We have audited the accompanying statements of net assets available for benefits of the Ephonamation Com, Inc. 401(k) Profit Sharing Plan and Trust as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Ephonamation Com, Inc. 401(k) Profit Sharing Plan and Trust as of December 31, 2011 and 2010, and the changes in net assets available for benefits for the year ended December 31, 2011 in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2011 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Note 1. Description of the Plan

The following description of Ephonamation Com, Inc. 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was adopted on January 1, 2000 to qualify as a defined contribution retirement plan for Ephonamation Com, Inc.'s (the "Company") eligible employees. The Plan has a pre-tax salary reduction provision as defined under Section 401(k) and an employer matching contribution under 401(m) of the Internal Revenue Code (the "IRC"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan covers Ephonamation Com, Inc., Intellical Services, Inc. and Target Admissions Support Center, LLC which are affiliated companies under common ownership. Collectively, all of the participating employers will be known as the "Companies" throughout the disclosures.

Prior to April 2011, the Plan's investments were held by Transamerica Life Insurance Company ("Transamerica"), the custodian. During April 2011, the Plan transferred its assets to a new custodian, Hartford Life Insurance Company ("Hartford").

Participant Eligibility

Each of the Companies' employees are eligible to participate in the Plan upon attaining the age of 21 and after the completion of one year of service.

Contributions

The Companies' eligible employees may contribute from 1% up to 75% of their compensation, subject to the limitations as defined by the IRC, each year on a pre-tax basis by salary reduction.

For the years ended December 31, 2011 and 2010, the Companies provided a safe harbor match equal to 100% of the first 3% of deferrals and 50% of the next 2% of deferrals.

The Companies may also make a discretionary contribution without regard to the Companies' current or accumulated profits as determined each year by resolution of the Companies' Board of Directors. No discretionary contributions were made for the years ended December 31, 2011 and 2010.

Participants direct the investment of all contributions to their account into various investment options offered by the Plan.

Note 1. Description of the Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's allocation of (a) the Companies' safe harbor matching contributions, (b) the Companies' discretionary contributions, (c) the participant's contribution and (d) Plan earnings less an allocation of investment and operating expenses charged to the Plan. The Companies' discretionary contributions are based upon the ratio that each eligible participant's compensation bears to the total compensation of all eligible participants.

Vesting

Participants are 100% vested in their contributions, employer safe harbor matching contributions and earnings on such contributions. Participants become vested in their employer discretionary profit sharing contribution account and any earnings on the profit sharing contributions as follows:

Periods of Service For Vesting	Percent Vested
Less than two years	0%
Two years but less than three	20%
Three years but less than four	40%
Four years but less than five	60%
Five years but less than six	80%
Six or more years	100%

Forfeitures

Amounts forfeited from terminating participants' non-vested portion of their employer discretionary profit sharing contribution and earnings on those Employer contributions are used to reduce future Employer contributions. As of December 31, 2011 and 2010 there were no forfeitures available, and no forfeitures were used during the year ended December 31, 2011.

Payment of Benefits

Retired or terminated participants receive the vested portion of their Employer discretionary profit sharing contributions and earnings on these Employer contributions and 100% of their Employer safe harbor matching contributions and their pre-tax contribution as soon as administratively possible following retirement, termination or upon becoming disabled. The Plan permits a terminated participant with vested account balances greater than $5,000 to defer commencement of the payment of benefits until the later of election to receive benefits or age 65.

Note 1. Description of the Plan (continued)

Safe Harbor Election

The Plan has elected to be a Safe Harbor Plan according to IRC regulations. Accordingly, the Plan must meet certain requirements relating to employer contributions and investing schedules and meet the applicable "Safe Harbor" requirements. If the Plan meets the "Safe Harbor" requirements it is not subject to the ADP or ACP discrimination tests required by the IRC.

Plan Administrative Expenses

The Company provides or pays for certain accounting, legal, administrative and management services without charge to the Plan.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America and present the net assets available for benefits and the changes in those net assets.

Contribution Funding

The Companies fund the participant contributions and employer safe harbor matching contributions on a consistent basis following the issuance of each Company's payroll. Discretionary profit sharing contributions, if any, are funded subsequent to year end.

Valuation of Investments

All investments are carried at fair value or an approximation of fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest is accrued as earned.

Non-Distributed Benefits

The Plan does not accrue non-distributed benefits related to participants who have withdrawn from the Plan, but recognizes such benefits as a deduction from net assets in the period in which such benefits are paid.

