Report of Independent Auditors

To the Plan Administrator of the
Technip USA, Inc. 401(k) Profit Sharing Plan

We were engaged to audit the financial statements and supplemental schedule of the Technip USA, Inc. 401(k) Profit Sharing Plan as of December 31, 2011 and 2010 and for the year ended December 31, 2011, as listed in the accompanying table of contents. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for the comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2011 and 2010 and for the year ended December 31, 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Technip USA, Inc. 401(k) Profit Sharing

Notes to Financial Statements

December 31, 2011

1. Description of Plan

The following description of the Technip USA, Inc. 401(k) Profit Sharing Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the *Summary Plan Description* and the Plan Agreement for more complete information.

General

The Plan is a contributory defined contribution plan covering eligible employees of Technip USA, Inc., and certain participating employers (collectively, the “Company”). Employees become eligible to participate on the first day of the first month following commencement of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Administration

The Administrative Committee is given all powers necessary to enable it to carry out its duties including, but not limited to, the power to interpret the Plan, decide on all questions of eligibility and the status and rights of participants, and to direct disbursements of benefits in accordance with the provisions of the Plan.

A trust has been established to hold and invest the contributions made by participants and the Company under the Plan. The trust is also used to accumulate the related earnings on those contributions and to pay related Plan benefits. Fidelity Management Trust Company (the “Trustee”) manages the trust and Fidelity Investments Institutional Operations Company, Inc. performs record keeping services within the trust for the related accounts of individual participants.

Contributions

Participants may contribute up to 60% of eligible compensation on a pretax basis subject to certain Internal Revenue Service (“IRS”) limitations. Participants may also contribute a percentage of eligible compensation on an after-tax basis, subject to certain limits prescribed by law. The Internal Revenue Code limits an employee’s contribution for 2011 to a maximum of \$16,500 if under the age of 50 and up to a maximum of \$22,000 otherwise. The Plan was amended effective July 2, 2010 to provide for the auto-enrollment of new employees, with contributions of 3% of pay, increasing by 1% annually thereafter, unless the participant elects to opt-out of the automatic contributions.

The Company may make a discretionary matching and/or profit-sharing contribution to the Plan. During 2011 and 2010, the Company made matching contributions each pay period based on 100% of participant pretax contributions, up to the first 3% of eligible pay contributed by a participant, and 50% of the next 3% of eligible pay contributed by a participant. The profit-sharing contribution, if any, is determined annually by the board of directors and is allocated to each participant's account by using a ratio of that participant's compensation to the compensation of all participants. No profit-sharing contributions were made to the Plan for the years ended December 31, 2011 or 2010.

Participants may allocate the investment of all contributions among the Plan's investment options at their discretion and may change their allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, if any, and (b) plan earnings and expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their participant contributions plus actual earnings thereon. All participants in the Plan prior to January 1, 2006 and the participants of the Technip USA Corporation Plan that were merged into the Plan are 100% vested in employer contributions. Participants joining the Plan subsequent to 2005 vest in employer contributions at a rate of 20% per year of service, becoming fully vested after five years. Forfeitures may be used to reduce employer contributions or to pay administrative expenses of the Plan. During 2011, the Plan used \$193,907 of forfeitures to offset employer contributions and \$46,538 to pay Plan administrative expenses. At December 31, 2011, the Plan had approximately \$25,230 of forfeitures available for future use.

Benefit Withdrawals

At retirement (on or after age 59½), termination of employment, death, or disability, participants may elect to withdraw any part of their accounts. Benefits may be paid as a lump sum. Prior to termination of employment, participants may elect to withdraw all or a portion of their after-tax contributions. Withdrawals of pretax contributions prior to termination are also allowed in the event of undue financial hardship or after the attainment of age 59½. Non-rollover pretax withdrawals prior to age 59 ½ may be subject to additional federal excise taxes.

Notes receivable from participants

Participants may borrow from their accounts up to the lesser of \$50,000 less the participant's highest outstanding loan balance during the preceding 12 months or 50% of

their vested account balance. Loan terms range from one to five years or up to ten years for the purchase of a primary residence. The loans are secured by the balance in the participant's account. The interest rate is set by the plan administrator and is based on the prime lending rate at the time of the loan. At December 31, 2011 the interest rates for participant loans ranged from 4.25% to 8.25% with maturities through 2021. Principal and interest are paid ratably through payroll deductions. Loans not repaid on a timely basis at termination of employment with the Company may be treated as a deemed distribution to the participant.

Administrative Expenses

The Company pays certain administrative expenses of the Plan, and certain administrative expenses of the Plan are paid using Plan forfeitures. Participants may incur origination, loan maintenance and document delivery expenses in connection with loans received from the Plan or other transactions, and these expenses are charged directly to the requesting participant's account.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants would become fully vested in their accounts.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

The Plan Administrators have reviewed and evaluated events subsequent to December 31, 2011 through October 1, 2012, the date the financial statements were available to be issued, for their impact on amounts recorded, and related disclosures, in these financial statements, and incorporated the related effects as appropriate.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and schedules. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value as proscribed by Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820-10. Fair value is

the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for further discussion of fair value measurements.

As described in FASB ASC 962, “Reporting of Investment Contracts Held by Health and Welfare Benefit Plans and Defined Contribution Pension Plans” (“ASC 962”), fully benefit responsive investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate a permitted transaction under the terms of the Plan. The Plan offers one investment option that meets the definition of a fully benefit responsive investment contract under ASC 962 (the Fidelity Managed Income Fund). The Plan has presented that investment (held in a common collective trust) at fair value and has disclosed the difference between contract value and fair value for that investment at December 31, 2011 and 2010 in the statement of net assets available for benefits.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded under the accrual method. Dividends are recorded on the ex-dividend date.

The net appreciation or depreciation in the fair value of the investments as presented by the Plan in the statement of changes in net assets available for plan benefits consists of the realized gains or losses and the net unrealized appreciation or depreciation of the investments held. Contract value is used in this computation for the fully benefit responsive investment contract. Investment advisory fees are incurred by plan participants indirectly as such fees serve to reduce the carrying value of investments (and therefore are a component of net appreciation in the fair value of investments).

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid interest. Delinquent loans are treated as distributions based on the terms of the plan document. Related interest income is recognized under the accrual method.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Risks and Uncertainties

The Plan provides for investments in various investment securities that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for plan benefits and participant account balances.

3. Data Certified by the Trustee (unaudited)

All investment information disclosed in the accompanying financial statements and schedule, including investments held at December 31, 2011 (excluding participant loans), and net appreciation in fair value of mutual funds and investment income for the year ended December 31, 2011 (excluding interest income on participant loans of \$92,409) was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee of the Plan. The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such amounts to the statements and supplemental schedule.

Individual investments that represent 5% or more of the Plan's net assets at either of the below dates are as follows:

	December 31	
	2011	2010
Fidelity Contrafund K	\$23,055,782	\$24,655,201
Fidelity Retirement Government Money Market Portfolio	14,029,192	12,830,700
Fidelity Diversified International Fund K	10,695,950	12,505,794
Fidelity Managed Income Portfolio	10,612,438	8,666,424
PIMCO Total Return Fund K	16,145,533	13,789,024
Baron Growth Fund	10,906,591	9,756,837
Fidelity OTC Portfolio Fund K	9,783,958	8,804,491

The Plan's investment in the Fidelity Managed Income Portfolio is a fully benefit responsive investment contract accounted for under FASB ASC 962, and that investment has a contract value spot yield rate credited to participants of 1.39% and 1.44% at December 31, 2011 and 2010, respectively, and a market value spot yield representing the underlying investment return of 1.92% and 2.68% at December 31, 2011 and 2010, respectively. Contract rates are generally set monthly by the fund manager, generally at the discount rate that would equate the estimated future market value of the fund's portfolio to the contract value. Fair value has been determined by an affiliate of the Trustee based upon the contractual terms of the underlying guaranteed investment contracts and the related expected cash flows and creditworthiness of the contract issuers. The crediting rate and the fair value for the fund will be impacted by many factors, including market interest rates, and fund purchases and redemptions by unitholders in the Portfolio. Certain actions taken by the Plan Sponsor, such as offering directly competing similar investments, failing to continue the operation of the Plan under existing

regulations, or other actions that would have a material adverse effect on the portfolio's cash flow, could limit the ability of participants to make withdrawals at contract value for up to twelve months. The Plan has no current intentions to take actions that would limit the ability of participants to transact at contract value. The ability to transact at contract value is in part attributable to the fund manager having purchased a wrap contract for the portfolio, which provides a level of insurance that would cover the difference between fair market value and contract value. The issuer of wrap contracts may cancel the contracts with some limitations. There are a limited number of entities that provide wrap contracts and their viability could have an impact on this investment and similar investments in the future.

All plan net appreciation in fair value reported in the financial statements relate to mutual fund investments.

Fair Value Measurements

FASB ASC 820-10, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described below:

- | | |
|---------|--|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | <p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. |

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- | | |
|---------|---|
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |
|---------|---|

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Money market funds: Valued at fair value based upon the monetary value of contributions into the fund.

Common collective trusts: Valued by the trust manager at fair value using the income approach by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

Assets at Fair Value as of December 31, 2011

	Level 1	Level 2	Level 3	Total

Total assets at fair value	\$148,809,589	\$8,666,424		\$157,476,013

There were no Level 3 assets held by the Plan during 2011 and 2010. There were no changes in classifications between levels in 2011 and 2010.

4. Income Tax Status

The underlying nonstandardized prototype plan has received a determination letter from the IRS dated October 9, 2003, stating that the form of the Plan is qualified under Section 401(a) of the Internal Revenue Code (the “Code”) and therefore, the related trust is tax exempt. In accordance with Revenue Procedure 2002-6 and Announcement 2001-77, the Company has determined that it is eligible to and has chosen to rely on the current IRS prototype plan determination letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan has been amended since it was adopted. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2011 there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

5. Parties in Interest

The Trustee (and its affiliates), participants in the Plan and the Company are parties-in-interest as defined in Section 406 of ERISA.

Certain Plan investments are in shares of mutual funds, common collective trust funds and money market funds managed by affiliates of the Trustee. During the period of time that the Trustee has served the Plan, transactions with them qualify as party-in-interest transactions. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

Loans to participants are party-in-interest transactions, and are exempt from the prohibition of party-in-interest transactions by ERISA.

The Company provides certain administrative services for and to the Plan with no reimbursement.
