NOTE 1 – DESCRIPTION OF THE PLAN

The following description of Realty Center Management, Inc. 401(k) Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of Realty Center Management, Inc. (the "Company" and "Plan Sponsor"). Employees become an active participant on day one of their service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The executive management of the Company controls and manages the operation and administration of the Plan. Transamerica Life Insurance Company serves as the Trustee of the Plan's assets. Transamerica Retirement Services, a division of the Trustee, provides recordkeeping and investment accounting services.

Employee Contributions – Each year, participants may contribute up to the maximum amount limited by the IRS. For the year ended December 31, 2011, employees can defer up to $16,500. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Effective January 1, 2002, participants who are age 50 or older may make catch-up contributions to the Plan up to the maximum amount limited by the IRS. For the year ended December 31, 2011, this additional catch-up contribution is $5,500.

Employer Contributions - The Company matches 60% of the first 4% of the employees' contribution, not to exceed 2.4% of compensation. For the ended December 31, 2011, the Company contributed $125,357. The employer does not provide any matching contributions on special catch-up contributions.

Participant Accounts - Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contributions plus earnings thereon is based on years of continuous service. Vesting occurs ratably and a participant is 100 percent vested after five years of credited service. Additionally, a participant becomes 100 percent vested in the employer's contribution upon the occurrence of (1) death,(2) total and permanent disability, (3) attainment of age 65, and (4) termination of the Plan.

Investment Options – Upon enrollment in the Plan, a participant may direct employee contributions in any of the 35 pooled separate accounts held by Transamerica Life Insurance Company, the Trustee. The Plan also offers a Stable Value account, also offered by the Trustee. All pooled separate account funds invest in publicly traded mutual funds. These pooled separate accounts are purchased at the direction of Participants through salary deferrals, Company matching contribution and investment income reinvestments. Additionally, shares in these accounts are sold whenever a participant withdraws from the Plan or borrows from it.

NOTE 1 – DESCRIPTION OF THE PLAN (CONTINUED)

Participants' Loans – Participants may borrow from their fund accounts in an amount not to exceed the lesser of $50,000 or 50% of the vested amount. Loan terms are in general up to 5 years, or a reasonable time would be determined if the loan is for the main purpose of purchasing the principal residence of the participant. As of December 31, 2011, participant loans have various maturities through the year of 2016. The loans are secured by the balance in the participants' accounts, and the current loans bear interest between 4.25% and 12.5%. Principal and interest are paid through payroll deduction. Additionally, participants who apply for loans are charged a one-time, $75 set-up fee. Fees charged to participant accounts for such services amounted to $525 for the year ended December 31, 2011.

Loans are segregated investments and to the extent a participant borrows, their account will not share in the earnings and gains in value attributable to other investments. The interest that participants pay on their loans will be directly credited to their account. If any losses are realized or expense incurred in the event of default, such losses and expense shall be allocated only to the participant's accounts. Unpaid principal balances on loans will be deemed a distribution if the participant terminates employment with the Company.

Payment of Benefits – Upon termination of employment due to retirement or death, a participant has options to receive either a single sum or installment payments of his or her vested account balance. A participant shall choose to be paid in a single sum of their vested account balance or to be rolled over to a qualified retirement plan if he or she ceases to be an employee for any other reason. The Plan had adopted an automatic distribution policy for terminated participants whose accounts are below $1,000.

Forfeited Accounts – At the beginning of the year ended December 31, 2011, forfeited account balances for the benefit of the Plan sponsor was $6,586. During the current year, terminated employees forfeited an additional $15,247. The Plan earned $281 on forfeited account balances. During the year, $1,097 was applied towards Plan expenses during the year. As of December 31, 2011, the ending balance of the forfeited accounts was $21,017.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements were presented on the accrual method of accounting.

Contributions by participants are recognized in the period the participants' wages are earned, but withdrawals from the Plan for participant distributions are recognized when the amounts are paid to the participant, except for cases where refunds are due to the participants in order for the Plan to conform to IRC provisions. Plan expenses are recorded when incurred.

Use of Estimates - The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect certain reported amounts disclosures. Actual results could differ from those estimates.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition **–** The Plan invests in proprietary separate accounts of the Trustee, many of which invest exclusively in one underlying mutual fund traded on an established market. As such, the separate accounts begin with a price determined by the Trustee, and the number of units issued are calculated to match the current fair market value of the underlying mutual fund holdings (shares x price). This is known as unitizing the underlying assets. The price of each separate account investment will not match the price of the corresponding mutual fund. However, the rate of return of each will be consistent, taking into account any plan / participant expenses.

All of Transamerica's separate account investment choices are valued daily using publicly available quoted market prices, and participants bear the investment risks. Accordingly, the requirements of Accounting Standards Codification (ASC 820), Fair Value Measurements and Disclosures are not applicable to the separate account investment choices. Those separate accounts investing in mutual funds or equity securities are measured using quoted prices in active markets for identical assets (e.g. a "Level 1" input under ASC 820).

Those separate accounts directly investing in fixed maturity securities are measured based on the pricing data provided by outside valuation service providers who in turn generally use the mean of bid-and-ask prices but may also use alternative observable pricing inputs for certain securities (e.g. a "Level 2" input under ASC 820).

The Stable Value investment option is backed by the general account of Transamerica Life Insurance Company, the Trustee. While the Trustee declares rates periodically and backs the principal and interest of these investment choices, any guarantees are subject to the claims-paying ability of the insurance company. Although plan participants generally may withdraw assets from the Stable Value option investment choice without restrictions, Transamerica Life Insurance Company may impose a hold period at the contract level in the event of a full contract discontinuance or partial contract discontinuance. This type of investment is considered fairly valued at contract value.

Participant loans included under investments are recorded at cost plus accrued interest.

Purchases and sales of the shares are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends from the mutual funds are recorded when reported by the registered investment companies**.**

Plan Termination – Although it has not expressed any intention to do so, the Company has the right to terminate the Plan at any time subject to the provisions of ERISA. Upon termination of the Plan, the entire amount of each participant's account, with respect to the Plan, shall become 100% vested and non-forfeitable.

Plan Administrator Costs – The Company absorbs a portion of administration costs related to the Plan. Administrative expenses and fund fees incurred by the Plan for the year ended December 31, 2011 totaled $11,141.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Tax Status **-** The Plan follows the provisions of the Minnesota Life Insurance Company Prototype Non-Standardized 401(k) Profit Sharing Plan and Trust. The Internal Revenue Service has determined and informed the Trustee by letter dated November 2001, that the prototype plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan administrator and the Plan's tax counsel believe that the Plan is designed and currently being operated in compliance with the prototype plan and with applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Risks and Uncertainties **-** The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in values of investment securities will occur in the near term. Such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Related Party Transactions **–** Certain Plan investments are held in shares of pooled separate accounts in which Transamerica Life Insurance Company is the asset holder. These transactions qualify as party-in-interest transactions.

Subsequent Events **–** Subsequent events have been evaluated through October 1, 2012, the date the financial statements were available to be issued.

NOTE 5 – FAIR VALUE MEASUREMENTS

Fair values are determined based on a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

- Level 1: Quoted market prices in active markets for identical assets or liabilities. An active market for the asset or liability is a market in which the transaction for the asset or liability occurs with sufficient frequency and volume to provide pricing information on an ongoing basis.

- Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data, such as quoted prices for similar assets or liabilities or model-derived valuations.

- Level 3: Unobservable inputs that are not corroborated by market data. These inputs reflect a company's own assumptions about the assumptions a market participant would use in pricing the asset or liability.

NOTE 5 – FAIR VALUE MEASUREMENTS – (CONTINUED)

The Plan's investments are reported at fair value (measured on a recurring basis) in the accompanying statement of net assets available for benefit.

		Fair Value Measurements Using:	
	Fair Value	**(Level 1)**	**(Level 2)**