Note 2. Summary of Significant Accounting Policies (continued)

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Notes Receivable from Participants

Participants may borrow from their accounts up to a maximum of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and must be repaid at a fixed interest rate which is commensurate with local prevailing rates as determined by the Plan. Generally, loans must be repaid within five years, unless the loan was for the purchase of a principal residence. In this case, the repayment period may be extended. Principal and interest is paid ratably through payroll deductions. Delinquent or defaulted notes receivables from participants are written off as "deemed" distributions at the end of the quarter following the quarter in which the default occurs.

The Plan classifies participant loans as notes receivable from participants in the statements of net assets available for benefits and measures them at their unpaid principal balance plus any accrued interest.

Subsequent Events

Subsequent events have been evaluated through September 27, 2012, the date the financial statements were available for issuance.

Note 3. Investments

At December 31, 2011 and 2010 the following presents investments that represent 5% or more of the Plan's net assets:

	December 31,	
	2011	**2010**
Pooled separate accounts		
Invesco Stable Value Fund	$ ---*	$ 223,901
Blackrock Lifepath 2020	$ 144,214	$ ---*

Blackrock Lifepath 2040	$ 171,771	$ ---*
Blackrock Lifepath 2050	$ 78,841	$ ---*

**Investment does not represent 5% of the Plan's net assets at the respective year end.*

Note 3. Investments (continued)

During the year ended December 31, 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by investment type as follows:

	Year Ended December 31, 2011
Pooled separate accounts	$ (25,762)

Note 4. Information Provided by the Investment Custodian

The following is a summary of the information regarding the Plan, included in the Plan's financial statements and supplemental schedule that was prepared by the investment custodians and furnished to the plan administrator:

Net depreciation in fair value of investments	$ (25,762)

d) Supplemental Schedule:
Schedule H, Line 4i – Schedule of Assets (Held At End of Year)

Note 5. Fair Value Measurements

Fair value measurements are based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means;

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2011 and 2010.

Pooled separate accounts: These investments are public investment securities valued using the Net Asset Value ("NAV") provided by the investment custodian. The NAV is quoted on a private market that is not active; however, the unit price is based on the underlying investments. A majority of the investments held by each fund are traded on an active market.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5. Fair Value Measurements (continued)

The following additional information presents the fund strategy relative to Plan investments reported on net asset value at December 31, 2011 and 2010:

(a) The investment seeks long-term growth of capital and income without excessive fluctuations in market value. The fund invests principally in equity securities of U.S. and multinational companies that the adviser believes are undervalued in all market capitalization ranges. It invests at least 80% of its net assets in equity securities. The fund normally invests at least 50% of its net assets in large, established companies having a market capitalization within the range of companies included in the Russell 1000 Index. It invests the remainder of its assets in securities of mid-sized and small companies.

(b) The investment seeks long-term total return and current income. The fund invests primarily in a portfolio of equity securities. It normally invests at least 80% of assets in equity securities and at least 80% of assets in dividend paying securities. The fund may invest in securities of companies with any market capitalization, but will generally focus on large cap securities. It may invest up to 25% of total assets in securities of foreign issuers. The fund may invest in securities denominated in both U.S. dollars and non-U.S. dollar currencies. It may also invest in convertible securities and non-convertible preferred stock.

(c) The investment seeks long-term capital appreciation. The fund normally invests at least 85% of its net assets, plus any borrowings for investment purposes, in equity securities of companies of any market capitalization that Fred Alger Management, Inc. believes demonstrate promising growth potential. It can leverage, that is, borrow money to buy additional securities. The fund can also invest in derivative instruments.

(d) The investment seeks capital appreciation. The fund invests primarily in the equity securities of smaller companies that the adviser believes to be undervalued relative to the underlying earnings potential of the company. Under normal circumstances, it invests at least 80% of its net assets in equity securities of small companies. Small companies are companies that at the time of purchase have market capitalizations within the range of companies comprising the Russell 2000 Value Index. The fund may invest a portion of its assets in American Depository Receipts.

(e) The investment seeks long-term growth of capital. The fund normally invests at least 80% of its net assets in equity securities of companies with small market capitalizations and related investments. Its managers use a growth-oriented investment style that emphasizes small U.S. companies.

Note 5. Fair Value Measurements (continued)

(f) The investment seeks long-term growth of capital. The fund normally invests at least 80% of net assets in securities of issuers from countries outside of the United States. It normally invests in securities of issuers from several different countries, excluding the United States. The fund may have significant exposure to emerging markets. It may also invest in U.S. and foreign debt securities. The fund may invest its assets in derivatives, which are instruments that have a value derived from or directly linked to an underlying asset.

