BARRIOS TECHNOLOGY 401(K) PROFIT SHARING PLAN & TRUST

NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The following description of the Barrios Technology (the "Company") 401(k) Profit Sharing Plan & Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan, adopted by the Company's board of directors and effective May 23, 1980, is a defined contribution plan covering all full-time employees on the first day of employment, provided they have attained the age of twenty-one (21) years. The Plan, as amended, is subject to the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan Administration

The Company serves as the Plan Administrator. Wilmington Trust Fiduciary Services Company (the "Trustee") serves as the trustee of the Plan. Premier Pension Solutions, Inc. ("Recordkeeper") serves as the Plan's recordkeeper.

Contributions

Each year, participants may contribute a percentage of their pretax annual compensation not to exceed the limitation ($16,500 in both 2011 and 2010) set forth in Section 402(g) of the Internal Revenue Code ("IRC"). Participants may make catch-up contributions, pre-tax contributions that exceed the annual elective deferral limit, during any calendar year ending on or after the participant's 50th birthday. Participants' total catch-up contributions during 2011 and 2010 may not exceed $5,500 in either year. Participants may make ROTH contributions to the Plan in accordance with applicable tax laws and they may also make rollover contributions from other qualified plans.

The Plan provides for the Company to make annual discretionary employer contributions based on net profits. During 2011 and 2010, the Company made discretionary employer contributions of $1,264,615 and $1,220,560 respectively.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (i) Plan earnings and (ii) discretionary contributions made by the Company, if any, and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as described in the Plan. Upon the occurrence of a distribution event, the benefit to which the participant is entitled is the benefit that can be provided from the participant's vested interest in his or her account.

1. **Description of Plan, continued**

Vesting

Participants are immediately 100% vested in their account balances, plus any earnings on such contributions.

Participant Notes Receivable

Participants may borrow from their fund accounts at a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the participant's vested account balance. Loan terms range from 1 to 5 years or up to 30 years for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account and bear interest at rates ranging from 3.25% to 9.25% at December 31, 2011 and 2010, respectively, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest payments are made by means of payroll withholdings according to the terms of the promissory note.

Payment of Benefits

Upon termination of employment due to death, retirement or attainment of age 59½, a participant (or his or her designated beneficiary in the event of death) may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or to have the account balance distributed in annual installments. If a participant's account is less than $1,000, a lump-sum distribution will automatically be made.

Forfeited Accounts

All employer contributions credited to a participant's account, but not vested, are forfeited by the participant upon distribution of the fully vested value of his or her account. Forfeitures are generally used to pay Plan expenses or to reduce employer contributions. Participants who were employed prior to January 1, 2007 vested at a rate of 20% per year until fully vested after five years. Accordingly, such participants whose accounts were distributed in 2011 and 2010, but who terminated prior to January 1, 2007 and were not fully vested at the time of termination, forfeited a portion of their account balance related to employer contributions. During 2011 and 2010, forfeited non-vested amounts totaling $6,238 and $40,772, respectively, were used to reduce employer contributions. As of December 31, 2011 and 2010, forfeiture balances of $0 were available to reduce employer contributions.

Administrative Expenses

The Plan is responsible for payment of the trustee expenses and fees. However, the Company may pay a portion of the administrative expenses on behalf of the Plan. Expenses paid by the Company on behalf of the Plan during the years ended December 31, 2011 and 2010 were $11,594 and $9,526, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

As described in ASC 962, *Defined Contribution Pension Plans*, investment contracts held by a defined-contribution plan are required to be reported at fair value in the Plan's Statements of Net Assets Available for Benefits with a corresponding adjustment to reflect these investments at contract value. As of December 31, 2011 and 2010, the Plan's investments in common collective trusts are not considered to be fully benefit-responsive and accordingly, no adjustment to contract value is shown on the Statements of Net Assets Available for Benefits.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of net assets available for benefits, changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options. These investment options are exposed to market risk, which generally means the risk of loss in the value of certain investment securities due to changes in interest rates, security and commodity prices and general market conditions. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. The Plan's interests in the common collective trusts, which are not fully benefit-responsive, are based on the fair value of the collective trusts' underlying investments as based on information reported by the investment advisor using the audited financial statements of the collective trusts at year-end.

Net appreciation in fair value of investments includes realized gains and losses on investments sold during the year, as well as unrealized appreciation (depreciation) of investments held at the end of the year. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Participant Notes Receivable

Participant notes receivable are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Document.

2. Summary of Significant Accounting Policies, continued

Benefit Payments

Benefits are recorded when paid.

Recent Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2010-06, *Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures About Fair Value Measurements* ("ASU No. 2010-06"). ASU No. 2010-06 amends the disclosure requirements of FASB ASC Topic 820, *Fair Value Measurements and Disclosures* ("ASC 820") and requires new disclosures regarding (a) transfers in and out of levels 1 and 2 and (b) activity in level 3 fair value measurements. ASU No. 2010-06 also provides amendments to ASC 820 that clarify existing disclosures regarding (a) level of disaggregation for each class of assets and liabilities and (b) disclosures about inputs and valuation techniques for fair value measurements that fall in either levels 2 or 3. ASU No. 2010-06 is effective for periods beginning after December 15, 2009 (except for the level 3 roll forward which is effective for periods beginning after December 15, 2010). The adoption of ASU No. 2010-06 did not have a significant impact on the Plan's financial statements.

In September 2010, the FASB issued ASU No. 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans.* ASU No. 2010-25 changed the reporting of loans to participants. Prior to ASU No. 2010-25, loans to participants were reported as investments at fair value. ASU No. 2010-25 requires that loans to participants be reported as notes receivable from participants at the unpaid principal balance plus any accrued but unpaid interest. ASU No. 2010-25 is effective for periods ending after December 15, 2010. The Plan adopted ASU No. 2010-25 in the 2010 financial statements. The adoption of ASU No. 2010-25 was not significant as the unpaid principal balance plus accrued interest of loans to participants approximated fair value.

In May 2011, the FASB issued ASU No. 2011-04, *"Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs."* This ASU requires for Level 3 fair value measurements, to disclose quantitative information about unobservable inputs used, a description of the valuation processes used, and a qualitative discussion about the sensitivities of the measurements. The guidance is effective for interim and annual periods beginning after December 15, 2011. The adoption of ASU No. 2011-04 is not expected to have a significant impact on the Plan's financial statements.

* Less than 5% of Plan assets in the period indicated.

During the years ended December 31, 2011 and 2010, the Plan's investments in common collective trusts, including gains and losses on investments sold during the year, as well as (depreciation) appreciation of investments held at end of year, (depreciated) appreciated in value by $(852,781) and $6,701,164, respectively.

4. Fair Value Measurements

ASC Topic 820, *Fair Value Measurements and Disclosures,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;

4. **Fair Value Measurements, continued**

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Common collective trusts: Valued at fair value based on a pro rata share of the market value of the underlying investments, which is reported in the audited financial statements of the collective trusts at year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

5. Information Certified by the Trustee (Unaudited)

The Plan administrator has elected the method of annual reporting and compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Plan's Trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

a. Information in the Statements of Net Assets Available for Benefits at December 31, 2011 and 2010:

	2011	2010
Common collective trusts	$ 48,141,804	$ 49,917,886

b. Information in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2011 and 2010:

	2011	2010
Net appreciation in fair value of investments	$ (852,781)	$ 6,701,164

c. All information included in Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2011, as shown in the supplemental schedule, except for participant loans.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

6. Tax Status

The Plan is based on a standardized prototype plan. The prototype plan received an opinion letter from the Internal Revenue Service dated March 31, 2008, stating that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. The Plan administrator believes that the Plan is designed and is being operated in compliance with applicable requirements of the IRC and accordingly, that the trust maintained in connection with the Plan is tax-exempt.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

8. Party-in-Interest Transactions

Certain Plan investments are in accounts managed by the Plan trustee and the Plan issues notes receivable from participants. These transactions qualify as party-in-interest transactions, as defined by ERISA. However, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

9. Subsequent Events

Effective May 1, 2012, the Plan was amended to exclude temporary and seasonal employees with less than 1,000 hours from those eligible to participate in the Plan.

Plan management has evaluated all subsequent events through October 1, 2012, which is the date the financial statements were issued, and has concluded that there are no other significant events to be reported.
