INDEPENDENT AUDITOR'S REPORT

Plan Administrator
William Warren Properties
Savings Plan

I was engaged to audit the financial statements and supplemental schedule of the William Warren Properties Savings Plan as of December 31, 2011 and 2010, and for the year ended December 31, 2011, as listed in the accompanying table of contents. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed me not to perform, and I did not perform any auditing procedures with respect to the information summarized in Note 6, which was certified by Transamerica Life Insurance Company (Transamerica), except for comparing the information with the related information included in the financial statements and supplemental schedule. I have been informed by the plan administrator that Transamerica holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from Transamerica as of and for the years ended December 31, 2011 and 2010, that the information provided to the plan administrator by Transamerica is complete and accurate.

Because of the significance of the information that I did not audit, I am unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by Transamerica, has been audited by me in accordance with auditing standards generally accepted in the United States of America and, in my opinion, is presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

WILLIAM WARREN PROPERTIES SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2011 AND 2010

NOTE 1 - DESCRIPTION OF PLAN

The following description of the William Warren Properties (the Company) Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees of the Company who are at least 21 years of age and have completed 6 months of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan excludes non-resident aliens and union employees from participation in the Plan.

Contributions

Each year, participants may contribute a maximum dollar amount as determined by the Federal Government. For 2011 and 2010, the maximum dollar amount was \$16,500. Participants who have attained age 50 prior to the close of a Plan year are also eligible to make a catch-up contribution. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Currently, the Plan offers a number of investment options within pooled-separate accounts and an investment contract managed by Transamerica Life Insurance Company. The Company contributes a "safe harbor" matching contribution of 100% of the first 3% of compensation and 50% of the next 2% of compensation that a participant contributes to the Plan. The Company matching contribution is invested in the investments as directed by the participants for their pre-tax deferrals. Additional amounts may be contributed at the option of the Company's board of directors. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of Company contributions and Plan earnings or losses. Allocations are based on participant earnings or account balances, as defined. The benefits to which a participant is entitled to, is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary and safe-harbor contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is generally 100% vested after four years of credited service.

Participant Notes Receivable

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Note Fund. Loan terms range from one to five years or up to a reasonable period of time for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at prime plus one percent. Principal and interest are paid ratably through regular payroll deductions.

Payment of Benefits

If a participant's employment ceases as a result of normal retirement, death or disability, the participant or the participant's beneficiaries, are entitled to receive the entire contents of the account. If a participant terminates for any other reason, the participant is entitled to receive only the vested percentage of the account. Participants will receive benefits in a single lump sum or by partial withdrawals.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting policies generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts which approximates contract value.

Recent Accounting Pronouncements

In May 2011, the FASB issued Accounting Standards Update 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04). ASU 2011-04 amended ASC 820; *Fair Value Measurements and Disclosures* to converge the fair value measurement guidance in US generally accepted

accounting principles (GAAP) and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures [although certain of these new disclosures will not be required for nonpublic entities]. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

In January 2010, the FASB issued ASU 2010-06, *Improving Disclosures about Fair Value Measurements*, ("ASU 2010-06"). ASU 2010-06 amended Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures* ("ASC 820") to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2 and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, the guidance in ASU 2010-06 is effective for reporting periods beginning after December 15, 2009. Since ASU 2010-06 only affects fair value measurement disclosures, adoption of ASU 2010-06 did not affect the Plan's net assets available for benefits or its changes in net assets available for benefits.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements and methodologies.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The costs of administering the Plan are paid for by the Plan.

Subsequent Events

The Plan has evaluated subsequent events through August 9, 2012, the date the financial statements were available to be issued.

NOTE 3 - INVESTMENTS

The following presents investments that represent 5 percent or more of the Plan's net assets at December 31:

	<u>2011</u>	<u>2010</u>
American Funds Growth Fund of America Investment Option	\$ 55,049	\$ 53,340
BlackRock Dividend Investment Option	42,277	-
Fidelity Advisor New Insights Stock Investment Option	59,259	-

Vanguard Target Retirement 2030 Retirement Option	49,787	44,186
Vanguard Target Retirement 2035 Retirement Option	77,071	63,893
Vanguard Target Retirement 2040 Retirement Option	-	43,358

During 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by \$46,811.

NOTE 4 – FUNDS HELD IN INSURANCE COMPANY GENERAL ACCOUNT

The Plan has a group annuity contract with Transamerica (the "Stable Value Advantage"). The Transamerica Stable Value Advantage is fully benefit-responsive. Transamerica maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value and then adjusted to contract value as reported to the Plan by Transamerica. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The contract has certain restrictions that impact the ability to collect the full contract value. Plan management

believes that the occurrence of events that would cause the Plan to transact at less than contract value is not probable. Transamerica may not terminate the contract at any amount less than contract value. Transamerica is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a monthly basis for resetting. The average annual return for the Stable Value Advantage was 2.45% and 2.73% for 2011 and 2010, respectively. There are no valuation reserves against contract value for the credit risk of the contract issuer or otherwise.

NOTE 5 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Pooled-Separate Accounts

These investments are made by the Plan in a group annuity contract which is invested in units of separate pooled accounts consisting of shares in mutual funds and funds of funds. The unit value is based on the value of the underlying assets owned by the account, minus its liabilities, and then divided by the number of units outstanding. The unit value is classified within level 2 of the valuation hierarchy because the unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

The pooled-separate accounts do not have any unfunded commitments relating to its investments, or any significant restrictions on redemptions. Participant-directed redemptions can be made on any business day and do not have a redemption notice period.

Stable Value Advantage

These investments are made by the Plan in a group annuity contract which is invested in the general assets of Transamerica Life Insurance Company who guarantees a monthly fixed interest rate. Due to the frequency of interest rate changes, fair value is assumed to be contract value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2011 and 2010:

	December 31, 2011

NOTE 6 - INFORMATION CERTIFIED BY TRANSAMERICA (UNAUDITED)

The following is a summary of the unaudited information regarding the Plan, included in the Plan's financial statements and supplemental schedule that was prepared by Transamerica Life Insurance Company and furnished to the plan administrator. The plan administrator has obtained certifications from Transamerica Life Insurance Company that such information is complete and accurate:

The value of investments as indicated in the statements of net assets available for benefits and notes to financial statements.

All information indicated in the statement of changes in net assets available for benefits, with the exception of contributions, benefits paid to participants and administrative expense.

All information indicated in the supplemental schedule.

NOTE 7 - EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Parties in interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others.

Certain plan investments are pooled separate and stable value accounts managed by Transamerica. Transamerica is the recordkeeper and custodian as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions.

NOTE 8 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 9 - TAX STATUS

The Plan is qualified under the provisions of the Internal Revenue Code (IRC) and is not subject to Federal and state income taxes. Participating employees are not subject to Federal and state income taxes on employee and employer contributions, or on income accruing to their accounts, until they receive distributions from the Plan.

The Plan was amended and restated effective January 1, 2009 and is relying on an opinion letter issued on May 30, 2008 in which the Internal Revenue Service stated that the Non-Standardized 401(k) Profit Sharing Plan, as then designed was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2011 there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2008.

NOTE 10 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
