Adaptive Methods 401(K) Plan

We were engaged to audit the statements of net assets available for benefits of Adaptive Methods 401(K) Plan as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Prudential Bank and Trust, F.S.B., the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of and for the years ended December 31, 2011 and 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not as required part of the financial statements, but are required by Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Adaptive Methods 401(K) Plan
Notes to Financial Statements
For the Year Ended December 31, 2011

1. Plan Description

The following description of Adaptive Methods (Company) 401(K) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all employees (except interns) who are 21 years of age or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Each year, participants may elect to defer a percentage of their compensation, subject to IRS limitations, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers 28 mutual funds and an insurance investment contract as investment options for participants. The Company matches 100% of participant deferrals that do not exceed 3% of base compensation, plus 50% of salary deferrals between 3% and 5% of base compensation. Additional profit sharing amounts may be contributed at the option of the Company's Board of Directors. The profit sharing percentage for the year ended December 31, 2011 was 3.5% for the period January 1 – September 30, 2011 and then 3% for the period October 1 – December 31, 2011.

Participant Accounts – Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after one year of credited service, or are employed on or after normal retirement age, or terminate employment on account of death or permanent disability.

Notes Receivable from Participants – Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at a rate of 5.25%, which is commensurate with the bank prime rate reported by the U.S. Federal Reserve plus 2% at the time the loan is taken. Principal and interest is paid ratably through biweekly payroll deductions.

Notes to Financial Statements
For the Year Ended December 31, 2011

1. Plan Description (continued)

Payments of Benefits – On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts – Forfeitures of non-vested Company contributions will be allocated as additional discretionary contributions. For the year ended December 31, 2011 \$10,462 was forfeited by terminated employees. As of December 31, 2011, forfeited non-vested accounts totaled \$18,341 that have not been allocated as additional discretionary contributions.

Administrative Expenses - All expenses incurred in the administration of the Plan are paid directly by the Company.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The investments in all funds, except the GIC Fund, are presented at fair value, based on the quoted market prices of the underlying securities within each fund at December 31, 2011. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The GIC Fund is fully benefit-responsive and is reported at fair value and adjusted to contract value. Contract value represents the accumulated contributions plus accrued net earnings, less distributions. Fair value of the investments in the GIC Fund is estimated using the discounted cash flows.

Adaptive Methods 401(K) Plan
Notes to Financial Statements
For the Year Ended December 31, 2011

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount the participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan documents.

Subsequent Events

For the year ended December 31, 2011, the Plan has evaluated subsequent events for potential recognition and disclosure through July 30, 2012, the date the financial statements were available to be issued.

3. Fair Value Measurements

FASB Codification Standard, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the FASB Codification Standard are described as follows:

- Level 1 - inputs to the valuation methodology are unadjusted quoted prices for identical asset or liabilities in active markets that the Plan has the ability to access.

Adaptive Methods 401(K) Plan
Notes to Financial Statements
For the Year Ended December 31, 2011

3. Fair Value Measurements (continued)

- Level 2 - inputs to the valuation methodology include (1) quoted prices for similar assets or liabilities in active markets, (2) quoted prices for identical or similar assets or liabilities in inactive markets, and (3) inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 - inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Participant loans: Values at amortized cost, which approximates fair value.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants. The use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements
For the Year Ended December 31, 2011

3. Fair Value Measurements (continued)

At December 31, 2011 and 2010, the Plan's investments were held by the trustee. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the Trustee as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The fair value of investments at December 31, 2011 and 2010, as reported by the trustee is summarized as follows:

		UNAUDITED

4. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% invested in their accounts.

5. Investment Contract with Insurance Company

The Plan has a fully benefit-responsive investment contract with Prudential Retirement and Annuity Company (Prudential). Prudential maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value and then adjusted to contract value as reported to the Plan by Prudential. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Prudential is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 1.5%. Such interest rates are reviewed on a semi-annual basis for resetting. The crediting rate of the contract will track current market yields on a trailing basis.

Average Yields are as follows:	<u>2011</u>	<u>2010</u>
Average earnings yield (1)	2.25%	2.5%
Based on interest rate credited to participants (2)	2.25%	2.5%

(1) Calculated by dividing the earnings credited to the plan on the last day of the plan year by the end of plan year fair value and then annualizing the results.

(2) Calculated by dividing the earnings credited to the participants on the last day of the plan year by the end of plan year fair value and then annualizing the results.

Notes to Financial Statements
For the Year Ended December 31, 2011

6. Tax Status

The Internal Revenue Service has determined and informed the Company by letter that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

7. Fidelity Bond

The provisions of ERISA require every person who handles funds of an employee benefit plan to be bonded. Such bond is to be equal to the lesser of 10% of the funds handled at the beginning of the year, or \$500,000. The plan had a bond in affect during the year ended December 31, 2011 in the amount of \$500,000 that meets the requirement.

8. Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2011 and 2010 to Schedule H of Form 5500:

	December 31,

8. Reconciliation to Form 5500 (continued)

The following is a reconciliation of contributions per the financial statements for the year ended December 31, 2011 to Schedule H of Form 5500:

Participant contributions per financial statements	\$ 1,013,172
Participant contributions withheld in 2010, paid in 2011	<u>18,756</u>
Participant contributions per Schedule H of Form 5500	<u>\$ 1,031,928</u>
Employer Contributions per financial statements	\$ 645,969

Employer contributions withheld in 2010, paid in 2011	<u>707,513</u>
Employer contributions per Schedule H of Form 5500	<u>\$ 912,016</u>

9. Risks and Uncertainties

The Plan invests in various investment funds. Investments in general are exposed for various risks, such as interest rate, credit and overall volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Adaptive Methods 401(K) Plan

We were engaged to audit the statements of net assets available for benefits of Adaptive Methods 401(K) Plan as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Prudential Bank and Trust, F.S.B., the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of and for the years ended December 31, 2011 and 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not as required part of the financial statements, but are required by Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Adaptive Methods 401(K) Plan
Notes to Financial Statements
For the Year Ended December 31, 2011

1. Plan Description

The following description of Adaptive Methods (Company) 401(K) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all employees (except interns) who are 21 years of age or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Each year, participants may elect to defer a percentage of their compensation, subject to IRS limitations, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers 28 mutual funds and an insurance investment contract as investment options for participants. The Company matches 100% of participant deferrals that do not exceed 3% of base compensation, plus 50% of salary deferrals between 3% and 5% of base compensation. Additional profit sharing amounts may be contributed at the option of the Company's Board of Directors. The profit sharing percentage for the year ended December 31, 2011 was 3.5% for the period January 1 – September 30, 2011 and then 3% for the period October 1 – December 31, 2011.

Participant Accounts – Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after one year of credited service, or are employed on or after normal retirement age, or terminate employment on account of death or permanent disability.

Notes Receivable from Participants – Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at a rate of 5.25%, which is commensurate with the bank prime rate reported by the U.S. Federal Reserve plus 2% at the time the loan is taken. Principal and interest is paid ratably through biweekly payroll deductions.

Notes to Financial Statements
For the Year Ended December 31, 2011

1. Plan Description (continued)

Payments of Benefits – On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts – Forfeitures of non-vested Company contributions will be allocated as additional discretionary contributions. For the year ended December 31, 2011 \$10,462 was forfeited by terminated employees. As of December 31, 2011, forfeited non-vested accounts totaled \$18,341 that have not been allocated as additional discretionary contributions.

Administrative Expenses - All expenses incurred in the administration of the Plan are paid directly by the Company.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The investments in all funds, except the GIC Fund, are presented at fair value, based on the quoted market prices of the underlying securities within each fund at December 31, 2011. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The GIC Fund is fully benefit-responsive and is reported at fair value and adjusted to contract value. Contract value represents the accumulated contributions plus accrued net earnings, less distributions. Fair value of the investments in the GIC Fund is estimated using the discounted cash flows.

Adaptive Methods 401(K) Plan
Notes to Financial Statements
For the Year Ended December 31, 2011

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount the participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan documents.

