Report of Independent Auditors

To the Participants and Plan Administrator
of the Windsong Radiology Group, P.C. 401(k) Pension Plan

We were engaged to audit the financial statements of the Windsong Radiology Group, P.C. 401(k) Pension Plan (the "Plan") as of December 31, 2011 and 2010 and for the year ended December 31, 2011, and the supplemental schedules as of and for the year ended December 31, 2011, as listed in the accompanying table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Principal Life Insurance Company, the asset custodian, except for comparing such information with the related information included in the financial statements and supplemental schedule of assets (held at end of year). We have been informed by the plan administrator that the asset custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the asset custodian as of and for the years ended December 31, 2011 and 2010 that the information provided to the plan administrator by the asset custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The supplemental schedules are presented for the purpose of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the asset custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

401(k) Pension Plan
Notes to Financial Statements
December 31, 2011 and 2010

1. Description of the Plan

The following brief description of the Windsong Radiology Group, P.C. 401(k) Pension Plan (the "Plan") is provided for general information purposes only. For more complete information, participants should refer to the plan agreement.

General – The Plan was established effective October 20, 1986 and is sponsored by Windsong Radiology Group, P.C. (the "Company"). The Plan is a contributory defined contribution plan and covers substantially all employees of the Company. Employees become eligible to participate in the Plan on the first day of the quarter following the completion of one year of service and attainment of 21 years of age. Employees actively employed on the last day of the plan year are eligible to participate in discretionary employer contributions if they complete 1,000 hours of service during the respective plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions – Contributions to the Plan are made by the participants through pre-tax and after-tax salary reduction contributions, and by the Company through employer matching contributions and discretionary employer contributions. Participants may elect to contribute a specific percentage of their compensation between 1% and 100%, subject to certain limitations under Sections 401(k) and 415 of the Internal Revenue Code. Participants who are age 50 and over are able to elect to contribute an additional amount as a catch-up contribution allowed under Section 414(v). Forfeitures are used to reduce future employer contributions.

The Plan requires the Company to match 25% of the participant's contribution up to 4% of compensation for a maximum match of 1% of compensation.

During the plan years ended December 31, 2011 and 2010, the Company provided a discretionary contribution to eligible employees equal to 12% of each radiologist or member of executive management's gross wages and 4% of all other employee's gross wages.

In 2010, the Company was delinquent on certain participant contributions to the Plan. All amounts were subsequently contributed to the Plan prior to the plan year-end. The impact on investment income as a result of the delinquent contributions is not expected to be significant.

Participant Accounts – Individual accounts are maintained for each plan participant. Participant accounts are increased by participant contributions, the Company's contributions, and the participant's share of any plan earnings. Participant accounts are decreased by participant distributions and the participant's share of plan expenses and losses. The allocation of earnings and losses to participant accounts is based on procedures set forth in the plan document. Upon death, disability, retirement or

1. Description of the Plan (continued)

Participant Accounts (continued) – termination of employment, the vested benefits of a participant are calculated based on the valuation of their account at the date of distribution.

Investment Allocation – The investments are allocated to any combination of various investment securities, as directed by the participants. During 2011, the Principal Large Cap Blend I Fund was removed as an investment option.

Vesting – Participants are fully vested immediately in their and the Company's matching contributions plus actual earnings thereon. Participants are vested in the Company's discretionary contributions according to the following schedule:

Years of Service	Percentage
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Payment of Benefits and Withdrawals – Withdrawals during employment from participant accounts are limited to cases of extraordinary financial hardship, as defined by the Plan, and represent taxable distributions to the participant.

Notes Receivable From Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 5.25 percent to 8.00 percent, which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Income Taxes – The prototype plan sponsor, Principal Life Insurance Company, has obtained an opinion letter dated March 31, 2008 in which the Internal Revenue Service stated that the prototype plan document was in compliance with applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the opinion letter and has not received a determination letter specific to the Plan itself, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in accordance with the Internal Revenue Code. Accordingly, no provision has been recorded for income taxes.