(g) The investment seeks capital appreciation aggressively. The fund mainly invests in common stocks of issuers in emerging and developing markets throughout the world and may invest up to 100% of total assets in foreign securities. It normally invests at least 80% of net assets, plus borrowings for investment purposes, in equity securities of issuers whose principal activities are in at least three developing markets. The fund primarily invests in companies with high growth potential.

(h) The investment seeks maximum total return, consistent with preservation of capital and prudent investment management. The fund normally invests at least 65% of its total assets in a diversified portfolio of Fixed Income Instruments of varying maturities, which may be represented by forwards or derivatives such as options, futures contracts, or swap agreements. It invests primarily in investment-grade debt securities, but may invest up to 10% of its total assets in high yield securities ("junk bonds") rated B or higher. The fund may invest in derivative instruments, such as options, future contracts or swap agreements, or in mortgage- or asset-backed securities.

(i) The investment seeks maximum real return, consistent with preservation of capital and prudent investment management. The fund normally invests at least 80% of its net assets in inflation-indexed bonds of varying maturities issued by the U.S. and non-U.S. governments, their agencies or instrumentalities, and corporations, which may be represented by forwards or derivatives such as options, futures contracts or swap agreements. It invests primarily in investment grade securities, but may invest up to 10% of its total assets in high yield securities ("junk bonds") rated B or higher. The fund is non-diversified.

(j) The investment seeks total return with an emphasis on high current income, but also considering capital appreciation. The fund invests at least 80% of net assets in debt instruments of issuers that are tied economically to emerging-market countries. It may invest up to 100% of assets in lower quality debt instruments. The fund may invest a large percentage of the fund's assets in issuers in a single country, a small number of countries, or a particular geographic region. It is non-diversified.

(k) The investment seeks high current income, and capital appreciation is a secondary consideration. The fund invests mainly in bonds that are obligations of U.S. companies, are below investment-grade in quality (sometimes referred to as "junk bonds"), and have intermediate- to long-term maturities (three years or longer). The adviser may consider, among other factors, credit, interest rate and prepayment risks, as well as general market conditions, when deciding whether to buy or sell investments. It may also use derivatives, such as futures, options, warrants, certain foreign currency transactions and swap contracts, for both hedging and non-hedging purposes.

Note 5. Fair Value Measurements (continued)

(l) The investment seeks to be managed for investors planning to retire (or begin to withdraw substantial portions of their investment) approximately in the year 2020. The fund invests all of its assets in the 2020 Master Portfolio which allocates and reallocates its assets among a combination of equity, bond and money market funds. As of March 31, 2012, it held approximately 56% of its assets in underlying funds that invest primarily in equity securities, 44% of its assets in underlying funds that invest primarily in bonds and the remainder of its assets in underlying funds that invest primarily in money market instruments.

(m) The investment seeks to be managed for investors planning to retire (or begin to withdraw substantial portions of their investment) approximately in the year 2030. The fund invests all of its assets in the 2030 Master Portfolio which allocates and reallocates its assets among a combination of equity, bond and money market funds. As of March 31, 2012, LifePath 2030 Portfolio held approximately 71% of its assets in underlying funds that invest primarily in equity securities, 29% of its assets in underlying funds that invest primarily in bonds and the remainder of its assets in underlying funds that invest primarily in money market instruments.

(n) The investment seeks to be managed for investors planning to retire (or begin to withdraw substantial portions of their investment) approximately in the year 2040. The fund invests all of its assets in the 2040 Master Portfolio which allocates and reallocates its assets among a combination of the equity, bond and money market funds. As of March 31, 2012, LifePath 2040 Portfolio held approximately 84% of its assets in underlying funds that invest primarily in equity securities, 16% of its assets in underlying funds that invest primarily in bonds and the remainder of its assets in underlying funds that invest primarily in money market instruments.

(o) The investment seeks to be managed for investors planning to retire (or begin to withdraw substantial portions of their investment) approximately in the year 2050. The fund invests all of its assets in the 2050 Master Portfolio which allocates and reallocates its assets among a combination of equity, bond and money market funds. As of March 31, 2012, LifePath 2050 Portfolio held approximately 95% of its assets in underlying funds that invest primarily in equity securities, 5% of its assets in underlying funds that invest primarily in bonds and the remainder of its assets in underlying funds that invest primarily in money market instruments.

(p) This investment seeks to provide the highest level of current income while still maintaining liquidity and preserving capital. The fund invests in high quality, short-term money market instruments which are issued and payable in US dollars. This includes high quality commercial paper, floating and variable rate demand notes, debt securities guaranteed by qualified banks, securities issued by the US government or its agencies, asset-backed securities, and repurchase agreements. It normally invests at least 25% of total assets in securities issued by companies in the banking industry.

Note 5. Fair Value Measurements (continued)

(q) The investment seeks to provide investment results that correspond to the performance of the S&P MidCap 400 Index. The fund generally invests at least 90% of its net assets, plus the amount of any borrowings for investment purposes, in common stocks included in the S&P MidCap 400 Index. It will attempt to achieve a correlation between the performance of its portfolio and that of the S&P MidCap 400 Index of at least 95%, without taking into account expenses of the fund. The fund may invest in stock index futures contracts, options on stock indices, and options on stock index futures ("derivatives") on the S&P MidCap 400 Index.

(r) The investment seeks to outperform the Russell 1000 Growth Index by investing in market-leading companies in industry niches with strong growth prospects.

(s) The investment seeks long-term capital appreciation. Current income is a secondary goal. The fund invests in securities through an underlying mutual fund having the same investment goals and strategies. It invests primarily in issues listed on U.S. exchanges that the sub-adviser believes are seasoned, liquid and low priced, with effective management and positive momentum. The fund normally invests at least 80% of net assets in securities of large-cap companies and related investments.

(t) The investment seeks long-term capital growth and is best suited for long-term investors who seek international diversification. The investment primarily invests in mid-to-large sized companies with strong earnings growth and earnings momentum outside the U.S. emphasizing the developed countries of Western Europe and the Pacific Basin. The manager considers prospects for relative economic growth, political conditions, currency exchange, fluctuations, and other relevant factors when making investment choices. Normally, at least 70% of total assets are invested in equity securities of stock of non-U.S. companies. Up to 20% of assets may be invested in securities exchangeable for or convertible into equity securities of foreign companies.

(u) The investment seeks long-term growth of capital. The fund normally invests at least 80% of assets in securities of companies with small market capitalizations (which, for purposes of this fund, are those companies with market capitalizations similar to companies in the Russell 2000 Index or the S&P SmallCap 600 Index). It invests primarily in common stocks. The fund invests in domestic and foreign issuers. It invests in either "growth" stocks or "value" stocks or both.

(v) The investment seeks long-term capital growth. It is best suited for investors who seek aggressive stock exposure to pursue their long-term goals. At least 80% of net assets are invested in equity securities of US small cap companies and mid cap companies which have market cap values not exceeding $1.5B and $8.5B respectively. The manager uses a disciplined "bottom-up" approach, blending fundamental and quantitative analysis to identify companies believed to be positioned for rapid growth in revenues, earnings or cash flow; or that exhibit leadership in growing markets or have distinct and sustainable competitive advantages.

Note 5. Fair Value Measurements (continued)

(w) The investment seeks long-term growth of capital. The separate account invests primarily in common stocks with an emphasis on larger, more established companies. It seeks companies with earnings growth potential, regardless of country or organization or place of principal business activity. The manager uses a "bottom-up" approach to investment selection. That is, it seeks to identify individual companies with earnings growth potential that may not be recognized by the market at large. Securities are generally selected without regard to any defined industry sector, geographic allocation, or other similarly defined selection procedure.

(x) The investment option normally invests the majority of assets in companies with large market capitalizations at the time of purchase. Management selects investments primarily on the basis of fundamental security analysis, focusing on the company's financial stability, sales, earnings, dividend trends, return on equity and industry trends. It may invest up to 25% of assets in foreign securities.

(y) The fund is managed using a "passive" or "indexing" investment approach, by which SSgA attempts to match, before expenses, the performance of the S&P 500 Index. SSgA will typically attempt to invest in the securities comprising the Index in the same proportions as they are represented in the Index. In some cases, it may not be possible or practicable to purchase all of the securities comprising the Index, or to hold them in the same weightings as they represent in the Index. In those circumstances, SSgA may employ a sampling or optimization technique to construct the portfolio in question. The fund's returns may vary from the returns of the Index. From time to time SSgA may purchase securities that are not yet represented in the Index or sell securities that have not yet been removed from the Index.

(z) The investment seeks long-term capital growth and current income, with a secondary objective of capital preservation.