Subsequent Events

For the year ended December 31, 2011, the Plan has evaluated subsequent events for potential recognition and disclosure through July 30, 2012, the date the financial statements were available to be issued.

3. Fair Value Measurements

FASB Codification Standard, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the FASB Codification Standard are described as follows:

- Level 1 - inputs to the valuation methodology are unadjusted quoted prices for identical asset or liabilities in active markets that the Plan has the ability to access.

Adaptive Methods 401(K) Plan
Notes to Financial Statements
For the Year Ended December 31, 2011

3. Fair Value Measurements (continued)

- Level 2 - inputs to the valuation methodology include (1) quoted prices for similar assets or liabilities in active markets, (2) quoted prices for identical or similar assets or liabilities in inactive markets, and (3) inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 - inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Participant loans: Values at amortized cost, which approximates fair value.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants. The use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements
For the Year Ended December 31, 2011

3. Fair Value Measurements (continued)

At December 31, 2011 and 2010, the Plan's investments were held by the trustee. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the Trustee as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The fair value of investments at December 31, 2011 and 2010, as reported by the trustee is summarized as follows:

		UNAUDITED

4. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% invested in their accounts.

5. Investment Contract with Insurance Company

The Plan has a fully benefit-responsive investment contract with Prudential Retirement and Annuity Company (Prudential). Prudential maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value and then adjusted to contract value as reported to the Plan by Prudential. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Prudential is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 1.5%. Such interest rates are reviewed on a semi-annual basis for resetting. The crediting rate of the contract will track current market yields on a trailing basis.

Average Yields are as follows:	<u>2011</u>	<u>2010</u>
Average earnings yield (1)	2.25%	2.5%
Based on interest rate credited to participants (2)	2.25%	2.5%

(1) Calculated by dividing the earnings credited to the plan on the last day of the plan year by the end of plan year fair value and then annualizing the results.

(2) Calculated by dividing the earnings credited to the participants on the last day of the plan year by the end of plan year fair value and then annualizing the results.

Adaptive Methods 401(K) Plan
Notes to Financial Statements
For the Year Ended December 31, 2011

6. Tax Status

The Internal Revenue Service has determined and informed the Company by letter that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

7. Fidelity Bond

The provisions of ERISA require every person who handles funds of an employee benefit plan to be bonded. Such bond is to be equal to the lesser of 10% of the funds handled at the beginning of the year, or \$500,000. The plan had a bond in affect during the year ended December 31, 2011 in the amount of \$500,000 that meets the requirement.

8. Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2011 and 2010 to Schedule H of Form 5500:

	December 31,

For the Year Ended December 31, 2011

8. Reconciliation to Form 5500 (continued)

The following is a reconciliation of contributions per the financial statements for the year ended December 31, 2011 to Schedule H of Form 5500:

Participant contributions per financial statements	\$ 1,013,172
Participant contributions withheld in 2010, paid in 2011	<u>18,756</u>
Participant contributions per Schedule H of Form 5500	<u>\$ 1,031,928</u>
Employer Contributions per financial statements	\$ 645,969
Employer contributions withheld in 2011, paid in 2012	(441,466)
Employer contributions withheld in 2010, paid in 2011	<u>707,513</u>
Employer contributions per Schedule H of Form 5500	<u>\$ 912,016</u>

9. Risks and Uncertainties

The Plan invests in various investment funds. Investments in general are exposed for various risks, such as interest rate, credit and overall volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Adaptive Methods 401(K) Plan

We were engaged to audit the statements of net assets available for benefits of Adaptive Methods 401(K) Plan as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Prudential Bank and Trust, F.S.B., the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of and for the years ended December 31, 2011 and 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not as required part of the financial statements, but are required by Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Plan Description

The following description of Adaptive Methods (Company) 401(K) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all employees (except interns) who are 21 years of age or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Each year, participants may elect to defer a percentage of their compensation, subject to IRS limitations, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers 28 mutual funds and an insurance investment contract as investment options for participants. The Company matches 100% of participant deferrals that do not exceed 3% of base compensation, plus 50% of salary deferrals between 3% and 5% of base compensation. Additional profit sharing amounts may be contributed at the option of the Company's Board of Directors. The profit sharing percentage for the year ended December 31, 2011 was 3.5% for the period January 1 – September 30, 2011 and then 3% for the period October 1 – December 31, 2011.

Participant Accounts – Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after one year of credited service, or are employed on or after normal retirement age, or terminate employment on account of death or permanent disability.

Notes Receivable from Participants – Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at a rate of 5.25%, which is commensurate with the bank prime rate reported by the U.S. Federal Reserve plus 2% at the time the loan is taken. Principal and interest is paid ratably through biweekly payroll deductions.

1. Plan Description (continued)

Payments of Benefits – On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts – Forfeitures of non-vested Company contributions will be allocated as additional discretionary contributions. For the year ended December 31, 2011 \$10,462 was forfeited by terminated employees. As of December 31, 2011, forfeited non-vested accounts totaled \$18,341 that have not been allocated as additional discretionary contributions.

Administrative Expenses - All expenses incurred in the administration of the Plan are paid directly by the Company.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The investments in all funds, except the GIC Fund, are presented at fair value, based on the quoted market prices of the underlying securities within each fund at December 31, 2011. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The GIC Fund is fully benefit-responsive and is reported at fair value and adjusted to contract value. Contract value represents the accumulated contributions plus accrued net earnings, less distributions. Fair value of the investments in the GIC Fund is estimated using the discounted cash flows.

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount the participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan documents.

Subsequent Events

For the year ended December 31, 2011, the Plan has evaluated subsequent events for potential recognition and disclosure through July 30, 2012, the date the financial statements were available to be issued.

3. Fair Value Measurements

FASB Codification Standard, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the FASB Codification Standard are described as follows:

- Level 1 - inputs to the valuation methodology are unadjusted quoted prices for identical asset or liabilities in active markets that the Plan has the ability to access.

For the Year Ended December 31, 2011

3. Fair Value Measurements (continued)

- Level 2 - inputs to the valuation methodology include (1) quoted prices for similar assets or liabilities in active markets, (2) quoted prices for identical or similar assets or liabilities in inactive markets, and (3) inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 - inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants. The use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. Fair Value Measurements (continued)

At December 31, 2011 and 2010, the Plan's investments were held by the trustee. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the Trustee as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The fair value of investments at December 31, 2011 and 2010, as reported by the trustee is summarized as follows:

4. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% invested in their accounts.

5. Investment Contract with Insurance Company

The Plan has a fully benefit-responsive investment contract with Prudential Retirement and Annuity Company (Prudential). Prudential maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value and then adjusted to contract value as reported to the Plan by Prudential. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Prudential is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 1.5%. Such interest rates are reviewed on a semi-annual basis for resetting. The crediting rate of the contract will track current market yields on a trailing basis.

Average Yields are as follows:	<u>2011</u>	<u>2010</u>
Average earnings yield (1)	2.25%	2.5%
Based on interest rate credited to participants (2)	2.25%	2.5%

(1) Calculated by dividing the earnings credited to the plan on the last day of the plan year by the end of plan year fair value and then annualizing the results.

(2) Calculated by dividing the earnings credited to the participants on the last day of the plan year by the end of plan year fair value and then annualizing the results.

6. Tax Status

The Internal Revenue Service has determined and informed the Company by letter that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

7. Fidelity Bond

The provisions of ERISA require every person who handles funds of an employee benefit plan to be bonded. Such bond is to be equal to the lesser of 10% of the funds handled at the beginning of the year, or \$500,000. The plan had a bond in affect during the year ended December 31, 2011 in the amount of \$500,000 that meets the requirement.

8. Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2011 and 2010 to Schedule H of Form 5500:

	December 31,

Employer contributions withheld in 2010, paid in 2011	<u>707,513</u>
Employer contributions per Schedule H of Form 5500	<u>\$ 912,016</u>

9. Risks and Uncertainties

The Plan invests in various investment funds. Investments in general are exposed for various risks, such as interest rate, credit and overall volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.
