1. General Description of the Plan

Kleinfeld Associates 401(K) Plan (the "Plan") was established in 1999 to provide benefits to all employees of Kleinfeld Bridal Corp (the "Company"). Employees who have reached the age of 21 and have completed 3 months of employment are eligible to participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). During 2011, the Plan adopted an amendment to comply with Worker, Retiree, and Employer Recovery Act of 2008 ("WRERA") and to update the Plan's provisions with respect to the Heroes Earnings Assistance and Relief Tax Act of 2008 (the "HEART Act").

The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Participant Accounts

The Plan maintains an individual account for each participant showing his or her interest in each fund. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Contributions

Contributions to the Plan are invested as designated by participants' elections. Subject to certain legal limits, participants may make elective contributions of up to the maximum amount allowed by law ($16,500 for each of the years ended December 31, 2011 and 2010). This amount is indexed annually.

The Company may make profit sharing contributions to eligible employees under the terms of the plan. The amount may vary from year to year, and of some years a profit sharing contribution may not be made. No employer contribution was made for the years ended December 31, 2011 and 2010.

Individuals who are at least 50 years of age by the end of the tax year are permitted to make "catch-up" contributions to the Plan. The maximum "catch-up" contribution to a 401(k) plan is $5,500 for 2011 and 2010.

Distributions

A participant's vested interest in the Plan's assets is distributable generally upon termination, disability, retirement or death. Payment is made in a lump-sum payment. Participants may withdraw or borrow from their individual accounts pursuant to specific guidelines as set forth in the Plan.

Vesting

Participant's contributions and earnings thereon are immediately fully vested. Company profit sharing contributions are subject to a vesting schedule. The following table illustrates the percentage of any Company profit sharing contributions that an employee is entitled to based on the number of years with the Company:

Year	Percentage
2	20%
3	40%
4	60%
5	80%
6	100%

Participant Loans Receivable

The Plan has adopted specific loan rules setting forth the minimum and maximum amounts which may be borrowed, the purposes for which loans may be used, the periods of repayment, the determination of interest rates and the manner in which a participant's contribution account is used as loan collateral. Copies of the loan applications and rules are available from the Plan administrator.

Investment Elections

The Plan's investments are maintained in the following investment portfolios sponsored by AXA Equitable Life Insurance Company:

- Guaranteed Interest Option
- EQ Invesco Charter Fund A
- EQ Janus Worldwide Fund T
- EQ Fidelity Advisor Equity Income Fund T
- EQ Janus Growth and Income T
- EQ Janus Research Fund T
- EQ Janus Twenty Fund T
- EQ SSGA S&P 500 Index Fund A
- EQ American Century Ultra Investor Class
- EQ Alliance Bernstein Large Cap Growth A
- EQ Alliance Bernstein Global Thematic Growth A

Plan Termination

Although it has not expresses any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subjected to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts. The net assets of the Plan, less any Plan expenses, would then be distributed to participants in accordance with the Plan provisions.

2. Significant Accounting Policies

Basis of Accounting

The Plan's financial statements and schedules are prepared on the accrual basis of accounting.

Uses of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Contributions

Employee contributions are recorded in the period during which the Company makes payroll deductions from the participants' earnings.

Forfeited Accounts

At December 31, 2011 and 2010, forfeited nonvested accounts totaled $1,057 and $1,031 respectively. In September 2012, the Company decided to allocate the monies pro rata among the accounts of all persons who are currently plan participants.

Payment of Benefits

Upon termination of services, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Benefits are recorded when paid.

Participant Loans Receivable

Loans receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. In January 2012, a participant was deceased and her remaining loan balance of $6,739, which was the balance at December 31, 2011, was distributed on May 30, 2012.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

The Company absorbed the costs of Plan administration including audit fee of the Plan in the amount of $8,000 for each of the years ended December 31, 2011 and 2010.

Subsequent Event Evaluation

Management has evaluated subsequent events to determine if events or transactions occurring through September 24, 2012 require potential adjustment to or disclosure in the financial statements.

3. Investments, at Fair Value

All investment information disclosed in the accompanying financial statements and supplemental schedule, in total and by fund, including investments held at December 31, 2011 and 2010, and net appreciation/depreciation in fair value of investments, interest and dividends for the years ended December 31, 2011 and 2010, were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by AXA Equitable Life Insurance.

The Plan's investments (including investments bought, sold, and held during the year) (depreciated) appreciated in value by $(16,994) and $33,405 for years ended December 31, 2011 and 2010, respectively, as follows:

Type of Investment	2011	2010
Mutual Funds	$ (16,994)	$ 33,405

Reportable Transactions as per Form 5500 Schedule H, Part IV Line 4J

For the year ended December 31, 2011, there was no reportable individual transaction that represents five percent (5%) or more of the Plan's assets or a series of transactions that amount to more than five percent (5%) of Plan assets at the beginning of the year.

4. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Guaranteed interest option: Valued at the sum of all amounts allocated or transferred to this account plus the amount any interest credited less all amounts that have been withdrawn, including charges or transferred from this account. Interest is credited into the accounts daily. There are three levels of interest in effect at the same time in the GIO:

1) the minimum interest rate guaranteed over the life of contract (2.5%),
2) the annual minimum guaranteed interest rate for the calendar year (2.5% in 2011), and
3) the current interest rate (2.5% at 12/31/2011).

Interest rates are set periodically by AXA Equitable Life Insurance Company and the minimum guarantee interest rate will never be less than the lifetime minimum guaranteed interest rate.

Mutual funds: Valued at the quoted net asset value (NAV) of shares held by the plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

	Assets at Fair Value as of December 31, 2011

5. Party-in- Interest Transactions

The Plan's investments in Guaranteed Interest Option ("GIO") become part of AXA Equitable Life Insurance Company ("AXA Equitable")'s general account. The election of the GIO investment option gives the investor the right to earn the rates of interest that AXA Equitable periodically declares and guarantees on amounts that investors deposit into the GIO. AXA Equitable is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan amounted to $267 for the year ended December 31, 2011.

6. Income Tax Status

The United States Treasury Department advised that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and its related trust is exempt from federal income taxes under Section 501(a) of the Code. The Plan has received a determination letter from the Internal Revenue Service dated August 7, 2001. The Sponsor is not aware of any course of action, series of events or amendments that might adversely affect the qualification of the Plan and related trust.

7. Open Tax Years

Tax returns for the four years ending December 31, 2011 are open for examination by the Internal Revenue Service.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. Reconciliation of Financial Statements to Schedule H of Form 5500

There is no difference between the accompanying financial statements and Schedule H of Form 5500.