(aa) The investment seeks total return with a high level of current income and a moderate degree of share-price fluctuation. It is best suited for long-term investors who want higher income than shorter-term securities generally provide. The separate account will invest at least 90% of its assets in US government securities, with the balance being invested in other investment-grade debt obligations. It is anticipated that the normal average portfolio maturity will be between five and ten years.

(bb) Transamerica Bond seeks long-term capital appreciation and income. The fund invests a maximum of 50% of assets in investment-grade US Corporate bonds and the balance is US Government bonds, Yankee bonds, and securitized fixed income bonds.

(cc) Best suited for investors seeking a stable return and safety of principal. The investment seeks to protect against any loss of principal while providing returns in excess of money market funds and one-year treasury bills. The investment has a portfolio investment rate design in which all deposits are credited with the same interest rate, credited on a daily basis, and there is not set maturity. The effective credited interest rate is set monthly and effective on the first day of the month. Contract charges may reduce this return.

Note 6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of any termination of the Plan or upon complete or partial discontinuance of contributions, the accounts of each affected participant shall become fully vested.

Note 8. Tax Status

The Plan adopted a volume submitter plan that obtained a favorable opinion letter on March 31, 2008 from the Internal Revenue Service stating that the volume submitter plan document as then designed was in compliance with the applicable requirements of the IRC. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2008.

Note 9. Party-In-Interest Transactions

Certain Plan investments were units in pooled separate accounts which were managed by Transamerica. Transamerica was the custodian as defined by the Plan. These transactions qualify as party-in-interest transactions for which there is a statutory exemption.

Certain Plan investments are units in pooled separate accounts which are managed by Hartford. Hartford is the custodian as defined by the Plan. These transactions qualify as party-in-interest transactions for which there is a statutory exemption.

Note 9. Party-In-Interest Transactions (continued)

The Plan also allows for the issuance of notes receivable to participants in accordance with the related regulations. These transactions also qualify as party-in-interest transactions for which there is a statutory exemption.

Fee and Compensation Disclosure Report

This document is intended to assist a plan administrator ("you") in completing the Form 5500 Schedule C[1] by identifying different types of compensation paid with respect to the Hartford product utilized by your plan.

As permitted under the Schedule C rules, compensation is disclosed in the attached report as an actual dollar amount, an estimate or a formula or rate.

- Where an actual dollar amount of compensation is disclosed, no further notation regarding compensation calculations is generally provided.
- Where an estimate of the compensation amount is disclosed, we have used a reasonable method to arrive at the estimate and we have described the method used to arrive at the estimated amount.
- Where a formula or rate is provided to report compensation, we have used a reasonable method to arrive at the estimate and we have described the method used to arrive at the estimated amount. This formula or rate may be disclosed to describe the compensation to which it applies under the Schedule C rules. Alternatively, for purposes of Schedule C disclosure or in connection with your fiduciary review of the compensation paid with respect to the services, products and investment options utilized by the plan, you may calculate and disclose an actual or estimated dollar amount by multiplying the rate by the total assets to which it applies.

Please note that, unless otherwise indicated in the descriptions contained in this report, direct compensation is presented on a plan year basis 01/01/2011 - 12/31/2011 and indirect compensation is presented on a calendar year basis ending 12/31/2011.

This report includes compensation actually paid to or by the Hartford within the indicated plan year as part of your Hartford product. *(Note: If the plan year period or plan year end indicated in this Schedule C reporting package is incorrect, please notify your Hartford customer service representative immediately).* This report does not include amounts deducted from plan assets and paid to third parties (other than Hartford). In addition, the report does not include compensation related to investments held by the plan that are not serviced on our recordkeeping system. You should contact your other service providers for reportable compensation information. You may also receive information on the compensation reported here from other service providers as is described below.

Please note that we have provided suggested service codes with respect to services provided through our Hartford product. Please review all Schedule C and other Form 5500 materials with your experienced benefits counsel and other professionals to determine the most appropriate codes for your plan. In addition, please note that because plans with fewer than 100 participants (as of the beginning of the plan year) are generally not required to file Schedule C, you should refer to the instructions provided by the IRS for Schedule C and/or review the applicability of Schedule C to your plan with your experienced tax/benefits counsel, to determine whether it is necessary for the plan to report the information contemplated by this report.

Please contact your Hartford Service Team should you require additional information regarding the compensation paid to or by Hartford with respect to your plan.

