Report of Independent Auditors

To the Benefits Committee of the
Aleris Hourly Union Savings Plan

We were engaged to audit the accompanying statements of net assets available for benefits of the Aleris Hourly Union Savings Plan (formerly Wabash Hourly Union Savings Plan) as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011, and the supplemental schedule of assets (held at end of year) as of December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2011 and 2010, and for the year ended December 31, 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on these accompanying financial statements and supplemental schedule as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements, but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

December 31, 2011

1. Description of the Plan

The following description of the Aleris Hourly Union Savings Plan (the “Plan”) is provided for general information only. Participants should refer to the plan document for a complete description of the Plan’s provisions.

On June 1, 2010, Aleris International, Inc. emerged from bankruptcy proceedings under Chapter 11 of the United States Bankruptcy Code.

Effective June 1, 2010, the Plan was restated to incorporate the effects of the Economic Growth and Tax Relief Reconciliation Act (“EGTRRA”) of 2001. In conjunction with the required restatement, the Plan’s name was changed from the Wabash Hourly Union Savings Plan to the Aleris Hourly Union Savings Plan, and Aleris Specification Alloys, Inc. (the “Plan Sponsor”), a subsidiary of Aleris International, Inc., became the Plan Sponsor.

General

The Plan is a defined contribution plan covering all collectively bargained eligible employees of Aleris Specification Alloys, Inc., a subsidiary of Aleris International, Inc. (the “Company”) at the Wabash, Indiana plant. An employee not covered by a collective bargaining agreement or covered by a collective bargaining agreement that does not provide for participation in the Plan is an excluded or non-eligible employee. Other exclusions include leased employees or a nonresident alien with no U.S. source income. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

The Plan allows for participation upon ninety days of eligible service (or one year if the employee is not expected to work at least 1,000 hours in the first year of employment).

Plan Administration

Overall responsibility for administering the Plan rests with the Plan Sponsor’s Benefits Committee, which is appointed by the Board of Directors of the Company. Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (the “Trustee”) is the trustee of the Plan and is responsible for the management and control of the Plan’s assets.

Contributions

Participants may contribute up to 50% of their total compensation to the Plan in increments of 1% through either pretax (salary reduction) or after-tax contributions. The Plan also provides that participants may roll over all or part of a qualified total distribution from another tax-qualified plan. An employee’s contributions made to the Plan on a pretax basis may not exceed certain Internal Revenue Service (“IRS”) maximum amounts. The maximum amount was \$16,500 in both 2011 and 2010. Employees who were 50 years of age or older by the end of the Plan year, and were making the maximum elective contribution for the year, were entitled to make additional pretax contributions (“Catch-up Contributions”) of up to \$5,500 in both 2011 and 2010. Catch-up Contributions are not matched by the Company.

Effective June 1, 2010, the matching contribution for participants is an amount equal to 50% of an employee’s salary deferral (not to exceed \$50.00 per month). Also effective June 1, 2010, the Company contributes an amount equal to \$1.15 per hour worked (for employees with credited service prior to March 15, 2005) or \$0.50 per hour worked (for all other employees). These employer contributions are determined each payroll period.

Aleris Hourly Union Savings Plan (formerly Wabash Hourly Union Savings Plan)

Notes to Financial Statements (continued)

Participant Accounts

Each participant's account is credited with the participant's contribution, Company contributions, rollover contributions and allocations of actual earnings thereon. Participants direct their accounts into various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Loans to Participants

The Plan permits participants to borrow from their account a minimum of \$500 up to the lesser of \$50,000 or 50% of their vested account balance. The number of outstanding loans is limited to two. Loans must be paid through payroll deductions over a period of time not to exceed five years, unless used for the purchase of a primary residence. Each loan shall bear a reasonable fixed rate of interest as determined by the plan administrator. A loan is deemed to be in default if principal and interest are not paid in 90 days after the loan is due.

Vesting Provision

Participants become vested in the Company's contributions based on the following table:

<u>Completed Years of Service</u>	<u>Percentage of Vested Interest</u>
Less than 1	None
1	20%
2	40%
3	60%
4	80%
5 or more	100%

Upon separation from the Company, participants receive the full current value of their contributions and the vested portion of the Company's contributions. Participants who separate for reasons of retirement (upon reaching normal retirement age), death or disability become fully vested in the value of the Company's contributions under the Plan at the time of such separation. Participants who separate for any other reason forfeit the unvested portion of the value of the Company's contributions. Such forfeitures may be returned to the participant's account if the participant returns to work before five full years elapse. If a participant does not return before five years elapse, any forfeited amounts are used to offset administrative expenses paid by the Plan or to reduce the Company's contribution for other participants at the end of the Plan year.

Forfeited Accounts

Forfeited balances are used: first, to restore participant's forfeitures; second, to reduce expenses of the Company incurred in the operation of the Plan; and third, to reduce future Company contributions. There was \$696 and \$282 remaining in the forfeiture account as of December 31, 2011 and 2010, respectively. \$33 of forfeited balances was used to reduce Company contributions and administrative expenses during the year ended December 31, 2011.

Withdrawals During Employment

Withdrawal of before-tax contributions requires the existence of specific conditions of financial hardship as defined in the Plan. Participants who have applied for withdrawal of before-tax contributions are suspended from making further contributions for the next six months.

Aleris Hourly Union Savings Plan (formerly Wabash Hourly Union Savings Plan)

Notes to Financial Statements (continued)

Benefits Provision

Upon termination of service, death, disability, or retirement, a participant (or beneficiary) could elect to receive their vested balance in a rollover or lump-sum distribution.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, all participant accounts shall be fully vested and nonforfeitable.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting. Subsequent events for the Plan have been evaluated through October 1, 2012, which represents the date the financial statements were available to be issued.

Notes Receivable From Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2011 or 2010. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Aleris Hourly Union Savings Plan (formerly Wabash Hourly Union Savings Plan)

Notes to Financial Statements (continued)

Investment Valuation and Income Recognition

Investments held by the Plan are recorded at fair value under Accounting Standards Codification (“ASC”) 820, *Fair Value Measurements and Disclosures* (“ASC 820”), using quoted market prices and significant other observable and unobservable inputs. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy distinguishes between (1) market participant assumptions developed based on market data obtained from independent sources (observable inputs) and (2) an entity’s own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). The fair value hierarchy consists of three broad levels, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability (e.g., interest rates); and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Fair value is based on prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable. These inputs reflect management’s judgment about the assumptions that a market participant would use in pricing the investment and are based on the best available information, some of which may be internally developed.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety. Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts and common trust fund: Valued at fair value estimated by the issuer, which has been determined based on the unit values of the fund which are determined by dividing the fund’s net assets at fair value by its units outstanding at the valuation date.

Mutual funds: Valued at the net asset value (“NAV”) of shares held by the Plan at year-end based on quoted market prices.

The Plan invests in the Principal Stable Value Fund (the “Fund”), a common trust fund. The Fund invests in fully benefit-responsive investment contracts. These investment contracts are recorded at fair value; however, since these contracts are fully benefit-responsive, an adjustment is reflected in the statements of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses. There are no unfunded commitments or redemption restrictions on this investment.

The Plan invests in various pooled separate accounts (refer to Note 3 for a list of investments grouped by asset class). There are no redemption restrictions on these investments. There are no unfunded commitments.

Aleris Hourly Union Savings Plan (formerly Wabash Hourly Union Savings Plan)

Notes to Financial Statements (continued)

In September 2009, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* (“ASU 2009-12”). ASU 2009-12 allows entities to use NAV per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value and the net asset value is calculated in a manner consistent with investment company accounting. The Plan has utilized the practical expedient to measure the fair value of the pooled separate accounts and common trust fund investments within the scope of ASU 2009-12 based on the investment’s NAV. A description of the significant investment strategies is as follows:

Large U.S. equity: This asset class is generally comprised of investment options that invest in stocks, or shares of ownership in large, well-established, U.S. companies. These investment options typically carry more risk than fixed income investment options but have the potential for higher returns over longer time periods. They may be an appropriate choice for long-term investors who are seeking the potential for growth. All investment options in this category have the potential to lose value.

Small/Mid U.S. equity: This asset class is generally comprised of investment options that invest in stocks, or shares of ownership in small to medium-sized U.S. companies. These investment options typically carry more risk than larger U.S. equity investment options but have the potential for higher returns. They may be an appropriate choice for long-term investors who are seeking the potential for growth. All investment options in this category have the potential to lose value.

International equity: This asset class is comprised of investment options that invest in stocks, or shares of ownership in companies with their principal place of business or office outside the United States. These investment options often carry more risk than U.S. equity investment options but may have the potential for higher returns. They may be an appropriate choice for long-term investors who are seeking the potential for growth. All investment options in this category have the potential to lose value.

Fixed income: This asset class is generally comprised of investment options that invest in bonds, or debt of a company or government entity (including U.S. and Non-U.S.). It may also include real estate investment options that directly own property. These investment options typically carry more risk than short-term fixed income investment options (including, for real estate investment options, liquidity risk), but less overall risk than equities. All investment options in this category have the potential to lose value.

Balanced funds: This asset class is generally comprised of a combination of fixed income and equity investment options. These investment options may include balanced, asset allocation, target-date, and target-risk investment options. Although typically lower risk than investment options that invest solely in equities, all investment options in this category have the potential to lose value.

Short-term fixed income: This asset class is generally comprised of short-term, fixed-income investment options that are largely liquid and are designed to not lose much value. These investment options may include stable value, money market, short-term bond, and guaranteed interest accounts. They are considered to be among the least risky forms of investment options. However, they typically have a lower rate of return than equities or longer-term fixed income investment options over long periods of time. Depending on the objectives of the investment options, they may experience price fluctuations and may lose value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefits are recorded when paid.

Aleris Hourly Union Savings Plan (formerly Wabash Hourly Union Savings Plan)

Notes to Financial Statements (continued)

New Accounting Pronouncement

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs* ("ASU 2011-04"). ASU 2011-04 amended ASC 820 to converge the fair value measurement guidance in U.S. generally accepted accounting principles and International Financial Reporting Standards. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

3. Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule including investments held, notes receivable from participants and the adjustment from fair value to contract value for fully benefit-responsive investment contracts at December 31, 2011 and 2010, and net appreciation in fair value of investments, interest and dividends and interest income on notes receivable from participants for the year ended December 31, 2011, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by the Trustee.

Individual investments that represent 5% or more of the Plan's net assets available for benefits are as follows:

	2011	2010
Investments at fair value as determined by quoted market prices:		
Windsor II ADM Fund	\$ 694,037	\$ 650,270
Investments at estimated fair value:

* Amounts represent fair value for this investment. Contract value was \$1,469,858 and \$1,557,929 at December 31, 2011 and 2010, respectively.

During the year ended December 31, 2011, the Plan's investments (depreciated) appreciated in fair value as follows:

Investments at fair value as determined by quoted market prices:	
Mutual funds	\$ (15,536)
Investments at estimated fair value:	
Common trust fund	28,911
Pooled separate accounts	1,723

4. Administrative Expenses

All administrative expenses are paid by the Plan, except for audit fees that are paid by the Plan Sponsor.

Aleris Hourly Union Savings Plan (formerly Wabash Hourly Union Savings Plan)

Notes to Financial Statements (continued)

5. Tax Status

The IRS determined and informed the Company by a letter dated June 14, 2012, that the Plan and related trust were designed in accordance with applicable sections of the Internal Revenue Code (the “Code”). Subsequent to the request for determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

6. Transactions With Parties in Interest

Several investments of the Plan are investment funds managed by the Trustee. Purchases and sales of investment units of such funds qualify as party-in-interest transactions, as defined by ERISA. Loans to participants are also considered party-in-interest transactions as such participants are employed by the Plan Sponsor. These party-in-interest transactions are exempt from the prohibited rules under ERISA.

7. Reconciliation of Financial Statements to the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2011 and 2010 to the Form 5500:
