DONLEY'S, INC.
EMPLOYEES' SAVINGS AND PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the Donley's, Inc. Employees' Savings and Profit Sharing Plan (the Plan) is provided for general information purposes. Participants should refer to the plan document for more complete information.

The plan sponsor is Donley's, Inc. (the "Company"). Other related employers who have adopted the provisions of the Plan are Donley Restoration Group, LLC, Donley's, LLC and Blair Concrete Services, LLC. The Plan is a defined contribution plan covering all eligible hourly and salaried employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Orchard Trust Company is the trustee of the Plan. The assets of the Plan are maintained, and transactions therein are executed, by Great-West Life and Annuity Insurance Company, the Plan's custodian.

Participation
Any employee not part of an excluded group is eligible to participate in the Plan on the first day of the quarter following the completion of one hour of service. Excluded groups include employees subject to a collective bargaining agreement, leased employees, and co-op employees or interns.

Participant Accounts and Contributions
Each participant's account is credited with the participant's contribution, the Company's discretionary matching and profit sharing contributions, net investment income earned on the account balances and forfeitures of terminated participants' non-vested account balances, as applicable. Plan participants may contribute 1% to 100% of gross compensation up to the maximum amount allowed, which will not cause the Plan to violate any of its provisions or any limits imposed by the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

The Company matched 100% of each participant's elective deferral up to a maximum of 3% of eligible compensation during 2011 and 2010, respectively. Participants who are employed as of the end of the Plan year are also eligible for a non-elective, discretionary profit sharing contribution. Profit sharing contributions made in 2011 and 2010 were $0 and $104,432, respectively.

Rollover Contributions
Distributions from another qualified plan may be transferred into the Plan.

Investment Options
Participants may direct the manner in which their contributions are to be allocated among the investment options available under the Plan. The Company contributions are allocated based upon the participant investment elections.

Plan Expenses
Significant expenses of maintaining the Plan are paid by the Company.

Vesting
Prior to January 1, 2010, participants were immediately vested in their voluntary contributions and all Company contributions. Effective January 1, 2010, a participant will become 100% vested in the employer matching and profit sharing contributions after three years of service.

Forfeitures
Amounts that are forfeited due to a participant's termination of employment prior to vesting in Company contributions made on the participant's behalf are used to reduce Company contributions or pay reasonable plan expenses. At December 31, 2011 and 2010, forfeited non-vested accounts totaled approximately $12,000 and $4,400, respectively. Forfeitures of approximately $4,400 were used to pay plan expenses in 2011. No forfeitures were used during 2010.

Notes Receivable from Participants
Participants may borrow from their accounts a minimum of $1,000 up to a maximum of the lesser of $50,000 or 50% of their account balance. Loan terms range from 1 to 5 years or may exceed 5 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the current prime rate at the time of issuance. The interest rates on loans outstanding at December 31, 2011 ranged from 3.25% to 5.00%.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Benefit Payments
Upon termination of service, a participant's vested balance is distributed in accordance with the provisions of the Plan.

Plan Termination
Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all amounts credited to participant accounts shall become fully vested.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Financial Statements
The financial statements are prepared on the accrual basis of accounting.

Investment Income Recognition
Gains and losses on sales of securities are based on the actual cost of securities. Dividend income is recorded on the ex-dividend date. Interest from other investments is recorded as earned.

Fully Benefit-Responsive Investment Contract
As described in Accounting Standard Codification (ASC) 962, *Defined Contribution Pension Plans*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Key Guaranteed Portfolio Fund is a fully benefit-responsive fixed annuity contract. Using the discounted cash flow methodology, the fair value of the investment contract equals the contract value.

Plan Benefits and Expenses
Benefits and expenses are recorded when paid.

Use of Estimates
The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. INVESTMENTS

All Plan investments are participant-directed. The following table presents investments that represent 5 percent or more of the Plan's net assets as of December 31, 2011 and/or 2010:

	2011	2010
American Funds EuroPacific Growth - R3	$ 828,722	$ 1,096,198
Fidelity Advisor Small Cap T	797,899	849,601
Oppenheimer Small & Mid Cap Value A	451,712	701,649
Pioneer Cullen Value Fund A	789,230	905,046
PIMCO Total Return Admin	596,124	771,616
Maxim Moderate Profile II	670,180	495,100
American Funds Growth Fund of America R3	902,711	968,191
PIMCO Real Return Admin	558,373	564,893
Key Guaranteed Portfolio Fund	1,377,140	1,109,447

The net investment change in fair value during 2011 and 2010 reflects the gains and losses on investments bought and sold, as well as held during the year, and represents the net appreciation (depreciation) in the various mutual fund investments.

The plan administrator has obtained certification from the custodian that the above information, amounts reported as interest and dividends on the accompanying statements of changes in net assets available for benefits and the data included in the accompanying supplemental schedule of assets held, is complete and accurate. Certain plan investments are units of funds managed by Great-West Life and Annuity Insurance Company, the custodian, as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

4. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual Funds: Valued at the net asset value of shares held by the Plan at year end.

Fixed Annuity: Valued daily using the valuation method disclosed in the annuity contract as calculated by the provider.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

	Level 1	Level 2	Level 3	Total
December 31, 2011:				
Mutual Funds	$ 9,968,514	$ -	$ -	$ 9,968,514
Fixed Annuity	-	1,377,140	-	1,377,140
	$ 9,968,514	$ 1,377,140	$ -	$ 11,345,654
December 31, 2010:				
Mutual Funds	$ 9,803,217	$ -	$ -	$ 9,803,217
Fixed Annuity	-	1,109,447	-	1,109,447
	$ 9,803,217	$ 1,109,447	$ -	$ 10,912,664

5. INVESTMENT IN FIXED ANNUITY CONTRACT

The Plan invests in a benefit-responsive fixed annuity contract with Great-West Life & Annuity Insurance Company. The Fund deposits a lump sum with the issuer and receives a guaranteed interest rate for a specific period of time. Interest is accrued on either a simple interest or fully compounded basis and paid either periodically or at the end of the contract term. The issuer guarantees that all qualified participant withdrawals will occur at contract value. As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Great-West Life & Annuity Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The contract has certain termination provisions, which could limit the ability of the Plan to transact at contract value. The Plan administrator does not believe that the occurrence of any such value event is probable.

The crediting interest rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. Such interest rates are reset quarterly. The average yield based on actual earnings was 2.03% and 2.49% for 2011 and 2010, respectively.

6. INCOME TAX STATUS

On March 16, 2010, the Internal Revenue Service (IRS) stated that the volume submitter profit sharing adopted by the Plan, as designed, was in compliance with the applicable requirements of the IRC. The Plan has not received a determination letter specific to the Plan itself; however, the plan administrator believes that the Plan was designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

7. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

In order for the Plan to satisfy the non-discrimination tests required under section 401(k) of the IRC, certain participants were entitled to refunds of contributions made and earnings on those contributions totaling $37,944 and $26,392 at December 31, 2011 and 2010, respectively. These refunds have been recorded as a liability in the accompanying financial statements, but are reflected on the Form 5500 when paid.

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	2011	2010
Net assets available for benefits per the financial statements	$ 11,541,149	$ 11,201,949
Refunds due of participant contributions	37,944	26,392
Net assets available for benefits per the Form 5500	$ 11,579,093	$ 11,228,341

The following is a reconciliation of benefit payments per the financial statements to the Form 5500:

	2011
Benefit payments per the financial statements	$ 516,403
Change in refunds due of participant contributions	(11,552)
Benefit payments per the Form 5500	$ 504,851

8. SUBSEQUENT EVENTS

Plan management evaluated subsequent events through September 10, 2012, the date which the financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.
