ING Solution Portfolios are a suite of target date institutional fund of funds that are designed to meet the needs of retirement plan investors who prefer a single diversified investment option.

b) Growth and Value Stock Funds

These categories normally invest in common stocks of companies included in the Russell and S&P Indexes, ranging from large to small capitalized companies.

c) Global/International Stock Funds

These funds invest in a mix of securities from the U.S. and abroad including emerging and developing market stocks.

d) Investment Contract with Insurance Company

The ING Fixed Account is intended to be a long-term investment for participants seeking stability of principal. The assets supporting it are invested by The ING Life Insurance and Annuity Company, the custodian, and provides stable credited interest rates.

e) Balanced and Bond Funds

The funds primarily invest in income producing bonds and equity securities of large capitalized companies.

f) Money Market Funds

This category seeks current income consistent with maintaining liquidity and preserving capital. The funds invest in high quality, short term investments.

g) Other Funds

This category consists of funds investing in small to mid capitalized U.S and foreign stocks and a fund that invests primarily in companies that own, operate, develop or manage real estate.

Note 5 - Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 1 inputs were available to the Plan, and Level 3 inputs were only used when Level 2 inputs were not available.

a) Level 2 Fair Value Measurements

The pooled separate accounts invest in domestic and foreign stocks, bonds and mutual funds. The fair value of each unit of the Plan's investment is calculated on the observable quoted net asset value of the underlying investments.

b) Level 3 Fair Value Measurements

The Fixed Account is an investment contract issued by an insurance company (the custodian) and is not traded; significant other observable inputs are not available. Amounts invested are held in the custodian's general account. The fund is valued based on the terms of the contract.

Note 5 - Fair Value Measurements (Continued)

b) Level 3 Fair Value Measurements (Continued)

The following table reconciles the beginning and ending balances of fair value measurements using significant unobservable inputs (Level 3) of the investment contract with insurance company:

	Years Ended December 31	
	2011	2010
Balance - January 1	**$ 142,434**	$ 43,484
Amounts included in changes in net assets available for benefits

Purchases	**46,585**	96,942
Sales	**(52,352)**	-
Balance - December 31	**$ 139,688**	$ 142,434

Note 5 - Fair Value Measurements (Continued)

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value in the accompanying statements of net assets available for benefits:

	Total Fair Value December 31		Fair Value Measurements as of December 31 Using Significant Other Observable Inputs (Level 2)		Significant Unobservable Inputs (Level 3)	
	2011	2010	2011	2010	2011	2010
Pooled separate accounts	**$ 5,524,182**	$ 5,105,505	**$ 5,524,182**	$ 5,105,505		
Investment contract with insurance company	**139,688**	142,434			**$ 139,688**	$ 142,434
	$ 5,663,870	$ 5,247,939	**$ 5,524,182**	$ 5,105,505	**$ 139,688**	$ 142,434

Note 6 - Related Party Transactions

Certain investments are managed by the custodian and/or affiliates and, therefore, qualify as party-in-interest transactions.

All administrative expenses were paid to the custodian and/or affiliates.

Note 7 - Tax Status

The Plan was formed based on a prototype plan offered by a consultant, which received an opinion letter dated March 31, 2008 from the Internal Revenue Service (IRS) which stated the prototype Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code and thus exempt from income taxes. While Plan management did not elect to obtain an individual determination letter from IRS, and has amended the Plan since the consultant's receipt of the opinion letter, it believes the Plan, as currently designed and operated, is in compliance. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan has determined all benefits associated with positions taken for tax purposes would, more likely than not, be sustained upon review by the taxing authorities and therefore has not recognized a liability for unrecognized tax benefits. Tax returns (Form 5500) are filed in the U.S. Federal jurisdiction. The Plan sponsor believes the Plan is no longer subject to tax examinations for years prior to 2008.

Note 8 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants would become 100% vested in any employer contributions in addition to their own contributions and earnings thereon.

Note 9 - Risks and Uncertainties

The Plan invests in various investment securities which are exposed to risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
