INDEPENDENT AUDITORS' REPORT

TO THE PLAN ADMINISTRATOR AND PARTICIPANTS
OF Bi-RITE RESTAURANT SUPPLY CO., INC. 401(k) PLAN

We were engaged to audit the accompanying statements of net assets available for benefits of Bi-RITE RESTAURANT SUPPLY CO., INC. 401(k) PLAN (the "Plan") as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011, and supplemental Schedule H-Line 4i: Schedule of Assets (Held at End of Year) as of December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by The Charles Schwab Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2011, and 2010 and for the year ended December 31, 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Bi-RITE RESTAURANT SUPPLY CO., INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2011

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Bi-Rite Restaurant Supply Co., Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General – The Plan was adopted on August 1, 1989 to provide retirement benefits for employees of Bi-Rite Restaurant Supply Co., Inc. (the "Company"). The Plan is a defined contribution plan covering all employees completing 1,000 hours of service per year of employment, who are at least twenty-one years of age and not covered by a collective bargaining agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan provides for a Plan administrator who is responsible for keeping accurate and complete records of the Plan's operations, informing participants of changes or amendments to the Plan, ensuring that the Plan conforms to the law and to government regulations, and providing participants with any reports and documents required by law.

Participant Contributions – Each year, participants may contribute up to 25% of pretax annual compensation, limited to a maximum of $16,500 for the year ended December 31, 2011. Participants who are 50 years of age or older by the end of the calendar year and who are making contributions to the Plan may also make a catch-up contribution of up to $5,500 in 2011. In addition, the Plan has a Roth feature which permits participants to make annual after-tax contributions up to $5,000. Additionally, participants who have attained fifty years of age before the end of the Plan year are eligible to make a Roth catch-up contribution up to $1,000. Participants may make either or both types of contributions; however, the total amount of the combined pre-tax and Roth 401(k) contributions are subject to the maximum limitations discussed above. Participants may also contribute rollover amounts representing distributions from other qualified defined benefit or defined contribution plans. Effective January 1, 2008, the Plan was amended to incorporate a 2% automatic enrollment provision to occur on the first day of the month that coincides with or next follows the date that a participant has reached 21 years of age and completed six months of service and to increase 1% annually (not to exceed 5%) unless the participant elects otherwise.

Employer Contributions – The Company matches participant contributions by contributing an amount equal to 100% of each participant's contribution up to a maximum of $2,000. The Company may also make an annual discretionary profit sharing contribution at the option of the Company's board of directors, subject to limitations imposed by applicable provisions of the Internal Revenue Code.

Participant Accounts – Each participant's account is credited with the participant's contributions and the Company's matching contributions and allocations of (a) the Company's discretionary contribution and, (b) investment earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contributions and related earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credited service, as follows:

Years of Service	Vesting Percentage
1	10%
2	20%
3	40%
4	60%
5	80%
6	100%

Investment Options – Upon enrollment in the Plan, a participant may direct the investment of his or her account balance among the funds available through The Charles Schwab Trust Company ("Charles Schwab"), the trustee of the Plan.

Payment of Benefits – On termination of service, death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten-year period. A participant may also elect to receive payments in the form of a life annuity. If the participant's vested account balance is between $1,000 and $5,000, and no distribution instructions have been received from such participant, the Plan administrator will establish an IRA for the participant at Charles Schwab and pay that amount as an automatic rollover to that IRA. A balance of $1,000 or less will be distributed to the participant.

Forfeited Accounts – Any portion of a terminated employee's account that is not vested is forfeited, subject to the possibility of reinstatement. Forfeitures are applied to reduce employer contributions. As of December 31, 2011 and 2010, forfeited non-vested accounts totaled $46,980 and $47,239, respectively. The employer contributions for the years ended December 31, 2011 and 2010 and the related employer contributions receivable as of December 31, 2011 and 2010 have been reduced by $26,359 and $46,897, respectively, to reflect the application of the forfeiture balance.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The Plan prepares its financial statements under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Accounting for Fully Benefit-Responsive Investment Contracts – As described in the *Plan Accounting – Defined Contribution Pension Plans* topic of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC"), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in a fully benefit-responsive guaranteed investment contract through a stable value fund. As required by the standard, the Statements of Net Assets Available for Benefits present the fair value of the investment in the stable value fund as well as the adjustment of the investment in the stable value fund from fair value to contract value relating to the investment contract. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year and is reflected in the Statement of Changes in Net Assets Available for Benefits.

Payment of Benefits – Benefits are recorded when paid.

Administrative Expenses – Substantially all of the Plan's administrative expenses are paid by the Plan. Administrative expenses incurred by the Plan pertain primarily to trust fees, investment fees, recordkeeping fees, and accounting fees.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Adoption of New Accounting Standards – In January 2010, the FASB issued Accounting Standards Update ("ASU") 2010-06, *Improving Disclosures about Fair Value Measurements.* ASU 2010-06 amended the ASC 820, *Fair Value Measurements and Disclosures*, to clarify certain existing fair value disclosures and to require a number of additional disclosures. These requirements were effective for the year ended December 31, 2010; however, the requirement to present changes in Level 3 measurements on a gross basis is effective for the year ended December 31, 2011. Since ASU 2010-06 only affects fair value measurement disclosures, adoption of ASU 2010-06 did not have an effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. Generally Accepted Accounting Principles ("GAAP") and International Financial Reporting Standards ("IFRSs").* ASU 2011-04 amended ASC 820 to converge the fair value measurement guidance in U.S. GAAP and IFRSs. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle or requirement for measuring fair value. In addition, ASU 2011-04 requires additional fair value disclosures, although certain of these new disclosures will not be required for nonpublic entities. The amendments are to be applied prospectively and are effective for the year ending December 31, 2012. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

NOTE 3 – FAIR VALUE MEASUREMENTS

The *Fair Value Measurements and Disclosures* topic of the FASB ASC defines fair value and establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual Funds: Valued based on the quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year-end.

Common Collective Trust Funds: Valued at the NAV of units held by the Plan at year-end. The NAV is based on the fair value of the underlying investments held by the fund. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure the securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2011

	$ (468,093)
Interest and Dividend Income from Mutual Funds	$ 363,370

NOTE 5 – GUARANTEED INVESTMENT CONTRACT

As part of the Charles Schwab Stable Value Fund (the "Fund"), the Plan entered into a guaranteed investment contract issued by a bank. The guaranteed investment contract consisted of investments in underlying securities with wrap contracts under which a third party guarantees benefit-responsive withdrawals by plan participants at contract value. In a wrap contract, the underlying investments were owned by the Fund and held in trust for plan participants. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The issuer was contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula established by the issuer. Such interest rates were reviewed typically on a monthly or quarterly basis for resetting.

Certain events could limit the ability of the Plan to transact at contract value with the issuers. Such events included termination of the contract, plan termination, and a material adverse change to the provisions of the Plan. Upon occurrences of any of these events, a market value adjustment could apply.

The issuer could terminate the contract upon short notice upon the Plan's loss of its qualified status, un-cured material breaches of responsibilities, or material and adverse changes to the provisions of the Plan. Upon termination by the issuer, a market value adjustment could apply. On November 8, 2011, the trustee announced its plans to terminate the Fund effective as of the close of business on April 30, 2012. The Plan's investment in the Fund was terminated on March 23, 2012. The Morley Stable Value Fund was offered to participants as a replacement fund.

As described in Note 2, because the investment contract was fully benefit-responsive, contract value was the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contracts. Contract value represented contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants could ordinarily direct the withdrawals or transfer of all or a portion of their investment at contract value.

During the years ended December 31, 2011 and 2010, the average yield generated by the Fund was as follows:

	2011	2010
Based on Actual Earnings	1.53%	2.26%
Based on Interest Rate Credited to Participants	4.59%	2.73%

The elevated yield based on the interest rate credited to participants in 2011 was due to an accelerated distribution of gains through the crediting rate beginning December 1 in preparation for termination of the fund on April 30, 2012.

NOTE 6 – EXCESS CONTRIBUTIONS

During the years ended December 31, 2011 and 2010, the Plan failed certain nondiscrimination criteria stipulated by the Department of Labor ("DOL"). In order to comply with the DOL's regulations, the Plan is required to refund excess contributions made by certain participants. These excess contributions are recorded as excess contributions payable to participants and amounted to $7,333 and $1,119 as of December 31, 2011 and 2010, respectively. These refunds were remitted to the participants subsequent to December 31, 2011 and 2010, respectively.

NOTE 7 – TAX STATUS

The Plan is a defined contribution plan designed to qualify as a tax-exempt plan under the Internal Revenue Code. A favorable opinion letter from the Internal Revenue Service was received on May 23, 2008 regarding the qualified status of the prototype plan on which the terms of the Plan are based. The Plan has not filed for a determination letter; however, the Plan administrator believes that the Plan is designed and is currently being operating in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, no provision for federal or state income taxes has been made.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE 8 – RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds and collective trust funds managed by Charles Schwab. Charles Schwab is the Plan trustee, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services are included in net investment income.

NOTE 9 – PLAN TERMINATION

The Company has established the Plan with the expressed intention and expectation that it will continue the Plan. However, if circumstances make it impossible or inadvisable to continue the Plan, the Company reserves the right to terminate it at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Benefits will be held in the trust fund which will remain in existence until the Company requests the discontinuance of the trust agreement.

NOTE 10 – RISKS AND UNCERTAINTIES

The Plan provides for various investment options in any combination among the funds sponsored by Charles Schwab. Investment securities are exposed to various risks, such as interest rate, market fluctuation and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in investment value in the near term would materially affect the participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and in the Statement of Changes in Net Assets Available for Benefits.

The underlying securities of the Plan's investments could include securities with contractual cash flows, such as, but not limited to, asset backed securities, collateralized mortgage obligations, and commercial mortgage backed securities and real estate. The value, liquidity and related income of these securities may be particularly sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by real or perceived difficulties of the issuers, changes in interest rates and conditions in financial markets.

NOTE 11 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of the financial statements to Form 5500 as of December 31, 2011 and 2010, and for the year ended December 31, 2011:
