DCL MEDICAL LABORATORIES, LLC 401(K) PLAN

Notes to Financial Statements

March 6, 2012 and December 31, 2011

NOTE 1: DESCRIPTION OF PLAN

The following description of the DCL Medical Laboratories, LLC 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan’s agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan sponsored by DCL Medical Laboratories, LLC (the “Company”, the “Employer”, or “Plan Sponsor”) covering all employees who have completed three months of service and are age 21 years or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Plan Termination

The Employer has the right under the Plan to terminate or amend the Plan at any time subject to the provisions of ERISA. Effective June 14, 2010, the Company was acquired by a third party. On March 6, 2012, the Plan merged into the Laboratory Corporation of America Holdings Employees’ Retirement Savings Plan, and all assets of the Plan were transferred on that date.

Contributions

Employees of the Company became eligible to participate in the Laboratory Corporation of America Holdings Employees’ Retirement Savings Plan beginning January 1, 2011, at which point participation in the Plan was frozen. As a result, no employee or employer contributions were made to the Plan for the period from January 1, 2012 to March 6, 2012.

Participant Accounts

Each participant’s account is credited with the participant’s contribution and allocations of the Employer’s contribution and plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon as well as any Employer’s matching and profit sharing contributions.

Notes to Financial Statements

NOTE 1: DESCRIPTION OF PLAN (concluded)

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Under terms of the loan agreements, loans must be payable in not more than five years, unless used to acquire or construct the primary residence of the participant which shall not exceed the usual repayment period required by commercial lenders for similar loans. The loans are secured by the balance in the participant's account and bear interest at a fixed rate, defined as Prime plus 1 % at the loan date. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to attainment of Normal Retirement Age (as defined), death, disability, or other reasons, a participant with a vested individual account balance of more than \$5,000 may receive a lump-sum distribution, receive installments for required minimum distributions, have the balance directly rolled over to an eligible retirement plan, or leave the funds in the Plan for a distribution at a later time. Participants who have been terminated and have account balances less than \$5,000 will receive a lump-sum distribution.

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses of the Plan not paid by the Company are to be paid by the Plan.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

The plan administrator has evaluated subsequent events through September 12, 2012, the date the financial statements were available to be issued.

March 6, 2012 and December 31, 2011

NOTE 2: SUMMARY OF ACCOUNTING POLICIES (concluded)

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded at the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Risks and Uncertainties

The Plan invests in various securities. Investment securities are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 3: INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

All investment information disclosed in the accompanying financial statements, including investments held as of March 6, 2012 and December 31, 2011, and net appreciation in fair value of investments, interest, and dividends for the period from January 1, 2012 to March 6, 2012 were obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the trustee.

NOTE 4: FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures* ("FASB ASC 820"), provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820's framework are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

DCL MEDICAL LABORATORIES, LLC 401(K) PLAN

Notes to Financial Statements

March 6, 2012 and December 31, 2011

NOTE 4: FAIR VALUE MEASUREMENTS (concluded)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for investments measured at fair value. There have been no changes in the methodology used as of March 6, 2012 and December 31, 2011.

Money market fund and mutual funds - Valued at the net asset value ("NAV") of shares held by the Plan as of December 31, 2011 which is the quoted market price.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

The Plan net assets were liquidated and transferred on March 6, 2012. The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2011:

	2011			
	Investments at Fair Value			
	Level 1	Level 2	Level 3	Total
Mutual funds:				
Large-cap value funds	\$ 1,500,230	-	-	1,500,230

Notes to Financial Statements

March 6, 2012 and December 31, 2011

NOTE 5: INVESTMENTS

As of March 6, 2012 and December 31, 2011, the Plan held the following investments through the trustee that represent 5% or more of the Plan's net assets:

	March 6, 2012	December 31, 2011
Mutual funds:		
American Funds AMCAP Fund Class A, 16,024 shares for 2011	\$ -	301,740
American Funds New Perspective Fund Class A 45,668 shares for 2011	-	1,194,679
American Funds Capital World Growth and Income Fund Class A, 11,976 shares for 2011	-	384,662
American Funds The Investment Company of America Class A, 45,682 shares for 2011	-	1,237,515
American Funds Money Market Class A, 601,577 units for 2011	-	601,577

For the period from January 1, 2012 to March 6, 2012, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$427,834.

NOTE 6: RELATED PARTY TRANSACTIONS

The Company provides certain accounting, administrative, and investment management services to the Plan for which no fees are charged.

NOTE 7: INCOME TAX STATUS

The Plan obtained its latest opinion letter dated March 31, 2008, in which the Internal Revenue Service stated that the Prototype Non-Standardized Profit Sharing Plan with cash or deferred arrangement ("CODA"), as then designed, is qualified under Section 401(a) of the Internal Revenue Code (the "IRC"), and that any employer adopting this form of prototype plan will be considered to have a plan qualified under Section 401(a) of the IRC. Therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. Although the Plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan is designed and was operated in compliance with the applicable requirements of the IRC through March 6, 2012. Therefore, no provision for income taxes has been included in the Plan's financial statements.

DCL MEDICAL LABORATORIES, LLC 401(K) PLAN

Notes to Financial Statements

March 6, 2012 and December 31, 2011

NOTE 7: INCOME TAX STATUS (concluded)

United States generally accepted accounting principles require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.