1. Description of the Plan (continued)

Income Taxes (continued) – Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there were no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Plan Termination – The Company may elect to discontinue the Plan at any time. Upon any such termination, the Company will distribute the Plan's assets to participants in accordance with the terms of the plan document.

2. Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Valuation of Investments – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for further discussion of fair value measurements.

Investment Income – Net appreciation or depreciation in the fair value of investments includes both realized gains and losses and unrealized appreciation and depreciation on the fair value of investments. Interest income is recognized as earned. Investment transactions are accounted for on the trade date.

Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Benefit Payments – Benefits are recorded when paid.

2. Significant Accounting Policies (continued)

Party-in-Interest Transactions – Certain plan investments are shares of pooled separate accounts and guaranteed interest accounts managed by Principal Life Insurance Company, the asset custodian, and accordingly qualify as party-in-interest transactions.

Administrative Expenses – During the plan years ended December 31, 2011 and 2010, the necessary expenses to administer the Plan were paid primarily out of plan assets.

Management Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect certain reported amounts of net assets available for benefits, changes therein and disclosure of contingent net assets at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties – The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those such changes could materially affect the balances of participant accounts and the amounts reported in the statements of net assets available for benefits.

Subsequent Events – The Plan has evaluated subsequent events through September 10, 2012, the date the financial statements were available to be issued and has identified no subsequent events for recognition or disclosure.

3. Fair Value

The Financial Accounting Standards Board ("FASB's") standard on fair value measurements establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the standard are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

3. Fair Value (continued)

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

The Plan's investments are stated at fair value, based on the following methodologies.

Pooled Separate Accounts – Most pooled separate accounts are valued at the net asset value calculated based on the net assets of the underlying portfolio of securities determined by publicly quoted pricing inputs, some of which were obtained from pricing services.

The Principal U.S. Property Fund invests primarily in commercial real estate and includes mortgage loans which are backed by the associated properties. FASB Accounting Standards Codification ("ASC") 820 allows net asset value per share to serve as a practical expedient to estimate the fair value of an investment as long as certain requirements are met. FASB ASC 820 further states that where net asset value is allowed to be used as an estimate of fair value, if the reporting entity has the ability to redeem its investment at net asset value as of the measurement date, the investment shall be categorized as a Level 2 fair value measurement. If the investment cannot be redeemed at the measurement date but may be redeemable at a future uncertain date, the investment shall be categorized as a Level 3 fair value measurement.

Prior to March 25, 2011, the Principal U.S. Property Fund had a temporary withdrawal limitation related to past turmoil in the credit markets that resulted in a sharp slowdown in the sale of commercial real estate assets over the last several years. The restriction was released on March 25, 2011. Accordingly, this fund was reclassified from Level 3 to Level 2 of the fair value hierarchy on March 25, 2011.

3. Fair Value (continued)

The fair value of the Principal U.S. Property Fund's underlying real estate is estimated using discounted cash flow valuation models that utilize public real estate market data inputs such as transaction prices, market rents, vacancy levels, leasing absorption, market cap rates and discount rates.

Guaranteed Interest Account – Valued at the contract value adjusted to reflect current market interest rates to the extent that such market rates exceed crediting rates, which is representative of fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011.

	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 12,455,810	$ -	$ 12,455,810

3. Fair Value (continued)

Level 3 Gains and Losses (continued)

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2010.

	Pooled Separate Accounts	Guaranteed Interest Account	Total
Balance, beginning of year	$ 484,455	$ 763,431	$ 1,247,886
Realized gains (losses)	(32,017)	-	(32,017)

Sales	(9,141)	-	(9,141)
Settlements	-	-	-
Balance, end of year	$ 552,880	$ 905,175	$ 1,458,055
The amount of total gains or losses for the period attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	$ 109,583	$ 7,213	$ 116,796

Changes in Fair Value Levels – The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the actual date of the event or change in circumstances that caused the transfer.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2011 and 2010, there were no significant transfers in or out of levels 1, 2 or 3 except as disclosed herein related to the Principal U.S. Property Fund.
