The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

The Plan provides for eligibility upon the (1) attainment of age eighteen and (2) completion of three months of employment, provided that the employee completes at least 1,000 hours per year of service during each year of employment.

Contributions

Eligible employees (participants) may contribute their annual compensation subject to certain limitations as defined by the Internal Revenue Code.

The Company may elect to contribute a matching contribution and/or a discretionary profit sharing contribution to a participant's Company contribution account. The matching contribution is allocated based on a participant's deferral. There were no matching contributions for 2011 and 2010. The discretionary profit sharing contribution is allocated to participants based on the participant's compensation for the Plan year in proportion to total compensation of all participants. A participant does not have to make contributions to the Plan to be eligible for an allocation of the discretionary contribution. There were no discretionary contributions during 2011 and 2010.

Rollover contributions

The Plan provides for rollover contributions, which represent contributions by participants from other tax-qualified retirement plans. The maximum amount of a participant's rollover contribution is not affected by the limits otherwise applicable to participant contributions.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, if any, and, (b) Plan earnings, and charged with an allocation of administrative expenses. The contributions are allocated within each participant's account based on the participant's investment elections. Allocations of expenses are based on investment earnings or account balances, as defined. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and insurance investment contracts as investment options. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 - Description of the plan (continued)

Vesting

Participants are immediately vested in their employee contribution account plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of service. A participant is 100% vested in Company contributions after six years of credited service. Due to the plan merger effective January 1, 2007, participants of the Western Resources Title Company 401(k) Plan with two or more years of services as of the date of the merger are 100% vested in Employer contributions.

Notes receivable from participants

Participants may borrow from their fund accounts a maximum of $50,000 or 50% of their vested account balance, whichever is less. The notes are secured by the vested balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined by the Plan administrator at the time the note is made, currently 3.25% to 8.75% per annum. Note transactions are treated as transfers to (from) the investment funds from (to) a participant's note receivable. Note terms cannot exceed 5 years, unless the loan qualifies as a residential mortgage in which case a note term may qualify for a longer repayment period determined at the time the note is made. Principal and interest is paid ratably through payroll deductions.

Notes to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Plan management has evaluated the collectability of notes receivable from participants and because they are secured by the participants account, an allowance has not been recorded. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of benefits

Benefits are payable to participants or designated beneficiaries upon retirement, termination, death, disability, or in-service if the participant has attained age 59 1/2, a participant may elect to receive a lump-sum amount or installments equal to the value of the participant's vested interest in his or her account. Partial distributions are permitted for in-service withdrawals and required minimum distributions.

Forfeitures

All amounts representing forfeitures shall be used to pay administrative expenses and reduce Company contributions to the Plan. At December 31, 2011, forfeited non-vested accounts available to pay administrative expenses and reduce future employer contributions were $3,215. Forfeitures used in 2011 were $530.

Hardship withdrawals

Participants may withdraw their elective contributions and vested Company contributions in the event of hardship as defined in the Plan agreement.

Administrative expenses

The Company pays a portion of the expenses incurred in the administration and operation of the Plan.

Note 2 - Summary of accounting policies

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent event

Management evaluates events occurring subsequent to December 31, 2011 in determining the accounting for and disclosure of events that affect the financial statements. The Plan has no subsequent events that required recognition or disclosure in the financial statements for the year ended December 31, 2011. Subsequent events were evaluated through September 19, 2012, which is the date the financial statements were available to be issued.

Note 3 - Fair value measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Note 3 - Fair value measurements (continued)

Level 1 Fair Value Measurements

The fair value of mutual funds and money market funds is based on quoted net asset values of the shares held by the Plan at year end. The fair values of stocks are based on the closing price reported on the active market where the individual securities are traded.

Level 3 Fair Value Measurements

The insurance investment contract with insurance company is not actively traded and significant other observable inputs are not available. Thus, the fair value of the insurance investment contract is determined using an income approach by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The following tables set forth, by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

Net depreciation in fair value

For the year ended December 31, 2011, the Plan's investments (including investments bought, sold and held during the year) depreciated as follows:

Mutual funds	$ (262,528)
Insurance investment contract	114,529
Stocks	139
Money Market	(13)
	$ (147,873)

Note 6 - Investment contract with insurance company

The Plan has an insurance investment contract with ING Life Insurance & Annuity Company (ILIAC). ILIAC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value as reported to the Plan by ILIAC. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The investment contract issuer is contractually obligated to repay the principal and accrued interest at the rate established each month to the Plan.

There are no reserves against fair value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rate was approximately four percent for 2011 and 2010. The crediting interest rate is based on an agreed-upon formula with the issuer, but may not be less than 3.10%.

Note 7 - Related party transactions

Certain Plan investments are shares of mutual funds managed by ING Life Insurance and Annuity Company (ING). ING is related to ING National Trust, the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services amounted to $3,571 for the year ended December 31, 2011.

Note 8 - Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contribution accounts.

Note 9 - Tax status

The Plan adopted the ING Life Insurance and Annuity Company Non-Standardized 401(k) Profit Sharing Plan #01-005 ("the Prototype Plan"). The Prototype Plan received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which stated the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the plan administrator believes and the Plan's tax counsel believe the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 10 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 11 – Reconciliation of financial statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of the Form 5500 as of December 31:
