McCombs Automotive Group Employee Capital Accumulation Plan

Notes to Financial Statements

December 31, 2011 and 2010

Note 1: Description of the Plan

The following description of McCombs Automotive Group Employee Capital Accumulation Plan (Plan) provides only general information. Participants should refer to the Plan document and Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan sponsored by McCombs HFC, Ltd. (Company) for the benefit of employees of McCombs Automotive Group who have at least one year of service and have worked at least 1,000 hours during the year. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Retirement Horizons is the trustee of the Plan and TD Ameritrade Trust Company (TD Ameritrade) serves as Plan custodian.

Contributions

The Plan permits eligible employees through a salary deferral election to make annual contributions of up to 30% of eligible compensation. Employee rollover contributions are also permitted. The Company makes matching contributions of up to $2,500 per participant based on years of employee participation in the Plan. Participants must have worked at least 1,000 hours and be employed on the last day of the Plan year in order to share in this contribution. Additional discretionary amounts may be contributed at the option of the Company's board of directors. Forfeitures are used to reduce Company matching contributions.

Participant Investment Account Options

Investment account options available include various mutual funds. Each participant has the option of directing his contributions into any of the separate investment accounts and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefits to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon. Vesting in the Company's contribution portion of their accounts plus earnings thereon is based on years of credited service. A participant is fully vested after five years of credited service. The non-vested balance is forfeited upon termination of service. Forfeitures are used to reduce Company contributions.

Payment of Benefits

Upon termination of service, an employee may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Any balance under $1,000 is automatically paid as soon as administratively possible. Hardship withdrawals are also available subject to certain limitations.

Forfeited Accounts

At December 31, 2011 and 2010, forfeited non-vested accounts totaled $11,760 and $16,966, respectively. These accounts will be used to reduce future employer contributions. Forfeitures in the amount of $11,760 were used during 2011 to reduce employer contributions.

Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

McCombs Automotive Group Employee Capital Accumulation Plan

Notes to Financial Statements

December 31, 2011 and 2010

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Shares of registered investment companies are reported at fair value based on the quoted market price which represents the net asset value of the shares held by the fund at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Plan Tax Status

The Plan obtained its latest determination letter on September 13, 2002, in which the Internal Revenue Service (IRS) stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code (IRC) and, therefore, not subject to tax. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC.

The Plan is no longer subject to U.S. federal, state and local income tax examinations by tax authorities for years before 2008.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Plan unless paid by the Plan's sponsor as provided by the Plan document.

Note 3: Information Certified by the Custodian

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA. Accordingly, the custodian has certified the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments as shown in the statements of net assets available for benefits and related disclosures as of December 31, 2011 and 2010
- Investment income shown in the statement of changes in net assets available for benefits for the year ended December 31, 2011
- Investment information included in the accompanying schedule of assets (held at end of year) as of December 31, 2011

The Plan's independent auditors did not perform procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4: Investments

The fair value of individual investments that represented 5% or more of the Plan's net assets available for benefits were as follows:

	2011	2010
American Balanced Fund, Inc.	$ 1,372,943	$ 1,079,879
American Mutual Fund	$ 1,130,815	$ 973,359
TD Bank Instl MMDA FTCIMA	$ 2,415,602	$ 2,599,732
Bond Fund of America	$ 1,595,668	$ 1,395,793
Washington Mutual Investors Fund	$ 6,613,960	$ 5,991,500
American New Perspective Fund	$ 4,010,374	$ 4,396,643

During 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $59,510.

Note 5: Party-in-interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association or relatives of such persons.

The Plan invests in certain funds of the Plan custodian, TD Ameritrade. The Company provides certain administrative services at no cost to the Plan.

Note 6: Fair Value of Plan Assets and Liabilities

ASC Topic 820, *Fair Value Measurements*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Topic 820 also specifies a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full-term of the assets or liabilities

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy.

McCombs Automotive Group Employee Capital Accumulation Plan

Notes to Financial Statements

December 31, 2011 and 2010

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include mutual funds representing registered investment funds which are valued at net asset value (NAV) of shares held by the Plan at year-end. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows (Level 2). There are no Level 2 securities held by the Plan. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. There are no Level 3 securities held by the Plan.

The following tables present the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2011 and 2010:

Note 7: Significant Estimates and Concentrations

Current Economic Conditions

The current protracted economic decline continues to present employee benefit plans with difficult circumstances and challenges, which in some cases have resulted in large and unanticipated declines in the fair value of investments. The financial statements have been prepared using values and information currently available to the Plan.

Given the volatility of current economic conditions, the values of assets recorded in the financial statements could change rapidly, resulting in material future adjustments in investment values that could negatively impact the Plan.

Notes to Financial Statements

December 31, 2011 and 2010

Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9: Subsequent Events

Subsequent events have been evaluated through September 27, 2012, which is the date the financial statements were available to be issued.