****

Information provided in this document and related materials we provide are not intended to be and shall not be deemed tax advice, tax form preparation services, legal advice, advice to plans regarding compliance with ERISA reporting compliance, or accounting or other professional services. As described above, the information contained in this report may not cover all of the compensation received by the plan's service providers. We strongly encourage you to review all Schedule C and other Form 5500 materials with experienced benefits counsel and other professionals.

[1] Please refer to the Schedule C of the Form 5500 and its instructions (available at: http://www.dol.gov/ebsa/5500main.html), and please confer with experienced benefits counsel and other professionals, to determine the applicability of Schedule C to your plan.

Total Direct Compensation Paid **$221.00**

The total amount identified above reflects all fees deducted from plan assets at the plan administrator's direction for the plan year. Service providers which have received portions of these direct fees are listed below, along with the amount of fees they received. Please note that if there is a discrepancy between the total direct fees reported above and the sum of the direct fees reported below, you should contact your other service providers or your plan records to identify the recipient(s) of the fees and any other information relevant to your Schedule C filing.

Recipient: Hartford Life Insurance Company EIN: 06-0974148

Service Codes: 15, 23, 37, 38, 54, 55, 59, 60, 62, 63, 64, 65, 66, 99, 50 (if direct compensation amount reflected below)

Direct Compensation **$221.00**

The total amount identified above reflects fees deducted from plan assets at the plan administrator's direction for the 2011 plan year for the above named recipient. Please review other service providers, below, to determine whether direct fees were also paid to them. Also, please review your records to determine whether other service providers may have received any compensation not reported below (e.g., a reimbursement paid to any plan fiduciary, your employee benefits counsel, or a plan auditor).

Note: Due to system accounting protocols (including 'cash basis' accounting), amounts reported as Direct Compensation and amounts reported as paid to Hartford Life Insurance Company are the net result of aggregating direct compensation after the effects of adjustments processed in 2011, some of which may have pertained to prior years.

Please review the detailed breakdown at the end of the report for further information.

Indirect Compensation

Float compensation **$0.06**

Bank accounts and investments associated with short-term investment pool, 200 Hopmeadow Road, Simsbury, CT 06089

This is an estimate based on the annual average rate of float (0.01% for 2011) earned on the bank accounts and investments associated with the short-term investment pool for the 2011 calendar year multiplied by an estimate of the assets related to uncashed checks.* This estimate does not include float earned for any other reason (e.g., if amounts remitted to The Hartford cannot be immediately invested because they are not in good order). Please review or request a copy of the current float disclosure for more information about the other circumstances in which float is earned.

* A complete listing of distribution checks that remain outstanding is available on the Retirement Plan Access web site under the Standard Reports section (Report R03998-Outstanding Distribution Checks). Uncashed check assets will continue to remain in a float-earning bank account until such time direction is received from the Plan Sponsor. The Plan Sponsor should consult with their tax advisor or benefits counsel to determine if assets attributable to uncashed checks should be included on the Form 5500 filing.

Non Monetary Compensation

Please note that items of nonmonetary compensation need to be reported for Schedule A or C (Form 5500) purposes if they exceed certain *de minimus* amounts. Transactions generating nonmonetary compensation may include gifts, gratuities, or certain types of in-kind benefits. Hartford's Code of Ethics and Business Conduct generally restricts Hartford employees from giving to or receiving gifts from customers and/or business partners having a value of over $100, in any individual situation, without prior approval. However, it is possible that one or more of your service providers for the calendar year, including Hartford, engaged in transactions generating nonmonetary compensation. Information concerning reportable transactions undertaken between or among non-Hartford parties may not be available to The Hartford.

Please consult with your legal or tax advisors if you have any questions.

Under the variable investment options available through your plan's group annuity contract or funding agreement, contract values are invested in Hartford Life Insurance Company separate accounts that, in turn, invest in underlying registered investment companies (i.e., mutual funds) and collective investment funds.

The list includes any investment option held by the plan on at least one month end during the 2011 calendar year. To arrive at an estimate of the dollar amount that Hartford received from each investment option, multiply the rate of fees received from each investment option by your plan's year-end balance (or if the investment option was liquidated prior to year end, the balance on the liquidation date) and, if applicable, the per participant fee by the number of participants in the investment option at year end (or the liquidation date if earlier). This will be an estimate because your plan's balance and number of participants will vary over the course of the year, so the year-end balance and number of participants may be higher or lower than the daily balance. In addition, these fees are calculated on a daily basis.
